6111 business center court: Los Angeles, '98 Fodor's, Fodor's Travel Publications, Inc. Staff, 1997 Translated here for the first time into any language, Mountain Doctrine, Ocean of Definitive Meaning: Final Unique Quintessential Instructions is a seminal fourteenth-century Tibetan text on the nature of reality. The author, Dol-bo-ba Shay-rap-gyel-tsen, was one of the most influential figures of that dynamic period of doctrinal formulation and his text is a sustained argument about the buddha-nature, also called the matrix-of-one-gone-thus. Dol-bo-ba recognizes two important types of emptiness - self-emptiness and other-emptiness - and shows how other-emptiness is the actual ultimate truth. He justifies this controversial formulation by arguing that it was the favored system of all the early outstanding figures of the great vehicle and by showing how important these doctrines were in India. The translator's introduction includes a short biography of Dol-bo-ba and an exposition of nine focal topics in his religious philosophy.--BOOK JACKET.
