10 questions to ask someone about 9 11: After 9/11 Helaina Hovitz, 2016-09-09 "You are a herald for your generation....Thank you for using your voice to help us make sense of that dark day, and forge a new beginning."—Hillary Rodham Clinton, in a letter to Helaina Hovitz Helaina Hovitz was twelve years old and in middle school just blocks away when the World Trade Center was attacked. Her memoir encapsulates the journey of a girl growing up with PTSD after living through the events firsthand. After 9/11 chronicles its effects on a young girl at the outset of adolescence, following her as she spirals into addiction and rebellion, through loss, chaos, and confusion. The events and experiences that are now common knowledge to everyone were a very real part of Helaina's life and are still as vivid in her memory today. The sickening thud of falling bodies hitting cars, and the crumbling towers, her universe engulfed literally in a cloud, was all so much for a young girl to experience. Hundreds were stranded in the neighborhood, including Helaina, without phones or electricity or anyone to help. For fear of subsequent attack, not to mention the toxic

substances in the air, few went outside. In the wake of 9/11, fear and despair took over her life. It would take Helaina more than a decade to overcome the PTSD—and subsequent alcohol addiction—that went misdiagnosed and mistreated for so many years. In many ways, After 9/11 is the story of a generation growing up in the aftermath of America's darkest day—and for one young woman, it is the story of a survivor who, after witnessing the end, got to make a new beginning.

10 questions to ask someone about 9 11: *Why Do You Ask?* Alice Freed, Susan Ehrlich, 2010-01-26 The act of questioning is the primary speech interaction between an institutional speaker and someone outside the institution. These roles dictate their language practices. *Why Do You Ask?* is the first collected volume to focus solely on the question/answer process, drawing on a range of methodological approaches like Conversational Analysis, Discourse Analysis, Discursive Psychology, and Sociolinguistics-and using as data not just medical, legal, and educational environments, but also less-studied institutions like telephone call centers, broadcast journalism (i.e. talk show interviews), academia, and telemarketing. An international roster of well-known contributors addresses such issues as: the relationship between the syntax of the question and its discourse function; the kind of institutional work that questions perform; the degree to which the questioner can control the direction of the conversation; and how questions are used to repackage responses, to construct meaning, and to serve the institutional goals of speakers. *Why Do You Ask?* will appeal to linguists and others interested in institutional discourse, as well as those interested in the grammatical/pragmatic nature of questions.
