50s and 60s trivia questions and answers printable: *A More Beautiful Question* Warren

Berger, 2014-03-04 To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

50s and 60s trivia questions and answers printable: The Immortal Life of Henrietta Lacks Rebecca Skloot, 2010-02-02 #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, The Immortal Life of Henrietta Lacks captures the beauty and drama of scientific discovery, as well as its human consequences.

50s and 60s trivia questions and answers printable: Slave Songs of the United States

William Francis Allen, Charles Pickard Ware, Lucy McKim Garrison, 1996 Originally published in 1867, this book is a collection of songs of African-American slaves. A few of the songs were written after the emancipation, but all were inspired by slavery. The wild, sad strains tell, as the sufferers themselves could, of crushed hopes, keen sorrow, and a dull, daily misery, which covered them as hopelessly as the fog from the rice swamps. On the other hand, the words breathe a trusting faith in the life after, to which their eyes seem constantly turned.

50s and 60s trivia questions and answers printable: Raven Rock Garrett M. Graff,

2017-05-02 Now a 6-part mini-series called Why the Rest of Us Die airing on VICE TV! The shocking truth about the government's secret plans to survive a catastrophic attack on US soil—even if the rest of us die—is “a frightening eye-opener” (Kirkus Reviews) that spans the dawn of the nuclear age to today, and contains everything one could possibly want to know (The Wall Street Journal). Every day in Washington, DC, the blue-and-gold first Helicopter Squadron, codenamed “MUSSEL,” flies over the Potomac River. As obvious as the Presidential motorcade, most people assume the squadron is a travel perk for VIPs. They're only half right: while the helicopters do provide transport, the unit exists to evacuate high-ranking officials in the event of a terrorist or nuclear attack on the capital. In the event of an attack, select officials would be whisked by helicopters to a ring of secret bunkers around Washington, even as ordinary citizens were left to fend for themselves. “In exploring the incredible lengths (and depths) that successive administrations have gone to in planning for the aftermath of a nuclear assault, Graff deftly weaves a tale of secrecy and paranoia” (The New York Times Book Review) with details that read like they've been ripped from the pages of a pulp spy novel (Vice). For more than sixty years, the US government has been developing secret Doomsday strategies to protect itself, and the multibillion-dollar Continuity of Government (COG) program takes numerous forms—from its potential to evacuate the Liberty Bell from Philadelphia to the plans to launch nuclear missiles from a Boeing-747 jet flying high over Nebraska. Garrett M. Graff sheds light on the inner workings of the 650-acre compound, called Raven Rock, just miles from Camp David, as well as dozens of other bunkers the government built for its top leaders during the Cold War, from the White House lawn to Cheyenne Mountain in Colorado to Palm Beach, Florida, and the secret plans that would have kicked in after a Cold War nuclear attack to round up foreigners and dissidents and nationalize industries. Equal parts a presidential, military, and cultural history, Raven Rock tracks the evolution of the government plan and the threats of global war from the dawn of the nuclear era through the War on Terror.

Steinbeck, 2008-08-26 The final novel of one of America's most beloved writers—a tale of degeneration, corruption, and spiritual crisis A Penguin Classic In awarding John Steinbeck the 1962 Nobel Prize in Literature, the Nobel committee stated that with *The Winter of Our Discontent*, he had “resumed his position as an independent expounder of the truth, with an unbiased instinct for what is genuinely American.” Ethan Allen Hawley, the protagonist of Steinbeck's last novel, works as a clerk in a grocery store that his family once owned. With Ethan no longer a member of Long Island's aristocratic class, his wife is restless, and his teenage children are hungry for the tantalizing material comforts he cannot provide. 50s and 60s trivia questions and answers printable: Government's Greatest Achievements Paul C. Light, 2010-12-01 In an era of promises to create smaller, more limited government, Americans often forget that the federal government has amassed an extraordinary record of successes over the past half century. Despite seemingly insurmountable odds, it helped rebuild Europe after World War II, conquered polio and other life-threatening diseases, faced down communism, attacked racial discrimination, reduced poverty among the elderly, and put men on the moon. In *Government's Greatest Achievements*, Paul C. Light explores the federal government's most successful accomplishments over the previous five decades and anticipates the most significant challenges of the next half century. While some successes have come through major legislation such as the 1965 Medicare Act, or large-scale efforts like the Apollo space program, most have been achieved through collections of smaller, often unheralded statutes. Drawing on survey responses from 230 historians and 220 political scientists at colleges and universities nationwide, Light ranks and summarizes the fifty greatest government achievements from 1944 to 1999. The achievements were ranked based on difficulty, importance, and degree of success. Through a series of twenty vignettes, he paints a vivid picture of the most intense government efforts to improve the quality of life both at home and abroad—from enhancing health care and workplace safety, to expanding home ownership, to improving education, to protecting endangered species, to strengthening the national defense. The book also examines how Americans perceive government's greatest achievements, and

reveals what they consider to be its most significant failures. America is now calling on the government to resolve another complex, difficult problem: the defeat of terrorism. Light concludes by discussing this enormous task, as well as government's other greatest priorities for the next fifty years.
