2022 ma ballot questions: **Dark Money and the Politics of School Privatization** Maurice T. Cunningham, 2021-10-08 This book goes deep behind the scenes of school privatization campaigns to expose the complex networks of funding that sustain these efforts - often hidden from the view of the public. Using the example of a 2016 Massachusetts charter school referendum, Cunningham shows how wealthy individuals support charter school expansion through so-called "social welfare" organizations, thereby obscuring the true sources of funding while influencing major public policy votes. With vast wealth and a political agenda, foundations have helped to reshape the reform landscape in urban education.

2022 ma ballot questions: The Green Amendment Maya K. Van Rossum, Rossum Maya van, 2017 2017 INDIE BOOK OF THE YEAR AWARD FINALIST A rallying cry . . . Everyone who is concerned about the welfare of all species, including human beings. Please read this important book. --Richard Louv, chairman emeritus of the Children & Nature Network and author of *LAST CHILD IN THE WOODS* and *THE NATURE PRINCIPLE* The Constitutional Change We Need to Protect Our Priceless Natural Resources For decades, activists have relied on federal and state legislation to fight for a cleaner environment. And for decades, they've been fighting a losing battle. The sad truth is, our laws are designed to accommodate pollution rather than prevent it. It's no wonder people feel powerless when it comes to preserving the quality of their water, air, public parks, and special natural spaces. But there is a solution, argues veteran environmentalist Maya K. van Rossum: bypass the laws and turn to the ultimate authority--our state and federal constitutions. In 2013, van Rossum and her team won a watershed legal victory that not only protected Pennsylvania communities from ruthless frackers but affirmed the constitutional right of people in the state to a clean and healthy environment. Following this victory, van Rossum inaugurated the Green Amendment movement, dedicated to empowering every American community to mobilize for constitutional change. Now, with *The Green Amendment*, van Rossum lays out an inspiring new agenda for environmental advocacy, one that will finally empower people, level the playing field, and provide real hope for communities everywhere. Readers will discover how legislative environmentalism has failed communities across America, the transformational difference environmental constitutionalism can make, the economic imperative of environmental constitutionalism, and how to take action in their communities. We all have the right to pure water, clean air, and a healthy environment. It's time to claim that right--for our own sake and that of future generations.

2022 ma ballot questions: The Soldier Vote Donald S. Inbody, 2016-01-26 The Soldier Vote tells the story of how Americans in the armed forces gained the right to vote while away from home. The ability for deployed military personnel to cast a ballot was difficult and often vociferously resisted by politicians of both political parties. While progress has been made, significant challenges remain. Using newly obtained data about the military voter, The Soldier Vote challenges some widely held views about the nature of the military vote and how service personnel vote.

2022 ma ballot questions: Woke, Inc. Vivek Ramaswamy, 2021-08-17 AN INSTANT NEW YORK TIMES BESTSELLER! A young entrepreneur makes the case that politics has no place in business, and sets out a new vision for the future of American capitalism. There's a new invisible force at work in our economic and cultural lives. It affects every advertisement we see and every product we buy, from our morning coffee to a new pair of shoes. "Stakeholder capitalism" makes rosy promises of a better, more diverse, environmentally-friendly world, but in reality this ideology championed by America's business and political leaders robs us of our money, our voice, and our identity. Vivek Ramaswamy is a traitor to his class. He's founded multibillion-dollar enterprises, led a biotech company as CEO, he became a hedge fund partner in his 20s, trained as a scientist at Harvard and a lawyer at Yale, and grew up the child of immigrants in a small town in Ohio. Now he takes us behind the scenes into corporate boardrooms and five-star conferences, into Ivy League classrooms and secretive nonprofits, to reveal the defining scam of our century. The modern woke-industrial complex divides us as a people. By mixing morality with consumerism, America's elites prey on our innermost insecurities about who we really are. They sell us cheap social causes and skin-deep identities to satisfy our hunger for a cause and our search for meaning, at a moment when we as Americans lack both. This book not only rips back the curtain on the new corporatist agenda, it offers a better way forward. America's elites may want to sort us into demographic boxes, but we don't have to stay there. Woke, Inc. begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be an American in 2021—a journey that begins with cynicism and ends with hope.

2022 ma ballot questions: *Cancer and the LGBT Community* Ulrike Boehmer, Ronit Elk,

2016-10-09 This book covers the scope of current knowledge of cancer in the LGBT community across the entire cancer continuum, from understanding risk and prevention strategies in LGBT groups, across issues of diagnosis and treatment of LGBT patients, to unique aspects of survivorship and death and dying in these communities. Each chapter includes an in depth analysis of the state of the science, discusses the many remaining challenges and unanswered questions and makes recommendations for research, policy and programmatic strategies required to address these. Focus is also placed on the diversity of the LGBT communities. Issues that are unique to cancer in LGBT populations are addressed including the social, economic and cultural factors that affect cancer risk behaviors, barriers to screening, utilization of health care services, and legislation that directly impacts the health care of LGBT patients, healthcare settings that are heterosexist and unique aspects of patient-provider relationships such as disclosure of sexual orientation and the need for inclusion of expanded definition of family to include families of choice. The implications of policy change, its impact on healthcare for LGBT patients are highlighted, as are the remaining challenges that need to be addressed. A roadmap for LGBT cancer prevention, detection, diagnosis, survivorship, including treatment and end of life care is offered for future researchers, policy makers, advocates and health care providers.

2022 ma ballot questions: *Broken Ballots* Douglas Jones, Barbara Simons, 2012 For many of us, the presidential election of 2000 was a wake-up call. The controversy following the vote count led to demands for election reform. But the new voting systems that were subsequently introduced to the market have serious security flaws, and many are confusing and difficult to use. Moreover, legislation has not kept up with the constantly evolving voting technology, leaving little to no legal recourse when votes are improperly counted. How did we come to acquire the complex technology we now depend on to count votes? Douglas Jones and Barbara Simons probe this question, along with public policy and regulatory issues raised by our voting technologies. Broken Ballots is a thorough and incisive analysis of the current voting climate that approaches American elections from technological, legal, and historical perspectives. The authors examine the ways in which Americans vote today, gauging how inaccurate, unreliable, and insecure our voting systems are. An important book for election administrators, political scientists, and students of government and technology policy, Broken Ballots is also a vital tool for any voting American.

2022 ma ballot questions: Russia and Eurasia 2020-2022 , 2021-09-15 The World Today Series: Russia and Eurasia deals with twelve sovereign states that became independent following the collapse of the Soviet Union in December 1991. Approximately one-third of the book is devoted to Russia. The remainder of the book is comprised of separate chapters on Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan, Ukraine and Uzbekistan. The text focuses heavily on recent economic and political developments within these twelve states. Each country chapter offers descriptions and overviews of the respective governmental institutions, key leaders, civil society dynamics, and economic conditions within each state. It supplements this focus with shorter sections dealing with historical developments, demographics, foreign policy, and cultural elements. Each chapter concludes with brief projections of future developments within each state. The combination of factual accuracy and up-to-date detail along with its informed projections make this an outstanding resource for students, researchers, practitioners in international development, media professionals, government officials, and potential investors.

2022 ma ballot questions: How Education Policy Shapes Literacy Instruction Rachael Gabriel, 2022-09-28 Reading instruction is the most legislated area of education and the most frequently referenced metric for measuring educational progress. This book traces the trajectories of policy issues with direct implications for literacy teaching, learning, and research in order to illustrate the dynamic relationships between policy, research, and practice as they relate to perennial issues such as: retention in grade, remediation, intervention, instruction for English learners, early literacy instruction, coaching, and leadership. Using policy documents and peer-reviewed articles published from the 1960s to the present, the editor and authors illustrate how issues were framed, what was at stake, and how policy solutions to persistent questions have been understood over time. In doing so, the book link a generation of scholars with research that illustrates trajectories of development for ideas, strategies, and solutions.

2022 ma ballot questions: Let Freedom Ring...Again George C. Landrith III, 2024-05-07 The

United States of America is in peril. The fundamental freedoms and values that were once synonymous with America are being dismantled at an alarming rate. Those who are engaged in this destruction of America base their movement on feelings, not facts or reason. If they are successful in overthrowing American's principles and foundations, Americans of all races and creeds will suffer as their freedoms are usurped and their opportunities stolen in the name of progressive government power. Average, regular, everyday Americans will see their hope for freedom, opportunity, and a better future wither and die. Only the political elites and their friends will benefit. As history will show, those who seek total, unquestioned power never seek that power for the benefit of their fellow men and women. It is always used to aggrandize themselves alone.
