1 education street cambridge ma: Working World Sherry Lee Mueller, Mark Overmann, 2014-02-26 Now available in a new second edition, *Working World: Careers in International Education, Exchange, and Development* offers an engaging guide for cause-oriented people dedicated to begin or enhance careers in the now burgeoning fields of international affairs. Mueller and Overmann expand their original dialogue between a career veteran and a young professional to address issues that recognize the meteoric rise of social media and dramatic geopolitical events. They explore how the idea of an international career has shifted: nearly every industry taking on more and more international dimensions, while international skills—linguistic ability, intercultural management, and sensitivity—become ever more highly prized by potential employers. This second edition of *Working World* offers ten new and four significantly updated profiles as well as new and expanded concepts that include work-life balance, the importance of informational interviews, moving on, and key building blocks for international careers. Like the award-winning first edition, *Working World* is a rare and valuable resource to students and graduates interested in careers in international affairs, mid-career professionals who want to make a career change or shift, as well as guidance counselors and career center specialists at universities.

1 education street cambridge ma: Harmony Theory Paul Smolensky, 1984 The first paper describes a parallel model designed to solve a class of relatively simple problems from elementary physics, and discusses the implications for models of problem solving in general. The authors show how one of the most salient features of problem solving, sequentiality, can emerge naturally within a parallel model that has no explicit knowledge of how to sequence analysis. This model exploits a new type of parallel distributed processing that employs stochastic processors and is based on a formal mapping between parallel computation and thermal physics. The mathematical theory is this type of processing-harmony theory-is discussed in the second and third papers.

1 education street cambridge ma: Food Co-ops William C. Ronco, 1974 Abstract: A food co-op is a group of individuals and families which purchases food in bulk from a wholesaler, avoiding

middle-man markup, and distributes to its members. The food co-op is an economical, political and qualitative alternative to food supermarket shopping. It is a response to inflationary prices. The food co-op popularity implies participants' needs for autonomy and more control over the forces that shape their lives. History of food co-ops from initial organizational meetings in Concord, Massachusetts to comparisons of 1930's and 1970's co-ops is presented. Chapters describe potential food savings and time commitments involved; organizational possibilities, growth and change over time; space, bookkeeping, financing and organizational needs; wholesale buying techniques; political ramifications. Appendices list wholesalers, national co-ops and co-op newsletters.

The discourses given during the Inaugural and Closing Ceremonies are reproduced in Chapters I and III, respectively. The proceedings of the two sessions of the General Assembly will be found in Chapter II, which includes the Resolutions and the report of the Finance Committee. The Statutes, Bye-Laws and a few working rules of the Union are published in Chapter IV. The Accounts and other aspects of the administration of the Union are recorded in Chapter V, together with the report of the Executive Committee for this last triennium, and provide the permanent record for the Union in the period 1991-1994. This volume also contains the Commission reports from The Hague compiled by the Presidents of the Commissions (Chapter VI). Finally, Chapter VII contains the list of countries adhering to the Union and the alphabetical, geographical and commission membership lists of about 8000 individual members. The IAU still appears to be unique among the scientific Unions in maintaining this category of individual membership which contributes in a crucial way to the spirit and the aims of the Union.

president, considering the reasons for success when similar movements often fail. Through a series of chapters written by faculty from many disciplines at the university, it uses a particular episode of faculty protest to shed light on wider issues concerning the circumstances in which faculty are likely to be motivated to protest, the institutional frameworks that make protest possible and the strategies that get results. As such, it will appeal to scholars of social movements with interests in protest and mobilization in the field of education.
