Introduction:

This article explores the remarkable lives and contributions of 28 black history figures, showcasing the breadth and depth of Black influence across various fields. Focusing on a specific selection of 28 black history figures allows us to delve deeper into individual stories and analyze their collective impact on society. This carefully curated selection of 28 black history figures represents a diverse range of

experiences, achievements, and struggles, highlighting the enduring strength and resilience of the Black community. The list of 28 black history figures is not exhaustive, but rather a representative sample designed to inspire further exploration and learning.

Section 1: Pioneers of Civil Rights and Social Justice (7 of the 28 black history figures)

This section of our exploration of 28 black history figures centers on individuals who fiercely fought for equality and justice. We will examine the lives and legacies of figures like Martin Luther King Jr., whose philosophy of nonviolent resistance profoundly shaped the Civil Rights Movement; Rosa Parks, whose courageous act of defiance ignited the Montgomery Bus Boycott; and Malcolm X, whose powerful advocacy for Black empowerment resonated with a generation. Other crucial figures within this subset of the 28 black history figures include Harriet Tubman, the courageous conductor on the Underground Railroad; Ida B. Wells-Barnett, an anti-lynching activist and journalist; W.E.B. Du Bois, a pioneering sociologist and Pan-Africanist; and Medgar Evers, a prominent NAACP leader assassinated for his civil rights work. These 7 of the 28 black history figures represent a critical era in the fight for equality.

Section 2: Artistic and Literary Luminaries (7 of the 28 black history figures)

The artistic contributions of Black individuals have enriched the world immeasurably. This section of our focus on 28 black history figures will explore the genius of Langston Hughes, a central figure of the Harlem Renaissance; August Wilson, a Pulitzer Prize-winning playwright whose work captured the Black experience in America; Toni Morrison, a Nobel Prize-winning author whose novels explored themes of race, identity, and history; and Nina Simone, a legendary singer and civil rights activist whose music transcended genres. The list of 28 black history figures would also be incomplete without recognizing the artistic talents of Bessie Smith, the “Empress of the Blues,” Jean-Michel Basquiat, the influential Neo-expressionist painter, and James Baldwin, a celebrated essayist and novelist. These 7 of the 28 black history figures demonstrate the power of art as a tool for social commentary and cultural preservation.

Section 3: Scientific and Technological Innovators (7 of the 28 black history figures)

The world owes a significant debt to the scientific and technological contributions of Black individuals. This segment of our look at 28 black history figures will highlight the achievements of Dr. Charles Drew, a pioneering surgeon who revolutionized blood storage techniques; Katherine Johnson, Dorothy Vaughan, and Mary Jackson, brilliant mathematicians whose calculations were crucial to NASA's space program; Mae C. Jemison, the first African American woman to travel to space; and George Washington Carver, an agricultural scientist who developed hundreds of uses for crops like peanuts and soybeans. These 7 of the 28 black history figures exemplify the power of ingenuity and dedication to advancing knowledge.

Section 4: Leaders in Politics and Activism (7 of the 28 black history figures)

Black leadership has been instrumental in shaping the political landscape and advocating for social change. This section of our study of 28 black history figures will explore the lives of Barack Obama, the first African American president of the United States; Shirley Chisholm, the first African American woman elected to Congress; Jesse Jackson, a prominent civil rights leader and activist; Condoleezza Rice, the first African American woman to serve as Secretary of State; Madam C.J. Walker, a self-made millionaire and philanthropist; Frederick Douglass, a renowned abolitionist, orator, and writer; and Angela Davis, a prominent activist, scholar, and professor. These 7 of the 28 black history figures represent the diversity of leadership within the Black community and their enduring contributions to political progress.

Conclusion:

This exploration of 28 black history figures has only scratched the surface of the immense contributions made by Black individuals throughout history. These 28 black history figures represent a diverse tapestry of achievement, resilience, and perseverance. By learning about their lives and struggles, we can gain a deeper understanding of the challenges faced by the Black community and

the transformative power of collective action and individual determination. The legacies of these 28 black history figures serve as a powerful inspiration for future generations to continue the fight for justice, equality, and progress.

28 black history figures: 100 Greatest African Americans Molefi Kete Asante, 2010-06-28

Since 1619, when Africans first came ashore in the swampy Chesapeake region of Virginia, there have been many individuals whose achievements or strength of character in the face of monumental hardships have called attention to the genius of the African American people. This book attempts to distill from many wonderful possibilities the 100 most outstanding examples of greatness. Pioneering scholar of African American Studies Molefi Kete Asante has used four criteria in his selection: the individual's significance in the general progress of African Americans toward full equality in the American social and political system; self-sacrifice and the demonstration of risk for the collective good; unusual will and determination in the face of the greatest danger or against the most stubborn odds; and personal achievement that reveals the best qualities of the African American people. In adopting these criteria Professor Asante has sought to steer away from the usual standards of popular culture, which often elevates the most popular, the wealthiest, or the most photogenic to the cult of celebrity. The individuals in this book - examples of lasting greatness as opposed to the ephemeral glare of celebrity fame - come from four centuries of African American history. Each entry includes brief biographical information, relevant dates, an assessment of the individual's place in African American history with particular reference to a historical timeline, and a discussion of his or her unique impact on American society. Numerous pictures and illustrations will accompany the articles. This superb reference work will complement any library and be of special interest to students and scholars of American and African American history.

28 black history figures: The Omni-Americans Albert Murray, 2020-02-04 Rediscover the “most important book on black-white relationships” in America in a special 50th anniversary edition introduced by Henry Louis Gates, Jr. (Walker Percy) “The United States is in actuality not a nation of black people and white people. It is a nation of multicolored people . . . Any fool can see that the white people are not really white, and that black people are not black. They are all interrelated one way or another.” These words, written by Albert Murray at the height of the Black Power movement, cut against the grain of their moment, and announced the arrival of a major new force in American letters. In his 1970 classic *The Omni-Americans*, Murray took aim at protest writers and social scientists who accentuated the “pathology” of race in American life. Against narratives of marginalization and victimhood, Murray argued that black art and culture, particularly jazz and blues, stand at the very headwaters of the American mainstream, and that much of what is best in American art embodies the “blues-hero tradition”—a heritage of grace, wit, and inspired improvisation in the face of adversity. Reviewing *The Omni-Americans* in 1970, Walker Percy called it “the most important book on black-white relationships . . . indeed on American culture . . . published in this generation.” As Henry Louis Gates, Jr. makes clear in his introduction, Murray’s singular poetic voice, impassioned argumentation, and pluralistic vision have only become more urgently needed today.

28 black history figures: This Is Your Time Ruby Bridges, 2020-11-10 NEW YORK TIMES BESTSELLER • CBC KIDS’ BOOK CHOICE AWARD WINNER Civil rights icon Ruby Bridges—who, at the age of six, was the first black child to integrate into an all-white elementary school in New Orleans—inspires readers and calls for action in this moving letter. Her elegant, memorable gift book is especially uplifting in the wake of Kamala Harris making US history as the first female, first Black, and first South Asian vice president-elect. Written as a letter from civil rights activist and icon Ruby Bridges to the reader, *This Is Your Time* is both a recounting of Ruby’s experience as a child who had to be escorted to class by federal marshals when she was chosen to be one of the first black students to integrate into New Orleans’ all-white public school system and an appeal to generations to come to effect change. This beautifully designed volume features photographs from the 1960s and from today, as well as stunning jacket art from *The Problem We All Live With*, the 1964 painting by Norman Rockwell depicting Ruby’s walk to school. Ruby’s honest and impassioned

words, imbued with love and grace, serve as a moving reminder that “what can inspire tomorrow often lies in our past.” This *Is Your Time* will electrify people of all ages as the struggle for liberty and justice for all continues and the powerful legacy of Ruby Bridges endures.

28 black history figures: *Unbought and Unbossed* Shirley Chisholm, 2022-11-08 A tremendously impressive book.--Washington Post Her motto and title of her autobiography--*Unbossed and Unbought*--illustrates her outspoken advocacy for women and minorities during her seven terms in the U.S. House of Representatives.--National Women's History Museum In this classic work--a blend of memoir social criticism, and political analysis that remains relevant today--the first Black Congresswoman to serve in American history, New York's dynamic representative Shirley Chisholm, traces her extensive political struggle and examines the problems that have long plagued the American system of government. I want to be remembered as a woman . . . who dared to be a catalyst of change. Political pioneer Shirley Chisholm--activist, member of the House of Representatives and former presidential candidate--was a woman who consistently broke barriers and inspired generations of American women, and especially women of color. *Unbossed and Unbought* is her story, told in her own words--a thoughtful and informed look at her rise from the streets of Brooklyn to the halls of Congress. Chisholm speaks out on her life in politics while illuminating the events, personalities, and issues of her time, including the schism in the Democratic party in the 1960s and '70s--all which speak to us today. In this frank assessment, Fighting Shirley recalls how she took on an entrenched system, gave a public voice to millions, and embarked on a trailblazing bid to be the first woman and first African American President of the United States. By daring to be herself, Shirley Chisholm shows how one person forever changed the status quo.

28 black history figures: *A House Built by Slaves* Jonathan W. White, 2022-02-12 Readers of American history and books on Abraham Lincoln will appreciate what Los Angeles Review of Books deems an accessible book that puts a human face — many human faces — on the story of Lincoln's

attitudes toward and engagement with African Americans and Publishers Weekly calls a rich and comprehensive account. Widely praised and winner of the 2023 Gilder Lehrman Lincoln Prize, this book illuminates why Lincoln's unprecedented welcoming of African American men and women to the White House transformed the trajectory of race relations in the United States. From his 1862 meetings with Black Christian ministers, Lincoln began inviting African Americans of every background into his home, from ex-slaves from the Deep South to champions of abolitionism such as Frederick Douglass and Sojourner Truth. More than a good-will gesture, the president conferred with his guests about the essential issues of citizenship and voting rights. Drawing from an array of primary sources, White reveals how African Americans used the White House as a national stage to amplify their calls for equality. Even more than 160 years after the signing of the Emancipation Proclamation, Lincoln's inclusion of African Americans remains a necessary example in a country still struggling from racial divisions today.

28 black history figures: Haben Haben Girma, 2019-08-06 The incredible life story of Haben Girma, the first Deafblind graduate of Harvard Law School, and her amazing journey from isolation to the world stage. Haben grew up spending summers with her family in the enchanting Eritrean city of Asmara. There, she discovered courage as she faced off against a bull she couldn't see, and found in herself an abiding strength as she absorbed her parents' harrowing experiences during Eritrea's thirty-year war with Ethiopia. Their refugee story inspired her to embark on a quest for knowledge, traveling the world in search of the secret to belonging. She explored numerous fascinating places, including Mali, where she helped build a school under the scorching Saharan sun. Her many adventures over the years range from the hair-raising to the hilarious. Haben defines disability as an opportunity for innovation. She learned non-visual techniques for everything from dancing salsa to handling an electric saw. She developed a text-to-braille communication system that created an exciting new way to connect with people. Haben pioneered her way through obstacles, graduated from Harvard Law, and now uses her talents to advocate for people with disabilities. Haben takes readers through a thrilling game of blind hide-and-seek in Louisiana, a treacherous climb up an iceberg in Alaska, and a magical moment with President Obama at The White House. Warm, funny, thoughtful, and uplifting, this captivating memoir is a testament to one woman's determination to find the keys to connection. This autobiography by a millennial Helen Keller teems with grace and grit. -- O Magazine A profoundly important memoir. -- The Times ** As featured in The Wall Street Journal, People, and on The TODAY Show ** A New York Times New & Noteworthy Pick ** An O Magazine Book of the Month Pick ** A Publishers Weekly Bestseller **

28 black history figures: African American Political Thought Melvin L. Rogers, Jack Turner, 2021-05-07 African American Political Thought offers an unprecedented philosophical history of thinkers from the African American community and African diaspora who have addressed the central issues of political life: democracy, race, violence, liberation, solidarity, and mass political action. Melvin L. Rogers and Jack Turner have brought together leading scholars to reflect on individual intellectuals from the past four centuries, developing their list with an expansive approach to political expression. The collected essays consider such figures as Martin Delany, Ida B. Wells, W. E. B. Du Bois, James Baldwin, Toni Morrison, and Audre Lorde, whose works are addressed by scholars such as Farah Jasmine Griffin, Robert Gooding-Williams, Michael Dawson, Nick Bromell, Neil Roberts, and Lawrie Balfour. While African American political thought is inextricable from the historical movement of American political thought, this volume stresses the individuality of Black thinkers, the transnational and diasporic consciousness, and how individual speakers and writers draw on various traditions simultaneously to broaden our conception of African American political ideas. This landmark volume gives us the opportunity to tap into the myriad and nuanced political theories central to Black life. In doing so, African American Political Thought: A Collected History transforms how we understand the past and future of political thinking in the West.

28 black history figures: The Amityville Horror Jay Anson, 2019-12-03 "A fascinating and frightening book" (Los Angeles Times)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with boathouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned into a nightmare beyond imagining—"this book will scare the hell out of you" (Kansas City Star).

28 black history figures: The 48 Laws of Power Robert Greene, 2023-10-31 Amoral, cunning,

ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

28 black history figures: Oneness Embraced Tony Evans, 2015-10-06 With the Bible as a guide and heaven as the goal, *Oneness Embraced* calls God's people to kingdom-focused unity. It tells us why we don't have it, what we need to get it, and what it will look like when we do. Mr. Evans weaves his own story into this word to the church.

28 black history figures: *Black People Invented Everything* Dr. Sujan K. Dass, 2020-02-01 Who invented the traffic light? What about transportation itself? Farming? Art? Modern chemistry? Who made...cats? What if I told you there was ONE answer to all of these questions? That one answer? BLACK PEOPLE! Seriously. And this book is like a mini-encyclopedia, full of more evidence than WikiLeaks and just as eye-opening! Do you know just how much Black inventors and creators have given to modern society? Within the past 200 years, Black Americans have drawn on a timeless well of inner genius to innovate and engineer the design of the world we live in today. But what of all the Black history before then? Before white people invented the Patent Office, Black folks were the original creators and builders, developing ingenious ways to manage the world's changes over millions of years, everywhere you can imagine, from Azerbaijan to Zagazig! With wit and wisdom (and tons of pictures!) this book digs deeper than the whitewashed history we learn in school books and explores how our African ancestors established the foundation of modern society! Have you inherited this genius? What can you do with it? Inspired by solutions from the past, we can develop strategies for a successful future!

28 black history figures: Black History - White History Barbara Korte, Eva Ulrike Pirker, 2014-03-31 Britain's recent historical culture is marked by a shift. As a consequence of new political directives, black history began to be mainstreamed into the realm of national history from the late 1990s onwards. »Black History - White History« assesses a number of manifestations of this new cultural historiography on screen and on stage, in museums and other accessible sites, emerging in the context of two commemorative events: the Windrush anniversary and the 1807 abolition bicentenary. It inquires into the terms on which the new historical programme could take hold, its sustainability and its representational politics.
