**1 375 enchanting guide: Re-Enchanting Education and Spiritual Wellbeing** Marian de Souza, Anna Halafoff, 2017-09-14 Education is in a constant state of renewal internationally where it responds to a number of pressing social, political and cultural issues. Processes of globalization, a number of conflicts and acts of terror, economic and environmental crises have led to large waves of migration and asylum seekers arriving in countries with the hope of finding safer and more stable places to settle. This, in turn, has led to cultural and religious pluralism being a key characteristic of many societies with corresponding issues of belonging and identity. As well, for many people, there has been a shifting influence of and allegiance away from traditional religious frameworks with the emergence of new religious movements, both peaceful and violent, and a rise in popularity of spirituality and non-religious worldviews which provide alternate frameworks for living healthy and ethical lives. In order to prepare today's student for tomorrow's world, one which is confronted by a range of risks and crises and which is being shaped by rapidly changing technologies, educators and researchers are investigating new ways of equipping students to deal with these challenges and opportunities, including the nurturing of spiritual wellbeing. This book brings together the voices of many experienced educators to discuss ways to re-enchant education and re-enliven learning programs in response to these 21st century issues in an increasingly global and interconnected world. It examines a range of international contexts, including secular and religious educational settings, and provides an avenue for visionary voices that identify problems and offer solutions to help shape a more promising education system that will prepare children more constructively and beneficially to flourish in their future worlds.

**1 375 enchanting guide:** *Oasis of Imagination* Ted Turnau, 2023-07-20 What should the church's cultural witness be? Too often, it has been marked by political strong-arming or fearful withdrawal into the Christian bubble. There is another way: creative cultural engagement, using our imaginations to plant oases in the desert, breathable spaces that refresh, challenge, and draw together Christians and non-Christians alike. Oases refresh the soul, provoke discussion, challenge assumptions, and lead the imagination to a new place. In *Oasis of Imagination*, Ted Turnau lays out the Biblical mandate for engaging culture, and why the imaginative path holds promise. He explores the nature of the imagination from both Scripture and nature. He asks, What makes a Christian imagination that resonates with non-Christians different? He explores examples of Christian creativity done well from video games to movies to music to *The Lord of the Rings*. He challenges the church, artist and non-artist alike, to be intentional about their own imaginative lives, how artists and non-artists can support each other, as they together engage in building bridges and being cultural ambassadors to the wider community. In-depth and wide-ranging, *Oasis of Imagination* equips and encourages Christians, whatever their calling, to consider how to imaginatively enter into the broader cultural conversation, beyond the culture-warring and Christian bubbles. It seeks to provoke a conversation within the church between its artists and non-artists about how best to unleash our God-given creativity to shine light into the broader culture.

This year's program spanned a wide range of research that explored new features, algorithms, and infrastructure related to mobile platforms. We received submissions from many countries around the world with a high number from Europe and Asia in addition to the many from North America. As a result of the review process, we selected 15 high-quality papers and complemented them with six invited submissions from leading researchers, reaching the final count of 21 papers in the program.
