A Critical Analysis of the 2020 MDX Technology Package: Navigating the Shifting Sands of Automotive Tech

Author: Dr. Amelia Hernandez, PhD in Automotive Engineering, Senior Analyst at AutoTech Insights

Publisher: AutoTech Insights – A leading independent research firm specializing in automotive technology trends and analysis, known for its rigorous methodology and unbiased reporting.

Editor: Mark Olsen, 15+ years experience editing automotive industry publications, specializing in technological advancements.

Keyword: 2020 MDX Technology Package

Summary: This analysis critically examines the 2020 Acura MDX Technology Package, evaluating its features within the context of contemporary automotive technological advancements. We assess its strengths and weaknesses, considering its impact on the market and its alignment with evolving consumer expectations. The analysis concludes by projecting the package's lasting legacy and its influence on subsequent Acura models and the broader luxury SUV segment.

1. Introduction: The 2020 MDX Technology Package in Context

The 2020 Acura MDX, particularly its Technology Package, represents a significant moment in Acura's technological trajectory. Released at a time of rapid innovation in the automotive industry, the 2020 MDX Technology Package aimed to position the vehicle as a compelling competitor in the fiercely

competitive luxury SUV market. This analysis will delve into the specifics of the package, assessing its strengths and weaknesses in light of current and future trends.

2. Key Features of the 2020 MDX Technology Package

The 2020 MDX Technology Package bundled a range of features designed to enhance convenience, safety, and infotainment. Key components included:

Acura's ELS Studio Premium Audio System: While offering a high-quality listening experience, its integration and user interface weren't as intuitive as some competing systems.

Navigation System with 3D View: The navigation system, while functional, lacked the advanced features and real-time traffic updates offered by more contemporary systems.

Rear Entertainment System: A valuable feature for families, particularly on long journeys, though screen resolution and interface could be improved.

AcuraWatch™ Safety and Driver-Assistance Package: This comprised several features, including Adaptive Cruise Control (ACC), Lane Keeping Assist (LKAS), Collision Mitigation Braking System (CMBS), and Road Departure Mitigation (RDM). These represented a solid offering for the time, although some competitors already offered more sophisticated driver-assistance technologies.

3. Strengths and Weaknesses of the 2020 MDX Technology Package

Strengths: The 2020 MDX Technology Package provided a comprehensive suite of features at a competitive price point. The AcuraWatch™ suite, in particular, offered a solid foundation of driver-assistance technologies, enhancing safety and reducing driver fatigue. The inclusion of premium audio and rear entertainment systems catered to a key demographic seeking both luxury and family-friendly functionality.

Weaknesses: The biggest criticism lies in the now-dated infotainment system. Its interface felt clunky compared to the more responsive and intuitive systems found in competitors' vehicles. The lack of advanced features like wireless Apple CarPlay and Android Auto was a significant drawback, reflecting the rapid pace of technological advancement in the automotive industry. Furthermore, while the

AcuraWatch™ system was effective, it lacked some of the more advanced features, such as automated lane changing and traffic jam assist, which were becoming increasingly common in competitor vehicles.

4. Impact on Current Trends

The 2020 MDX Technology Package's impact on current trends can be viewed through several lenses. Its focus on safety through AcuraWatch™ aligns with the industry-wide shift towards Advanced Driver-Assistance Systems (ADAS). However, the package's limitations in infotainment and driver-assistance features demonstrate the rapid pace of technological innovation. Competitors quickly surpassed the 2020 MDX's tech offerings, highlighting the importance of continuous updates and staying ahead of the curve in this rapidly evolving landscape.

5. Long-Term Significance and Legacy

The 2020 MDX Technology Package serves as a case study in the evolution of automotive technology. While it offered a solid package at its launch, its relative lack of advanced features compared to later models underscores the necessity for constant improvement and adaptation. The legacy of the 2020 MDX's technology is one of providing a baseline for Acura's subsequent advancements, shaping future iterations of their technology packages and influencing their competitive strategy.

6. Conclusion

The 2020 MDX Technology Package, while offering a compelling collection of features for its time, represents a snapshot of a rapidly changing technological landscape. Its strengths in safety and family-oriented features were overshadowed by shortcomings in infotainment and the relatively quick obsolescence of some of its key features. The package highlights the challenges faced by automakers in keeping up with the rapid pace of technological advancement and the importance of prioritizing user experience and intuitive interfaces. Analyzing the 2020 MDX Technology Package provides valuable insights into the ever-evolving dynamics of the automotive technology market.

FAQs

1. What are the key differences between the 2020 MDX Technology Package and the base model?

The Technology Package adds features like a premium sound system, advanced navigation, a rear entertainment system, and the full AcuraWatch[™] suite of driver-assistance technologies.

1. Is the infotainment system in the 2020 MDX Technology Package compatible with Apple CarPlay and Android Auto? No, wireless compatibility was not included in the 2020 model; wired CarPlay may have been available through a dealer upgrade depending on the region.

1. How does the AcuraWatch[™] suite in the 2020 MDX compare to competitors' systems? While effective for its time, AcuraWatch[™] lacked the sophistication of some competitor systems, which offered more advanced features.

1. What is the resale value of a 2020 MDX with the Technology Package? Resale value depends on various factors, including mileage, condition, and location. However, the Technology Package can generally add to a vehicle's resale value compared to a base model.

1. Are there any common problems or recalls associated with the 2020 MDX Technology Package?
Check the National Highway Traffic Safety Administration (NHTSA) website for any recalls

affecting specific vehicle identification numbers (VINs).

1. Is it possible to upgrade the infotainment system in a 2020 MDX? Some upgrades might be possible through aftermarket solutions or authorized dealers, but compatibility is crucial.

1. How does the fuel efficiency of the 2020 MDX with the Technology Package compare to competitors? Fuel efficiency varies depending on driving conditions; compare EPA estimates with competitor vehicles for a comprehensive assessment.

1. What is the warranty coverage for the technology features in the 2020 MDX? Consult your owner's manual for details on warranty coverage for technology components.

1. Are there any aftermarket upgrades available to enhance the technology features of the 2020 MDX? Various aftermarket options might be available to upgrade the sound system, add features to the infotainment system, or enhance other aspects of the Technology Package.

2020 mdx technology package: *Smart and Sustainable Food Technologies* Shalini Sehgal, Barinderjit Singh, Vasudha Sharma, 2022-05-13 This book presents a comprehensive view of emerging smart technologies in various food processing sectors. Specifically, it covers smart technologies applied in food production, food manufacturing, food packaging, storage, distribution, and food supply chain. Contributing authors are the key scientists with diverse backgrounds in either industry or academia. The book contains four parts with four chapters each, presenting recent smart technologies developed in their respective areas. Part I primarily focuses on the recent smart food production innovations such as precision agriculture, vertical farming, automation, robotics , livestock technology, modern greenhouse practices, artificial intelligence, and block chain that dramatically increase the quality of raw materials for the food industry. Part II provides the current knowledge and developments related to the recent smart technologies in manufacturing pertaining

to various food sectors, non-thermal food preservation technologies, and 3D printing, developed for the food manufacturing industries that improve the organoleptic and nutritional quality, enhance chemical and microbial safety, as well as cost-effectiveness and convenience of processed foods. Part III covers smart technologies to ensure food safety in the supply chain, with monitoring and surveillance of food contamination, use of IoT and blockchain for food traceability and neural network approach for risk assessment. Part IV provides expert opinions on using smart technologies for minimizing waste and maximizing co-product recovery in food processing; upcycling technologies in food and sustainable value stream mapping in the food industry. This book will be a useful resource to graduate/undergraduate students and researchers in advanced food technology, practicing technologists/engineers in the food and related industries, food packaging industry, entrepreneurs and other scientists and technologists in smart and sustainable processes who seek information on design and development of these processes.

2020 mdx technology package: Composite Technologies for 2020 L Ye, Y.-W. Mai, Z. Su, 2004-06 Annotation Over the past three decades, the terminology of composite materials has been well acknowledged by the technical community, and composite materials have been gaining exponential acceptance in a diversity of industries, serving as competitive candidates for traditional structural and functional materials to realize current and future trends imposed on high performance structures. Striking examples of breakthroughs based on utilization of composite materials are increasingly found nowadays in transportation vehicles (aircraft, space shuttle and automobile), civil infrastructure (buildings, bridge and highway barriers), and sporting goods (F1, golf club, sailboat) etc., owing to an improved understanding of their performance characteristics and application potentials, especially innovative, cost-effective manufacturing processes. As the equivalent of ICCM in the Asian-Australasian regions, the Asian-Australasian Association for Composite Materials (AACM) has been playing a vital leading role in the field of composites science and technology since its inception in 1997 in Australia. Following the excellent reputations and traditions of previous ACCMs, ACCM-4 is held in scenic Sydney, Australia, 6-9 July 2004. The theme of ACCM-4, Composites Technologies for 2020, provides a forum to present state-of-the-art achievements and recent advances in composites sciences & technologies, and discuss and identify key and emerging issues for future pursuits. By bringing together leading experts and promising innovators from the research institutions, end-use industries and academia, ACCM-4 intends to facilitate broadband knowledge sharing and identify opportunities for long-term cooperative research and development ventures. The scope of ACCM-4 is broad. It includes, but is not limited to, the following areas: Bi-composites, Ceramic matrix composites, Durability and aging, NDE and SHM Eco-composites, Manufacturing and processing technologies, Industrial applications, Interphases and interfaces, Impact and dynamic response Matrices (polymers, ceramics, and metals), Mechanical and physical properties (fatigue, fracture, micromechanics, viscoelastic behavior, buckling and failure, etc.), Metal matrix composites, Multi-functional composites, Nano-composites, Reinforcements (textiles, strand, and mat), Smart materials and structures, Technology transfer (education, training, etc.)

2020 mdx technology package: The Road to Winter Mark Smith, 2016-06-27 Since a deadly virus and the violence that followed wiped out his parents and most of his community, Finn has lived alone on the rugged coast with only his loyal dog Rowdy for company. He has stayed alive for two winters—hunting and fishing and trading food, and keeping out of sight of the Wilders, an armed and dangerous gang that controls the north, led by a ruthless man named Ramage. But Finn's isolation is shattered when a girl runs onto the beach. Rose is a Siley—an asylum seeker—and she has escaped from Ramage, who had enslaved her and her younger sister, Kas. Rose is desperate, sick, and needs Finn's help. Kas is still missing somewhere out in the bush. And Ramage wants the girls back—at any cost. 'Tense and atmospheric...Mark Smith's debut is assured, gripping and leaves you wanting more.' Best Books for Younger Readers 2016, Sydney Morning Herald 'It's easy to see why Mark Smith's dystopian thriller has been compared with John Marsden's *Tomorrow When the War Began*. I barely came up for breath as the pages flew. So strap yourself in for a high action ride.' Kids Book

Review 'A riveting story of survival that questions the prices of freedom and safety as well as the value of an individual life...A breakout new series full of romance, danger, and a surprisingly engaging world.' STARRED Review, Kirkus Reviews 'A solid debut.' Publishers Weekly 'It's been suggested more than once that dystopian fiction has had its day...but *The Road to Winter* is a welcome sign that there's still life in the genre.' Armadillo

2020 mdx technology package: Intelligent Environments 2020 C.A. Iglesias, J.I. Moreno Novella, A. Ricci, 2020-08-21 Intelligent Environments (IEs) aims to empower users by enriching their experience, raising their awareness and enhancing their management of their surroundings. The term IE is used to describe the physical spaces where ICT and pervasive technologies are used to achieve specific objectives for the user and/or the environment. The growing IE community, from academia and practitioners, is working on the materialization of IEs driven by the latest technological developments and innovative ideas. This book presents the proceedings of the workshops held in conjunction with the 16th International Conference on Intelligent Environments (IE2020), Madrid, Spain, 20-23 July 2020. The conference focused on the development of advance intelligent environments, as well as newly emerging and rapidly evolving topics. The workshops included here emphasize multi-disciplinary and transverse aspects of IE, as well as cutting-edge

topics: 10th International Workshop on Intelligent Environments Supporting Healthcare and Well-being (WISHWell'20); 9th International Workshop on the Reliability of Intelligent Environments (WoRIE2020); 4th International Workshop on Legal Issues in Intelligent Environments (LIIE'20); 4th International Workshop on Intelligent Systems for Agriculture Production and Environment Protection (ISAPEP'20); 4th International Workshop on Citizen-Centric Smart Cities Services (CCSCS'20); 2nd International Workshop on Intelligent Environments and Buildings (IEB'20); 1st International Workshop on Research on Smart Grids and Related Applications (SGRA'20); 1st International Workshop on Open and Crowdsourced Location Data (ISOCLoD'20); 1st International Workshop on Social Media Analysis for Intelligent Environment (SMAIE'20). The proceedings contain contributions reflecting the latest research developments in IEs and related areas, focusing on stretching the borders of the current state of the art and contributing to an ever-increasing establishment of IEs in the real world. It will be of interest to all those whose work involves the design or application of Intelligent Environments.

2020 mdx technology package: Proceedings of the Future Technologies Conference (FTC) 2020, Volume 3 Kohei Arai, Supriya Kapoor, Rahul Bhatia, 2020-10-30 This book provides the state-of-the-art intelligent methods and techniques for solving real-world problems along with a vision of the future research. The fifth 2020 Future Technologies Conference was organized virtually and received a total of 590 submissions from academic pioneering researchers, scientists, industrial engineers, and students from all over the world. The submitted papers covered a wide range of important topics including but not limited to computing, electronics, artificial intelligence, robotics, security and communications and their applications to the real world. After a double-blind peer review process, 210 submissions (including 6 poster papers) have been selected to be included in these proceedings. One of the meaningful and valuable dimensions of this conference is the way it brings together a large group of technology geniuses in one venue to not only present breakthrough research in future technologies, but also to promote discussions and debate of relevant issues, challenges, opportunities and research findings. The authors hope that readers find the book interesting, exciting and inspiring.

2020 mdx technology package: Essential Statistics for Non-STEM Data Analysts Rongpeng Li, 2020-11-12 Reinforce your understanding of data science and data analysis from a statistical perspective to extract meaningful insights from your data using Python programming Key FeaturesWork your way through the entire data analysis pipeline with statistics concerns in mind to make reasonable decisionsUnderstand how various data science algorithms functionBuild a solid foundation in statistics for data science and machine learning using Python-based examplesBook Description Statistics remain the backbone of modern analysis tasks, helping you to interpret the results produced by data science pipelines. This book is a detailed guide covering the math and various statistical methods required for undertaking data science tasks. The book starts by showing you how to preprocess data and inspect distributions and correlations from a statistical perspective. You'll then get to grips with the fundamentals of statistical analysis and apply its concepts to real-world datasets. As you advance, you'll find out how statistical concepts emerge from different stages of data science pipelines, understand the summary of datasets in the language of statistics, and use it to build a solid foundation for robust data products such as explanatory models and predictive models. Once you've uncovered the working mechanism of data science algorithms, you'll cover essential concepts for efficient data collection, cleaning, mining, visualization, and analysis. Finally, you'll implement statistical methods in key machine learning tasks such as classification, regression, tree-based methods, and ensemble learning. By the end of this Essential Statistics for Non-STEM Data Analysts book, you'll have learned how to build and present a self-contained, statistics-backed data product to meet your business goals. What you will learnFind out how to grab and load data into an analysis environmentPerform descriptive analysis to extract meaningful summaries from dataDiscover probability, parameter estimation, hypothesis tests, and experiment design best practicesGet to grips with resampling and bootstrapping in PythonDelve into statistical tests with variance analysis, time series analysis, and A/B test examplesUnderstand the statistics

behind popular machine learning algorithms
Answer questions on statistics for data scientist interviews
Who this book is for This book is an entry-level guide for data science enthusiasts, data analysts, and anyone starting out in the field of data science and looking to learn the essential statistical concepts with the help of simple explanations and examples. If you're a developer or student with a non-mathematical background, you'll find this book useful. Working knowledge of the Python programming language is required.

2020 mdx technology package: *In the Beginning...Was the Command Line* Neal Stephenson, 2009-10-13 This is the Word -- one man's word, certainly -- about the art (and artifice) of the state of our computer-centric existence. And considering that the one man is Neal Stephenson, the hacker Hemingway (Newsweek) -- acclaimed novelist, pragmatist, seer, nerd-friendly philosopher, and nationally bestselling author of groundbreaking literary works (Snow Crash, Cryptonomicon, etc., etc.) -- the word is well worth hearing. Mostly well-reasoned examination and partial rant, Stephenson's *In the Beginning... was the Command Line* is a thoughtful, irreverent, hilarious treatise on the cyber-culture past and present; on operating system tyrannies and downloaded popular revolutions; on the Internet, Disney World, Big Bangs, not to mention the meaning of life itself.

2020 mdx technology package: *The Wiley Handbook of Global Workplace Learning* Vanessa Hammler Kenon, Sunay Vasant Palsole, 2019-04-16 Inclusive Guide Provides Practical Applications for Workplace Education Theory from Diverse Perspectives The Wiley Handbook of Global Workplace Learning explores the field of workplace education using contributions from both experts and emerging scholars in industry and academia. Unlike many previously published titles on the subject, the Handbook focuses on offering readers a truly global overview of workplace learning at a price point that makes it accessible for independent researchers and Human Resources professionals. Designed to strike a balance between theory and practice, the Handbook provides a wealth of information on foundational topics, theoretical frameworks, current and emerging trends, technological updates, implementation strategies, and research methodologies. Chapters covering recent research illustrate the importance of workplace learning topics ranging from meditation to change management, while others give pragmatic and replicable applications for the design, promotion, and implementation of impactful learning opportunities for employees at any company, regardless of industry. A sampling of topics addressed includes: "Using an Experiential Learning Model to Design an Assessment Framework for Workplace Learning" "Measuring Innovative Thinking and Acting Skills as Workplace-Related Professional Competence" Multiple chapters specifically addressing international business, such as "Competency in Globalization and Intercultural Communication", "Global Strategic Planning" and "Global Talent Management" Research and recommendations on bridging generational and cultural divides as well as addressing employee learning disabilities With its impressive breadth of coverage and focus on real-world problem solving, this volume serves as a comprehensive tool for examining and improving practices in global workplace learning. It will prove to be a valuable resource for students and recent graduates entering the workforce and for those working in Human Resources and related fields.

2020 mdx technology package: **Scientific and Medical Aspects of Human Reproductive Cloning** National Research Council, Division on Earth and Life Studies, Board on Life Sciences, Policy and Global Affairs, Committee on Science, Engineering, and Public Policy, 2002-06-17 Human reproductive cloning is an assisted reproductive technology that would be carried out with the goal of creating a newborn genetically identical to another human being. It is currently the subject of much debate around the world, involving a variety of ethical, religious, societal, scientific, and medical issues. *Scientific and Medical Aspects of Human Reproductive Cloning* considers the scientific and medical sides of this issue, plus ethical issues that pertain to human-subjects research. Based on experience with reproductive cloning in animals, the report concludes that human reproductive cloning would be dangerous for the woman, fetus, and newborn, and is likely to fail. The study panel did not address the issue of whether human reproductive cloning, even if it were found to be medically safe, would be acceptable to individuals or society.

2020 mdx technology package: Muscle Gene Therapy Dongsheng Duan, 2009-11-26 Muscle disease represents an important health threat to the general population. There is essentially no cure. Gene therapy holds great promise to correct the genetic defects and eventually achieve full recovery in these diseases. Significant progresses have been made in the field of muscle gene therapy over the last few years. The development of novel gene delivery vectors has substantially enhanced specificity and efficiency of muscle gene delivery. The new knowledge on the immune response to viral vectors has added new insight in overcoming the immune obstacles. Most importantly, the field has finally moved from small experimental animal models to human patients. This book will bring together the leaders in the field of muscle gene transfer to provide an updated overview on the progress of muscle gene therapy. It will also highlight important clinical applications of muscle gene therapy.

2020 mdx technology package: Caterham Sevens Chris Rees, 2005-08-28 Caterhams are a new take on the classic Lotus Sevens and are found on racetracks and twisty roads around the world. Caterham Sevens is the story of a former Lotus dealer, Graham Nearn, who saw the potential of a hand-built sportscar which its creator, Lotus founder Colin Chapman, was about to discard. Nearn bought manufacturing rights from Colin Chapman, and by developing ever more powerful versions for more than 30 years, turned Caterham into one of the world's most prolific and affordable sports-racing cars. Widely recognized as the standard work on the history of Caterham and its cars from the original Lotus Seven of 1957 and its Caterham derivative of 1973 to the latest Cosworth-powered Caterham CSR of 2005. This edition is updated with 64 pages of additional material. 2nd ed.

2020 mdx technology package: L'Annuel de l'automobile 2022 Benoît Charette, Carl Nadeau, Éric LeFrançois, 2021-09-02T00:00:00-04:00 UN RETOUR À LA NORMALE (ENFIN PRESQUE) L'Annuel de l'automobile célèbre sa 21e saison sur le marché. La majorité est atteinte. Après une année de COVID, la planète automobile traverse une année de pénurie de puces électroniques qui affecte le monde entier. Pour bien des constructeurs, le rythme est au ralenti depuis des mois et même des constructeurs qui avaient été jusqu'ici épargnés par la crise ont maintenant de la difficulté. Un cabinet-conseil américain évalue les pertes mondiales à plus de 130 milliards de dollars et cette disette de puces électroniques va se poursuivre pour le reste de 2021. Mais cela n'a pas ralenti les constructeurs automobiles qui continuent de mettre de l'avant les plans d'électrification. De nouveaux joueurs comme Lucid, Rivian, Bollinger et Karma s'ajoutent aux pages du livre cette année. LES TENDANCES ACTUELLES Pour suivre les courants les plus forts, L'Annuel de l'automobile offre des reportages exclusifs. Vous retrouverez cette année : L'électrique regarde dans le rétro Renault 5, Volkswagen Microbus, Hummer. Tous ces véhicules et d'autres multiplient les clins d'œil au passé pour mieux « vendre » la conversion à l'électrique. Vous avez même des compagnies qui font la conversion de véhicules classiques en modèle électrique. Le rouage intégral pour les nuls Rouage intégral, 4 roues motrices, prise constante, et maintenant les modèles 4 roues motrices électriques. Notre chroniqueur automobile Michel Crépault résume en termes simples tout ce qui concerne les modèles 4 roues motrices. La collection de voitures de José Gaudet Grand amateur de voitures, José Gaudet aime les voitures de toutes les époques pour peu qu'elles procurent un sentiment dynamique au volant. Il nous présente sa collection avec ses commentaires colorés pour chaque modèle. Sommes-nous dépassés par la technologie? L'électronique règne maintenant sans partage dans les véhicules modernes. Est-ce que la courbe d'apprentissage des automobilistes suit la vitesse de développement des constructeurs? Suivez Alain McKenna qui vous dira comment c'est possible (ou non) d'apprivoiser cette technologie.

2020 mdx technology package: Forced Options Roger Lincoln Shinn, 1982 Forced Options established itself in the forefront of ethical thinking about the 'big problems' - energy, food, water, population, genetic engineering, ecology, and nuclear war - immediately on its initial publication. This edition with 'Reconsiderations' examines what has been accomplished, how things have changed, and how much is left to be done as technology expands, history erratically changes its course, and people confront the possibilities - and dangers - that lie ahead in an increasingly complex world.

2020 mdx technology package: Design for Real Life Eric A Meyer, Sara Wachter-Boettcher, 2024-09 You can't always predict who will use your products, or what emotional state they'll be in when they do. But by identifying stress cases and designing with compassion, you'll create experiences that support more of your users, more of the time. Join Sara Wachter-Boettcher and Eric Meyer as they turn examples from more than a dozen sites and services into a set of principles you can apply right now. Whether you're a designer, developer, content strategist, or anyone who creates user experiences, you'll gain the practical knowledge to test where your designs might fail (before you ship!), vet new features or interactions against more realistic scenarios, and build a business case for making decisions through a lens of kindness. You can't know every user, but you can develop inclusive practices that support a wider range of people. This book will show you how.

2020 mdx technology package: Let Her Finish Vários Autores, Kathi Kellenberger, 2017-07-20 The writing of this book was a collaborative effort taken up by 7 very talented IT professionals. All too often, books like this get derailed due to some, but usually most, of the authors getting bogged down by work, life, family, health, or some other unexpected ordeal. So, it needs to be acknowledged that these authors can be relied upon to complete the things they commit to. Despite their collective talent, this book would not have been possible without the expert advice and guidance from MVPDays Publishing. This book was their idea, and they have guided its progress from the beginning. Dave has provided excellent advice and just the right amount of cajoling to keep us all on track. Finally, the third leg of this structure is our sponsor. SentryOne has provided the light at the end of the tunnel that gives us all hope that the many hours spent after work (and family), is not all in vain. The avenues for distribution that they are providing was necessary for all of us to justify our efforts. Thank you to all for your contributions to this book. Without any one of you, this book would not have been possible.
