50 ivy league essays: Excellent Sheep William Deresiewicz, 2014-08-19 A groundbreaking manifesto about what our nation's top schools should be—but aren't—providing: “The ex-Yale professor effectively skewers elite colleges, their brainy but soulless students (those ‘sheep’), pushy parents, and admissions mayhem” (People). As a professor at Yale, William Deresiewicz saw something that troubled him deeply. His students, some of the nation's brightest minds, were adrift when it came to the big questions: how to think critically and creatively and how to find a sense of purpose. Now he argues that elite colleges are turning out conformists without a compass. Excellent Sheep takes a sharp look at the high-pressure conveyor belt that begins with parents and counselors who demand perfect grades and culminates in the skewed applications Deresiewicz saw firsthand as a member of Yale's admissions committee. As schools shift focus from the humanities to “practical” subjects like economics, students are losing the ability to think independently. It is essential, says Deresiewicz, that college be a time for self-discovery when students can establish their own values and measures of success in order to forge their own paths. He features quotes from real students and graduates he has corresponded with over the years, candidly exposing where the system is broken and offering clear solutions on how to fix it. “Excellent Sheep is likely to make...a lasting mark....He takes aim at just about the entirety of upper-middle-class life in America....Mr. Deresiewicz's book is packed full of what he wants more of in American life: passionate weirdness” (The New York Times).

50 ivy league essays: The Death of the Artist William Deresiewicz, 2020-07-28 A deeply researched warning about how the digital economy threatens artists' lives and work—the music, writing, and visual art that sustain our souls and societies—from an award-winning essayist and critic There are two stories you hear about earning a living as an artist in the digital age. One comes from Silicon Valley. There's never been a better time to be an artist, it goes. If you've got a laptop, you've got a recording studio. If you've got an iPhone, you've got a movie camera. And if production is cheap, distribution is free: it's called the Internet. Everyone's an artist; just tap your creativity and put your stuff out there. The other comes from artists themselves. Sure, it goes, you can put your stuff out there, but who's going to pay you for it? Everyone is not an artist. Making art takes years of dedication, and that requires a means of support. If things don't change, a lot of art will cease to be sustainable. So which account is true? Since people are still making a living as artists today, how are they managing to do it? William Deresiewicz, a leading critic of the arts and of contemporary culture, set out to answer those questions. Based on interviews with artists of all kinds, *The Death of the Artist* argues that we are in the midst of an epochal transformation. If artists were artisans in the Renaissance, bohemians in the nineteenth century, and professionals in the twentieth, a new paradigm is emerging in the digital age, one that is changing our fundamental ideas about the nature of art and the role of the artist in society.

50 ivy league essays: The Early Admissions Game Christopher Avery, Andrew Fairbanks, Richard Zeckhauser, 2009-07-01 Each year, hundreds of thousands of high school seniors compete in a game they'll play only once, whose rules they do not fully understand, yet whose consequences are enormous. The game is college admissions, and applying early to an elite school is one way to win. But the early admissions process is enigmatic and flawed. It can easily lead students toward hasty or misinformed decisions. This book—based on the careful examination of more than 500,000 college applications to fourteen elite colleges and hundreds of interviews with students, counselors, and admissions officers—provides an extraordinarily thorough analysis of early admissions. In clear language it details the advantages and pitfalls of applying early as it provides a map for students and parents to navigate the process. Unlike college admissions guides, *The Early Admissions Game* reveals the realities of early applications, how they work and what effects they have. The authors frankly assess early applications. Applying early is not for everyone, but it will improve—sometimes double, even triple—the chances of being admitted to a prestigious college. An early decision program can greatly enhance a college's reputation by skewing statistics, such as selectivity, average SAT scores, or percentage of admitted applicants who matriculate. But these gains come at the expense of distorting applicants' decisions and providing disparate treatment of students who apply early and regular admissions. The system, in short, is unfair, and the authors make

recommendations for improvement. The Early Admissions Game is sure to be the definitive work on the subject. It is must reading for admissions officers, guidance counselors, and high school seniors and their parents.

50 ivy league essays: Write Your Way In Rachel Toor, 2017-08-03 “Toor’s style is friendly, funny, and genuinely compelling, exhorting students to go deeper with their writing even (and especially) when the stakes are high.” —School Library Journal Writing, for most of us, is bound up with anxiety. It’s even worse when it feels like your whole future—or at least where you’ll spend the next four years in college—is on the line. It’s easy to understand why so many high school seniors put off working on their applications until the last minute or end up with a generic and clichéd essay. The good news? You already have the “secret sauce” for crafting a compelling personal essay: your own experiences and your unique voice. The best essays rarely catalog how students have succeeded or achieved. Good writing shows the reader how you’ve struggled and describes mistakes you’ve made. Excellent essays express what you’re fired up about, illustrate how you think, and illuminate the ways you’ve grown. More than twenty million students apply to college every year; many of them look similar in terms of test scores, grades, courses taken, extracurricular activities. Admissions officers wade through piles of files. As an applicant, you need to think about what will interest an exhausted reader. What can you write that will make her argue to admit you instead of the thousands of other applicants? A good essay will be conversational and rich in vivid details, and it could only be written by one person—you. This book will help you figure out how to find and present the best in yourself. You’ll acquire some useful tools for writing well—and may even have fun—in the process.

50 ivy league essays: College Admissions India to Ivies Caroline Linger, 2015-10-05 With over 18 years of experience in the education-counseling sector, I have gained an in-depth knowledge of the US, UK, Canadian & Australian college and university systems. Understanding the programs on offer and the unique personalities of each school has enabled me to easily match my students to their ideal schools, which leads to their being happy in college and in consequence exceling academically. During my years spent in India, I became increasingly conscious that not everyone attending high school outside the US had a clear vision of how the admissions process actually works (and to be frank I suspect that many of my students attending high schools in US are equally confused about it). This is why I finally sat down and decided to explain the process in full in a book of this nature. Over the years I have been exceptionally successful in placing numerous students into the 8 US Ivy League schools (Harvard, UPenn, Yale, Princeton, Brown, Columbia, Dartmouth and Cornell), and also into the other top schools in the US (including MIT, Cal Tech, Stanford, Chicago,

Northwestern, and Duke). I've also had huge success placing my students in many of the 20 UK Russell group universities (which include Oxford, Cambridge, Warwick, UCL, Imperial, and LSE). One of the key reasons for my success has been my in depth understanding of what each and every college and university is looking for, besides the top grades. I work with my students (from grade 8 up) to help them improve both their academic and extracurricular profiles, so they stand out among all other applicants. This book will help you understand the rules of the game of winning a place at your top choice school. Through it I aim to enable you to significantly improve your chances of winning that coveted place you dream of. I aim to guide you to strategically select the colleges that are looking for students just like you, and to give you an understanding of how the US universities and colleges assess your application and select the candidates that best fit their profile. This is the book for you if - * You want to maximize your chances of winning a place at the school/s of your dreams * You want to know why you have to take classes outside your major area of academic or vocational interest at all US Universities * You want to know which Technical Specialist schools boast the best gender balances * You need help choosing which colleges/universities to apply to * You want to know which schools are in the Ivy League and what the Ivy League actually is * You want to know which schools offer top programs in Engineering or Management at the undergraduate level * You want to know what Pre-Med and Pre-Law involve * You want to know what Greek life actually means * You want to understand how the size of a school will impact your student experience * You want to know which schools have the best ethnic and international diversity * You want to know how US schools assess applicants * You want to know how to write a winning application essay * You want to know how to make your application stand out * You want to know about the SAT and the ACT * You want to understand the application options like ED * You need help to ace your college interview * You want to know about Merit Scholarships * You want to know about Need-Based Financial Aid

50 ivy league essays: Where You Go Is Not Who You'll Be Frank Bruni, 2015-03-17 Read award-winning journalist Frank Bruni's New York Times bestseller: an inspiring manifesto about everything wrong with today's frenzied college admissions process and how to make the most of your college years. Over the last few decades, Americans have turned college admissions into a terrifying and occasionally devastating process, preceded by test prep, tutors, all sorts of stratagems, all kinds of rankings, and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no. In Where You Go Is Not Who You'll Be, Frank Bruni explains why this mindset is wrong, giving students and their parents a new perspective on this brutal, deeply flawed competition and a path out of the anxiety that it provokes. Bruni, a bestselling author and a columnist for the New York Times, shows that the Ivy League has no monopoly on corner offices, governors' mansions, or the most prestigious academic and scientific grants. Through statistics, surveys, and the stories of hugely successful people, he demonstrates that many kinds of colleges serve as ideal springboards. And he illuminates how to make the most of them. What matters in the end are students' efforts in and out of the classroom, not the name on their diploma. Where you go isn't who you'll be. Americans need to hear that--and this indispensable manifesto says it with eloquence and respect for the real promise of higher education.
