1000 questions to ask: A More Beautiful Question Warren Berger, 2014-03-04 To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

1000 questions to ask: The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

It took years of research, university teaching, and hundreds of client projects for Will to formulate his concept behind the art of asking powerful questions. In his book, Will breaks it down into six simple steps for all of us to be able to understand. The Asking Powerful Questions Pyramid(tm) shows you how to build: Intention Rapport Openness Listening Empathy Business professionals, personal coaches, teachers and anyone in a position of leadership will relate to the personal successes and failures Will shares as he unpacks the art of asking questions that elicit unconventional answers. 1000 questions to ask: One Thousand White Women Jim Fergus, 2010-04-01 Based on an actual historical event but told through fictional diaries, this is the story of May Dodd—a remarkable woman who, in 1875, travels through the American West to marry the chief of the Cheyenne Nation. *One Thousand White Women* begins with May Dodd's journey into an unknown world. Having been committed to an insane asylum by her blue-blood family for the crime of loving a man beneath her station, May finds that her only hope for freedom and redemption is to participate in a secret government program whereby women from "civilized" society become the brides of Cheyenne warriors. What follows is a series of breathtaking adventures—May's brief, passionate romance with the gallant young army captain John Bourke; her marriage to the great chief Little Wolf; and her conflict of being caught between loving two men and living two completely different lives. "Fergus portrays the perceptions and emotions of women...with tremendous insight and sensitivity."—Booklist "A superb tale of sorrow, suspense, exultation, and triumph." —Winston Groom, author of *Forrest Gump*
