2200 business center dr pearland tx 77584: They Like Jesus but Not the Church Dan Kimball, 2009-05-26 Many people today, especially among emerging generations, don't resonate with the church and organized Christianity. Some are leaving the church and others were never part of the church in the first place. Sometimes it's because of misperceptions about the church. Yet often they are still spiritually open and fascinated with Jesus. This is a ministry resource book exploring six of the most common objects and misunderstandings emerging generations have about the church and Christianity. The objections come from conversations and interviews the church has had with unchurched twenty and thirty-somethings at coffee houses. Each chapter raises the objection using a conversational approach, provides the biblical answers to that objection, gives examples of how churches are addressing this objection, and concludes with follow-through projection suggestions, discussion questions, and resource listings.

Some questions you never think to ask. Others, you didn't know you didn't know. And some facts are so surprising they cry out for answers. What can a president actually do? Why do cities sink into the ground? Why is Australia seemingly invulnerable to recessions? Why do people in couples do more housework than singletons? The brilliant minds of the Economist collect these questions.

Individually, they might seem bite-sized and inconsequential, but taken together they can reveal a whole new world.

2200 business center dr pearland tx 77584: Houston's Hermann Park Alice (Barrie) M. Scardino Bradley, 2013-11-08 Richly illustrated with rare period photographs, Houston's Hermann Park: A Century of Community provides a vivid history of Houston's oldest and most important urban park. Author and historian Barrie Scardino Bradley sets Hermann Park in both a local and a national context as this grand park celebrates its centennial at the culmination of a remarkable twenty-year rejuvenation. As Bradley shows, Houston's development as a major American city may be traced in the outlines of the park's history. During the early nineteenth century, Houston leaders were most interested in commercial development and connecting the city via water and rail to markets beyond its immediate area. They apparently felt no need to set aside public recreational space, nor was there any city-owned property that could be so developed. By 1910, however, Houston leaders were well aware that almost every major American city had an urban park patterned after New York's Central Park. By the time the City Beautiful Movement and its overarching Progressive Movement reached the consciousness of Houstonians, Central Park's designer, Frederick Law Olmsted, had died, but his ideals had not. Local advocates of the City Beautiful Movement, like their counterparts elsewhere, hoped to utilize political and economic power to create a beautiful, spacious, and orderly city. Subsequent planning by the renowned landscape architect and planner George Kessler envisioned a park that would anchor a system of open spaces in Houston. From that groundwork, in May 1914, George Hermann publicly announced his donation of 285 acres to the City of Houston for a municipal park. Bradley develops the events leading up to the establishment of Hermann Park, then charts how and why the park developed, including a discussion of institutions within the park such as the Houston Zoo, the Japanese Garden, and the Houston Museum of Natural Science. The book's illustrations include plans, maps, and photographs both historic and recent that document the accomplishments of the Hermann Park Conservancy since its founding in 1992. Royalties from sales will go to the Hermann Park Conservancy for stewardship of the park on behalf of the community.
