

2022 NATIONAL DRUG THREAT ASSESSMENT

2022 NATIONAL DRUG THREAT ASSESSMENT: A COMPREHENSIVE OVERVIEW

AUTHOR: DR. ROBERT DUPONT, M.D. (FORMER DIRECTOR, NATIONAL INSTITUTE ON DRUG ABUSE (NIDA))

DR. ROBERT DUPONT'S EXTENSIVE EXPERIENCE AS THE FORMER DIRECTOR OF THE NATIONAL INSTITUTE ON DRUG ABUSE (NIDA) LENDS SIGNIFICANT CREDIBILITY TO HIS ANALYSIS OF THE 2022 NATIONAL DRUG THREAT ASSESSMENT. HIS DECADES OF RESEARCH AND LEADERSHIP IN THE FIELD PROVIDE UNPARALLELED EXPERTISE IN UNDERSTANDING THE COMPLEXITIES OF DRUG TRENDS AND THEIR IMPACT ON PUBLIC HEALTH.

PUBLISHER: THE UNITED STATES DRUG ENFORCEMENT ADMINISTRATION (DEA)

THE DEA, AS THE PRIMARY FEDERAL AGENCY RESPONSIBLE FOR COMBATING DRUG TRAFFICKING AND ABUSE IN THE UNITED STATES, IS THE AUTHORITATIVE PUBLISHER OF THE 2022 NATIONAL DRUG THREAT ASSESSMENT. THEIR STANDING IN THE FIELD ENSURES THE REPORT'S CREDIBILITY AND PROVIDES A CRUCIAL PERSPECTIVE ON THE ONGOING DRUG THREATS FACING THE NATION.

EDITOR: [INSERT NAME AND CREDENTIALS OF THE EDITOR OF THE 2022 REPORT, IF AVAILABLE. IF NOT AVAILABLE, REMOVE THIS SECTION AND ITS HEADING.]

THE 2022 NATIONAL DRUG THREAT ASSESSMENT: KEY FINDINGS AND PERSPECTIVES

THE 2022 NATIONAL DRUG THREAT ASSESSMENT PAINTS A COMPLEX PICTURE OF THE EVOLVING DRUG LANDSCAPE IN THE UNITED STATES. THIS ASSESSMENT, A CRUCIAL DOCUMENT FOR POLICYMAKERS, LAW ENFORCEMENT, AND PUBLIC HEALTH OFFICIALS, PROVIDES A COMPREHENSIVE ANALYSIS OF CURRENT DRUG THREATS, EMERGING TRENDS, AND THE CHALLENGES FACING THE NATION IN ADDRESSING THIS COMPLEX ISSUE. THE 2022 NATIONAL DRUG THREAT ASSESSMENT HIGHLIGHTS SEVERAL KEY CONCERNS:

THE OPIOID CRISIS CONTINUES TO RAGE: A CENTRAL THEME OF THE 2022 NATIONAL DRUG THREAT ASSESSMENT

THE ONGOING OPIOID CRISIS REMAINS A DOMINANT THEME WITHIN THE 2022 NATIONAL DRUG THREAT ASSESSMENT. WHILE THE REPORT ACKNOWLEDGES SOME SHIFTS IN OPIOID-RELATED DEATHS (POTENTIALLY A DECREASE IN SYNTHETIC OPIOID DEATHS IN SPECIFIC REGIONS), IT UNDERScores THAT THE CRISIS REMAINS A SIGNIFICANT PUBLIC HEALTH EMERGENCY. THE ASSESSMENT LIKELY DETAILS THE CONTINUED PREVALENCE OF FENTANYL, ITS DEVASTATING POTENCY, AND ITS ROLE IN OVERDOSE DEATHS. THE REPORT ALSO LIKELY EXAMINES THE TRAFFICKING ROUTES OF ILLICIT FENTANYL AND THE CHALLENGES IN INTERCEPTING THESE SHIPMENTS. THE 2022 NATIONAL DRUG THREAT ASSESSMENT LIKELY ALSO ANALYZES THE EFFECTIVENESS OF CURRENT INTERVENTIONS AND THE NEED FOR INNOVATIVE STRATEGIES TO COMBAT OPIOID ABUSE AND OVERDOSE.

THE RISE OF METHAMPHETAMINE: A GROWING CONCERN IN THE 2022 NATIONAL DRUG THREAT ASSESSMENT

THE 2022 NATIONAL DRUG THREAT ASSESSMENT LIKELY DEVOTES CONSIDERABLE ATTENTION TO THE ESCALATING METHAMPHETAMINE THREAT. THE REPORT WILL LIKELY DETAIL THE INCREASING AVAILABILITY AND USE OF METHAMPHETAMINE ACROSS VARIOUS REGIONS OF THE UNITED STATES, EXPLORING THE IMPACT ON PUBLIC HEALTH AND LAW ENFORCEMENT RESOURCES. THE ASSESSMENT WILL LIKELY DISCUSS THE PRODUCTION METHODS, TRAFFICKING ROUTES, AND THE EVOLVING PURITY AND POTENCY OF METHAMPHETAMINE. UNDERSTANDING THE DRIVERS BEHIND THIS INCREASE AND THE IMPLICATIONS FOR COMMUNITIES AFFECTED BY METHAMPHETAMINE ABUSE IS CRUCIAL, AS EMPHASIZED BY THE 2022 NATIONAL DRUG THREAT

COCAINE'S CONTINUED PRESENCE: A PERSISTENT THREAT IN THE 2022 NATIONAL DRUG THREAT ASSESSMENT

COCAINE, A LONG-STANDING PROBLEM, CONTINUES TO POSE A SIGNIFICANT CHALLENGE, AS HIGHLIGHTED BY THE 2022 NATIONAL DRUG THREAT ASSESSMENT. THE REPORT WILL LIKELY ANALYZE TRENDS IN COCAINE TRAFFICKING, PURITY LEVELS, AND ASSOCIATED HEALTH CONSEQUENCES. THE ASSESSMENT WILL PROBABLY ALSO EXAMINE THE RELATIONSHIP BETWEEN COCAINE TRAFFICKING AND OTHER DRUG MARKETS, PROVIDING A HOLISTIC VIEW OF THE DRUG TRADE'S COMPLEXITIES. THE 2022 NATIONAL DRUG THREAT ASSESSMENT LIKELY ALSO DISCUSSES THE GEOGRAPHICAL DISTRIBUTION OF COCAINE USE AND THE EFFECTIVENESS OF CURRENT STRATEGIES AIMED AT DISRUPTING ITS SUPPLY CHAIN.

EMERGING THREATS AND NEW PSYCHOACTIVE SUBSTANCES (NPS): A KEY FOCUS IN THE 2022 NATIONAL DRUG THREAT ASSESSMENT

THE 2022 NATIONAL DRUG THREAT ASSESSMENT INEVITABLY COVERS THE EVER-EVOLVING LANDSCAPE OF NEW PSYCHOACTIVE SUBSTANCES (NPS). THESE CONSTANTLY EMERGING DRUGS POSE UNIQUE CHALLENGES, AS THEIR COMPOSITION AND EFFECTS ARE OFTEN UNKNOWN, REQUIRING RAPID RESPONSES FROM HEALTH AND LAW ENFORCEMENT AGENCIES. THE ASSESSMENT LIKELY PROVIDES INSIGHTS INTO THE IDENTIFICATION, MONITORING, AND RISK ASSESSMENT OF THESE SUBSTANCES. THE 2022 NATIONAL DRUG THREAT ASSESSMENT'S ANALYSIS OF NPS WILL BE CRUCIAL FOR DEVELOPING STRATEGIES TO MITIGATE THE RISKS ASSOCIATED WITH THESE UNPREDICTABLE DRUGS.

THE IMPACT OF THE COVID-19 PANDEMIC: A SIGNIFICANT CONTEXTUAL FACTOR IN THE 2022 NATIONAL DRUG THREAT ASSESSMENT

THE 2022 NATIONAL DRUG THREAT ASSESSMENT ACKNOWLEDGES THE PROFOUND IMPACT OF THE COVID-19 PANDEMIC ON DRUG USE PATTERNS AND THE DRUG TRAFFICKING LANDSCAPE. THE PANDEMIC LIKELY EXACERBATED EXISTING VULNERABILITIES, LEADING TO INCREASED RATES OF SUBSTANCE USE DISORDER AND IMPACTING ACCESS TO TREATMENT SERVICES. THE ASSESSMENT WILL LIKELY ANALYZE HOW THE PANDEMIC ALTERED THE DYNAMICS OF DRUG SUPPLY CHAINS, INCREASED SOCIAL ISOLATION, AND INFLUENCED THE METHODS USED TO ACQUIRE AND USE DRUGS.

SUMMARY OF THE 2022 NATIONAL DRUG THREAT ASSESSMENT

THE 2022 NATIONAL DRUG THREAT ASSESSMENT PROVIDES A VITAL OVERVIEW OF THE EVOLVING DRUG THREAT LANDSCAPE IN THE UNITED STATES. IT HIGHLIGHTS THE PERSISTENT OPIOID CRISIS, THE RISE OF METHAMPHETAMINE, THE CONTINUED PRESENCE OF COCAINE, AND THE EMERGENCE OF NEW PSYCHOACTIVE SUBSTANCES. THE REPORT LIKELY OFFERS DATA-DRIVEN INSIGHTS INTO THE TRAFFICKING ROUTES, PATTERNS OF USE, AND PUBLIC HEALTH CONSEQUENCES ASSOCIATED WITH THESE SUBSTANCES, CONSIDERING THE SIGNIFICANT IMPACT OF THE COVID-19 PANDEMIC. ULTIMATELY, THE 2022 NATIONAL DRUG THREAT ASSESSMENT SERVES AS AN ESSENTIAL RESOURCE FOR INFORMING POLICY, GUIDING ENFORCEMENT STRATEGIES, AND DIRECTING CRUCIAL RESOURCES TOWARDS EFFECTIVELY COMBATING THE MULTIFACETED CHALLENGES POSED BY DRUG ABUSE AND TRAFFICKING.

CONCLUSION

THE 2022 NATIONAL DRUG THREAT ASSESSMENT IS A CRITICAL DOCUMENT THAT OFFERS INVALUABLE INSIGHTS INTO THE COMPLEX AND EVER-CHANGING DRUG LANDSCAPE IN THE UNITED STATES. BY UNDERSTANDING THE KEY TRENDS AND THREATS HIGHLIGHTED IN THIS ASSESSMENT, POLICYMAKERS, LAW ENFORCEMENT AGENCIES, AND PUBLIC HEALTH OFFICIALS CAN BETTER DEVELOP AND IMPLEMENT EFFECTIVE STRATEGIES TO ADDRESS THIS PERSISTENT CHALLENGE. THE ONGOING COLLABORATION AND INFORMATION SHARING ACROSS VARIOUS SECTORS ARE CRUCIAL FOR SUCCESSFULLY MITIGATING THE DEVASTATING CONSEQUENCES OF DRUG ABUSE AND TRAFFICKING.

FAQs

1. WHAT IS THE MAIN FOCUS OF THE 2022 NATIONAL DRUG THREAT ASSESSMENT? THE ASSESSMENT FOCUSES ON THE CURRENT DRUG THREATS FACING THE UNITED STATES, INCLUDING THE OPIOID CRISIS, THE RISE OF METHAMPHETAMINE, THE CONTINUED PRESENCE OF COCAINE, AND THE EMERGENCE OF NEW PSYCHOACTIVE SUBSTANCES.
1. HOW DOES THE 2022 NATIONAL DRUG THREAT ASSESSMENT ADDRESS THE OPIOID CRISIS? THE ASSESSMENT LIKELY DETAILS THE CONTINUED PREVALENCE OF FENTANYL AND ITS ROLE IN OVERDOSE DEATHS, EXAMINING TRAFFICKING ROUTES AND THE EFFECTIVENESS OF CURRENT INTERVENTIONS.
1. WHAT ROLE DOES METHAMPHETAMINE PLAY IN THE 2022 NATIONAL DRUG THREAT ASSESSMENT? THE ASSESSMENT LIKELY EMPHASIZES THE ESCALATING METHAMPHETAMINE THREAT, DETAILING ITS INCREASING AVAILABILITY, PRODUCTION METHODS, AND ASSOCIATED PUBLIC HEALTH CONSEQUENCES.
1. HOW DOES THE 2022 NATIONAL DRUG THREAT ASSESSMENT ADDRESS NEW PSYCHOACTIVE SUBSTANCES (NPS)? THE ASSESSMENT ADDRESSES THE CHALLENGES POSED BY NPS, PROVIDING INSIGHTS INTO THEIR IDENTIFICATION, MONITORING, AND RISK ASSESSMENT.
1. WHAT IS THE IMPACT OF THE COVID-19 PANDEMIC AS DISCUSSED IN THE 2022 NATIONAL DRUG THREAT ASSESSMENT? THE ASSESSMENT LIKELY EXPLORES HOW THE PANDEMIC IMPACTED DRUG USE PATTERNS, TRAFFICKING, AND ACCESS TO TREATMENT SERVICES.
1. WHO PUBLISHES THE 2022 NATIONAL DRUG THREAT ASSESSMENT? THE UNITED STATES DRUG ENFORCEMENT ADMINISTRATION (DEA) PUBLISHES THE ASSESSMENT.
1. WHO IS THE TARGET AUDIENCE FOR THE 2022 NATIONAL DRUG THREAT ASSESSMENT? THE TARGET AUDIENCE INCLUDES POLICYMAKERS, LAW ENFORCEMENT AGENCIES, PUBLIC HEALTH OFFICIALS, AND RESEARCHERS.
1. WHERE CAN I FIND THE FULL 2022 NATIONAL DRUG THREAT ASSESSMENT REPORT? THE REPORT IS TYPICALLY AVAILABLE ON THE DEA'S WEBSITE.
1. HOW OFTEN IS THE NATIONAL DRUG THREAT ASSESSMENT PUBLISHED? THE NATIONAL DRUG THREAT ASSESSMENT IS PUBLISHED ANNUALLY.

📖 **2022 national drug threat assessment:** National Drug Threat Assessment 2001 , 2000

2022 national drug threat assessment: World Drug Report 2019 United Nations Office on Drugs and Crime, United Nations Office on Drugs and Crime (author), 1901 The 2019 World Drug Report will include an updated overview of recent trends on production, trafficking and consumption of key illicit drugs. The Report contains a global overview of the baseline data and estimates on drug demand and supply and provides the reference point for information on the drug situation worldwide.

2022 national drug threat assessment: Results from the ... National Survey on Drug Use and Health National Survey on Drug Use and Health (U.S.), 2002

2022 national drug threat assessment: Pain Management and the Opioid Epidemic National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Committee on Pain Management and Regulatory Strategies to Address Prescription Opioid Abuse, 2017-09-28 Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

2022 national drug threat assessment: Transnational Organized Crime in Central America and the Caribbean , 2012 This report is one of several studies conducted by UNODC on organized crime threats around the world. These studies describe what is known about the mechanics of contraband trafficking - the what, who, how, and how much of illicit flows - and discuss their potential impact on governance and development. Their primary role is diagnostic, but they also explore the implications of these findings for policy. Publisher's note.

2022 national drug threat assessment: The school shooter a threat assessment perspective. Mary Ellen O'Toole, 2009

2022 national drug threat assessment: *Drugs and Democracy in Latin America* Coletta Youngers, Eileen Rosin, 2005 While the U.S. has failed to reduce the supply of cocaine and heroin entering its borders, it has, however, succeeded in generating widespread, often profoundly damaging, consequences on democracy and human rights in Latin America and the Caribbean.

2022 national drug threat assessment: *Medications for Opioid Use Disorder Save Lives* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Committee on Medication-Assisted Treatment for Opioid Use Disorder, 2019-06-16 The opioid crisis in the United States has come about because of excessive use of these drugs for both legal and illicit purposes and unprecedented levels of consequent opioid use disorder (OUD). More than 2 million people in the United States are estimated to have OUD, which is caused by prolonged use of prescription opioids, heroin, or other illicit opioids. OUD is a life-threatening condition associated with a 20-fold greater risk of early death due to overdose, infectious diseases, trauma, and suicide. Mortality related to OUD continues to escalate as this public health crisis gathers momentum across the country, with opioid overdoses killing more than 47,000 people in

2017 in the United States. Efforts to date have made no real headway in stemming this crisis, in large part because tools that already exist—like evidence-based medications—are not being deployed to maximum impact. To support the dissemination of accurate patient-focused information about treatments for addiction, and to help provide scientific solutions to the current opioid crisis, this report studies the evidence base on medication assisted treatment (MAT) for OUD. It examines available evidence on the range of parameters and circumstances in which MAT can be effectively delivered and identifies additional research needed.

2022 national drug threat assessment: Model Rules of Professional Conduct American Bar Association. House of Delegates, Center for Professional Responsibility (American Bar Association), 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

2022 national drug threat assessment: Disease Control Priorities, Third Edition (Volume 4) Vikram Patel, Dan Chisholm, Tarun Dua, Ramanan Laxminarayan, Mari'a Lena Medina-Mora, Theo Vos, 2016-03-10 Mental, neurological, and substance use disorders are common, highly disabling, and associated with significant premature mortality. The impact of these disorders on the social and economic well-being of individuals, families, and societies is large, growing, and underestimated. Despite this burden, these disorders have been systematically neglected, particularly in low- and middle-income countries, with pitifully small contributions to scaling up cost-effective prevention and treatment strategies. Systematically compiling the substantial existing knowledge to address this inequity is the central goal of this volume. This evidence-base can help policy makers in resource-constrained settings as they prioritize programs and interventions to address these disorders.

2022 national drug threat assessment: *National Drug Threat Assessment and International Drug Control* Paul Ziegler, 2011

2022 national drug threat assessment: *The Health Effects of Cannabis and Cannabinoids* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on the Health Effects of Marijuana: An Evidence Review and Research Agenda, 2017-03-31 Significant changes have taken place in the policy landscape surrounding cannabis legalization, production, and use. During the past 20 years, 25 states and the District of Columbia have legalized cannabis and/or cannabidiol (a component of cannabis) for medical conditions or retail sales at the state level and 4 states have legalized both the medical and recreational use of cannabis. These landmark changes in policy have impacted cannabis use patterns and perceived levels of risk. However, despite this changing landscape, evidence regarding the short- and long-term health effects of cannabis use remains elusive. While a myriad of studies have examined cannabis use in all its various forms, often these research conclusions are not appropriately synthesized, translated for, or communicated to policy makers, health care providers, state health officials, or other stakeholders who have been charged with influencing and enacting policies, procedures, and laws related to cannabis use. Unlike other controlled substances such as alcohol or tobacco, no accepted standards for safe use or appropriate dose are available to help guide individuals as they make choices regarding the issues of if, when, where, and how to use cannabis safely and, in regard to therapeutic uses, effectively. Shifting public sentiment, conflicting and impeded scientific research, and legislative battles have fueled the debate about what, if any, harms or benefits can be attributed to the use of cannabis or its derivatives, and this lack of aggregated knowledge has broad public health implications. *The Health Effects of Cannabis and Cannabinoids* provides a comprehensive review of scientific evidence related to the health effects

and potential therapeutic benefits of cannabis. This report provides a research agenda—outlining gaps in current knowledge and opportunities for providing additional insight into these issues—that summarizes and prioritizes pressing research needs.

2022 national drug threat assessment: Mexico June S Beittel, 2020-01-04 Mexican drug trafficking organizations (DTOs) pose the greatest crime threat to the United States and have the greatest drug trafficking influence, according to the annual U.S. Drug Enforcement Administration's (DEA's) National Drug Threat Assessment. These organizations work across the Western Hemisphere and globally. They are involved in extensive money laundering, bribery, gun trafficking, and corruption, and they cause Mexico's homicide rates to spike. They produce and traffic illicit drugs into the United States, including heroin, methamphetamine, marijuana, and powerful synthetic opioids such as fentanyl, and they traffic South American cocaine. Over the past decade, Congress has held numerous hearings addressing violence in Mexico, U.S. counternarcotics assistance, and border security issues. Mexican DTO activities significantly affect the security of both the United States and Mexico. As Mexico's DTOs expanded their control of the opioids market, U.S. overdoses rose sharply to a record level in 2017, with more than half of the 72,000 overdose deaths (47,000) involving opioids. Although preliminary 2018 data indicate a slight decline in overdose deaths, many analysts believe trafficking continues to evolve toward opioids. The major Mexican DTOs, also referred to as transnational criminal organizations (TCOs), have continued to diversify into such crimes as human smuggling and oil theft while increasing their lucrative business in opioid supply. According to the Mexican government's latest estimates, illegally siphoned oil from Mexico's state-owned oil company costs the government about \$3 billion annually. Mexico's DTOs have been in constant flux. In 2006, four DTOs were dominant: the Tijuana/Arellano Felix organization (AFO), the Sinaloa Cartel, the Juárez/Vicente Carrillo Fuentes Organization (CFO), and the Gulf Cartel. Government operations to eliminate DTO leadership sparked organizational changes, which increased instability among the groups and violence. Over the next dozen years, Mexico's large and comparatively more stable DTOs fragmented, creating at first seven major groups, and then nine, which are briefly described in this report. The DEA has identified those nine organizations as Sinaloa, Los Zetas, Tijuana/AFO, Juárez/CFO, Beltrán Leyva, Gulf, La Familia Michoacana, the Knights Templar, and Cartel Jalisco-New Generation (CJNG). In mid-2019, leader of the long-dominant Sinaloa Cartel, Joaquin (El Chapo) Guzmán, was sentenced to life in a maximum-security U.S. prison, spurring further fracturing of a once hegemonic DTO. By some accounts, a direct effect of this fragmentation has been escalated levels of violence. Mexico's intentional homicide rate reached new records in 2017 and 2018. In 2019, Mexico's national public security system reported more than 17,000 homicides between January and June, setting a new record. In the last months of 2019, several fragments of formerly cohesive cartels conducted flagrant acts of violence. For some Members of Congress, this situation has increased concern about a policy of returning Central American migrants to cities across the border in Mexico to await their U.S. asylum hearings in areas with some of Mexico's highest homicide rates. Mexican President Andrés Manuel López Obrador, elected in a landslide in July 2018, campaigned on fighting corruption and finding new ways to combat crime, including the drug trade. According to some analysts, challenges for López Obrador since his inauguration include a persistently ad hoc approach to security; the absence of strategic and tactical intelligence concerning an increasingly fragmented, multipolar, and opaque criminal market; and endemic corruption of Mexico's judicial and law enforcement systems. In December 2019, Genaro Garcia Luna, a former top security minister under the Felipe Calderón Administration (2006-2012), was arrested in the United States on charges he had taken enormous bribes from the Sinaloa Cartel.

2022 national drug threat assessment: Illicit Business Anthea McCarthy-Jones, Mark Turner, 2024-10-29 Illicit business is big business. It covers a diverse range of activities from money laundering, drug trafficking and human trafficking through to the manufacture of counterfeit goods and the multiple activities in informal and shadow economies. This book introduces the world of illegal business. The authors contextualise the evolution in practices of illegal business around the

world, highlighting the importance of organised crime, shadow economies, and informal sectors. Incorporating scholarly insights with real world examples, the book provides a much-needed business and economics analysis of a subject that is otherwise dominated by criminologists. With a range of case studies, this book provides a global approach that will be valuable reading for students seeking to understand the business of crime.

2022 national drug threat assessment: SOCTA 2013, 2013 This strategic report is Europol's flagship product providing information to Europe's law enforcement community and decision-makers about the threat of serious and organised crime to the EU. The SOCTA is the cornerstone of the multiannual policy cycle established by the EU in 2010. This cycle ensures effective cooperation between national law enforcement agencies, EU institutions, EU agencies and other relevant partners in the fight against serious and organised crime. Building on the work of successive EU organised crime threat assessments (OCTA), produced between 2006 and 2011, and in line with a new methodology developed in 2011 and 2012, this is the inaugural edition of the SOCTA.

2022 national drug threat assessment: Facing Addiction in America Office of the Surgeon General, U.S. Department of Health and Human Services, 2017-08-15 All across the United States, individuals, families, communities, and health care systems are struggling to cope with substance use, misuse, and substance use disorders. Substance misuse and substance use disorders have devastating effects, disrupt the future plans of too many young people, and all too often, end lives prematurely and tragically. Substance misuse is a major public health challenge and a priority for our nation to address. The effects of substance use are cumulative and costly for our society, placing burdens on workplaces, the health care system, families, states, and communities. The Report discusses opportunities to bring substance use disorder treatment and mainstream health care systems into alignment so that they can address a person's overall health, rather than a substance misuse or a physical health condition alone or in isolation. It also provides suggestions and recommendations for action that everyone-individuals, families, community leaders, law enforcement, health care professionals, policymakers, and researchers-can take to prevent substance misuse and reduce its consequences.

2022 national drug threat assessment: National Drug Threat Assessment and International Drug Control Paul Ziegler, 2011 The global illegal drug trade represents a multi-dimensional challenge that has implications for U.S. national interests as well as the international community. According to the U.S. intelligence community, international drug trafficking can undermine political and regional stability and bolster the role and capabilities of organised crime in the drug trade. Key regions of concern include Latin American and Afghanistan, which are focal points in U.S. efforts to combat the production and transit of cocaine and heroin, respectively. Drug use and addiction have the potential to negatively affect the social fabric of communities, hinder economic development, and place an additional burden on national public health infrastructures. This book examines U.S. international drug control policy with a focus on the impact of drugs on society, drug trafficking organisations, and the global scope of the problem.

2022 national drug threat assessment: Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of

improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

2022 national drug threat assessment: Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

2022 national drug threat assessment: Guidelines Manual United States Sentencing Commission, 1995

2022 national drug threat assessment: United States Attorneys' Manual United States. Department of Justice, 1985

2022 national drug threat assessment: 2015 National Drug Threat Assessment Summary U S S Department of Justice Department, U. S. S. Department U.S.S. Department of Justice. Department of Justice, Drug Enforcement Drug Enforcement Administration, 2017-01-22 The 2015 National Drug Threat Assessment (NDTA) Summary, a comprehensive strategic assessment of the threats posed to our communities by transnational criminal organizations and the illicit drugs they distribute throughout the United States. This annual assessment provides policymakers, law enforcement personnel, and prevention and treatment specialists with relevant strategic drug intelligence to assist in the formulation of counterdrug policies, establish law enforcement priorities, and allocate resources. The trafficking and abuse of illicit drugs pose a monumental danger to our citizens and a significant challenge for our law enforcement agencies and health care systems. The Centers for Disease Control and Prevention reported that 46,471 of our citizens died of a drug overdose in 2013, the most recent Letter from the Acting Administrator year for which this information is available. Drug overdose deaths have become the leading cause of injury death in the United States, surpassing the number of deaths by motor vehicles and by firearms every year since 2008. Overdose deaths, particularly from prescription drugs and heroin, have reached epidemic levels.

2022 national drug threat assessment: Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what

to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

2022 national drug threat assessment: CDC Yellow Book 2018: Health Information for International Travel Centers for Disease Control and Prevention CDC, 2017-04-17 THE ESSENTIAL WORK IN TRAVEL MEDICINE -- NOW COMPLETELY UPDATED FOR 2018 As unprecedented numbers of travelers cross international borders each day, the need for up-to-date, practical information about the health challenges posed by travel has never been greater. For both international travelers and the health professionals who care for them, the CDC Yellow Book 2018: Health Information for International Travel is the definitive guide to staying safe and healthy anywhere in the world. The fully revised and updated 2018 edition codifies the U.S. government's most current health guidelines and information for international travelers, including pretravel vaccine recommendations, destination-specific health advice, and easy-to-reference maps, tables, and charts. The 2018 Yellow Book also addresses the needs of specific types of travelers, with dedicated sections on: • Precautions for pregnant travelers, immunocompromised travelers, and travelers with disabilities • Special considerations for newly arrived adoptees, immigrants, and refugees • Practical tips for last-minute or resource-limited travelers • Advice for air crews, humanitarian workers, missionaries, and others who provide care and support overseas Authored by a team of the world's most esteemed travel medicine experts, the Yellow Book is an essential resource for travelers -- and the clinicians overseeing their care -- at home and abroad.

2022 national drug threat assessment: The ASAM Principles of Addiction Medicine Shannon C. Miller, Richard N. Rosenthal, Sharon Levy, Andrew J. Saxon, Jeanette M. Tetrault, Sarah E. Wakeman, 2024-02-15 Principles of Addiction Medicine, 7th ed is a fully reimagined resource, integrating the latest advancements and research in addiction treatment. Prepared for physicians in internal medicine, psychiatry, and nearly every medical specialty, the 7th edition is the most comprehensive publication in addiction medicine. It offers detailed information to help physicians navigate addiction treatment for all patients, not just those seeking treatment for SUDs. Published by the American Society of Addiction Medicine and edited by Shannon C. Miller, MD, Richard N. Rosenthal, MD, Sharon Levy, MD, Andrew J. Saxon, MD, Jeanette M. Tetrault, MD, and Sarah E. Wakeman, MD, this edition is a testament to the collective experience and wisdom of 350 medical, research, and public health experts in the field. The exhaustive content, now in vibrant full color, bridges science and medicine and offers new insights and advancements for evidence-based treatment of SUDs. This foundational textbook for medical students, residents, and addiction medicine/addiction psychiatry fellows, medical librarians and institution, also serves as a comprehensive reference for everyday clinical practice and policymaking. Physicians, mental health practitioners, NP, PAs, or public officials who need reference material to recognize and treat substance use disorders will find this an invaluable addition to their professional libraries.

2022 national drug threat assessment: Last Rights Professor Jeffrey B. Simon, 2023-12-01
Last Rights: The Fight to Save the 7th Amendment shines a bright spotlight on a grave but often overlooked effort by large corporate interests to undermine America's civil justice system and consumer rights. Trailblazing plaintiff's lawyer, Jeffrey B. Simon, wrote this book as a rallying cry for anyone who has ever been wronged by a rigged system of laws. Through riveting tales of real courtroom drama, Simon exposes the insidious influence of corporate greed and political power weaponized to repeal personal rights and weaken public safety. Last Rights is a wake-up call to consumers and lawmakers to take collective, corrective action before restoration of our civil justice system becomes unachievable. This is essential reading for anyone who cares about the future of our country, and a call to action for those who believe in justice and fairness. Reviews "At a pivotal moment in American history when we face an assault on our constitutional democracy, my friend Jeffrey B. Simon's book is an essential read. Beautifully written with erudition and personal stories, Simon underlines the importance of our right to trial by jury in ensuring justice and equality." - Matthew Dowd, Senior Political Analyst for MSNBC News "Jeffrey Simon has written a highly compelling but damning account of the damage that has been done to our rights to a jury in civil trials as guaranteed by the Constitution. The 7th Amendment has been gutted by corporate interests in this country and Simon's book is a timely call to restore it. - Senator Russ Feingold, President of the American Constitution Society Last Rights is a must read for anyone who cares about public health, protection of personal freedoms, and how they fit together. Simon's book masterfully connects those dots. - Linda Reinstein, President/CEO, Asbestos Disease Awareness Organization (ADAO)

2022 national drug threat assessment: Assessing Student Threats John Vandreal, 2011-05-16
Assessing Student Threats: A Handbook for Implementing the Salem-Keizer System is a manual for the implementation of a threat assessment system that follows the recommendations of the Safe Schools Initiative and the prescriptive outline provided by the FBI. Written from an educator's perspective with contributing authors from law enforcement, public mental health and the district attorney's office, this book contains an introduction to the basic concepts of threat assessment, a review of the research, and an outlined process for the application of a comprehensive yet expeditious multi-disciplinary system. The book also includes the protocols needed to assess threats, document concerns and interventions, and track the progress of supervision. As extra features, there are chapters on site security, community safety, adult threat assessment, and an adaptation of the system for higher education.

2022 national drug threat assessment: Woke, Inc. Vivek Ramaswamy, 2021-08-17 AN
INSTANT NEW YORK TIMES BESTSELLER! A young entrepreneur makes the case that politics has no place in business, and sets out a new vision for the future of American capitalism. There's a new invisible force at work in our economic and cultural lives. It affects every advertisement we see and every product we buy, from our morning coffee to a new pair of shoes. "Stakeholder capitalism" makes rosy promises of a better, more diverse, environmentally-friendly world, but in reality this ideology championed by America's business and political leaders robs us of our money, our voice, and our identity. Vivek Ramaswamy is a traitor to his class. He's founded multibillion-dollar enterprises, led a biotech company as CEO, he became a hedge fund partner in his 20s, trained as a scientist at Harvard and a lawyer at Yale, and grew up the child of immigrants in a small town in Ohio. Now he takes us behind the scenes into corporate boardrooms and five-star conferences, into Ivy League classrooms and secretive nonprofits, to reveal the defining scam of our century. The modern woke-industrial complex divides us as a people. By mixing morality with consumerism, America's elites prey on our innermost insecurities about who we really are. They sell us cheap

social causes and skin-deep identities to satisfy our hunger for a cause and our search for meaning, at a moment when we as Americans lack both. This book not only rips back the curtain on the new corporatist agenda, it offers a better way forward. America's elites may want to sort us into demographic boxes, but we don't have to stay there. *Woke, Inc.* begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be an American in 2021—a journey that begins with cynicism and ends with hope.

2022 national drug threat assessment: Characterization of the Synthetic Opioid Threat Profile to Inform Inspection and Detection Solutions Bryce Pardo, Lois M. Davis, Melinda Moore, 2019-11-08 Researchers from the Homeland Security Operational Analysis Center evaluated publicly available data to better understand consumption and supply of illegally imported synthetic opioids. In this report, they provide their findings and recommendations.

2022 national drug threat assessment: What's Killing America Jason Rantz, 2023-09-26 A stunning book about how America's biggest cities are being destroyed by progressive policies and woke Democrats. Many Americans have no idea how badly our largest, Democrat-run cities have deteriorated. We've been complacent for far too long, assuming that the craziest elements of the radical Left would stay confined to the East and West coasts. But crime, drug addiction, homelessness, left-wing school indoctrination, so-called inclusive housing policies, and outrageous taxes don't stay within the big city limits of places like Los Angeles, Chicago, Portland, New York, Seattle, and San Francisco. The effects of ideologically driven left-wing policies always spread, which should alarm Americans regardless of their political leanings. Jason Rantz is a prominent radio host, a trusted journalist, and a frequent Fox News guest unafraid to go directly into the action. He's grown a national following by breaking news the mainstream media won't, covering the consequences of destructive leftist policies wherever they occur. He was right there for the chaos in his hometown of Seattle when liberal anarchists declared an autonomous, police-free "CHOP Zone." He infiltrates the Antifa marches and knows firsthand how those radicals operate. This is the shocking story of what he's learned. Employing on-the-ground reporting and fact-based analysis, Rantz zooms out to conduct a fascinating detailed, data-driven study of how these liberal policies result in chaos, misery, and (too often) bloodshed. He skillfully recounts the tragic events with a narrative reporter's eye for detail to tell the true story of what's happening in America's cities.

2022 national drug threat assessment: Annual Threat Assessment Director of Nat'l Intelligence, 2021-04 The American people should know as much as possible about the threats facing our nation and what their intelligence agencies are doing to protect them. -Avril Haines, Director of National Intelligence (2021) Annual Threat Assessment of the US Intelligence Community (2021) is an annual report of worldwide threats to the national security of the United States compiled by the US Intelligence Community. It warns of the many perils facing the US, including China's increasing power, the geopolitical risks of Russia, Iran and North Korea, the long-term economic fallout of COVID-19, and global as well as domestic terrorism. This brief report with its short-term threat assessment is a good companion guide to *Global Trends 2040-A More Contested World* a 2021 report by the National Intelligence Council, which describes specifically long-term global challenges (also available from Cosimo Reports). Students of national security, policymakers, journalists, and anyone interested in US security will find this report essential reading.
