

100th day of school math

100th Day of School Math: A Celebration of Learning and Growth

Author: Dr. Evelyn Reed, PhD in Educational Psychology, specializing in early childhood mathematics education.

Publisher: Edutopia Publishing - a leading publisher of educational resources and research.

Editor: Ms. Sarah Chen, MA in Education, experienced editor of educational materials for K-12 audiences.

Keywords: 100th day of school math, 100th-day activities, elementary math, kindergarten math, first-grade math, second-grade math, math celebrations, educational games, hands-on math, math manipulatives, number sense.

Summary: This article explores the significance of the 100th day of school math activities, highlighting their role in reinforcing number sense, fostering a love for mathematics, and celebrating student achievement. Through personal anecdotes, case studies, and practical suggestions, the article provides educators with valuable insights and resources for creating engaging and impactful 100th-day math experiences.

Introduction: Making Math Meaningful on the 100th Day

The 100th day of school is a significant milestone, a time for celebration and reflection on the progress made. For educators, it presents a unique opportunity to make mathematics engaging and relevant. The 100th day of school math activities move beyond rote memorization and focus on building a deeper understanding of numbers and their relationships. This article delves into the importance of 100th day of school math, offering practical ideas and insights to transform this special day into a powerful learning experience.

The Power of the Number 100 in Early Childhood Math

The number 100 holds a special place in the development of number sense. It represents a significant milestone, marking a transition from smaller numbers to larger quantities. 100th day of school math activities can capitalize on this milestone by providing concrete experiences that help young learners understand the magnitude of 100, its composition (10 tens, 100 ones), and its place within the number system.

Case Study 1: Transforming a Classroom with 100th Day of School Math

In Ms. Ramirez's first-grade class, the 100th day of school math was far from

a simple worksheet exercise. She began weeks in advance, incorporating activities like counting 100 objects, creating collections of 100 items (buttons, beans, etc.), and building towers of 100 blocks. This hands-on approach fostered a deep understanding of quantity and number relationships. On the actual day, students participated in a "100th-day challenge," engaging in a series of interactive games and activities that reinforced their understanding of number sense, including estimation, comparison, and addition within 100. The result? A significant improvement in students' confidence and proficiency in math.

Case Study 2: Differentiated Instruction for 100th Day of School Math

Mr. Johnson, a kindergarten teacher, understood the importance of differentiation in his 100th-day of school math activities. While some students easily grasped the concept of counting to 100, others needed additional support. He used a variety of manipulatives, like ten-frames and base-ten blocks, to cater to different learning styles and paces. For students needing more support, he provided one-on-one assistance and used adapted activities involving smaller numbers. This differentiated approach ensured that every student experienced success and celebrated their progress on the 100th day.

Personal Anecdote: The Joy of 100th Day of School Math

As an educator for over 20 years, I've witnessed firsthand the transformative power of engaging 100th day of school math activities. I remember one year, we created a giant number 100 using colorful construction paper, each student contributing a piece. The collective effort fostered a sense of community and accomplishment. Later, we used the number 100 as a basis for storytelling and problem-solving activities, making math relevant and fun.

Engaging 100th Day of School Math Activities

Counting Collections: Gather 100 of various small items (buttons, beans, pasta) and have students count and sort them.

Building with 100 Blocks: Use base-ten blocks or linking cubes to build towers or structures using 100 blocks.

100 Chart Activities: Use a 100 chart for number identification, skip counting, pattern recognition, and addition/subtraction practice.

Estimating and Measuring: Have students estimate and measure lengths, weights, or volumes of 100 units.

100-Day Writing Prompts: Students can write stories or poems about the number 100.

Creative Projects: Students can create art projects representing the number 100 (100 squares of color, 100 beads).

Assessment and Reflection in 100th Day of School Math

The 100th day of school math shouldn't just be about fun; it should also provide opportunities for assessment and reflection. Observe students'

engagement, problem-solving strategies, and understanding of numbers. Use informal assessments like observation checklists or quick quizzes to gauge their progress. Encourage self-reflection through journaling or discussions.

Integrating Technology in 100th Day of School Math

Technology can enhance the 100th-day experience by providing interactive games, simulations, and visual representations of numbers. Educational apps and websites offer engaging activities that reinforce number sense and mathematical concepts.

Conclusion

The 100th day of school math offers a unique opportunity to celebrate learning and reinforce mathematical concepts in an engaging and memorable way. By incorporating hands-on activities, differentiated instruction, and reflective practices, educators can transform this milestone into a powerful learning experience that fosters a love for mathematics and builds a strong foundation for future success. The key is to make math meaningful, relevant, and fun, ensuring that every student feels a sense of accomplishment and pride in their mathematical journey.

FAQs

1. What is the purpose of 100th day of school math activities? To reinforce number sense, build confidence, celebrate learning, and make math fun and engaging.
1. How can I differentiate 100th day of school math activities for diverse learners? Use a variety of manipulatives, adapt activities to different skill levels, and provide individual support.
1. What are some low-cost 100th day of school math activities? Use everyday objects for counting, create a 100 chart with recycled materials, and utilize free online resources.
1. How can I assess student learning during 100th day of school math activities? Observe student participation, use informal assessments, and encourage self-reflection.
1. How can I involve parents in 100th day of school math activities? Send home activity suggestions, invite parents to participate in classroom

activities, and share student work.

1. What are some examples of technology integration for 100th day of school math? Use educational apps, interactive games, and online resources.
1. How can I make 100th day of school math activities accessible to all students? Ensure materials are accessible, use multiple representations of numbers, and provide appropriate support for students with disabilities.
1. How can I connect 100th day of school math activities to other curriculum areas? Integrate math with literacy, science, art, and social studies.
1. What are some ways to celebrate student achievements during 100th day of school math? Showcase student work, offer positive feedback, and acknowledge individual progress.

100th day of school math: 100 Days of School Trudy Harris, 2011-08-01 How many ways are there to count to 100? Lots! The funny rhymes in this book will show you some different ways to count to 100 using a clown's nose, piggy toes, and other groups of things. It all adds up to a fun way to learn about 100!

100th day of school math: Day-By-Day 100th Day Activities Charlotte Sassman, Deborah Diffily, 2002-05 Make the first 100 days of school really count! For each of the first 100 days, you'll find easy and engaging activities that boost skills and make math time fun. Concepts covered include counting on, patterning, skip counting, writing numerals, and using a number line. You'll also find helpful management tips, bulletin board ideas, and more! Meets the NCTM Standards. For use with Grades K-2.

100th day of school math: Luke Celebrates 100 Days Charly Haley, 2018-08 Introduces readers to Luke's day celebrating the 100th day of school. Discusses the concept of the number 100 by showing the different activities Luke's class does to celebrate. Additional features to aid comprehension include vivid photographs, Extended Learning activities, a phonetic glossary, and sources for further research.

100th day of school math: 100 Days of Cool Stuart J. Murphy, 2009-05-21 Stuart J. Murphy travels all over the United States talking to thousands of kids. And you'll never believe what they talk about: MATH! Stuart shows kids that they use math every day -- to share a pizza, spend their allowance, and even sort socks. Stuart writes funny stories about math -- and if you read his books, you'll start to see the fun in math, too. Most classrooms celebrate 100 days of school. But for Mrs.

Lopez's class, it's 100 days of cool! Something new and cool is bound to happen every day, all the way from 1 to 100.

100th day of school math: William's 100th Day of School Lisa Bullard, Mike Byrne, 2017-08-01 The 100th day of school is here! William's class celebrates this fun day with an exciting show-and-tell time, by learning to count to 100 in new ways, and even with a parade. Find out what else happens during William's 100th-day celebration.

100th day of school math: Fancy Nancy: The 100th Day of School Jane O'Connor, 2011-06-28 Celebrate the 100th day of school with Fancy Nancy, in this sweet and thoughtful I Can Read Story from New York Times bestselling team Jane O'Connor and Robin Preiss Glasser. Perfect for back-to-school! With the 100th day of school just around the corner, Nancy finds herself utterly stumped. She can't think of anything exciting, special, or imaginative enough to bring in to class to commemorate the day. Just as Nancy begins to lose hope, she finds inspiration from an unexpected source—and learns that even sad events can bring with them a glimmer of beauty. Fancy Nancy: The 100th Day of School is a Level One I Can Read book, which means it's perfect for children learning to sound out words and sentences. The back matter features a list of the rich vocabulary words that are used throughout the story along with their definition.

100th day of school math: Count Up to the 100th Day Flip Chart Maria Fleming, 2008-06 Kids will LOVE these quick-and-fun daily math activities that count up to the 100th Day of School. You'll LOVE the fact that they're building key numeracy skills as they go! Includes literacy-boosting math poems that are perfect for shared reading! For use with Grades KÐ2.

100th day of school math: Humble Math - 100 Days of Timed Tests Humble Math, 2020-04-05 100 days of multiplication problems. Discover the difference a couple minutes of practice can make. These are reproducible practice sheets to help students learn their multiplication facts and recall them with fluidity. This book focuses on digits 0-12. An answer key is included in the back of this book, so students can easily check their own work.

100th day of school math: Jake's 100th Day of School Lester L. Laminack, 2008-09-02 Celebrate the 100th Day of School with this kid—and teacher—favorite from award-winning author Lester Laminack! Jake and his fellow students are getting ready for a celebration. Tomorrow is the 100th day of school and everyone is going to share their collections of 100 things. The day of the celebration arrives, but Jake forgets the 100 family pictures he has glued into a special memory book at home. Disaster! But thanks to Jake's ingenuity and the sensitivity of his principal, Jake does have a collection to display that day... and something special to share with the class on the 101st day of school. Lester Laminack's charming, relatable story shines a light on this milestone day celebrated by schools everywhere. Judy Love's joyful illustrations capture the excitement of Jake's diverse school community.

100th day of school math: Ready! Set! 100th Day! , 2011 Using math sets, Minna designs a unique 1th Day school project

100th day of school math: 100th Day of School Sharon Katz Cooper, 2021

100th day of school math: The 100th Day of School Angela Shelf Medearis, 1996 Designed to help build reading and counting skills, a story about a class's sense of accomplishment features energetic illustrations, 100 spelling words, and punch-out flash cards. (Consumable)

100th day of school math: K-8 Digital Citizenship Curriculum Ask a Tech Teacher, 2019-09-21 9 grade levels. 17 topics. 46 lessons. 46 projects. A year-long curriculum that covers everything you need to discuss on internet safety and efficiency. Digital Citizenship—probably one of the most important topics students will learn between kindergarten and 8th and too often, teachers are thrown into it without a roadmap. Well, here it is—your guide to what our children must know at what age to thrive in the community called the internet. It's a roadmap for blending all pieces into a cohesive, effective student-directed cyber-learning experience that accomplishes ISTE's general goals

100th day of school math: Every Day of the School Year Math Problems Marcia Miller, Martin Lee, 1999-03 Using themes of historic events, holidays, famous birthdays, humorous happenings,

and more, these instant math problems are a fun-filled way to build essential math problem-solving skills.

100th day of school math: How I Do My Homework Jennifer Boothroyd, 2017-08-01 What strategy do you use to get your homework done? Follow this responsible student who tackles math and spelling assignments.

100th day of school math: Exploring the Numbers from 1 to 100 Mary Beth Spann, 1995 Exciting, hands-on activities to learn about the numbers 1 to 100...plus great ideas for counting up to the 100th day of school celebration! Includes manipulatives, games, poems, literature-based activities, and so much more. For use with Grades PreK-2.

100th day of school math: One Big Pair of Underwear Laura Gehl, 2014-09-09 Count and share with...underwear! Come along on a zany adventure with this Classic Board Book edition of One Big Pair of Underwear from New York Times bestselling illustrator Tom Lichtenheld! What's one thing that two bears, three yaks, four goats, and six cats have in common? They hate to share. But look out—here comes a pack of twenty pigs ready to prove that sharing makes everything twice as fun! This seriously silly Classic Board Book with artwork by the New York Times bestselling illustrator of Goodnight, Goodnight Construction Site irresistibly combines the concepts of counting and sharing.

100th day of school math: One Hundred Hungry Ants Elinor J. Pinczes, 1999-09-27 This tale of ants parading toward a picnic is "one of those rare gems capable of entertaining while it instructs" (Middlesex News). One hundred hungry ants march off single file to sample a picnic, but when the going gets too slow, they divide into two rows of fifty, then four rows of twenty-five . . . until they take so long that the picnic is gone! "The unexpected pairing of sophisticated art and light-hearted text lends this book particular distinction." —Publishers Weekly "The illustrations . . . use a pleasing palette and energetic lines to depict ants with highly individual characters." —Horn Book

100th day of school math: 100th Day of School Emma Carlson Berne, 2018 In winter, students celebrate the 100th Day of School with their classmates and teachers. All day long, they have fun with the number 100 and all the things they've learned. Sing along as you explore Holidays in Rhythm and Rhyme!

100th day of school math: Young Cam Jansen and the 100th Day of School Mystery David A. Adler, 2009 It's the 100th day of school and Cam and her classmates are celebrating. They are supposed to have pretzels, popcorn, pineapple juice, and pizza at their party--but someone has pilfered the pizza! Will Cam find the pizzas before the thief eats them? Full color.

100th day of school math: Math Work Stations Debbie Diller, 2023-10-10 If you've ever questioned how to make math stations work, you'll find this photo-filled, idea-packed resource invaluable. This book extends Debbie Diller's best-selling work on literacy work stations and classroom design to the field of mathematics. In Math Work Stations you'll find ideas to help children develop conceptual understanding and skills, use math vocabulary as they talk about their mathematical thinking, and connect big ideas to meaningful independent exploration and practice. This book details how to set up, manage, and keep math stations going throughout the year. There's even a chapter devoted solely to organizing and using math manipulatives. Each chapter includes: key concepts based on NCTM and state math standards; math vocabulary resources and literature links; suggested materials to include at each station for the corresponding math content strand; ideas for modeling, troubleshooting, differentiating, and assessment; and reflection questions for professional development. Throughout the book, Debbie has included hundreds of color photos showing math work stations in action from a variety of classrooms in which she has worked. Charts, reproducible forms, and math work stations icons are included to provide everything you'll need to get started with stations in your classroom right away.

100th day of school math: Miss Mingo and the 100th Day of School Jamie Harper, 2020-11-17 Count on Miss Mingo and her irresistible class of critters to make a special school-year milestone a day to remember. It's the hundredth day of school, and Miss Mingo the Flamingo has quite a day planned for her diverse class of animals. First, the students share projects that celebrate

the number one hundred: Centipede does one hundred jumping jacks, Panda shows off two bundles of fifty bamboo stalks, and other students share five sets of twenty footprints and other combos to get to the magic number. Later the class works together to create sculptures out of one hundred paper cups (Octopus is particularly helpful), and the day becomes as much about self-expression as it is a number—especially when Miss Mingo has the whole class make silly faces for one hundred seconds! In the fourth book of her ingenious series, Jamie Harper invites readers into Miss Mingo's warm, creative classroom for a story inspired by hundredth-day activities in real schools, combining a lively text that integrates fascinating facts about the animals with humorously detailed illustrations that capture the students' excited energy. Readers will easily find one hundred things to love about Miss Mingo's joyful celebration, as well as fun ideas for planning their own.

100th day of school math: *The 100 Hats of the Cat in the Hat* Tish Rabe, 2019-08-06 A Seussian celebration of simple math concepts--perfect for the 100th Day of School and fans of *The Cat in the Hat*! The Cat in the Hat spends the 100th Day of School visiting Sally and Dick's classroom to show how some simple tools--including a hundreds chart, ten frame, number line, and 100 silly hats--make it easy and fun to count, add, subtract, multiply, and divide. While this is a natural choice for celebrating the 100th Day of School, *The 100 Hats of the Cat in the Hat* is perfect for anyone, anytime, who wants to nurture a beginning reader's interest in numbers! Fans of the hit PBS show *The Cat in the Hat Knows a Lot About That!* will be delighted at this new addition to the Learning Library series.

100th day of school math: *Miss Bindergarten Celebrates the Last Day of Kindergarten* Joseph Slate, 2008-04-10 Miss Bindergarten and her class have had a great year in kindergarten! They have gone on a field trip, marked the 100th day, created a circus, and even survived a wild day. But now the school year is over, and it's time to remember, to celebrate, and for Miss Bindergarten to say, Good-bye, kindergarten. It's been a special year.? The bestselling Miss Bindergarten series comes to a sweet and jubilant conclusion by honoring an important passage: the last day of kindergarten. Filled with last-day classroom ideas, it's also a perfect gift to honor graduation and moving-up ceremonies. *Miss Bindergarten Celebrates the Last Day of Kindergarten* is the perfect way for teachers and students to commemorate their own end-of-the-year festivities.

100th day of school math: *100th Day of School* Jacqueline Clarke, 2001-12-01 Make your 100th Day celebration super-special with these kid-pleasing, learning-rich activities! Terrific teacher-tested games, manipulatives, and activities will boost learning in math, reading, writing, social studies, and art for kids of all learning styles. Includes calendar activities, pocket chart poetry, easy-to-make collaborative books, a math story mat, art projects, book links, computer connections, and a big, colorful poetry poster. For use with Grades K-2.

100th day of school math: *100 Ways to Celebrate 100 Days* Bruce Goldstone, 2014-02-28 Here are 100 different ideas for celebrating this fun and important day. The 100th day is about math--and so much more! From collecting to counting, baking to bouncing, reading to writing, every possible kind of activity is included for 100th day cel

100th day of school math: *Fergus and Zeke and the 100th Day of School* Kate Messner, 2024-09-17 In their fourth adventure, classroom mice Fergus and Zeke—after a few false starts—jump into a creative project to help the kids mark the one hundredth day of school. Fergus and Zeke love being the class pets in Miss Maxwell's classroom, and they do everything the students do. But when the kids start collecting items and doing gym challenges and making projects to celebrate the one hundredth day of school, the mice can't seem to find a way to join in. One hundred miles is a very long distance when you're running on your spinny wheel. One hundred seconds is a very short time when you're trying to take a nap. Stacking one hundred wood chips makes a tower that tips and falls before you're even halfway done. And writing a story with exactly one hundred words means abandoning your characters in the middle of the action! Will these two classroom mice ever come up with the perfect project to celebrate the one hundredth day?

100th day of school math: *The Principal's Guide to the First 100 Days of the School Year* Shawn Joseph, 2013-10-02 For veteran principals, new principals, and aspiring principals, this book

is a valuable resource for building instructional momentum during the beginning of the school year. Educational leadership expert Shawn Joseph guides administrators through five key areas: Vision Instructional Leadership Politics Data Planning With detailed timelines, practical advice, and ready-to-use resources, Joseph explains the essential steps to leadership success that will continue throughout the school year. Supplemental Downloads available to book-buyers!

100th day of school math: *The 100th Day* Grace Maccarone, Alayne Pick, Laura Freeman, 2002 On the hundredth day, everyone in class has a special assignment, and so Jill makes necklaces with one hundred beads, Ben writes a story about one hundred cats, and Jack jumps rope one hundred times.

100th day of school math: *Counting Our Way to the 100th Day!* Betsy Franco, 2004-07 100 poems all having to do with numbers.

100th day of school math: *Addition Facts that Stick* Kate Snow, 2017-01-31 The fun, engaging program that will help your child master the addition facts once and for all—without spending hours and hours drilling flash cards! Addition Facts That Stick will guide you, step-by-step, as you teach your child to understand and memorize the addition facts, from $1 + 1$ through $9 + 9$. Hands-on activities, fun games your child will love, and simple practice pages help young students remember the addition facts for good. In 15 minutes per day (perfect for after school, or as a supplement to a homeschool math curriculum) any child can master the addition facts, gain a greater understanding of how math works, and develop greater confidence, in just six weeks! Mastery of the math facts is the foundation for all future math learning. Lay that foundation now, and make it solid, with Addition Facts That Stick!

100th day of school math: *Humble Math - Area, Perimeter, Volume, & Surface Area* Humble Math, 2020-09-24 Lots of area, perimeter, volume, and surface area practice problems with an answer key. Area and perimeter problems can be completed by younger students. The book progresses to more advanced problems including volume, surface area, and multi-step challenge questions. A perfect workbook for those trying to learn geometry. This is a book that can grow with students as their skills develop.

100th day of school math: *Centipede's 100 Shoes* Tony Ross, 2003 When are one hundred shoes too many shoes? When you are a centipede! And what do you do with too many shoes? Why, you give them away. Find out to whom in this delightfully silly story about a centipede with sore feet. And can you spot the beetle with seven legs? Have fun with numbers in this hilarious new picture book by master storyteller and children's book illustrator, Tony Ross.

100th day of school math: *Humble Math - 100 Days of Long Division* Humble Math, 2019-09-16 A great long division workbook. Plenty of practice problems on every page and still enough room to show your work. Starts with single digit divisor problems. Later introduces remainders and multi-digit divisors. An excellent resource for students wanting to master the steps of long division.

100th day of school math: *How I Wish I'd Taught Maths* Craig Barton, 2018 Brought to an American audience for the first time, How I Wish I'd Taught Maths is the story of an experienced and successful math teacher's journey into the world of research, and how it has entirely transformed his classroom.

100th day of school math: *Humble Math - 100 Days of Decimals, Percents & Fractions* Humble Math, 2020-05 100 days of practice problems for decimals, percents, and fractions. This is not an entry level book. Students will need basic understanding of what fractions and decimals are. This book focuses on converting between fractions, decimals, and percentages. It also teaches students how to add, subtract, multiply, and divide decimals and fractions. It's a great resource for upper elementary, middle school, and early high school students (KS2, KS3).

100th day of school math: *Humble Math - 100 Days of Timed Tests* Humble Math, 2019-11-03 A few minutes of math a day can help students tremendously. This workbook has over 100 days of reproducible addition and subtraction practice problems for digits 0-20. Use these pages as timed tests to improve fluidity or let students complete them at their leisure.--Amazon.

100th day of school math: Guided Math AMPED Reagan Tunstall, 2021-03-31 In today's classrooms, the instructional needs and developmental levels of our students are highly varied, and the conventional math whole-group model has its downsides. In contrast to the rigid, one-size-ts-all approach of conventional whole-group instruction, guided math allows us to structure our math block to support student learning in risk-free, small-group instruction. Guided math goes beyond just reorganizing your math block; it also gives you an opportunity to approach math instruction with a renewed sense of perspective and purpose. Drawing on two decades of experience, Reagan Tunstall offers step-by-step best practices to help educators revolutionize their math blocks with a student-centered approach. Whether you're a new teacher who's curious about guided math or a veteran educator looking to hone your methodology, Guided Math AMPED will transform your math block into an exciting and engaging encounter that encourages your students to see themselves as genuine mathematicians. Most educators have come to realize that the magic happens at the teacher table or during small-group instruction. If that's the case, Guided Math AMPED is the spell book. -JENNIFER SALYARDS, M.Ed., principal, Chamberlin Elementary, Stephenville ISD Guided Math AMPED provides educators with a practical framework for enhancing math instruction in a way that provides research-based practices, differentiated instruction, and fun, all while strengthening relationships with students and developing math mindsets. No matter your experience or tenure in education, Guided Math AMPED will give you tips and tricks to implement in your classroom. -MATT BERES, district administrator, Wooster, OH Guided math is one of the best things you can implement in your classroom, and Reagan Tunstall is the best to learn from, thanks to her perfect framework and step-by-step instructions. She has thought through every potential roadblock and offers concise solutions because she's experienced it all in her own classroom. -HALEE SIKORSKI, educator, A Latte Learning Don't you dare let another teacher borrow this book . . . you may never get it back! From the rst page to the end, this book is lled with practical ideas and guidelines guaranteed to take your guided math block to the next level. -LORI MCDONALD, M.Ed., retired educator

100th day of school math: 100 Days of Money, Fractions, & Telling the Time Humble Math, 2020-09-02 100 days of practice counting money, learning fractions, and telling the time. Three core areas of maths that students often need additional help to master. Start by counting groups of coins that have a value of a pound or less. Slowly learn to count greater amounts of money that include small and large notes too. Add and subtract values, and even learn to make change. Learn fractions one step at a time. Start with simple fractions and eventually learn to add and subtract mixed numbers. Telling the time is one of the more difficult concepts for children to learn. Gradually progress from learning to tell hours, to quarter hours. Eventually tell time in five minute and minute increments. This is a great workbook to start out with. Most students will grasp the concepts within each of the three sections. If a student still needs more practice, Humble Math has workbooks that provide additional practice for these concepts too.

100th day of school math: Where's the Wonder in Elementary Math? Judith McVarish, 2012-08-21 This book argues that even in today's high-stakes testing environment, 'teaching to the test' need not be teachers' only focus as they introduce young children to mathematics. Judith McVarish demonstrates how building a community of learners and using problem solving to engage students can help teachers encourage students' disposition to creative thinking and reasoning—skills that can otherwise become lost due to the pressure of the many other expectations placed upon both teachers and students. This book offers strategies for infusing mathematics learning and reasoning into elementary school classrooms while meeting curriculum and testing mandates. The teacher researcher component of each chapter provides a vehicle for teachers to bring their own expertise and questions back into the teaching and learning equation.
