2017 nypd lieutenant exam: John Bean and FMC Fire Apparatus John Rieth, 2009-06-15 The diverse Food Machinery and Chemical Corporation, later named FMC Corporation, made chemical and agricultural equipment dating back to the late 1800s. The Bean Spray Pump Company was an FMC division, changed to the John Bean Mfg. Co. in 1915 and sometime in the late 1930s an orchard owner successfully used his dependable John Bean sprayer to extinguish a neighbor's house fire. This accidental success story led to the development of the high pressure fog system which helped put out fires during WWII, and soon led to the first High Pressure Fog Fire Fighter body that could be put on any truck chassis. Their success propelled them to become one of the revered names in the fire apparatus industry through the post-war years until their slow weaning of the Bean name and eventual demise in the early 1990s. Although primarily used by rural fire departments as an economical fire engine, many large cities even acquired FMC/Bean apparatus. Portrayed with historic black and white and contemporary color images, this book covers the whole lineup from slide-in pumper and tank combos, to custom-built brush trucks, tankers, commercial and custom chassis pumpers, and even aeriels, snorkels and ladder towers.

2017 nypd lieutenant exam: *Blink* Malcolm Gladwell, 2007-04-03 From the #1 bestselling author of *The Bomber Mafia*, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now, in *Blink*, he revolutionizes the way we understand the world within. *Blink* is a book about how we think without thinking, about choices that seem to be made in an instant--in the blink of an eye--that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work--in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink* we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of blink: the election of Warren Harding; New Coke; and the shooting of Amadou Diallo by police. *Blink* reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of thin-slicing--filtering the very few factors that matter from an overwhelming number of variables.

The book is the result of a project undertaken jointly by staff from the World Bank and the United Nations, integrating the disciplines where each institution holds a comparative advantage and a core mandate. The primary audience includes government officials bearing both security and financial responsibilities, staff of international organizations working on public expenditure management and security sector issues, academics, and development practitioners working in an advisory capacity.

2017 nypd lieutenant exam: *My Father's Gun* Brian McDonald, 2000 In this powerful memoir about three generations of New York City policemen, Brian McDonald chronicles a hundred years of dedication, disillusion, heroism, and tragedy behind the blue wall of silence that separates a cop from the rest of the world. His grandfather, Thomas Skelly, entered the department in 1893, when the NYPD was little more than a brutal gang of organized enforcers and Tammany Hall a corrupt political machine that could make or break an honest cop's career. His father Frank's career would span World War II through the 1960s, taking him from street cop to squad commander of the Forty-first Precinct. Better known as Fort Apache, it was a place from which few cops emerged whole. His brother Frank McDonald, Jr., went on to become a decorated officer, waging an undercover war on drugs and crime. From turn-of-the-century Brooklyn to the South Bronx in the 1970s to the bedroom communities of upstate New York, *My Father's Gun* combines a rare and intimate family story with turbulent social history.

The sources and references have been many and varied and although the utmost care was taken, the Lists are far from complete and may contain errors. The original Codes etc were designed principally for marine use as this was the field in which radio was initially developed. The majority retain this influence but many have been modified and modernized to cover land and air applications. Technical terms have also varied as technology has changed however most abbreviations of the computer age have been omitted. 2017 nypd lieutenant exam: Blue on Blue Charles Campisi, 2017-02-07 In one of the most illuminating portraits of police work ever, Chief Charles Campisi describes the inner workings of the world's largest police force and his unprecedented career putting bad cops behind bars.

"Compelling, educational, memorable...this superb memoir can be read for its sheer entertainment or as a primer on police work—or both" (Kirkus Reviews, starred review). From 1996 to 2014 Charles Campisi headed NYPD's Internal Affairs Bureau, working under four police commissioners and gaining a reputation as hard-nosed and incorruptible. During Campisi's IAB tenure, the number of New Yorkers shot, wounded, or killed by cops every year declined by ninety percent, and the number of cops failing integrity tests shrank to an equally startling low. But to achieve those exemplary results, Campisi had to triple IAB's staff, hire the very best detectives, and put the word out that corruption wouldn't be tolerated. Blue on Blue provides "a rare glimpse inside one of the most secretive branches of policing...and a compelling, behind-the-scenes account of what it takes to

investigate police officers who cross the line between guardians of the public to criminals. It's a mesmerizing exposé on the harsh realities and complexities of being a cop on the mean streets of New York City and the challenges of enforcing the law while at the same time obeying it" (The New York Journal of Books). Campisi allows us to listen in on wiretaps and feel the adrenaline rush of drawing in the net. It also reveals new threats to the force, such as the possibility of infiltration by terrorists. "A lively memoir [told with] verve, intriguing detail, and a generous heart" (The Wall Street Journal) and "an expose of the NYPD's Internal Affairs Bureaus [that is] enlightening and entertaining" (The New York Times Book Review), *Blue on Blue* will forever change the way you view police work.

2017 nypd lieutenant exam: The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice, 1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

2017 nypd lieutenant exam: Terminal City Linda Fairstein, 2014-06-17 With her newest Alexandra Cooper novel, *Terminal City*, New York Times bestselling author Linda Fairstein delivers another breakneck thriller that captures the essence of New York City—its glamour, its possibilities, and its endless capacity for darkness. Linda Fairstein is well-known for illuminating the dark histories in many of New York's forgotten corners—and sometimes in the city's most popular landmarks. In *Terminal City*, Fairstein turns her attention to one of New York's most iconic structures—Grand Central Terminal. From the world's largest Tiffany clock decorating the 42nd Street entrance to its spectacular main concourse, Grand Central has been a symbol of beauty and innovation in New York City for more than one hundred years. But "the world's loveliest station" is hiding more than just an underground train system. When the body of a young woman is found in the tower suite of the Waldorf Astoria—one of the most prestigious hotels in Manhattan—Assistant DA Alex Cooper and Detectives Mike Chapman and Mercer Wallace find themselves hunting for an elusive killer whose only signature is carving a carefully drawn symbol into his victims' bodies, a symbol that bears a striking resemblance to train tracks. When a second body bearing the same bloody symbol is discovered in a deserted alleyway right next to the terminal building, all attention shifts to the iconic transportation hub, where the potential for a bigger attack weighs heavily on everyone's minds. With the President of the United States set to arrive for a United Nations meeting at the week's end, Alex and Mike must contend with Grand Central's expansive underground tunnels

and century-old dark secrets—as well as their own changing relationship—to find a killer who appears to be cutting a deadly path straight to the heart of the city.

2017 nypd lieutenant exam: Life on the Thin Blue Line Gregory Fried, 2017-08-28 When you're a surgeon, the smallest mistake could result in someone losing their life. Gregory Fried, M.D., who became NYPD's executive chief surgeon in November 1996, after years of serving as deputy chief surgeon, knows this all too well. Responding to police officers being shot or seriously injured in the line of duty, however, brings the pressure to an even higher level especially in the middle of one of the worst crime waves in New York City's history. Looking back at a career that began in the 1970s and continued beyond the September 11 terrorist attacks, Fried shares numerous stories of brave patients that battled life-threatening illnesses and injuries. He also recalls the out-of-control violence that spread throughout New York during his years of service. It was open season on police officers, and he gives readers an intimate look at the life of a police surgeon and what really happens when a police officer is shot in the line of duty. Fried also relives the nightmare of surviving the collapse of the South Tower on Sept. 11, 2001. Broken ribs, herniated disks, fractured bones in his spine, and a massive internal bleed would effectively end his surgical career, but it did nothing to dampen his spirit.

2017 nypd lieutenant exam: Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community-based training model with significant civilian oversight. The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education, for it is they who must both support and be served by their police. The police must be role models for society, demonstrating that freedom and rights come with obligations, both to the community as a whole and to individuals in need within that community. Ultimately, the quality of police training and the public's safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community's trust in its police. The issues of police recruitment, education, and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement. Several incidents, including, most notably, George Floyd's murder by police, have sparked new training initiatives regarding police de-escalation and community engagement. At the same time, the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing. In this context, reform of the police education system is urgent. This book examines police training at all levels of government—local, regional, state, and federal. In addition, citizen participation programs, including the role of the media and programs for furthering law-related education (LRE), are highlighted. The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education, for it is they who must both support and be served by their police. The focus is on teaching a guardian style of policing at the local level. Police education would combine higher education, necessary practical proficiencies, and intensive field experiences through a gradual level of greater responsibility—likely extending over a 2-plus-year period for trainees with less than a year of previous college credits. This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers, including those in executive development programs in police departments; community leaders, scholars, and policy experts who specialize in policing; concerned citizens; and students of criminal justice, especially those interested in police organization and management, criminal justice policy, and the historical development of police.

2017 nypd lieutenant exam: The Fingerprint U. S. Department Justice, 2014-08-02 The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.

2017 nypd lieutenant exam: Prince of the City Robert Daley, 2005 In the early 1970's, the Federal Government undertook to investigate corruption penetrating the entire criminal justice system in New York, particularly the Special Investigating Unit (SIU) of the narcotics division of the

New York Police Department. Young and enthusiastic detective Robert Leuci was chosen by federal prosecutors Rudolph Guliani, Maurice Nadjari, and Tom Puccio to probe this world of corruption as an undercover agent. Leuci had enjoyed a swift rise from patrolman to the rank of detective. He knew Frank Serpico and while he was sympathetic with Serpico he felt the corruption filtered down. The police were at the bottom of this food chain. This is the true story. Leuci helped put together corruption cases against lawyers, bail bondsmen, mob figures and some of his own. Leuci seemed perfectly suited to his special job. His cover was deep with only the Police Commissioner aware of his dual role. As team leader within the SIU, Leuci had access to all of the players in criminal justice from judges down. He walked a tightrope that made his life a nightmare. His life was in jeopardy from both sides.

2017 nypd lieutenant exam: Guide for the Development of Forensic Document

Examination Capacity, 2010 Fraudulent identity and security documents are integral prerequisites for the smuggling of migrants, trafficking in persons, terrorist mobility, to facilitate the smuggling of drugs, weapons and other goods, and to commit fraud. Fraudulent documents are the grease that eases cross-border crime of all types. They include fraudulently obtained, illegally issued, forged and counterfeit documents. Many countries in the world recognize that forensic document examination is vital to immigration and border control security and have a forensic document examination facility. Although the ability to detect and disseminate intelligence about fraudulent documents is vital to border security, there are still countries lacking this capacity. Moreover, there is a lack of awareness among relevant criminal justice practitioners of the benefits that forensic document examinations may provide to assist border control security and immigration facilities. The Guide aims to provide practical assistance for the establishment or upgrading of forensic document examination capacities in two categories of service providers: (a) immigration and border control agencies and (b) forensic science laboratories. Several levels of infrastructure development ranging from basic to advanced capacity are covered. The focus is on the staff skill and educational requirements needed to perform forensic document examinations and to provide court testimony, intelligence alerts and training.
