Ricci, 2020-08-21 Intelligent Environments (IEs) aims to empower users by enriching their experience, raising their awareness and enhancing their management of their surroundings. The term IE is used to describe the physical spaces where ICT and pervasive technologies are used to achieve specific objectives for the user and/or the environment. The growing IE community, from academia and practitioners, is working on the materialization of IEs driven by the latest technological developments and innovative ideas. This book presents the proceedings of the workshops held in conjunction with the 16th International Conference on Intelligent Environments (IE2020), Madrid, Spain, 20-23 July 2020. The conference focused on the development of advance intelligent environments, as well as newly emerging and rapidly evolving topics. The workshops included here emphasize multi-disciplinary and transverse aspects of IE, as well as cutting-edge topics: 10th International Workshop on Intelligent Environments Supporting Healthcare and Well-being (WISHWell'20); 9th International Workshop on the Reliability of Intelligent Environments (WoRIE2020); 4th International Workshop on Legal Issues in Intelligent

Environments (LIIE'20); 4th International Workshop on Intelligent Systems for Agriculture Production and Environment Protection (ISAPEP'20); 4th International Workshop on Citizen-Centric Smart Cities Services (CCSCS'20); 2nd International Workshop on Intelligent Environments and Buildings (IEB'20); 1st International Workshop on Research on Smart Grids and Related Applications (SGRA'20); 1st International Workshop on Open and Crowdsourced Location Data (ISOCLoD'20); 1st International Workshop on Social Media Analysis for Intelligent Environment (SMAIE'20). The proceedings contain contributions reflecting the latest research developments in IEs and related areas, focusing on stretching the borders of the current state of the art and contributing to an ever-increasing establishment of IEs in the real world. It will be of interest to all those whose work involves the design or application of Intelligent Environments.

2020 mdx with technology package: In the Beginning...Was the Command Line Neal Stephenson, 2009-10-13 This is the Word -- one man's word, certainly -- about the art (and artifice) of the state of our computer-centric existence. And considering that the one man is Neal Stephenson, the hacker Hemingway (Newsweek) -- acclaimed novelist, pragmatist, seer, nerd-friendly philosopher, and nationally bestselling author of groundbreaking literary works (Snow Crash, Cryptonomicon, etc., etc.) -- the word is well worth hearing. Mostly well-reasoned examination and partial rant, Stephenson's *In the Beginning... was the Command Line* is a thoughtful, irreverent, hilarious treatise on the cyber-culture past and present; on operating system tyrannies and downloaded popular revolutions; on the Internet, Disney World, Big Bangs, not to mention the meaning of life itself.

As well as learning how to clean, explore, and visualize data, you'll implement machine learning algorithms and build models to make predictions. As you work through the book, you'll use Python tools to analyze sales, visualize advertising data, predict revenue, address customer churn, and implement customer segmentation to understand behavior. By the end of this book, you'll have the knowledge, skills, and confidence to implement data science and machine learning techniques to better understand your marketing data and improve your decision-making. What you will learnLoad, clean, and explore sales and marketing data using pandasForm and test hypotheses using real data sets and analytics toolsVisualize patterns in customer behavior using MatplotlibUse advanced machine learning models like random forest and SVMUse various unsupervised learning algorithms for customer segmentationUse supervised learning techniques for sales predictionEvaluate and compare different models to get the best outcomesOptimize models with hyperparameter tuning and SMOTEThis book is for This

marketing book is for anyone who wants to learn how to use Python for cutting-edge marketing analytics. 2020 mdx with technology package: *Design of Assistive Technology for Ageing Populations* Andree Woodcock, Louise Moody, Deana McDonagh, Ajita Jain, Lakhmi C. Jain, 2019-11-20 This book focuses on various aspects of research on ageing, including in relation to assistive technology; dignity of aging; how technology can support a greater understanding of the experience of physically aging and cognitive changes; mobility issues associated with the elderly; and emerging technologies. The 80+ age group represents an expanding market, with an estimated worth of £21.4 billion a year. Everyone is affected by this shift in demographics – we are getting older and may become carers – and we need to prepare ourselves and adjust our surroundings for longer life. Products, services and environments have been changing in response to the changing population. Presenting international design research to demonstrate the thinking and ideas shaping design, this book is a valuable resource for designers; product developers; employers; gerontologists; and medical, health and service providers; as well as everyone interested in aging.

2020 mdx with technology package: *The Values of Public Service Media in the Internet Society* Miguel Túñez-López, Francisco Campos-Freire, Marta Rodríguez-Castro, 2021-03-16 This book provides a global overview of the challenges and opportunities faced by Public Service Media

(PSM) organizations, including the increasing power of digital platforms, changing consumption habits, and reforms on funding models. In order to survive in the new, transforming media ecosystem, PSM organizations need to retain their core values whilst also embracing new values stemming from society's increasingly complex communication needs and value systems. The contributions of 40 authors from three continents are grouped into three areas in which PSM organizations can create value: innovation, governance and relation to the market, and democratic reinforcement. The book illustrates how PSM can create value for different stakeholders, in different contexts, and through different methods. Contributing to a better understanding of the role of PSM in current media systems, PSM is shown as a key agent for the development of the public sphere and democratic societies.

2020 mdx with technology package: Coronavirus Disease (COVID-19): Pathophysiology, Epidemiology, Clinical Management and Public Health Response, Volume II (volume I.B) Thomas Rawson, Marco Iosa, Fabrizio Ricci, Zisis Kozlakidis, Longxiang Su, Catherine Ropert, Jonathan Kantor, Constantinos Tsioutis, Susan Christina Welburn, Burc Barin, Jiufeng Sun, Eugenie Ruth Lumbers, 2023-05-31 Almost nine months since the first recorded case, the novel betacoronavirus; severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), has now passed 18 million confirmed cases. The multi-disciplinary work of researchers worldwide has provided a far deeper understanding of COVID-19 pathogenesis, clinical treatment and outcomes, lethality, disease-spread dynamics, period of infectivity, containment interventions, as well as providing a wealth of relevant epidemiological data. With 27 vaccines currently undergoing human trials, and countries worldwide continuing to battle case numbers, or prepare for resurgences, the need for efficient, high-quality pipelines for peer-reviewed research remains as crucial as ever.

2020 mdx with technology package: All Your Buttons Rene Bouche, 2015-05-13 It will push ... All Your Buttons Buttons Book I ... Page 55 The book's main character, 19 year old Lance Ryder, talking with his French tutor about the bite marks he'd left on one of her breasts and the subsequent verbal exchange she had with her husband. So, what did your husband say after he saw the bite marks? He knew I'd taken a lover, but he didn't know who it was. He probably thinks it's one of the graduate students that I'm tutoring or maybe the milkman, I really don't know. Didn't he ask, surely he wanted some information, something? I never asked when he had his mistress and he isn't going to ask now that I've got a lover. But, you don't have a lover, I mean; I'm not your lover...am I? She put one of her hands on my thigh and gave me a good squeeze. Not yet, my Cherie. Buttons Book I ... Page 344 Lance's girlfriend, Emily, talking on the phone to a guy she recently met named Charlie who wants her to come over to his apartment where members of his basketball team are having a party. So you guys talked about doing it after you saw me at the gym... what did everybody say? Have you guys ever done a girl by herself before as a group...but you've talked about it...I figured as much... so this will be a new experience for everyone? Who decides who goes first or does it just happen...interesting...is that what happens when there's just one girl and six guys...you just take turns fucking me and everybody watches...jeez Charlie.

2020 mdx with technology package: Design for Real Life Eric A Meyer, Sara Wachter-Boettcher, 2024-09 You can't always predict who will use your products, or what emotional state they'll be in when they do. But by identifying stress cases and designing with compassion, you'll create experiences that support more of your users, more of the time. Join Sara Wachter-Boettcher and Eric Meyer as they turn examples from more than a dozen sites and services into a set of principles you can apply right now. Whether you're a designer, developer, content strategist, or anyone who creates user experiences, you'll gain the practical knowledge to test where your designs might fail (before you ship!), vet new features or interactions against more realistic scenarios, and build a business case for making decisions through a lens of kindness. You can't know every user, but you can develop inclusive practices that support a wider range of people. This book will show you how.
