2023 democratic primary voters guide: Learning from Loss Seth Masket, 2020-09-22 The Democrats' decision to nominate Joe Biden for 2020 was hardly a fluke but rather a strategic choice by a party that had elevated electability above all other concerns. In *Learning from Loss*, one of the nation's leading political analysts offers unique insight into the Democratic Party at a moment of uncertainty. Between 2017 and 2020, Seth Masket spoke with Democratic Party activists and followed the behavior of party leaders and donors to learn how the party was interpreting the 2016

election and thinking about a nominee for 2020. Masket traces the persistence of party factions and shows how interpretations of 2016 shaped strategic choices for 2020. Although diverse narratives emerged to explain defeat in 2016 - ranging from a focus on 'identity politics' to concerns about Clinton as a flawed candidate - these narratives collectively cleared the path for Biden.

2023 democratic primary voters guide: The Untold Story of Women of Color in the League of Women Voters Carolyn Jefferson-Jenkins, 2020-02-24 The *Untold Story of Women of Color in the League of Women Voters* explores ways in which these women have been marginalized and recognizes how their contributions will positively influence the organization as it moves into its next 100 years. On February 14, 2020, the League of Women Voters of the United States celebrated the 100th anniversary of its founding. Although women of color have always made significant contributions to women's suffrage and the women's movements, their contributions, particularly as they relate to the League of Women Voters (LWV), have been marginalized and relegated to the footnotes of the organization's history. The *Untold Story of Women of Color in the League of Women Voters* adds a new dimension to these conversations. The book is structured to show the progression of the relationship between the League of Women Voters and its members of color as manifested in changes to its policies, practices, symbols, and messaging. It begins with the suffrage movement and continues until the celebration of the 100th anniversary of the League and uses actual correspondence, convention minutes, existing League histories, and personal accounts to tell the League story. Chapter titles disclose the philosophical shifts in attitude at each stage of the organization's evolution.

2023 democratic primary voters guide: A Crucible Moment National Task Force on Civic Learning and Democratic Engagement, Association of American Colleges and Universities, 2012 This report from the National Task Force on Civic Learning and Democratic Engagement calls on the nation to reclaim higher education's civic mission. Commissioned by the Department of Education and released at a White House convening in January 2012, the report pushes back against a prevailing national dialogue that limits the mission of higher education to workforce preparation and training while marginalizing disciplines basic to democracy. It calls on educators and public leaders to advance a 21st century vision of college learning for all students, a vision with civic learning and

democratic engagement an expected part of every student's college education. The report documents the nation's anemic civic health and includes recommendations for action that address campus culture, general education, and civic inquiry as part of major and career fields as well as hands on civic problem solving across differences. This report was prepared at the invitation of the U.S. Department of Education under the leadership of the Global Perspective Institute, Inc. (GPI) and AAC&U. It was developed with input from a series of national roundtables involving leaders from all parts of the higher education and civic renewal communities.

2023 democratic primary voters guide: Why Do We Still Have the Electoral College? Alexander Keyssar, 2020-07-31 A New Statesman Book of the Year “America’s greatest historian of democracy now offers an extraordinary history of the most bizarre aspect of our representative democracy—the electoral college...A brilliant contribution to a critical current debate.” —Lawrence Lessig, author of *They Don’t Represent Us* Every four years, millions of Americans wonder why they choose their presidents through an arcane institution that permits the loser of the popular vote to become president and narrows campaigns to swing states. Congress has tried on many occasions to alter or scuttle the Electoral College, and in this master class in American political history, a renowned Harvard professor explains its confounding persistence. After tracing the tangled origins of the Electoral College back to the Constitutional Convention, Alexander Keyssar outlines the constant stream of efforts since then to abolish or reform it. Why have they all failed? The complexity of the design and partisan one-upmanship have a lot to do with it, as do the difficulty of passing constitutional amendments and the South’s long history of restrictive voting laws. By revealing the reasons for past failures and showing how close we’ve come to abolishing the Electoral College, Keyssar offers encouragement to those hoping for change. “Conclusively demonstrates the absurdity of preserving an institution that has been so contentious throughout U.S. history and has not infrequently produced results that defied the popular will.” —Michael Kazin, *The Nation* “Rigorous and highly readable...shows how the electoral college has endured despite being reviled by statesmen from James Madison, Thomas Jefferson, and Andrew Jackson to Edward Kennedy, Bob Dole, and Gerald Ford.” —Lawrence Douglas, *Times Literary Supplement*

2023 democratic primary voters guide: Becoming a Democracy Kristin Eberhard, 2021-01-11 The United States wasn't built as a democracy. The Senate doesn't represent people. Both sides hate gerrymandering and the courts refuse to fix it. Our right to be heard is defeated by voter suppression and an Electoral College system that concentrates power in a handful of states and too often reverses the popular vote. But within our flawed system, we have the tools to tackle our most stubborn election problems by flexing state and local power (no constitutional amendments or courts required). Kristin Eberhard, Director of Democracy at Sightline Institute, thoughtfully researched how the U.S. election system is unjust to many by design, and walks us through 10 big but practical ideas for making our elections free, fair, and secure. A field guide to better elections for both sides of the aisle, *Becoming a Democracy* illuminates the meaningful, concrete actions that we can take to transform our elections and make sure everyone's vote counts (and that we all get to vote in the first place).

2023 democratic primary voters guide: Votes of Confidence Jeff Fleischer, 2024-03-05 A

detailed primer on the United States election cycle - newly revised and updated! Every four years, coverage of the presidential election turns into a horse-race story about who's leading the polls and who said what when. Social media and online news have made it easier to spread false information (even by accident) and harder to know what's accurate. It can be difficult to get good information about how the election process actually works, why it matters, or how you can get involved. Civics education and information about how our government functions is necessary whether you're a longtime voter or a soon-to-be voter. This newly revised edition includes statistics and anecdotes from recent elections alongside straightforward, nonpartisan analysis and explanation. Author Jeff Fleischer uses a fun, casual voice and real-world examples to provide an essential resource that will remain relevant long after the next president is elected. Praise for the second edition of *Votes of Confidence*: A very readable, engaging, and entertaining history of American elections and politics for young people.—starred, Booklist Reads like course notes from a beloved teacher . . . 2023 democratic primary voters guide: Democracy Unmoored SAMUEL. ISSACHAROFF, Samuel Issacharoff, 2023 About a decade ago, I found myself alone for dinner one evening in Buenos Aires, the city of my birth. I had a lecture to give the next day and I had reserved the time alone to prepare over dinner in a typical neighborhood restaurant. Such a boliche, in the local porteño slang, was a comfortable setting to have a meal. I sat down with typical Argentine fare and the inescapable good wine and turned to my lecture materials. I soon found myself distracted by an excellent soccer match shown on a large screen tv that had been brought in for the occasion. A couple of glasses of tinto, the reds of Mendoza province, and a close football game, and I accepted that lecture preparation was concluded--
