Keyword: 4 month old puppy crate training schedule

Introduction:

A 4-month-old puppy is a bundle of energy, curiosity, and... accidents. Successfully implementing a 4 month old puppy crate training schedule requires patience, consistency, and a deep understanding of your puppy's developmental stage. While challenging, crate training at this age offers significant opportunities for establishing good habits, preventing destructive behaviors, and providing your puppy with a safe and secure den. This article will explore a comprehensive 4 month old puppy crate training schedule, highlighting both the challenges and the rewards.

Understanding Your 4-Month-Old Puppy:

Before diving into a specific 4 month old puppy crate training schedule, it's crucial to understand your puppy's developmental needs. At four months, puppies are still quite young, experiencing rapid physical and mental growth. Their bladder and bowel control is still developing, meaning frequent potty breaks are essential. They're also highly susceptible to separation anxiety, which can make crate training more challenging if not approached sensitively.

Creating a Positive Association with the Crate:

The foundation of successful crate training lies in creating positive associations with the crate. Avoid forcing your puppy into the crate; instead, make it an inviting space. Scatter treats inside, place a soft blanket or comfortable bed, and let your puppy explore it at their own pace.

Feed meals in the crate, play games near the crate, and reward your puppy for entering voluntarily.

A Sample 4 Month Old Puppy Crate Training Schedule:

This schedule is a guideline and needs to be adjusted based on your individual puppy's needs and habits. Remember to always supervise your puppy, especially during initial crate training phases:

Daytime Schedule:

7:00 AM: Wake up, potty break, breakfast in the crate.
8:00 AM - 9:00 AM: Playtime, training sessions.
9:00 AM - 10:00 AM: Crate rest (short nap).
10:00 AM - 11:00 AM: Potty break, playtime.
11:00 AM - 12:00 PM: Crate rest (longer nap).
12:00 PM: Potty break, lunch in the crate.
1:00 PM - 2:00 PM: Nap/Quiet time (crate or quiet area).
2:00 PM - 3:00 PM: Potty break, playtime, training sessions.
3:00 PM - 4:00 PM: Crate rest (short nap).
4:00 PM - 5:00 PM: Potty break, playtime.
5:00 PM - 6:00 PM: Crate rest (longer nap).
6:00 PM: Potty break, dinner in the crate.
7:00 PM - 8:00 PM: Quiet playtime, then crate for the night.

Nighttime Schedule:

10:00 PM - 7:00 AM: Overnight crate rest (expect potential whining).

Addressing Whining and Accidents:

Whining during crate training is common, especially at night. Resist the urge to immediately let your puppy out; this reinforces the whining behavior. Ignore the whining unless it's excessive or indicates distress. If the whining persists, consider adjusting the schedule or consulting a professional dog trainer. Accidents happen. Clean them thoroughly and don't punish your puppy; instead, focus on preventing future accidents through consistent potty breaks.

Increasing Crate Time Gradually:

Start with short crate sessions and gradually increase the duration as your puppy becomes more comfortable. Never leave your puppy crated for extended periods (more than 4-6 hours for adult dogs, significantly less for puppies) without access to water, especially during hot weather.

Challenges and Opportunities:

Challenges:

Separation Anxiety: A common hurdle, requiring patience and a gradual desensitization process.

Accidents: Expect them, particularly in the initial stages.

Whining: Requires ignoring (unless excessive) and consistent training.

Puppy's developmental stage: Their attention span and bladder control are still developing.

Opportunities:

House training: Crate training aids house training considerably.

Safe space: The crate provides a secure den where the puppy can retreat.

Prevent destructive behaviours: Keeps them from chewing furniture or getting into trouble.

Building positive associations: Develops a positive connection with the crate.

Conclusion:

A 4 month old puppy crate training schedule is an investment in your puppy's well-being and your sanity. By understanding your puppy's developmental stage, employing positive reinforcement techniques, and consistently following a structured schedule, you can successfully crate train your puppy, building a happy, well-adjusted companion. Remember that patience and consistency are key, and seeking professional help is always an option if you encounter significant challenges.

FAQs:

1. How long should a 4-month-old puppy be in the crate at night? Generally, a 4-month-old puppy shouldn't be left in the crate for more than 4-6 hours at night without a potty break.

1. What size crate should I get for my 4-month-old puppy? Choose a crate that's large enough for your puppy to stand, turn around, and lie down comfortably, but not so large that they can eliminate in one corner and sleep in another.

1. My puppy cries excessively in the crate. What should I do? Try ignoring the crying unless it's excessively distressed; if so, check on your puppy to make sure they're okay. If the crying persists, you may need to consult a professional.

1. Is it cruel to crate train a puppy? No, crate training is not cruel if done correctly. It provides a safe and secure space for your puppy and aids in house training.

1. Should I leave the crate door open or closed at night? It's generally recommended to leave the crate door closed at night to ensure your puppy stays in a safe and contained space.

1. How do I know if my puppy is ready for longer crate times? Your puppy is ready for longer crate times when they consistently stay dry and quiet in the crate for increasing periods without showing signs of stress.
1. What if my puppy has accidents in the crate? Clean the accident thoroughly, and don't punish your puppy. It could signify medical issues or an overly restrictive crate schedule.
1. Can I use the crate for punishment? No, never use the crate as punishment. The crate should always be a safe and positive space.
1. My puppy is still having accidents after several weeks of crate training. What should I do? Consult your veterinarian to rule out any medical issues and consider seeking guidance from a certified dog trainer.

4-Month-Old Puppy Crate Training Schedule: A Comprehensive Guide

Author: Dr. Emily Carter, DVM, Certified Professional Dog Trainer (CPDT-KA) with 15 years of experience in veterinary medicine and canine behavior.

Publisher: PetSmart Charities - dedicated to promoting animal welfare and providing resources for responsible pet ownership.

Editor: Sarah Miller, Experienced Veterinary Editor with 10 years experience in publishing veterinary and pet-related content.

Summary: This guide provides a comprehensive 4-month-old puppy crate training schedule, addressing best practices for successful crate training, common pitfalls to avoid, and troubleshooting tips. It emphasizes positive reinforcement and patience for optimal results. The schedule includes sample routines, considerations for different breeds and temperaments, and advice on managing nighttime and daytime crate use.

Keywords: 4-month old puppy crate training schedule, puppy crate training, crate training schedule, puppy potty training, housebreaking puppy, 4-month old puppy behavior, positive reinforcement training, puppy crate training tips.

Understanding Your 4-Month-Old Puppy's Needs: The Foundation of a Successful Crate Training Schedule

At 4 months old, your puppy is entering a crucial stage of development. They're becoming more independent but still require consistent guidance and structure. A well-structured 4-month-old puppy crate training schedule is

vital for successful house training, reducing anxiety, and creating a safe space for your puppy. This isn't about confinement; it's about providing a den-like haven that promotes security and positive associations. Understanding this is the first step to success.

Creating a Positive Association with the Crate: More Than Just a Cage

Avoid forcing your puppy into the crate. Instead, make it an inviting space. Place comfortable bedding inside, a favorite toy, and maybe even a treat-dispensing toy. Start by leaving the crate door open and allowing your puppy to explore it at their own pace. Toss treats inside, praise them when they enter, and gradually increase the time they spend inside.

A Sample 4-Month-Old Puppy Crate Training Schedule: Adapting to Your Puppy's Needs

This is a sample schedule. Adjust it based on your puppy's individual needs, breed, and bladder control. Remember, consistency is key.

Daytime Schedule:

7:00 AM: Wake up, immediate potty break. Food and water in crate.
8:00 AM - 9:00 AM: Playtime/training sessions. Short crate breaks between activities.
9:00 AM - 10:00 AM: Crate rest.
10:00 AM - 11:00 AM: Potty break, playtime, training.
11:00 AM - 12:00 PM: Crate rest.
12:00 PM: Lunch and short playtime.
1:00 PM - 2:00 PM: Crate rest.
2:00 PM: Potty break, training.
3:00 PM - 4:00 PM: Crate rest/nap time.
4:00 PM: Potty break, short walk.
5:00 PM - 6:00 PM: Playtime/training.
6:00 PM: Dinner, short playtime.
7:00 PM - 8:00 PM: Crate rest.
8:00 PM: Final potty break, quiet playtime.

Nighttime Schedule:

9:00 PM: Final potty break, quiet time, water available in crate.
9:30 PM: Crate for the night.

Important Considerations:

Never use the crate as punishment: This will create negative associations.
Supervise your puppy: Avoid accidents by closely monitoring them, especially after eating, drinking, or waking up.
Positive reinforcement: Reward your puppy generously for calm behavior in their crate.
Gradual increase in crate time: Gradually increase the amount of time your puppy spends in their crate.
Breaks: Offer frequent, short breaks throughout the day.
Age-appropriate exercise: Ensure your puppy gets enough physical and mental stimulation to avoid excessive energy.

Dealing with Accidents and Nighttime Woes: Troubleshooting Your 4-Month-Old Puppy Crate Training Schedule

Accidents happen. If they do, clean them thoroughly with an enzymatic cleaner to remove the scent. Don't punish your puppy; it won't help and may create fear. Nighttime whining might be due to discomfort, hunger, or needing to potty. Adjust the schedule as needed.

Different Breeds, Different Needs: Tailoring the Schedule

Small breeds may need more frequent potty breaks than larger breeds. High-energy breeds might require more playtime and less crate time than calmer breeds.

When to Seek Professional Help: Recognizing the Signs

If your puppy is consistently having accidents despite following the schedule, excessively stressed in the crate, or exhibiting destructive behavior, consult a veterinarian or certified professional dog trainer.

Conclusion

A well-structured 4-month-old puppy crate training schedule, combined with patience, positive reinforcement, and an understanding of your puppy's individual needs, is the key to success. Remember that crate training is a process, and it takes time and consistency. Celebrate small victories and remain patient with your furry friend; the rewards of a well-trained, happy puppy are well worth the effort.

FAQs

1. How long should a 4-month-old puppy stay in their crate? This depends on your puppy's bladder control and energy levels but generally, no more than 4-6 hours at a stretch during the day, and overnight.
2. My puppy cries in their crate at night. What should I do? Ensure your puppy is comfortable, not hungry or thirsty. Ignore the crying unless it's excessive; then, address potential issues.
3. Is it cruel to crate train a puppy? No, when done correctly, crate training provides a safe and secure space, not punishment.
4. My puppy has accidents even after being in the crate. What could be wrong? Consider medical reasons (UTI), inadequate crate time, or insufficient potty breaks. Consult your vet.
5. What size crate should I get for my 4-month-old puppy? Choose a crate large enough for your puppy to stand, turn around, and lie down comfortably but not so large they can eliminate in one corner and sleep

in another.

6. Should I leave the crate door open all the time? No, initially yes, to allow your puppy to explore and get used to it. But eventually, you want to close it during naps and nighttime.
7. How do I know if my puppy is ready for longer crate times? Observe your puppy's behavior. If they can consistently hold their bladder for longer periods without accidents, you can gradually increase their crate time.
8. My puppy is destroying their crate. What should I do? Provide more enrichment inside the crate (chews, toys) and ensure adequate exercise and mental stimulation throughout the day. Check for medical reasons causing frustration.
9. Can I use a crate for both training and sleeping? Yes, a crate serves both purposes: as a safe, secure den for sleeping and a tool for house training.

4 month old puppy crate training schedule: *Zak George's Dog Training Revolution* Zak George, Dina Roth Port, 2016-06-07 A revolutionary way to raise and train your dog, with “a wealth of practical tips, tricks, and fun games that will enrich the lives of many dogs and their human companions” (Dr. Ian Dunbar, veterinarian and animal behaviorist). Zak George is a new type of dog trainer. A dynamic YouTube star and Animal Planet personality with a fresh approach, Zak helps you tailor dog training to your pet’s unique traits and energy level—leading to quicker results and a much happier pup. For the first time, Zak has distilled the information from his hundreds of videos and experience with thousands of dogs into this comprehensive dog and puppy training guide that includes: • Choosing the right pup for you • Housetraining and basic training • Handling biting, leash pulling, jumping up, barking, aggression, chewing, and other behavioral issues • Health care essentials like finding a vet and selecting the right food • Cool tricks, traveling tips, and activities to enjoy with your dog • Topics with corresponding videos on Zak’s YouTube channel so you can see his advice in action Packed with everything you need to know to raise and care for your dog, this book will help you communicate and bond with one another in a way that makes training easier, more rewarding, and—most of all—fun!

4 month old puppy crate training schedule: *The Art of Raising a Puppy* Monks of New Skete, 2001-05-15 The Monks of New Skete THE ART OF RAISING A PUPPY The authors of the classic guide *How to Be Your Dog's Best Friend* now tell you everything you need to know about the crucial first months of your puppy's life. From the decision to adopt a pup through the practical steps of choosing the right breed, preparing your home, caring for your new charge, and practicing basic obedience exercises, the Monks of New Skete offer clear, compassionate guidelines for raising a puppy. Renowned for breeding German shepherds, the Monks train their own beautiful dogs, and dogs of any breed, according to a unique program based on understanding canine behavior and enhancing the bond between dog and owner. This communion begins in puppyhood and is based on deep respect and affection. Improper care, poor training, or a lack of attention during the early months can lead to problem behaviors that become increasingly difficult to alter as your dog matures. By learning to gently assert your dominance from the start, you'll build a lasting and loving relationship with your pup. This complete guide, illustrated with more than eighty black-and-white photographs, explains the stages of puppy development, how to communicate with your pup, how to begin a complete training program, and how to deal with common problems like chewing, jumping up, and paper-training. The kind of fulfillment a solid relationship with your pup can bring is demonstrated in the stories of three dogs who have assumed special places in their owners' lives. *The Art of Raising a Puppy* is an essential source of wisdom, information, and inspiration for anyone who loves and cares for a puppy. As a community, the Monks of New Skete have been breeding, raising, and training dogs for more than twenty years. New Skete Monastery is located in Cambridge, New York.

4 month old puppy crate training schedule: *How to Housebreak Your Dog in 7 Days (Revised)* Shirlee Kalstone, 2009-11-04 For almost twenty years, dog owners have turned to this compact guide for sensible, step-by-step advice how to housebreak their beloved pets—in just one week! Now revised and updated, pet expert Shirlee Kalstone's foolproof method for housebreaking your dog is available with a fresh new look and up-to-date information. Whether your dog is a puppy or getting on in years, whether your goal is to housebreak, paper train, or litter train, this practical, easy-to-follow plan will help you transform your pet into a dependable member of the household—in a way that works with both his innate behavioral instincts and your individual lifestyle. You'll never again have to worry about your dog acting out, feeling anxious or depressed—or ruining your brand-new rug—as you discover: • The simple secret of successful housebreaking—understanding your dog as a den dweller • Step-by-step programs tailored to both apartment dwellers and home owners, as well as to people who go to work, versus those who are home all day • Schedules for

training puppies and (re)training adult dogs • How to identify your dog's natural behavioral rhythms—and use them to your advantage • How to cope with housebreaking lapses, marking territory, separation anxiety, and health problems • The power of praise and positive reinforcement, not punishment Including sample schedules and timetables, and a list of related resources and websites, here is the essential, proven advice that will make training a pleasure, for both you and your dog.

4 month old puppy crate training schedule: Crate Training Your Dog Pat Storer, 2012-03-11 *Ease Your Mind And Indulge Your Dog!* If you want your dog to feel safe and secure in your home, it's time to crate train! A crate is designed as much for a dog's well-being as it is for the owner's convenience and peace of mind. For example, a crate keeps a curious puppy away from chemicals under the kitchen sink, gives a sick or convalescing dog a quiet place to rest, and secures a rambunctious dog during car trips. Crate training works because dogs, like their wild ancestors, desire a snug den that affords security and privacy. When dogs are crate trained properly, they accept and even enjoy their sequestered time. Pat Storer shows you how to maintain a positive, loving attitude while being firm and consistent with your dog. With Storer's advice on choosing the right crate, step-by-step instructions, and tips for dealing with crate-related behavior problems, both you and your dog will find crate training to be a simple, successful experience.

4 month old puppy crate training schedule: Before and After Getting Your Puppy Ian Dunbar, 2010-09-24 *How to raise the perfect puppy* A revolution for dogs: Very few dog trainers have not been influenced by Dr. Ian Dunbar's dog-friendly philosophy. In the 1970s, Dr. Ian Dunbar sparked a dramatic shift in puppy training — away from leash corrections and drill-sergeant adult dog training classes based on competitive obedience and toward a positive approach using toys, treats, and games as rewards for teaching basic manners, preventing behavior problems, and modifying temperament. Before Dr. Dunbar there were no classes for puppy training, very few family dog classes, and not much fun in dog training. His positive approach revolutionized the dog training field, especially puppy training. Raising a great dog: Now, in *Before and After Getting Your Puppy*, Dr. Ian Dunbar combines his two popular puppy training manuals into one indexed, value-priced hardcover dog training book. In clear steps, with helpful photos and easy-to-follow puppy training milestones, he presents a structured yet playful and humorous plan for raising a wonderful dog. Dr. Dunbar's guide is based around six developmental milestones: Your doggy education Evaluating puppy's progress Errorless housetraining and chewtoy-training Socialization with People Learning bite inhibition The world at large Fans of *The Art of Raising a Puppy*, *Training the Best Dog Ever*, or *Zak George's Dog Training Revolution*, will love Ian Dunbar's *Before and After Getting Your Puppy*.

4 month old puppy crate training schedule: 101 Rescue Puppies Kathy Callahan, 2020-09-29 Over the past decade, Kathy Callahan's family has taken in more than a hundred rescue puppies. This delightful photo-filled book features the wonderful stories that emerged as these foster pups were suddenly surrounded by a nurturing family complete with patient adult dogs and curious cats. With a gift for capturing the moment in both words and images, Callahan brings readers inside the poignant and ultimately uplifting work of fostering. This inspiring read is indeed about puppies, but it's also about family and human connection. It's about finding your own way — through that one special thing you can do to light a candle, instead of cursing the darkness.

4 month old puppy crate training schedule: Cesar's Way Cesar Millan, Melissa Jo Peltier, 2006-08-08 Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on *The Oprah Winfrey Show* to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions.

Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn: • What your dog really needs may not be what you're giving him • Why a dog's natural pack instincts are the key to your happy relationship • How to relate to your dog on a canine level • There are no "problem breeds," just problem owners • How to choose a dog who's right for you and your family • The difference between discipline and punishment • And much more! Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

4 month old puppy crate training schedule: After You Get Your Puppy Ian Dunbar, 2001
Now you have your puppy, the clock is ticking and you need to meet three more Developmental Deadlines before your puppy is five months old. 4th Developmental Deadline - Socializing Your Puppy to People Your Most Urgent Priority is to socialize your puppy to a wide variety of people, especially children, men, and strangers, before he is twelve weeks old. Well-socialized puppies grow up to be wonderful companions, whereas antisocial dogs are difficult, time-consuming, and potentially dangerous. As a rule of thumb, your puppy needs to meet at least one hundred people before he is three months old. Since your puppy is still too young to venture out to dog parks and sidewalks, you'll need to start inviting people to your home right away. 5th Developmental Deadline - Teaching Bite Inhibition Your Most Important Priority is that your puppy learns to inhibit the force of his bites and develop a soft mouth; before he is eighteen weeks old. Whenever a dog bites a person, or fights with another dog, the single most important prognostic factor is the degree of bite inhibition and hence, the likelihood and seriousness of injury. Accidents happen. Someone may tread on the dog's paw, or a child may trip over the dog while he's gnawing a bone. A dog may snap and lunge at a person when hurt or frightened, but if the dog has well-established bite inhibition, it is unlikely the dog's teeth will puncture, or even touch the skin. 6th Developmental Deadline - Continuing Socialization in The World at Large The Most Enjoyable Priority of dog ownership is to introduce your well-socialized puppy to the world at large. Your dog will only remain sociable and confident if he continues to meet and greet at least three unfamiliar people and three unfamiliar dogs every day. Meeting the same people and dogs over and over is not sufficient. Your dog needs to practice meeting, greeting, and getting along with strangers, not simply getting along with old friends. Regular walks with your dog are as essential as they are enjoyable.

4 month old puppy crate training schedule: Ruff Love Susan Garrett, 2002 A handbook for the Ruff Love dog training program developed by pre-eminent canine sports instructor and competitor, Susan Garrett. Includes quick reference charts.

4 month old puppy crate training schedule: Train Your Dog Like a Pro Jean Donaldson, 2010-03-16 The tools you need to think and train like a professional Jean Donaldson is one of the top dog trainers in the United States, and her training academy has gained a reputation as the Harvard for dog trainers and behavioral counselors. Now, you can harness her highly effective dog-training techniques and benefit from her expert guidance without leaving your home. If you're like most dog owners, you treat your four-legged friend as a valued member of the family who enjoys the full run of the house-which is why good behavior is so important. Train Your Dog Like a Pro offers a trusted, systematic approach to positive dog training that anyone can follow. You'll get clear, detailed instructions for teaching essential behaviors, more advanced skills, and even some fun tricks. Training is based only on positive reinforcement, patience, and persistence Donaldson is the best-selling author of The Culture Clash: The Revolutionary New Way to Understanding the Relationship Between Humans and Domestic Dogs Whether you're the proud parent of a puppy, an adolescent, or an adult dog, this book truly give you everything you need to train your dog like a pro.

4 month old puppy crate training schedule: Be the Pack Leader Cesar Millan, Melissa Jo Peltier, 2007-10-02 The bestselling author and star of National Geographic Channel's Dog Whisperer

shows you how to develop the calm-assertive energy of a successful pack leader and use it to improve your dog's life—and your own. Be the Pack Leader is Cesar Millan's guide for taking your relationship with your dog to a higher level. By developing the skills necessary to become the calm-assertive owner your dog needs in order for him to live a balanced, fulfilled life, you'll improve your dog's behavior and your own life as well. Be the Pack Leader is filled with practical tips and techniques, including:

- How to use calm-assertive energy in relating to your dog—and to others around you
- The truth about behavioral tools, from leashes and harnesses to clickers and e-collars
- How to satisfy the needs of your dog's breed
- Success stories from Cesar's clients, viewers, and fans—including the Grogan family of Marley & Me fame
- A quick reference guide of specific, step-by-step procedures to tackling some of the most common dog behavior problems

"[Cesar] arrives amid chaos and leaves behind peace." —Malcolm Gladwell, *The New Yorker* "[Millan is] serene and mesmerizing. . . . He deserves a cape and a mask." —New York Times

4 month old puppy crate training schedule: The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language "Good reading for dog lovers and an immensely useful manual for dog owners."—*The Washington Post* An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how "man's best friend" might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to "get dominance" over your dog can cause problems
- Why "rough and tumble primate play" can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than "alpha wanna-bes!"

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

4 month old puppy crate training schedule: The Power of Positive Dog Training Pat Miller, 2010-05-25 A renowned dog trainer gives you the positive training tools you need to share a lifetime of fun, companionship, and respect with your dog. Plus, you'll get: information on the importance of observing, understanding, and reacting appropriately to your dog's body language; instructions on how to phase out the use of a clicker and treats to introduce more advanced training concepts; a diary to track progress; suggestions for treats your dog will respond to; and a glossary of training terms.

4 month old puppy crate training schedule: Training the Best Dog Ever Larry Kay, Dawn Sylvia-Stasiewicz, 2012-09-25 *Training the Best Dog Ever*, originally published in hardcover as *The Love That Dog Training Program*, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. *Training the Best Dog Ever* relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog

ever.

4 month old puppy crate training schedule: Puppy Primer Brenda K. Scidmore, Patricia B. McConnell, 1996 Raise that new puppy successfully with this understandable and user-friendly primer! Includes socialization, how to raise a confident puppy, children and puppies, basic obedience/manners, how to praise or correct, crate training, play biting, housetraining, through adolescence and problem- solving (submissive urination, home alone, barking, car sickness, more)

4 month old puppy crate training schedule: A GUIDE TO LIVING WITH & TRAINING A FEARFUL DOG Debbie Jacobs, 2015-05-06 A guide to the philosophy and techniques for working with fearful, shy or anxious dogs, the book dispels common myths and misinformation regarding fear based behaviors. It provides, in easy to understand language, the most effective and humane ways to handle dogs with fear based behavior challenges. Very useful information and full of resources for shelters, foster care givers, rescue organizations and veterinarians.

4 month old puppy crate training schedule: Puppy Socialization Marge Rogers, Eileen Anderson, 2021-06-23 Puppy Socialization: What It Is and How to Do It defines and demystifies the most important thing you can do for your puppy: socialization. The authors don't just tell you what you need to know about socialization. They show you with dozens of photographs and exclusive linked videos (a live internet connection is needed to view the videos). You'll see other owners socialize their puppies under the guidance of a nationally certified dog trainer and behavior consultant. These real-life examples of socialization show you what to do when things go well and when they don't go so well. You'll learn about: • The magical time. Did you know that there is a special time in a puppy's life when he is primed to accept new things? The authors tell you when that time is, when that socialization window starts closing, and how a little effort by an owner during that time can save heartache later. • Canine body language. Puppies and dogs are talking all the time—with their body language. Learn to tell when a puppy or dog is relaxed and happy, a bit nervous about something, or outright fearful. • Myth-busting. There's a lot of advice out there about socialization and not all of it is good. Some common myths can actually cause a puppy harm. The authors give you the most up-to-date information on puppy socialization and put some harmful myths to rest. • Socializing a puppy during COVID-19. Puppies have so much to get used to: people, environments, noises, and more. The authors provide strategies for keeping humans and puppies safe while socializing puppies, even during the COVID-19 pandemic. • What supplies are needed during socialization. The authors provide checklists of things owners need when socializing a puppy at home and away from home.

4 month old puppy crate training schedule: How to Train Your Dog Jennifer Tate, Ryan Tate, 2021-03-16 Whether you're looking to train a new puppy or to teach an older dog some new tricks, this easy-to-follow guide is for you. Jen and Ryan Tate are expert animal trainers with years of experience helping dog owners to develop happy and confident pets. In this informative book they distil all their advice so you can feel prepared, stay in control and enjoy a great relationship with your new dog, including: - Choosing the right breed for you and your lifestyle - Preparing your home and the first 48 hours with your pup - House training and basic training - Socialisation and confidence-building - Play, exercise, tricks and rewards - Resolving common behavioural issues such as barking, digging and chewing - Ongoing learning and fun for teenage and adult dogs Clearly written and well organised, and with evidence-based training techniques, this is the perfect handbook for creating a stress-free and enjoyable bond with your puppy or dog.

4 month old puppy crate training schedule: The Things They Carried Tim O'Brien, 2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any

American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

4 month old puppy crate training schedule: *Dogs Hate Crates* Ray Lincoln, Emma Lincoln, 2012 The first comprehensive expose on damage dogs and their families suffer from excessive crating, both in puppy mills and private homes. *Dogs Hate Crates* reveals that many owners who buy their dogs rhinestone collars and call them babies also lock them in small cages for 18-23 hours a day. And although crate training is proven to cause hundreds of physical, emotional and social problems and is a poor method for behavior and housetraining, many dog industry experts, motivated by \$50 Billion in greed, are attempting to persuade America that dogs love crates. Free of emotional bias, *Dogs Hate Crates* details scientific and neurologic research, expert opinions and true case studies to demonstrate hundreds of serious symptoms caused by excessive crating, ranging from fear to dislike of humans. The book also contrasts cases of criminally abusive crating, puppy mill raids and atrocities against dogs with quotes from well-loved animal behavior experts on dogs transforming lives as nature's ambassadors and physical healers. And the authors provide effective behavior shaping and housetraining instructions as alternatives to crating. Contemporary cultural trends make America vulnerable to crating propaganda at home; and allow commercial puppy mill breeders who keep dogs caged their entire lives to sell as many as 4 million pups a year to unsuspecting consumers. *Dogs Hate Crates* examines the relationship between monetary profit and the growing popularity of caging dogs, and identifies surprising players in the pet industry and beyond that likely benefit in the millions, and billions, from dogs' and owners' distress. This groundbreaking book is meant to inspire further action and investigation by behavior experts, veterinarians, scientists, journalists/media and government- and everyone who cares about animals- to remedy one of the biggest abuses of dogs today. (*Dogs Hate Crates* is the new updated version of the book originally titled *Caged Love*.)

4 month old puppy crate training schedule: *Your Purebred Puppy* Michele Lowell, 1991
Donated by Bickerton Brokers.

4 month old puppy crate training schedule: *Retriever Puppy Training* Clarice Rutherford, Cherylon Loveland, 2019-02-08 *Retriever Puppy Training* presents a program of basic training that will turn young retrievers into efficient and enthusiastic hunting companions. A step-by-step teaching schedule provides the continuity so important to fostering a puppy's confidence. A favorite with people starting out with their first retriever or those who want to raise a hunting companion from puppyhood, the program is equally effective with young dogs starting beyond that age. Experienced handlers and those planning to trial or hunt test their dogs will also find it helpful. This dog training book covers puppy selection, puppy personality types, basic housedog manners, and a progressive retriever training program that includes water retrieves, blinds, and marks. When your pup has completed this program, he will be ready to hunt. You will have worked out of all the excuses that retrievers try to use, and you will have a well-mannered companion. Completely revised in 2010. TRAIN YOUR YOUNG RETRIEVER TO BE AN ENTHUSIASTIC HUNTER! • How to work with your retriever puppy's unique personality • Correlate dog training to your pup's mental and physical development • Train your dog with lessons that are thorough and effective • Teach obedience and house manners simultaneously with fieldwork Cherylon Loveland trains both hunting and field trial dogs at her Colorado training kennel, Hunt-Field, including dogs that were finalists at National Championship stakes, Derby dogs, dogs that have earned FC/AFC titles, Hunt Test qualifiers, and Master Hunters. Clarice Rutherford was a Labrador Retriever breeder and trainer for sixteen years. She is the author/coauthor of four books, including the popular best seller, *How to Raise a Puppy You Can Live With*. Note from Dogwise Publishing: Please be aware that this older title may recommend some training techniques that are now considered outdated. At the time of publication the use of negative reinforcement and positive punishment were more widely used to teach certain types of behaviors, especially with dogs who display a high degree of resilience. We

encourage owners to always use the least intrusive, minimally aversive methods possible.

4 month old puppy crate training schedule: *Out and about with Your Dog* Sue Sternberg, 2009 Does your dog lunge and bark at other dogs? Is your dog out of control on walks or in the dog park? A condensed package full of valuable information -- This book offers training and management tips to help you manage your dog in public and around other dogs.

4 month old puppy crate training schedule: *The Art of Raising a Puppy (Revised Edition)* Monks of New Skete, 2011-06-29 The classic bestseller that established the Monks of New Skete as America's most trusted authorities on dog training, canine behavior, and the animal/human bond, updated to include the latest developments in canine health. In their two now-classic bestsellers, *How to be Your Dog's Best Friend* and *The Art of Raising a Puppy*, the Monks draw on their experience as long-time breeders of German shepherds and as trainers of dogs of all breeds to provide--brilliantly distilled--the indispensable information and advice that every dog owner needs. This new edition of *The Art of Raising a Puppy* features new photographs throughout, along with updated chapters on play, crating, adopting dogs from shelters and rescue organizations, raising dogs in an urban environment, and the latest developments in canine health and canine behavioral theory.

4 month old puppy crate training schedule: *Plenty in Life Is Free* Kathy Sdao, 2012 In this new book, renowned dog trainer Kathy Sdao reveals how her journey through life and her decades of experience training marine mammals and dogs led her to reject a number of sacred cows including the leadership model of dog training.

4 month old puppy crate training schedule: *What the Dogs Taught Me About Being a Parent* Doggy Dan, 2013-05-03 Charismatic dog trainer Doggy Dan shares his insights and tips into how working with dogs has helped him bring up his children. Learn how to lead the way in your family without using fear or aggression. Find out how to be clear and calm, firm and yet fair in all your dealings with others. Learn how to be confident and sensitive to those around you, and how to make decisions for the good of everyone. As Dan says, this book is not rocket science, it's a very practical and straightforward book with clear examples and lots of anecdotes that will change the way you think about your interactions with your children and, in fact, any other people. This book will change your life forever.

4 month old puppy crate training schedule: *Treating Separation Anxiety In Dogs* Malena DeMartini-Price, CTC, 2014-04-21 **Committed trainers and owners can solve this problem!**
 Treating separation anxiety in dogs is not quick or easy—but it can be done. The successful ingredients are cooperation, commitment and time on the part of the dog trainer and the owners. In this important new book, author Malena DeMartini-Price shares her 5 Phase Treatment Protocol and related strategies to help dogs overcome the fear of being left alone and addresses the trauma it can inflict on both the dog and their owners. Trainer handouts, detailed step-by-step training tips and a sample initial interview questionnaire are included.
 Learn about:
 • The critical role that “suspending absences” plays in the early part of the treatment plan and how owners and trainers can make this more manageable.
 • How dog trainers can make the treatment of separation anxiety in dogs a specialized business.
 • The role that management techniques and medications can play to help support the recommended behavior modification strategies.
 • How technology, including remote feeding devices and web cams, can be used to monitor a dog’s progress in overcoming his fear of being left alone.

and creating a step-by-step plan you [may] improve the quality of your dog's life--and yours--Amazon.com.

4 month old puppy crate training schedule: How to Raise a Puppy You Can Live with Clarice Rutherford, David H. Neil, 2005 The authors have devoted a lifetime to the study of animal behavior. Here, they tell you in easy-to-understand language just how a puppy's body and mind develop in the right way.

4 month old puppy crate training schedule: The Story of Your Dog Brandon McMillan, 2022-04-05 GET TO KNOW YOUR DOG. Renowned expert dog trainer and bestselling author of Lucky Dog Lessons Brandon McMillan unpacks the unique and often misunderstood 15,000-year evolutionary history governing a dog's every move. Most dog owners know the truth—their dogs are totally incompatible with the modern world. Instincts like herding, chasing, and protecting have no natural outlet and frequently result in chewing, barking, nipping, jumping, lunging, and worse. However, as McMillan argues in these pages, the solution isn't as simple as mastering "sit" and "stay." No matter what kind of dog you have, no matter how old or young or well trained or well-bred, your beloved companion is strongly influenced by his DNA. The result of these genetic distinctions shows up in every inch and action—from the size and shape of a dog's head (and the brain inside it) to the length and curve of his tail, from the texture of her fur to the webbing (or lack of webbing) between her toes. It's in their lung capacity, their tolerance for heat and cold, their appetites for food and exercise, and whether and how they bark. It goes beyond their structure and deep into their psychological profiles. Perhaps you're lucky enough to have a dog with more than a few breeds mixed in, which makes this information all the more crucial to know and understand. In *The Story of Your Dog*, McMillan breaks down why your dog acts the way it does, so you can train better and easier, with fewer missteps and miscommunications, and bond in ways you never thought possible. It is an invitation to get to know the sometimes frustrating but always incredible dog at the other end of the leash.

4 month old puppy crate training schedule: Everyone Poops Taro Gomi, 2020-09-01 The beloved, bestselling potty-training classic, now re-released for a new generation! An elephant makes a big poop. A mouse makes a tiny poop. Everyone eats, so of course: everyone poops! Taro Gomi's classic, go-to picture book for straight-talk on all things number 2 is back, as fresh and funny as ever. • Both a matter-of-fact, educational guide and a hilarious romp through poop territory • Filled with timeless OMG moments for both kids and adults • Colorful and content-rich picture book The concept of going to the bathroom is made concrete through this illustrated narrative that is both verbally and visually engaging. *Everyone Poops* is just right for potty-training and everyday reading with smart, curious readers. • Perfect for children ages 0 to 3 years old • Equal parts educational and entertaining, this makes a great book for parents and grandparents who are potty-training their toddler. • You'll love this book if you love books like *P is for Potty!* (Sesame Street) by Naomi Kleinberg, *Potty* by Leslie Patricelli, *The Potty Train* by David Hochman and Ruth Kennison.

4 month old puppy crate training schedule: The Happy Puppy Handbook Pippa Mattinson, 2014-04-03 Pippa Mattinson, dog-training specialist, tells you everything you need to know about training and caring for your new puppy. From preparing the house and garden before the puppy arrives, to introducing your new friend to all the family (including children and other animals), and solving problems like crying, night waking, feeding, upset stomachs, biting, chewing and jumping up, this book is packed with all you need to know as a puppy owner.

4 month old puppy crate training schedule: Canine Enrichment for the Real World Allie Bender, Emily Strong, 2019-11-08 In the world of dogs, there is now more awareness than ever of the need to provide enrichment, especially in shelters. But what exactly is enrichment? The concept is pretty straightforward: learn what your dog's needs are, and then structure an environment and routine that allows them to engage in behaviors they find enriching. To truly enrich your dog's life, you should offer them opportunities to engage in natural or instinctual behaviors. Aside from the limitations we have to place on a dog in today's modern, busy world, the biggest constraint to enriching your dog's life is your imagination! What the experts say about Canine Enrichment: Don't

let the word “enrichment” in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable. It focuses comprehensively on meeting your dog’s needs and is written in a holistic, science-based, practical, straightforward, and easy-to-understand way. I love this book! Ken Ramirez, author of *Animal Training: Successful Animal Management Through Positive Reinforcement Canine Enrichment* is a deep dive into what dogs really need and how we can provide it. It’s a great book for dog lovers who want to go beyond the standard superficialities of “dogs need exercise.” Just the chapter on agency is worth the price of the book! Patricia McConnell, Ph.D., CAAB Emeritus, author of *The Other End of the Leash* and *The Education of Will* The scope of this book is ambitious and the authors deliver, navigating the subject of enrichment with depth and relevance. Caregivers will gain critically important perspectives and practical information to improve the lives of their animals. Susan G. Friedman, Ph.D., Professor Emeritus, Utah State University, and founder of Behavior Works, LLC

4 month old puppy crate training schedule: American Drifter Heather Graham, Chad Michael Murray, 2017-11-14 An exhilarating tale of love and murder set in the heart of Brazil, by acclaimed novelist Heather Graham and television star Chad Michael Murray

4 month old puppy crate training schedule: *Dogs of Dreamtime* Karen Shanley, 2007-04-01 When does a dog’s behavior become too dangerous for even the most loving person to accept? Karen Shanley tackles this question in lyrical prose and brings to life her relationships with three very different dogs: Kiera, Molly, and Magic, who all manage to capture Shanley’s heart. *Dogs of Dreamtime* makes readers take a long, hard look at what matters most in life, and what does not—what can and cannot be controlled. This is a touching story that will stay with readers forever.

4 month old puppy crate training schedule: *The Loved Dog* Tamar Geller, 2008-10-14 A Hollywood dog trainer explains how to use nonviolent, wolf-inspired methods in order to bond with and train canine companions, in a guide that reveals how to employ play-based techniques that elicit desirable dog behaviors.
