3175 science park drive beachwood ohio 44122: The Rock Orchard Paula Wall, 2010-05-11 Some women can touch a man and heal like Jesus. The man who sees sunrise from a Belle woman's bed will swear he's been born again. So begins Paula Wall's funny, poignant, and sexy novel, The Rock Orchard. Musette Belle could lay her hand on a baby's heart and see his life as if he'd already lived it. Even in death, she continues to shock the good citizens of Leaper's Fork, Tennessee, and her descendents are doing their best to carry on her legacy. Angela Belle, a haunting and beautiful siren, lures every man she meets into greatness, while her illegitimate and very independent daughter, Dixie, serves tea and vanilla wafers to the statue of the Confederate soldier she believes is her father. But when Charlotte Belle, a woman who would rather spend the night with Jack Daniel's than any man she knows, seduces a stranger in the cemetery, it not only transforms the two people involved but the entire town. Blending sensuality, wisdom, and wry wit to create a truly unique love story, The Rock Orchard is about the strength of community, the might of God, and the ultimate power of extraordinary women.

3175 science park drive beachwood ohio 44122: Why Don't Woodpeckers Get Headaches? Mike O'Connor, 2010-07-01 In 1983, Mike O'Connor opened the Bird Watcher's General Store on Cape Cod, which might well have been the first store devoted solely to birding in the United States. Since that time he has answered thousands of questions about birds, both at his store and while walking down the aisles of the supermarket. The questions have ranged from inquiries about individual species (Are flamingos really real?) to what and when to feed birds (Should I bring in my feeders for the summer?) to the down-and-dirty specifics of backyard birding (Why are the birds dropping poop in my pool?). Answering the questions has been easy; keeping a straight face has been hard. *Why Don't Woodpeckers Get Headaches?* is the solution for the

beginning birder who already has a book that explains the slight variation between Common Ground-Doves and Ruddy Ground-Doves but who is really much more interested in why birds sing at 4:30 A.M. instead of 7:00 A.M., or whether it's okay to feed bread to birds, or how birds rediscover your feeders so quickly when you've just filled them after a long vacation. Or, for that matter, whether flamingos are really real.
