5 paragraph opord cheat sheet: U.S. Army Reconnaissance and Surveillance Handbook U.S. Department of the Army, 2013-11-26 The official United States Army manual, U.S. Army Reconnaissance and Surveillance Handbook provides tactics, techniques, and procedures for reconnaissance and surveillance planning, mission management, and reporting. Throughout history, military leaders have recognized the importance of reconnaissance and surveillance. Gaining and maintaining contact with the enemy is essential to win the battle, and U.S. military history contains many examples where our knowledge of the enemy, or lack of knowledge, directly led to victory or defeat. The role of reconnaissance and surveillance has not diminished on the modern battlefield; if anything, it has become even more important. Battles at the combat training centers prove that a good reconnaissance and surveillance effort is critical to successful attacks. On the other hand, a poor reconnaissance and surveillance effort almost guarantees defeat for the commander. The message is clear: success on the battlefield begins with reconnaissance and surveillance. This essential handbook covers: Surveillance Preparation Assets Equipment Planning Monitoring Organizing Missions Electronic warfare Counter-reconnaissance And more! It also looks at the development of intelligence, employment considerations for reconnaissance, and defines the roles of

various personnel in planning operations. Intended for maneuver commanders and their staffs; intelligence staffs and collection managers; and other personnel involved in planning and reconnaissance and counter-reconnaissance operations, and now available to everyone, U.S. Army Reconnaissance and Surveillance Handbook provides an insider's look into the world of Army intelligence.

5 paragraph opord cheat sheet: The Tongue and Quill: Air Force Afh 33-337 Air Force Handbook Certified Current 27 July 2016 Usaf, 2018-10-08 The Tongue and Quill - AFH 33-337 is one of the most used and Air Force Handbooks to date. This is the most up to date edition. (Certified current as of July 27, 2016.) Direct from the ePub repository. The men and women of the United States Air Force must communicate clearly and effectively to carry out our missions. Although we live in an era of rapid personal and mass communication that was barely imagined just a few years ago, our Air Force still requires face-to-face briefings, background papers, and staff packages to keep the mission moving forward. This handbook provides the information to ensure clear communications--written or spoken. The Tongue and Quill has been a valued Air Force resource for decades and many Airmen from our Total Force of uniformed and civilian members have contributed their talents to various editions over the years. This revision is built upon the foundation of governing directives user's inputs from the unit level all the way up to Headquarters Air Force. A small team of Total Force Airmen from the Air University, the United States Air Force Academy, Headquarters Air Education and Training Command (AETC), the Air Force Reserve Command (AFRC), Air National Guard (ANG), and Headquarters Air Force compiled inputs from the field and rebuilt Tongue and Quill to meet the needs of today's Airmen. The team put many hours into this effort over a span of almost two years to improve the content, relevance, and organization of material throughout this handbook. As the final files go to press it is the desire of The Tongue and Quill team to say thank you to every Airman who assisted in making this edition better; you have our sincere appreciation! The Air Force Handbook (AFH) 33-337 is a guideline for speakers, writers, and presenters. The Tongue and Quill, as it's known, is widely used by Air Force military and civilian members, professional military school educators and students, and civilian corporations around the U.S.
