2014 cadillac srx owners manual: Queen of the Road Doreen Orion, 2008-06-03 A pampered Long Island princess hits the road in a converted bus with her wilderness-loving husband,

travels the country for one year, and brings it all hilariously to life in this offbeat and romantic memoir. Doreen and Tim are married psychiatrists with a twist: She's a self-proclaimed Long Island princess, grouchy couch potato, and shoe addict. He's an affable, though driven, outdoorsman. When Tim suggests "chucking it all" to travel cross-country in a converted bus, Doreen asks, "Why can't you be like a normal husband in a midlife crisis and have an affair or buy a Corvette?" But she soon shocks them both, agreeing to set forth with their sixty-pound dog, two querulous cats—and no agenda—in a 340-square-foot bus. *Queen of the Road* is Doreen's offbeat and romantic tale about refusing to settle, about choosing the unconventional road with all the misadventures it brings (fire, flood, armed robbery, and finding themselves in a nudist RV park, to name just a few). The marvelous places they visit and delightful people they encounter have a life-changing effect on all the travelers, as Doreen grows to appreciate the simple life, Tim mellows, and even the pets pull together. Best of all, readers get to go along for the ride through forty-seven states in this often hilarious and always entertaining memoir, in which a boisterous marriage of polar opposites becomes stronger than ever.

2014 cadillac srx owners manual: *Car Guys vs. Bean Counters* Bob Lutz, 2011-06-09 A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determined to eliminate the waste and personality worship of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.
