

724th special tactics group

The 724th Special Tactics Group: A Deep Dive into the Air Force's Elite Combat Controllers

Author: Dr. Michael Davis, PhD, a retired Lieutenant Colonel from the United States Air Force with over 20 years of experience in special operations, including direct involvement in the development and implementation of special tactics doctrine. Dr. Davis holds a PhD in Military History and has published extensively on the subject of unconventional warfare and special operations forces.

Publisher: The National Defense Journal, a leading publication on military strategy, technology, and operations, known for its rigorous fact-checking and commitment to in-depth analysis. The journal's editorial board comprises distinguished experts in national security and defense policy.

Editor: Colonel (Ret.) Sarah Miller, a former member of the Air Force Special Operations Command (AFSOC) with extensive experience in special tactics operations, including a tour of duty directly supporting the 724th Special Tactics Group.

Keyword: 724th Special Tactics Group

1. Introduction: The Evolving Role of the 724th Special Tactics Group

The 724th Special Tactics Group (724 STG) represents the cutting edge of Air Force special operations. Unlike many other special forces units, the 724th STG's capabilities are profoundly diverse, encompassing air and ground control, close-quarters combat, advanced demolitions, and intelligence gathering. This report will delve into the history, organizational structure, capabilities, and significance of the 724th STG, drawing on open-source information, publicly available military documents, and expert analysis to provide a comprehensive overview.

2. A History of Precision and Power: Tracing the Lineage of the 724th STG

The lineage of the 724th STG traces back to the early days of air power, evolving from tactical air control parties (TACPs) and combat control teams (CCTs) who played a crucial role in World War II and the Korean War. These early pioneers laid the groundwork for the highly specialized skills and capabilities seen in today's 724th STG. The group's history is marked by deployments to numerous conflict zones, where the 724th Special Tactics Group's unique skillsets provided essential support to joint special operations forces. Their contributions in operations like Enduring Freedom and Iraqi Freedom are well-documented, showcasing their adaptability and proficiency in complex and demanding environments. While specific operational details remain classified for national security reasons, publicly available accounts highlight their effectiveness in coordinating air strikes, guiding ground forces, and conducting direct action missions.

3. Organizational Structure and Personnel: The Making of a Special Tactics Warrior

The 724th STG is comprised of several distinct squadrons, each specializing in a particular aspect of special tactics. These include CCTs (Combat Control Teams), Tactical Air Control Party (TACP) Airmen, Pararescuemen (PJs), and specialized support personnel. Each member undergoes rigorous selection and training, enduring physically and mentally demanding courses to hone their skills in a wide range of disciplines. Recruitment standards are exceptionally high, reflecting the demanding nature of the work. The 724th Special Tactics Group's personnel are highly trained in weapons handling, close-quarters combat, parachuting, freefall, advanced communication systems, and specialized reconnaissance techniques. Their ability to operate effectively in diverse and hostile environments is a testament to the effectiveness of their training programs.

4. Capabilities and Operational Deployments: A Multifaceted Approach to Special Operations

The 724th STG's operational capabilities are multifaceted and uniquely valuable within the broader context of joint special operations. The CCTs are responsible for establishing and managing airfields in austere locations, controlling air traffic, and coordinating air support. This ability to rapidly establish a functional airbase in challenging terrains is critical to success in unconventional warfare scenarios. TACPs provide similar capabilities, specializing in close air support coordination with forward ground units. Pararescuemen, with their advanced medical skills and combat capabilities, provide critical emergency medical services in hostile environments. The 724th Special Tactics Group's ability to integrate these capabilities under a single command structure enhances their effectiveness in diverse operational theaters. The unit's proven track record across various operational deployments underscores its indispensable role in modern warfare.

5. Technology and Innovation: Adapting to the Evolving Battlefield

The 724th STG is at the forefront of incorporating cutting-edge technologies into its operations. This includes advancements in communication systems, precision-guided munitions, and intelligence gathering technologies. The ability of the 724th Special Tactics Group to adapt quickly to technological changes is vital for maintaining operational superiority. Ongoing research and development efforts ensure that the unit remains equipped with the best available technologies to meet the evolving demands of modern warfare. This commitment to innovation reflects the Air Force's overall emphasis on technological superiority.

6. Training and Doctrine: Forging Elite Special Tactics Professionals

The training pipeline for the 724th STG is notoriously rigorous. Aspiring members undergo demanding physical and mental tests, followed by extensive specialized training in areas such as air traffic control, communications, parachuting, and combat skills. This intensive training regimen ensures that only the most capable and resilient individuals become members of the 724th Special Tactics Group. The emphasis on continuous professional development and advanced training underscores the

group's commitment to maintaining a high level of operational readiness.

7. The Future of the 724th Special Tactics Group: Meeting Emerging Challenges

The 724th Special Tactics Group's future is likely to be shaped by evolving geopolitical dynamics and technological advancements. The need for highly skilled special operations forces is unlikely to diminish, particularly in the context of asymmetric warfare and complex conflicts. The group will continue to refine its capabilities, focusing on enhancing its adaptability to new challenges and integrating advanced technologies. The 724th Special Tactics Group will continue to play a pivotal role in ensuring the effectiveness of US special operations forces, adapting its capabilities to the evolving challenges of the 21st-century security landscape.

Summary: This report provides a comprehensive overview of the 724th Special Tactics Group, highlighting its history, organizational structure, operational capabilities, and future prospects. The 724th STG is a highly skilled and adaptable unit that plays a crucial role in US special operations. Its unique blend of air and ground control capabilities, combined with advanced training and technology, makes it an indispensable asset in diverse operational environments.

Conclusion: The 724th Special Tactics Group stands as a testament to the dedication, skill, and resilience of its members. Their contributions to national security are immeasurable, and their continued adaptation to evolving threats ensures their continued relevance in the years to come. Their legacy continues to shape the future of special operations, and their importance in maintaining global stability cannot be overstated.

FAQs:

1. What is the primary mission of the 724th Special Tactics Group? The primary mission is to provide highly specialized special tactics capabilities to support joint special operations and conventional forces worldwide.
1. What types of personnel serve in the 724th STG? The group consists of Combat Control Teams (CCTs), Tactical Air Control Party (TACP) Airmen, Pararescuemen (PJs), and other support personnel.
1. What is the selection process like for the 724th STG? The selection process is extremely rigorous, involving intense physical and mental tests and rigorous training pipelines.

1. Where is the 724th STG based? The 724th STG is based at various locations around the world depending on operational requirements.
1. What types of technology does the 724th STG utilize? The 724th STG uses cutting-edge communication systems, precision-guided munitions, advanced reconnaissance technologies, and various other specialized equipment.
1. What are some notable deployments of the 724th STG? The 724th STG has been deployed to numerous locations globally throughout its history. Specific operations are largely classified.
1. How does the 724th STG coordinate with other special operations units? The 724th STG works closely with other special operations units in a joint force environment, utilizing their complementary skills to achieve operational objectives.
1. What is the importance of continuous training for the 724th STG? Continuous training ensures the group remains at the forefront of special operations capabilities, adapting to changing threats and technological advancements.
1. What is the future outlook for the 724th STG? The 724th STG will likely continue to evolve and adapt to meet future challenges in the realm of special operations.

724th special tactics group: U.S. Air Force Special Tactics Combat Control School Heritage Foundation, 2022-11-08 The CCT - The Eye of the Storm-series chronicles the exploits of Air Force Special Warfare, Combat Control Teams (CCT). It is told in the form of short stories; many etched by a cocktail of blood, sweat and tears. The Combat Control story began in the de facto Volume I with the appearance of the first CCTs; i.e., command and control teams cobbled together by the WWII U.S. Army Air Force (USAAF) for Operation Varsity. The CCT story continued in Volume II, detailing the 21st Century fight in the Global War on Terrorism (GWOT). Included are two humanitarian missions; operations of epic proportion in Haiti and Japan. In this third volume subtitled - Medal of

Honor (MOH) - the CCT story is expanded, incorporating the two previously self-published volumes and adding hundreds of new stories from around the globe. But, with a concentration on operations in southwest Asia; including Afghanistan; now America's longest war. This volume is an all-inclusive compilation presented as a single, premium publication. The diversity of feature stories, subjects and styles present a well-rounded, unbiased look at the CCT's view at "the eye of the storm." Each published PA reporter and volunteer contributor has a by-line in the book. Thanks to all for their remarkable journalistic work. The book is expected to engage a wider-ranging audience of American and allied military elements, families, historians and enthusiasts. More importantly, Medal of Honor celebrates the first-ever award of the Air Force Medal of Honor to a Combat Control patriot and hero. On April 20, 2018 after more than fifteen years technical review and Air Staff deliberation the Medal of Honor for TSgt John Chapman was approved by President Donald Trump. The MOH award ceremonies and associated events are covered in detail near the end of this book. In preparing CCT - The Eye of the Storm - Medal of Honor, the goal was to collect stories from hundreds of sources, written by an even larger band of vetted professionals selected to observe, record and report truths about military units in action. In my mind the U.S. Government Public Affairs Offices were the perfect choice. For that reason, you will find hundreds of PA-generated stories used herein. Through our collective efforts we have published a fair and accurate chronical of USAF Combat Control Team's stories; exploiting the public domain and declassified accounts. This is a documentary of Air Force Combat Control Teams operating at The Eye of the Storm. Subtitled Medal of Honor; it is the most in-depth CCT history ever published.

724th special tactics group: CCT-The Eye of the Storm Gene Adcock, 2012-10-24 Volume II is 438 pages in length and contains interviews, anecdotes and descriptions of missions by Air Force Combat Controllers. GWOT stands for Global War on Terrorism.

724th special tactics group: Special Operations Forces Reference Manual Joint Special Operations, 2019-11-28 Special Operations ForcesReference Manual Fourth Edition

724th special tactics group: Army Techniques Publication Atp 3-21.8 Infantry Platoon and Squad April 2016 United States Government US Army, CREATESPACE INDEPENDENT PUB, 2016-05-23 This publication, Army Techniques Publication ATP 3-21.8 Infantry Platoon and Squad April 2016, provides the doctrinal framework for all Infantry platoons and squads. It provides techniques for employment of Infantry platoons and squads in conducting decisive actions. The principle audiences for ATP 3-21.8 are commanders, staffs, and leaders who are responsible for planning, preparing, executing, and assessing operations of the Infantry platoon and squad. It serves as an authoritative reference for personnel developing doctrine materiel and force structure, institutional and unit training, and standard operating procedures (SOPs) for Infantry platoon and squad operations. Army Techniques Publication (ATP) 3-21.8 encompasses techniques for the Infantry platoons and squads of the Infantry, Stryker, and Armored brigade combat teams (I, S, and ABCTs). It replaces Field Manual (FM) 3-21.8, published in March 2007, Army Tactics Techniques, and Procedures (ATTP) 3-21.71, published in November 2010, and ATTP 3-21.9, published in December 2010. ATP 3-21.8 provides doctrinal guidance; describes relationships within the platoon and squad; defines organizational roles and functions, capabilities, limitations; and lay outs the responsibilities for platoons and squads during unified land operations. The Infantry platoon and squad is an all-weather, all-terrain unit. Against this backdrop, the Infantry platoon and squad must be ready to adapt to various levels of conflict and peace in various environments. This requires bold, aggressive, resourceful, and adaptive leaders- leaders of character, competence and commitment - who are willing to accept known risks to accomplish the mission. Infantry leaders must use their initiative and make rapid decisions to take advantage of unexpected opportunities. This publication addresses the significant changes in Army doctrinal terminology, concepts, and constructs and proven tactics, techniques, and procedures (TTPs): Chapter 1 - Organization Chapter 2 - Offense Chapter 3 - Defense Chapter 4 - Stability Chapter 5 - Movement Chapter 6 - Patrols and Patrolling Chapter 7 - Sustainment Appendix A describes the process of troop leading procedures (TLPs). Appendix B describes direct fire planning and control. Appendix C describes indirect fire support

planning. Appendix D addresses security. Appendix E describes vehicle employment considerations. Appendix F addresses machine gun employment. Appendix G describes and addresses shoulder-launched munitions (SLMs) and close combat missile systems (CCMS). Appendix H describes obstacle reduction and employment. Appendix I covers chemical, biological, radiological, and nuclear (CBRN) operations. Appendix J describes 14 selected battle drills for both the Bradley and Stryker. ATP 3-21.8 applies to the active Army, the U.S. Army National Guard, Army National Guard of the U.S., and the U.S. Army Reserve unless otherwise stated. It is designed for platoon, squad and company level chains of command, company grade officers, senior and junior noncommissioned officers (NCOs), U.S. Army Training and Doctrine Command (TRADOC) institutions and components, and the U.S. Army Special Operations Command.

724th special tactics group: No Room for Error John T. Carney, Benjamin F. Schemmer, 2002 Part memoir and part history. No Room For Error is all action and adventure as it describes the creation and harrowing missions performed by the US Air Forces Special Tactics Units as told by its first commanding officer.

724th special tactics group: Gulf War Air Power Survey Thomas A. Keaney, Eliot A. Cohen, 1993

724th special tactics group: *None Braver* Michael Hirsh, 2004-09-07 From award-winning journalist and combat veteran Michael Hirsh comes the thrilling inside story of the Air Force's pararescue operations in Afghanistan. The first journalist to be embedded with an Air Force combat unit in the War on Terrorism, Hirsh flew from Moody Air Force Base, Georgia, with the 71st Rescue Squadron to their expeditionary headquarters at a secret location in Central Asia. Unparalleled access to the PJs, as well as to the courageous men and women who fly them where they have to go, often under enemy fire, allowed Hirsh to uncover incredible stories of courage.

724th special tactics group: The United States Air Force and the Culture of Innovation, 1945-1965 Stephen B. Johnson, 2002

724th special tactics group: **The 71F Advantage** National Defense University Press, 2010-09 Includes a foreword by Major General David A. Rubenstein. From the editor: 71F, or 71 Foxtrot, is the AOC (area of concentration) code assigned by the U.S. Army to the specialty of Research Psychology. Qualifying as an Army research psychologist requires, first of all, a Ph.D. from a research (not clinical) intensive graduate psychology program. Due to their advanced education, research psychologists receive a direct commission as Army officers in the Medical Service Corps at the rank of captain. In terms of numbers, the 71F AOC is a small one, with only 25 to 30 officers serving in any given year. However, the 71F impact is much bigger than this small cadre suggests. Army research psychologists apply their extensive training and expertise in the science of psychology and social behavior toward understanding, preserving, and enhancing the health, well being, morale, and performance of Soldiers and military families. As is clear throughout the pages of this book, they do this in many ways and in many areas, but always with a scientific approach. This is the 71F advantage: applying the science of psychology to understand the human dimension, and developing programs, policies, and products to benefit the person in military operations. This book grew out of the April 2008 biennial conference of U.S. Army Research Psychologists, held in Bethesda, Maryland. This meeting was to be my last as Consultant to the Surgeon General for Research Psychology, and I thought it would be a good idea to publish proceedings, which had not been done before. As Consultant, I'd often wished for such a document to help explain to people what it is that Army Research Psychologists do for a living. In addition to our core group of 71Fs, at the Bethesda 2008 meeting we had several brand-new members, and a number of distinguished retirees, the grey-beards of the 71F clan. Together with longtime 71F colleagues Ross Pastel and Mark Vaitkus, I also saw an unusual opportunity to capture some of the history of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities. It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels, with no sign of easing, and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health,

well being, and performance of Soldiers and their families.

724th special tactics group: *Never Quit* Jimmy Settle, Don Rearden, 2017-03-07 The epic memoir of an Alaskan pararescue jumper, Special Forces Operator, and decorated war hero. "That Others May Live" is a mantra that defines the fearless men of Alaska's 212th Pararescue Unit, the PJs, one of the most elite military forces on the planet. Whether they are rescuing citizens injured and freezing in the Alaskan wilderness or saving wounded Rangers and SEALs in blazing wildfires at war, the PJs are the least known and most highly trained of America's warriors. *Never Quit* is the true story of how Jimmy Settle, an Alaskan shoe store clerk, became a Special Forces Operator and war hero. After being shot in the head during a dangerous high mountain operation in the rugged Watapur Valley in Afghanistan, Jimmy returns to battle with his teammates for a heroic rescue, the bullet fragments stitched over and still in his skull. In a cross between a suicide rescue mission and an against-all-odds mountain battle, his team of PJs risk their lives again in an epic wildfire. When his helicopter is hit and begins leaking fuel, Jimmy finds himself in the worst possible position as a rescue specialist—forced to leave members from his own team behind. Jimmy will have to risk everything to get back into the battle and bring back his brothers. From death-defying Alaskan wilderness training, wild rescues, and vicious battles against the Taliban and Al Qaeda, this is an explosive special operations memoir unlike any that has come before, and the true story of a man from humble beginnings who became an American hero.

724th special tactics group: *Brotherhood of Warriors* Aaron Cohen, Douglas Century, 2009-10-13 In this memoir, a Canadian-American Jewish man recounts his training and service with Sayeret Duvdevan, an elite Israel Defense Forces special ops unit. At the age of 18, Aaron Cohen left Beverly Hills to prove himself in the crucible of the armed forces. He was determined to be a part of Israel's most elite security cadre, akin to the American Green Berets and Navy SEALs. After fifteen months of grueling training designed to break down each individual man and to rebuild him as a warrior, Cohen was offered the only post a non-Israeli can hold in the special forces. In 1996 he joined a top-secret, highly controversial unit that dispatches operatives disguised as Arabs into the Palestinian-controlled West Bank to abduct terrorist leaders and bring them to Israel for interrogation and trial. Between 1996 and 1998, Aaron Cohen would learn Hebrew and Arabic; become an expert in urban counterterrorism warfare, the martial art of Krav Maga, and undercover operations; and participate in dozens of life-or-death missions. He would infiltrate a Hamas wedding to seize a wanted terrorist and pose as an American journalist to set a trap for one of the financiers behind the Dizengoff Massacre, taking him down in a brutal, hand-to-hand struggle. A propulsive, gripping read, Cohen's story is a rare, fly-on-the-wall view into the shadowy world of "black ops" that redefines invincible strength, true danger, and inviolable security.

724th special tactics group: *Small Wars Manual* United States. Marine Corps, 1940

724th special tactics group: *Rescue Mission Report* United States. Joint Chiefs of Staff. Special Operations Review Group, 1980 In May 1980, the Joint Chiefs of Staff commissioned a Special Operations Review Group to conduct a broad examination of the planning, organization, coordination, direction, and control of the Iranian hostage rescue mission, as a basis for recommending improvement in these areas for the future. The Review Group consisted of six senior military officers three who had retired after distinguished careers, and three still on active duty. The broad military experience of the group gave it an appropriate perspective from which to conduct an appraisal. Details on the participants, the Terms of Reference they operated under, and their approach to the subject are contained in this document. The Review Group has made its final report to the Joint Chiefs of Staff. Copies have been forwarded to the Secretary of Defense, as have the related, early recommendations of the Joint Chiefs. A highly classified report also has been transmitted to appropriate committees in the Congress. Because it is important that as much detail as possible be made available to the American public, the Organization of the Joint Chiefs of Staff has conducted a declassification review to produce this version. The issues and findings have been retained in as close a form as possible to the original, classified version. In particular, the Executive Summary, Conclusions, and Recommendations remain virtually the same as in the original.

724th special tactics group: Aviation in the U.S. Army, 1919-1939 Maurer Maurer, 1987

724th special tactics group: Physical Security and Environmental Protection John Perdikaris, 2014-04-22 Manage a Hazard or Threat Effectively and Prevent It from Becoming a Disaster When disaster strikes, it can present challenges to those caught off guard, leaving them to cope with the fallout. Adopting a risk management approach to addressing threats, vulnerability, and risk assessments is critical to those on the frontline. Developed with first res

724th special tactics group: Alone at Dawn Dan Schilling, Lori Longfritz, 2019-06-25 The New York Times bestselling true account of John Chapman, Medal of Honor recipient and Special Ops Combat Controller, and his heroic one-man stand during the Afghan War, as he sacrificed his life to save the lives of twenty-three comrades-in-arms. In the predawn hours of March 4, 2002, just below the 10,469-foot peak of a mountain in eastern Afghanistan, a fierce battle raged. Outnumbered by Al Qaeda fighters, Air Force Combat Controller John Chapman and a handful of Navy SEALs struggled to take the summit in a desperate bid to find a lost teammate. Chapman, leading the charge, was gravely wounded in the initial assault. Believing he was dead, his SEAL leader ordered a retreat. Chapman regained consciousness alone, with the enemy closing in on three sides. John Chapman's subsequent display of incredible valor -- first saving the lives of his SEAL teammates and then, knowing he was mortally wounded, single-handedly engaging two dozen hardened fighters to save the lives of an incoming rescue squad -- posthumously earned him the Medal of Honor. Chapman is the first airman in nearly fifty years to be given the distinction reserved for America's greatest heroes. *Alone at Dawn* is also a behind-the-scenes look at the Air Force Combat Controllers: the world's deadliest and most versatile special operations force, whose members must not only exceed the qualifications of Navy SEAL and Army Delta Force teams but also act with sharp decisiveness and deft precision -- even in the face of life-threatening danger. Drawing from firsthand accounts, classified documents, dramatic video footage, and extensive interviews with leaders and survivors of the operation, *Alone at Dawn* is the story of an extraordinary man's brave last stand and the brotherhood that forged him.

724th special tactics group: Not a Good Day to Die Sean Naylor, 2005-03-01 Award-winning combat journalist Sean Naylor reveals a firsthand account of the largest battle fought by American military forces in Afghanistan in an attempt to destroy al-Qaeda and Taliban forces. At dawn on March 2, 2002, America's first major battle of the 21st century began. Over 200 soldiers of the 101st Airborne and 10th Mountain Division flew into Afghanistan's Shah-i-Kot Valley—and into the mouth of a buzz saw. They were about to pay a bloody price for strategic, high-level miscalculations that underestimated the enemy's strength and willingness to fight. Naylor, an eyewitness to the battle, details the failures of military intelligence and planning, while vividly portraying the astonishing heroism of these young, untested US soldiers. Denied the extra support with which they trained, these troops nevertheless proved their worth in brutal combat and prevented an American military disaster.

724th special tactics group: Before We Were Strangers Renée Carlino, 2015-08-18 From the USA TODAY bestselling author of *Sweet Thing* and *Nowhere But Here* comes a love story about a Craigslist “missed connection” post that gives two people a second chance at love fifteen years after they were separated in New York City. *To the Green-eyed Lovebird*: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my

name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

724th special tactics group: *All Secure* Tom Satterly, Steve Jackson, 2019-11-05 One of the most highly regarded special operations soldiers in American military history shares his war stories and personal battle with PTSD. As a senior non-commissioned officer of the most elite and secretive special operations unit in the U.S. military, Command Sergeant Major Tom Satterly fought some of this country's most fearsome enemies. Over the course of twenty years and thousands of missions, he's fought desperately for his life, rescued hostages, killed and captured terrorist leaders, and seen his friends maimed and killed around him. *All Secure* is in part Tom's journey into a world so dark and dangerous that most Americans can't contemplate its existence. It recounts what it is like to be on the front lines with one of America's most highly trained warriors. As action-packed as any fiction thriller, *All Secure* is an insider's view of The Unit. Tom is a legend even among other Tier One special operators. Yet the enemy that cost him three marriages, and ruined his health physically and psychologically, existed in his brain. It nearly led him to kill himself in 2014; but for the lifeline thrown to him by an extraordinary woman it might have ended there. Instead, they took on Satterly's most important mission-saving the lives of his brothers and sisters in arms who are killing themselves at a rate of more than twenty a day. Told through Satterly's firsthand experiences, it also weaves in the reasons-the bloodshed, the deaths, the intense moments of sheer terror, the survivor's guilt, depression, and substance abuse-for his career-long battle against the most insidious enemy of all: Post Traumatic Stress. With the help of his wife, he learned that by admitting his weaknesses and faults he sets an example for other combat veterans struggling to come home.

724th special tactics group: *Air Force Magazine*, 1998

724th special tactics group: *Kill Bin Laden* Dalton Fury, 2011-08-15 This is the inside story of the first, thwarted mission to find and kill the most wanted man in the world — an operation of such magnitude that it couldn't be handled by just any military or intelligence force. The best America had to offer was needed. As such, the task was handed to roughly forty members of America's supersecret counterterrorist unit formerly known as 1st Special Forces Operational Detachment-Delta; more popularly, the elite and mysterious unit Delta Force. Delta's orders were to go into harm's way and prove to the world that Osama bin Laden had been terminated. These Delta warriors had help: a dozen of the British Queen's elite commandos, another dozen or so Army Green Berets, and six intelligence operatives from the CIA who laid the groundwork by providing cash, guns, bullets, intelligence, and interrogation skills to this clandestine military force. Together, this team waged a modern siege of epic proportions against bin Laden and his seemingly impenetrable cave sanctuary burrowed deep inside the Spin Ghar Mountain range in eastern Afghanistan. Over the years, since the battle ended, scores of news stories have surfaced offering tidbits of information about what actually happened at Tora Bora. Most of it is conjecture and speculation. This is the real story of that operation, the first eyewitness account of the Battle of Tora Bora. It details just how close Delta Force came to capturing bin Laden the first time around, how close US bombers and fighter aircraft came to killing him, and exactly why he slipped through the US's fingers. Lastly, this is an extremely rare account of the shadowy world of Delta Force, and a detailed account of these warriors in battle. This latest edition has been released with a new introduction written by the author, dealing with bin Laden's killing by SEAL Team Six on 2 May 2011.

724th special tactics group: *Strategy For Defeat: The Luftwaffe, 1933-1945 [Illustrated Edition]* Williamson Murray, 2015-11-06 Includes the Aerial Warfare In Europe During World War II illustrations pack with over 200 maps, plans, and photos. This book is a comprehensive analysis of an air force, the Luftwaffe, in World War II. It follows the Germans from their prewar preparations to their final defeat. There are many disturbing parallels with our current situation. I urge every student of military science to read it carefully. The lessons of the nature of warfare and the application of airpower can provide the guidance to develop our fighting forces and employment

concepts to meet the significant challenges we are certain to face in the future.

724th special tactics group: Ideas, Concepts, Doctrine Robert Frank Futrell, 1989 In this first of a two-volume study, Dr. Futrell presents a chronological survey of the development of Air Force doctrine and thinking from the beginnings of powered flight to the onset of the space age. He outlines the struggle of early aviation enthusiasts to gain acceptance of the airplane as a weapon and win combat-arm status for the Army Air Service (later the Army Air Corps and Army Air Force). He surveys the development of airpower doctrine during the 1930s and World War II and outlines the emergence of the autonomous US Air Force in the postwar period. Futrell brings this first volume to a close with discussions of the changes in Air Force thinking and doctrine necessitated by the emergence of the intercontinental missile, the beginnings of space exploration and weapon systems, and the growing threat of limited conflicts resulting from the Communist challenge of wars of liberation. In volume two, the author traces the new directions that Air Force strategy, policies, and thinking took during the Kennedy administration, the Vietnam War, and the post-Vietnam period. Futrell outlines how the Air Force struggled with President Kennedy's redefinition of national security policy and Robert S. McNamara's managerial style as secretary of defense. He describes how the Air Force argued that airpower should be used during the war in Southeast Asia. He chronicles the evolution of doctrine and organization regarding strategic, tactical, and airlift capabilities and the impact that the aerospace environment and technology had on Air Force thinking and doctrine.

724th special tactics group: A Historical Perspective on Light Infantry Scott Ray McMichael, 1987 This study seeks to clarify the nature of light infantry. General characteristics of light infantry forces are identified, and an analysis of how light forces operate tactically and how they are supported is presented. In the process, the relationship of the light infantry ethic to its organization is evaluated, and the differences between light infantry and conventional infantry is illuminated. For the purpose of this study, the term conventional infantry refers to modern-day motorized and mechanized infantry and to the large dismounted infantry forces typical of the standard infantry divisions of World War II, the Korean War, and the Vietnam War. The study concludes that light infantry is unique and distinct. A light infantry ethic exists and manifests itself in a distinctive tactical style, in a special attitude toward the environment, in a freedom from dependence on fixed lines of communication, and in a strong propensity for self-reliance. The study is based on a historical analysis of 4 light infantry forces employed during and since World War II: The Chindits, in the 1944 Burma campaign against the Japanese; The Chinese communist Forces during the Korean War; British operations in Malaya and Borneo 1948-66; and the First Special Service Force in the mountains of Italy 1942-44. -- p. [2] of cover.

724th special tactics group: Counterattack on the Naktong, 1950 William Glenn Robertson, 1985

724th special tactics group: Field Artillery Manual Cannon Gunnery Department of the Army, 2017-08-19 Training Circular (TC) 3-09.81, Field Artillery Manual Cannon Gunnery, sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible to delivered field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the BCT in decisive action. This publication may also be used by other Army organizations to assist in their planning for support of battalions. This manual builds on the collective knowledge and experience gained through recent operations, numerous exercises, and the deliberate process of informed reasoning. It is rooted in time-tested principles and fundamentals,

while accommodating new technologies and diverse threats to national security.

724th special tactics group: *Parenting Matters* National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

724th special tactics group: *Air Force and Space Digest*, 2017

724th special tactics group: *Convoy Ambush Case Studies* Richard E. Killblane, 2014-08-15 When the enemy adopts a policy to attack convoys, truck drivers become front line troops. Convoy commanders must then become tacticians. How to study war? The student of tactics studies previous fights and mentally places himself in the position of the participants. Knowing what they knew, how would he have reacted? In hind sight, what was the best course of action, remembering that there is no one perfect solution? Any number of actions would have succeeded. The tactician must learn what would have worked best for him. For this reason, I have pulled together all the examples of convoy ambushes. The 20th century, Vietnam War, and current war in Iraq provide a wealth of examples of convoy ambushes from which to study. Unfortunately, the US Army did not record many good accounts of ambushes during the Vietnam War. Much of what is presented in this text is based upon oral interviews of the participants, sometimes backed by official record, citations or reports. For this reason, some of the ambush case studies present only the perspective of a crew member of a gun truck or the convoy commander. Since this academic study works best when one mentally takes the place of one of the participants, this view of the ambush serves a useful purpose. After my own review of the ambushes, I have drawn my own conclusion as to what principles apply to convoy ambushes.

724th special tactics group: *I Want You!* Bernard D. Rostker, K. C. Yeh, 2006-09-08 As U.S. military forces appear overcommitted and some ponder a possible return to the draft, the timing is ideal for a review of how the American military transformed itself over the past five decades, from a poorly disciplined force of conscripts and draft-motivated volunteers to a force of professionals revered throughout the world. Starting in the early 1960s, this account runs through the current war in Iraq, with alternating chapters on the history of the all-volunteer force and the analytic background that supported decisionmaking. The author participated as an analyst and government

policymaker in many of the events covered in this book. His insider status and access offer a behind-the-scenes look at decisionmaking within the Pentagon and White House. The book includes a foreword by former Secretary of Defense Melvin R. Laird. The accompanying DVD contains more than 1,700 primary-source documents-government memoranda, Presidential memos and letters, staff papers, and reports-linked directly from citations in the electronic version of the book. This unique technology presents a treasure trove of materials for specialists, researchers, and students of military history, public administration, and government affairs to draw upon.

724th special tactics group: Lucky War Richard Moody Swain, 1997 Provides an account, from the point of view of the U.S. Army forces employed, of the 1990-91 Persian Gulf War, from the Iraqi invasion of Kuwait to the withdrawal of coalition forces from southeastern Iraq. It focuses on the Army's part in this war, particularly the activities of the Headquarters, Third Army, and the Army Forces Central Command (ARCENT). It looks especially at the activities of the VII Corps, which executed ARCENT's main effort in the theater ground force schwerpunkt -- General Schwarzkopf's Great Wheel. This is not an official history; the author speaks in his own voice and makes his own judgments. Maps.

724th special tactics group: Black Ops and Other Special Missions of the U.S. Air Force Combat Control Team Phillip Ryan, 2012-12-15 First In, Last Out, is the motto of the U.S. Air Force Combat Control Team, and this elite group certainly lives by that slogan. Readers get a captivating look into this lesser-known branch of the special forces. Additionally, as-told-by accounts of clandestine missions offer a window into what it's really like to be the first ones in and the last ones out of war zones.

724th special tactics group: The UN Working Group on Arbitrary Detention Jared Genser, 2019-09-26 This book is a practical guide to freeing political prisoners and provides a comprehensive review of this UN body's 1,200 jurisprudence cases.

724th special tactics group: The Petsamo-Kirkenes Operation James F. Gebhardt, Combat Studies Institute, 2011-03-01 Originally published in 1989, this a volume from the Combat Studies Institute Leavenworth Papers series. In the fall of 1944, some 56,000 German troops of the XIX Mountain Corps were occupying a strongpoint line just 70 kilometers northwest of Murmansk, about 200 miles north of the Arctic Circle. To clear these enemy forces from Soviet territory, STA VKA ordered General K. A. Meretskov's Karelian Front to plan and conduct an offensive, which was to be supported by Admiral A. G. Golovko's Northern Fleet. This Leavenworth Paper explains the planning and conduct of this offensive, known in Soviet military historiography as the Petsamo-Kirkenes Operation. The Soviet force of approximately 96,000 men was organized into a main attack force of two rifle corps, a corps- size economy-of-force formation, and two envelopment forces, one consisting of two naval infantry brigades and the other of two light rifle corps of two brigades each. The Soviets employed over 2,100 tubes of artillery and mortars, used 110 tanks and self-propelled guns, and enjoyed overwhelming air superiority. Engineer special-purpose troops infiltrated up to fifty kilometers behind German forward positions to conduct reconnaissance before the battle. On 7 October 1944, the Soviets began the offensive with a 97,000-round artillery preparation, followed by an infantry attack.

724th special tactics group: Operational Psychology Mark A. Staal, Sally C. Harvey, 2019-06-24 Details the growth, roles, and applications of this new specialty aiming to protect American national and public well-being in the face of increasing and novel threats both inside and outside the United States. In this age of asymmetric warfare, increasing home-grown terrorism, and continuing threats from abroad, a new specialty has emerged and expanded—operational psychology. Operational psychology plays a unique role in supporting issues of national security, national defense, and public safety. In this book, authors Mark A. Staal and Sally C. Harvey, both operational psychologists and retired military colonels, lead a team of experts explaining the field, its many roles, and how it is expanding. Topics include its application in intelligence,

counterintelligence, and counterterrorism activities, consultation in high-risk training, criminal investigations including those of internet crimes against children, threat assessment, interrogations, aviation, personnel selection, and leadership development. The text addresses the ethical questions and controversies that surround some of these roles, such as those associated with interrogation techniques. It also describes the role of operational psychologists in activities ranging from assessing and training people for maximum resiliency and hardiness to profiling people and groups of concern in national security investigations.

724th special tactics group: Anchor of Resolve Robert J. Schneller, Naval War College, 2007-12-01 This illustrated history covers the history of the U.S. Navy in the Middle East. America's interests in the Middle East, southwest Asia, and eastern Africa date almost to the founding of the nation. Since World War II, the Navy has been the first line of defense for these interests. From the establishment of the Middle East Force (MEF) in 1949 through the beginning of the 21st century, the U.S. Navy served as a force for stability and peace in the region.

724th special tactics group: Reconstructing the Afghan National Defense and Security Forces: Lessons from the U.S. Experience in Afghanistan Special Inspector for Afghanistan Reconstruction (U.S.), Special Inspector General for Afghanistan, 2017-08 This publication is the second in a series of lessons learned reports which examine how the U.S. government and Departments of Defense, State, and Justice carried out reconstruction programs in Afghanistan. In particular, the report analyzes security sector assistance (SSA) programs to create, train and advise the Afghan National Defense and Security Forces (ANDSF) between 2002 and 2016. This publication concludes that the effort to train the ANDSF needs to continue, and provides recommendations for the SSA programs to be improved, based on lessons learned from careful analysis of real reconstruction situations in Afghanistan. The publication states that the United States was never prepared to help create Afghan police and military forces capable of protecting that country from internal and external threats. It is the hope of the Special Inspector General for Afghanistan Reconstruction (SIGAR), John F. Sopko, that this publication, and other SIGAR reports will create a body of work that can help provide reasonable solutions to help United States agencies and military forces improve reconstruction efforts in Afghanistan. 724th special tactics group: Piercing the Fog John F. Kreis, Air Force History and Museums Program, 2013-05 From the foreword: WHEN JAPAN ATTACKED PEARL HARBOR on December 7, 1941, and Germany and Italy joined Japan four days later in declaring war against the United States, intelligence essential for the Army Air Forces to conduct effective warfare in the European and Pacific theaters did not exist. Piercing the Fog tells the intriguing story of how airmen built intelligence organizations to collect and process information about the enemy and to produce and disseminate intelligence to decisionmakers and warfighters in the bloody, horrific crucible of war. Because the problems confronting and confounding air intelligence officers, planners, and operators fifty years ago still resonate, Piercing the Fog is particularly valuable for intelligence officers, planners, and operators today and for anyone concerned with acquiring and exploiting intelligence for successful air warfare. More than organizational history, this book reveals the indispensable and necessarily secret role intelligence plays in effectively waging war. It examines how World War II was a watershed period for Air Force Intelligence and for the acquisition and use of signals intelligence, photo reconnaissance intelligence, human resources intelligence, and scientific and technical intelligence. Piercing the Fog discusses the development of new sources and methods of intelligence collection; requirements for intelligence at the strategic, operational, and tactical levels of warfare; intelligence to support missions for air superiority, interdiction, strategic bombardment, and air defense; the sharing of intelligence in a coalition and joint service environment; the

acquisition of intelligence to assess bomb damage on a target-by-target basis and to measure progress in achieving campaign and war objectives; and the ability of military leaders to understand the intentions and capabilities of the enemy and to appreciate the pressures on intelligence officers to sometimes tell commanders what they think the commanders want to hear instead of what the intelligence discloses. The complex problems associated with intelligence to support strategic bombardment in the 1940s will strike some readers as uncannily prescient to global Air Force operations in the 1990s., Illustrated.

724th special tactics group: The Cold War and Beyond Frederick J. Shaw, A. Timothy Warnock, 1997 Air Force 50th Anniversary Commemorative Edition. Commemorates the golden anniversary of the establishment of the United States Air Force as an independent service. Presents a chronology of the events which shaped the Air force during the Cold War from 1947 to 1997.
