43195 business park drive: The Ohio State University in the Sixties William J. Shkurti, 2016 At 5:30 p.m. on May 6, 1970, an embattled Ohio State University President Novice G. Fawcett took the unprecedented step of closing down the university. Despite the presence of more than 1,500 armed highway patrol officers, Ohio National Guardsmen, deputy sheriffs, and Columbus city police, university and state officials feared they could not maintain order in the face of growing student protests. Students, faculty, and staff were ordered to leave; administrative offices, classrooms, and laboratories were closed. The campus was sealed off. Never in the first one hundred years of the university's existence had such a drastic step been necessary. Just a year earlier the campus seemed immune to such disruptions. President Nixon considered it safe enough to plan an address at commencement. Yet a year later the campus erupted into a spasm of violent protest exceeding even that of traditional hot spots like Berkeley and Wisconsin. How could conditions have changed so dramatically in just a few short months? Using contemporary news stories, long overlooked archival materials, and first-person interviews, *The Ohio State University in the Sixties* explores how these tensions built up over years, why they converged when they did and how they forever changed the university.

43195 business park drive: Glass House Brian Alexander, 2017-02-14 For readers of Hillbilly Elegy and Strangers in Their Own Land WINNER OF THE OHIOANA BOOK AWARDS AND FINALIST FOR THE 87TH CALIFORNIA BOOK AWARDS |NAMED A BEST/MOST ANTICIPATED BOOK OF 2017 BY: New York Post • Newsweek • The Week • Bustle • Books by the Banks Book Festival • Bookauthority.com The Wall Street Journal: A devastating portrait...For anyone wondering why swing-state America voted against the establishment in 2016, Mr. Alexander supplies plenty of answers. Laura Miller, Slate: This book hunts bigger game.Reads like an odd?and oddly satisfying?fusion of George Packer's The Unwinding and one of Michael Lewis' real-life financial thrillers. The New Yorker : Does a remarkable job. Beth Macy, author of Factory Man: This book should be required reading for people trying to understand Trumpism, inequality, and the sad state of a needlessly wrecked rural America. I wish I had written it. In 1947, Forbes magazine declared Lancaster, Ohio the epitome of the all-American town. Today it is damaged, discouraged, and fighting for its future. In Glass House, journalist Brian Alexander uses the story of one town to show how seeds sown 35 years ago have sprouted to give us Trumpism, inequality, and an eroding national cohesion. The Anchor Hocking Glass Company, once the world's largest maker of glass tableware, was the base on which Lancaster's society was built. As Glass House unfolds, bankruptcy looms. With access to the company and its leaders, and Lancaster's citizens, Alexander shows how financial engineering took hold in the 1980s, accelerated in the 21st Century, and wrecked the company. We follow CEO Sam Solomon, an African-American leading the nearly all-white town's biggest private employer, as he tries to rescue the company from the New York private equity firm that hired him. Meanwhile, Alexander goes behind the scenes, entwined with the lives of residents as they wrestle with heroin, politics, high-interest lenders, low wage jobs, technology, and the new demands of American life: people like Brian Gossett, the fourth generation to work at Anchor Hocking; Joe Piccolo, first-time director of the annual music festival who discovers the town relies on him, and it, for salvation; Jason Roach, who police believed may have been Lancaster's biggest drug dealer; and Eric Brown, a local football hero-turned-cop who comes to realize that he can never arrest Lancaster's real problems.

43195 business park drive: City Cycling John Pucher, Ralph Buehler, 2012-10-19 A guide to today's urban cycling renaissance, with information on cycling's health benefits, safety, bikes and bike equipment, bike lanes, bike sharing, and other topics. Bicycling in cities is booming, for many reasons: health and environmental benefits, time and cost savings, more and better bike lanes and paths, innovative bike sharing programs, and the sheer fun of riding. City Cycling offers a guide to this urban cycling renaissance, with the goal of promoting cycling as sustainable urban transportation available to everyone. It reports on cycling trends and policies in cities in North America, Europe, and Australia, and offers information on such topics as cycling safety, cycling infrastructure provisions including bikeways and bike parking, the wide range of bike designs and bike equipment, integration of cycling with public transportation, and promoting cycling for women and children. City Cycling emphasizes that bicycling should not be limited to those who are highly trained, extremely fit, and daring enough to battle traffic on busy roads. The chapters describe ways to make city cycling feasible, convenient, and safe for commutes to work and school, shopping trips, visits, and other daily transportation needs. The book also offers detailed examinations and illustrations of cycling conditions in different urban environments: small cities (including Davis, California, and Delft, the Netherlands), large cities (including Sydney, Chicago, Toronto and Berlin), and "megacities" (London, New York, Paris, and Tokyo). These chapters offer a closer look at how cities both with and without historical cycling cultures have developed cycling programs over time. The book makes clear that successful promotion of city cycling depends on coordinating infrastructure, programs, and government policies.

43195 business park drive: Love, Death and Photosynthesis Bela Koe-Krompecher, 2020-02-07 During the heyday of the late '80s indie underground, high school sweethearts Bela Koe-Krompecher and Jenny Mae Leffel moved together from small-town Ohio to the big city of Columbus to pursue education and a dream of something more. When they arrived, the two met Jerry Wick, a prickly malcontent and lead singer of the punk rock band Gaunt, and the trio quickly forged a contentious friendship that would be challenged for the next 20 years by addiction, mental illness, homelessness, divergent whims and tragic paths. They bonded over their obsessive love of music, especially the scrappy, welcoming world of independent labels and bands, where heroes could be a neighbor, a bartender or even a know-it-all behind the counter of a record store. Through the label Koe-Krompecher and Wick launched, and the music Leffel made, these three friends gained fans nationwide and garnered unexpected critical acclaim from The New York Times, Entertainment Weekly, SPIN and more while sharing the stage with bands like Superchunk, Mudhoney and Guided by Voices. At its heart, Love, Death & Photosynthesis is a story of the love between friends and the power of music to pull people together--often in spite of themselves--in the universal search for connection.

43195 business park drive: Culturally Responsive School Leadership Muhammad Khalifa, 2020-07-27 Culturally Responsive School Leadership focuses on how school leaders can effectively serve minoritized students—those who have been historically marginalized in school and society. The book demonstrates how leaders can engage students, parents, teachers, and communities in ways that positively impact learning by honoring indigenous heritages and local cultural practices. Muhammad Khalifa explores three basic premises. First, that a full-fledged and nuanced understanding of “cultural responsiveness” is essential to successful school leadership. Second, that cultural responsiveness will not flourish and succeed in schools without sustained efforts by school leaders to define and promote it. Finally, that culturally responsive school leadership comprises a number of crucial leadership behaviors, which include critical self-reflection; the development of culturally responsive teachers; the promotion of inclusive, anti-oppressive school environments; and engagement with students’ indigenous community contexts. Based on an ethnography of a school principal who exemplifies the practices and behaviors of culturally responsive school leadership, the book provides educators with pedagogy and strategies for immediate implementation.

latest edition of *The Illustrated Book of Development Definitions* breaks new ground. It addresses traditional and new planning problems: natural and industrial disasters such as hurricanes and oil spills; new housing types and living accommodations; changes in urban design and practice like new urbanism; sustainability; pedestrian and bicycle friendly environments; and more. Joining Harvey S. Moskowitz and Carl G. Lindbloom, authors of the first three editions, are two prominent, nationally known planners: David Listokin and Richard Preiss. Attorney Dwight H. Merriam adds legal annotations to almost all 2,276 definitions. These citations from court decisions bridge the gap between land use theory and real world application, bringing a new dimension to this edition. More than 20,000 copies of previous editions were sold over four decades to professionals and government representatives, such as members of planning and zoning boards and municipal governing bodies. This first revision in ten years updates what is widely acknowledged as an essential, standard reference for planners.

"An acute study of those tender moments of becoming, this is an ode to girlhood, inheritance, and the good trouble the body yields."—Raven Leilani, author of *Luster* FINALIST: The New American Voices Award, The Carol Shields Prize for Fiction, The VCU Cabell First Novelist Award, The New American Voices Award, The Center for Fiction First Novel Prize ONE OF THE BEST BOOKS OF THE YEAR: PopSugar, Kirkus Reviews If you really want to know, we are the color of 7-Eleven root beer. The color of sand at Rockaway Beach when it blisters the bottoms of our feet. Color of soil . . . Welcome to Queens, New York, where streets echo with languages from all over the globe, subways rumble above dollar stores, trees bloom and topple over sidewalks, and the funky scent of the Atlantic Ocean wafts in from Rockaway Beach. Within one of New York City's most vibrant and eclectic boroughs, young women of color like Nadira, Gabby, Naz, Trish, Angelique, and countless others, attempt to reconcile their immigrant backgrounds with the American culture in which they come of age. Here, they become friends for life—or so they vow. Exuberant and wild, together they roam The City That Never Sleeps, sing Mariah Carey at the tops of their lungs, yearn for crushes who pay them no mind—and break the hearts of those who do—all while trying to heed their mothers' commands to be obedient daughters. But as they age, their paths diverge and rifts form between them, as some choose to remain on familiar streets, while others find themselves ascending in the world, beckoned by existences foreign and seemingly at odds with their humble roots. A blazingly original debut novel told by a chorus of unforgettable voices, *Brown Girls* illustrates a collective portrait of childhood, adulthood, and beyond, and is a striking exploration of female friendship, a powerful depiction of women of color attempting to forge their place in the world today. For even as the conflicting desires of ambition and loyalty, freedom and commitment, adventure and stability risk dividing them, it is to one another—and to Queens—that the girls ultimately return.

43195 business park drive: *Capital Markets Union and Beyond* Franklin Allen, Ester Faia, Michael Haliassos, Katja Langenbucher, 2019-12-10 Experts from economics, finance, law, policy, and banking discuss the design and implementation of a future capital market union in Europe. The plan for further development of Europe's economic and monetary union foresees the creation of a capital market union (CMU)—a single market for capital in the entire Eurozone. The need for citizens and firms of all European countries to have access to funding, together with the pressure to improve the efficiency and risk-sharing opportunities of the financial system in general, put the CMU among the top priorities on the Eurozone's agenda. In this volume, leading academics in economics,

finance, and law, along with policy makers and practitioners, discuss the design and implementation of a future CMU. Contributors describe the key design challenges of the CMU; specific opportunities and obstacles for reaching the CMU's goals of increasing the economic well-being of households and the profitability and viability of firms; the role that markets—from the latest fintech developments to traditional equity markets—can play in the future success of CMU; and the institutional framework needed for CMU in the aftermath of the global recession.
