80 for brady cast interview: Roctogenarians Mo Rocca, Jonathan Greenberg, 2024-06-11 From beloved CBS Sunday Morning correspondent Mo Rocca, author of New York Times bestseller Mobituaries, comes an inspiring collection of stories that celebrates the triumphs of people who made their biggest marks late in life. Eighty has been the new sixty for about twenty years now. In fact, there have always been late-in-life achievers, those who declined to go into decline just because they were eligible for social security. Journalist, humorist, and history buff Mo Rocca and coauthor Jonathan Greenberg introduce us to the people past and present who peaked when they could have been puttering—breaking out as writers, selling out concert halls, attempting to set land-speed records—and in the case of one ninety-year tortoise, becoming a first-time father. (Take that, Al Pacino!) In the vein of Mobituaries, Roctogenarians is a collection of entertaining and unexpected profiles of these unretired titans—some long gone (a cancer-stricken Henri Matisse, who began work on his celebrated cut-outs when he could no longer paint), some very much still living (Mel Brooks, yukking it up at close to one hundred). The amazing cast of characters also includes Mary Church Terrell, who at eighty-six helped lead sit-ins at segregated Washington, DC, lunch counters in the 1950s, and Carol Channing, who married the love of her life at eighty-two. Then there's Peter Mark Roget, who began working on his thesaurus in his twenties and completed it at seventy-three (because sometimes finding the right word takes time.) With passion and wonder Rocca and Greenberg recount the stories of yesterday's and today's strongest finishers. Because with all due respect to the Golden Girls, some people will never be content sitting out on the lanai. (PS Actress Estelle Getty was sixty-two when she got her big break. And yes, she's in the book.)

In modern sports, some athletes have managed to transcend their competition in a way that no one will ever forget: Jordan. Jeter. Ali. Williams. These elite legends have changed the game, achieved the unthinkable, and pushed their bodies to unbelievable limits. Joining their exclusive ranks is Tom Brady. With instructions, drills, photos, in-depth case studies that Brady himself has used, as well as personal anecdotes and experiences from on and off the field, *The TB12 Method* is the only book an athlete will ever need, a playbook from Brady himself that will change the game.

80 for brady cast interview: *The Presidency of George H. W. Bush* John Robert Greene, 2015-06-19 After George H. W. Bush lost his re-election bid to Bill Clinton in 1992, John Robert Greene's verdict on the 41st president of the United States was that he brought no discredit to the office and was both patient and prudent. . . mak [ing] few mistakes. In the years since the release of Greene's profile of the senior Bush, deemed by *Publishers Weekly*, the essential introduction to Bush's abbreviated, but still consequential, tenure in office, a wealth of materials about Bush's presidency has become available, even as distance has sharpened our perspective on the Bush years. In this significantly expanded second edition of *The Presidency of George H. W. Bush*, Greene takes

full advantage of newly released documents to revisit Bush's term, to consider his post-presidency accomplishment, and to enhance and clarify our understanding of his place in history. Such milestones as the fall of the Berlin Wall, the reunification of Germany, the fall of the Soviet Union, the savings and loan crisis, and the transition to the Clinton administration receive renewed and far more detailed treatment here, as do the ramifications of George H. W. Bush's positions and policies. Greene also devotes ample attention to Bush's post-presidency, including his relationship with his son, President George W. Bush, as well as the development of his close friendship with Bill Clinton. The elder Bush emerges from this reappraisal as a considerably more activist president, with a more activist administration, than was previously assumed. Greene's concise and readable account drawing on the contents of the Bush Library, the papers of James A. Baker III, and personal interviews, shows us the 41st president--and thus an important chapter in American history--in a new and more revealing light.

80 for brady cast interview: Hank and Jim Scott Eyman, 2017-10-24 "[A] remarkably absorbing, supremely entertaining joint biography" (The New York Times) from bestselling author Scott Eyman about the remarkable friendship of Henry Fonda and James Stewart, two Hollywood legends who maintained a close relationship that endured all of life's twists and turns. Henry Fonda and James Stewart were two of the biggest stars in Hollywood for forty years, but they became friends when they were unknown. They roomed together as stage actors in New York, and when they began making films in Hollywood, they were roommates again. Between them they made such classic films as *The Grapes of Wrath*, *Mister Roberts*, *Twelve Angry Men*, and *On Golden Pond*; and *Mr. Smith Goes to Washington*, *The Philadelphia Story*, *It's a Wonderful Life*, *Vertigo*, and *Rear Window*. They got along famously, with a shared interest in elaborate practical jokes and model airplanes, among other things. But their friendship also endured despite their differences: Fonda was a liberal Democrat, Stewart a conservative Republican. Fonda was a ladies' man who was married five times; Stewart remained married to the same woman for forty-five years. Both men volunteered during World War II and were decorated for their service. When Stewart returned home, still unmarried, he once again moved in with Fonda, his wife, and his two children, Jane and Peter, who knew him as Uncle Jimmy. For his "breezy, entertaining" (Publishers Weekly) *Hank and Jim*, biographer and film historian Scott Eyman spoke with Fonda's widow and children as well as three of Stewart's children, plus actors and directors who had worked with the men—in addition to doing extensive archival research to get the full details of their time together. This is not just another Hollywood story, but "a fascinating...richly documented biography" (Kirkus Reviews, starred review) of an extraordinary friendship that lasted through war, marriages, children, careers, and everything else.

80 for brady cast interview: Manipulating the Ether Robert J. Brown, 2004-10-26 Franklin D. Roosevelt was the first politician to recognize the power of radio. He appealed directly to the American people for support of his New Deal and for his foreign policy. Roosevelt's speeches and fireside chats were broadcast over networks only recently equipped with newsrooms. Listeners immediately learned of events they earlier would not have heard about for days. In those newsrooms, commentators began to interpret the news for average listeners, sometimes slanting it to reflect their own view. But it fell to a young star to demonstrate the full power of the medium. On October 30, 1938, Orson Welles' War of the Worlds broadcast brought widespread panic with its fictional newscast of an alien invasion. 80 for brady cast interview: A Farewell to Justice Joan Mellen, 2013-09-01 Working with thousands of previously unreleased documents and drawing on more than one thousand interviews,

with many witnesses speaking out for the first time, Joan Mellen revisits the investigation of New Orleans district attorney Jim Garrison, the only public official to have indicted, in 1969, a suspect in President John F. Kennedy's murder. Garrison began by exposing the contradictions in the Warren Report, which concluded that Lee Harvey Oswald was an unstable pro-Castro Marxist who acted alone in killing Kennedy. A Farewell to Justice reveals that Oswald, no Marxist, was in fact working with both the FBI and the CIA, as well as with US Customs, and that the attempts to sabotage Garrison's investigation reached the highest levels of the US government. Garrison's suspects included CIA-sponsored soldiers of fortune enlisted in assassination attempts against Fidel Castro, an anti-Castro Cuban asset, and a young runner for the conspirators, interviewed here for the first time by the author. Building upon Garrison's effort, Mellen uncovers decisive new evidence and clearly establishes the intelligence agencies' roles in both a president's assassination and its cover-up. In this revised edition, to be published in time for the fiftieth anniversary of the president's assassination, the author reveals new sources and recently uncovered documents confirming in greater detail just how involved the CIA was in the events of November 22, 1963. More than one hundred new pages add critical evidence and information into one of the most significant events in human history.

80 for brady cast interview: What America Watched Marsha Ann Tate, Earl Houser, 2022-01-14 Although television critics have often differed with the public with respect to the artistic and cultural merits of television programming, over the last half-century television has indubitably influenced popular culture and vice versa. No matter what reasons are cited--the characters, the actors, the plots, the music--television shows that were beloved by audiences in their time remain fondly remembered. This study covers the classic period of popular television shows from the 1960s through the 1990s, focusing on how regular viewers interacted with television shows on a personal level. Bridging popular and scholarly approaches, this book discovers what America actually watched and why through documents, footage, visits to filming locations, newspapers, and magazine articles from the shows' eras. The book features extensive notes and bibliography.

80 for brady cast interview: Sidelined Julie DiCaro, 2022-03-15 "Sidelined is the feminist sports book we've all been waiting for." —Jessica Valenti Shrill meets Brotopia in this personal and researched look at women's rights and issues through the lens of sports, from an award-winning sports journalist and women's advocate In a society that is digging deep into the misogyny underlying our traditions and media, the world of sports is especially fertile ground. From casual sexism, like condescending coverage of women's pro sports, to more serious issues, like athletes who abuse their partners and face only minimal consequences, this area of our culture is home to a vast swath of gender issues that apply to all of us—whether or not our work and leisure time revolve around what happens on the field. No one is better equipped to examine sports through this feminist lens than sports journalist Julie DiCaro. Throughout her experiences covering professional sports for more than a decade, DiCaro has been outspoken about the exploitation of the female body, the covert and overt sexism women face in the workplace, and the male-driven toxicity in sports fandom. Now, through candid interviews, personal anecdotes, and deep research, she's tackling these thorny issues and exploring what America can do to give women a fair and competitive playing field in sports and beyond. Covering everything from the abusive online environment at Barstool Sports to the sexist treatment of Serena Williams and professional women's teams fighting for equal pay and treatment, and looking back at pioneering women who first took on the patriarchy in sports media, *Sidelined* will illuminate the ways sports present a microcosm of life as a woman in America—and the power in fighting back.

80 for brady cast interview: China's Influence and American Interests Larry Diamond, Orville Schell, 2019-08-01 While Americans are generally aware of China's ambitions as a global economic and military superpower, few understand just how deeply and assertively that country has already sought to influence American society. As the authors of this volume write, it is time for a wake-up call. In documenting the extent of Beijing's expanding influence operations inside the United States, they aim to raise awareness of China's efforts to penetrate and sway a range of American institutions: state and local governments, academic institutions, think tanks, media, and businesses. And they highlight other aspects of the propagandistic "discourse war" waged by the Chinese government and Communist Party leaders that are less expected and more alarming, such as their view of Chinese Americans as members of a worldwide Chinese diaspora that owes undefined allegiance to the so-called Motherland. Featuring ideas and policy proposals from leading China specialists, *China's Influence and American Interests* argues that a successful future relationship requires a rebalancing toward greater transparency, reciprocity, and fairness. Throughout, the authors also strongly state the importance of avoiding casting aspersions on Chinese and on Chinese Americans, who constitute a vital portion of American society. But if the United States is to fare well in this increasingly adversarial relationship with China, Americans must have a far better sense of that country's ambitions and methods than they do now.

80 for brady cast interview: The NRA Frank Smyth, 2020-03-31 For the first time, the definitive account of America's most powerful, most secretive, and most controversial nonprofit, and how far it has strayed from its origins. The National Rifle Association is unique in American life. Few other civic organizations are as old or as large. None is as controversial. It is largely due to the NRA that the U.S. gun policy differs so extremely — some would say so tragically — from that of every other developed nation. But, as Frank Smyth shows, the NRA has evolved from an organization concerned above all with marksmanship — and which supported most government efforts around gun control for a hundred years — to one that resists all attempts to restrict guns in any way. At the same time, the organization has also buried its own remarkable history. Here is that story, from the NRA's surprising roots in post-Civil War New York City to the defining event that changed its culture forever — the so called "Cincinnati Revolt" of 1977 — to the present day, where President Donald Trump is the most ardent champion in the White House the NRA has ever had. For anyone who has looked at access to guns in our society and asked "Why?", this is an unmatched account of how we got here, and who got us here.

80 for brady cast interview: New York Ric Burns, James Sanders, Lisa Ades, 2021-11-23 An expanded edition of the only comprehensive illustrated history of New York—with more than 600 ravishing photographs and illustrations—that tells the remarkable 400-year-long story of the city from its beginning in 1624 up to the current moment. The companion volume to the acclaimed PBS series. This landmark book traces the spectacular growth of New York from its initial settlement on the tip of Manhattan through the destruction wrought by the Revolutionary War to its rise as the nation's premier commercial capital and industrial center and as a magnet for immigrant hopes and dreams in the 19th century to its standing as a beacon of modern culture in the 20th century and as

a worldwide symbol of resilience in the 21st century. The story continues here with new chapters delivering a sweeping portrait of New York at the dawn of the 21st century, when it emerged after decades of decline to assert its place at the very center of a new globalized culture. Here is a city challenged—indeed, sometimes shaken to its core—by a series of profound crises: the aftermath of 9/11, the continual struggle with racial injustice, the financial crisis of 2008, the devastation of Superstorm Sandy, the still unfolding cataclysm of the COVID-19 pandemic—whose earliest and deadliest urban epicenter was New York itself. Here too is a lively portrait of the city’s vibrant street life and culture: the birth of hip-hop in the South Bronx, Christo and Jeanne-Claude’s Gates in Central Park, the musicals of Broadway, the explosion in location filmmaking in every borough, the pivotal rise of the tech industry, and so much more. The history of this city—especially in the tumultuous and transformative two decades detailed in the new chapters—is an epic story of rebirth and growth, an astonishing transfiguration, still in progress, of the world’s first modern city into a model and prototype for the global city of the future.
