870 the answer live: The MAGA Doctrine Charlie Kirk, 2020-03-03 NEW YORK TIMES BESTSELLER. The movement that brought Donald Trump to the White House has better ideas than the old right or the new left. It's time that the rest of America started listening. The Tea Party began as a protest for patriots who feared Big Government. President Trump has become a hero for patriots who are against Big Everything. Fed up with Silicon Valley, the media, liberal higher education, the military-industrial complex, Twitter mobs, swamp monsters, Big Pharma, out-of-control prosecutors, and gun-grabbing fascists, ordinary Americans miss the days when America cared about rule of the people, by the people, and for the people. Remember when you didn't feel bombarded on all sides by coastal billionaires and their government stooges? The MAGA Doctrine urges an overdue restoration of self-rule by a populace long taken for granted by its rulers. Turning Point USA founder and social media superstar Charlie Kirk explains once and for all why a New York real estate magnate found an audience among young conservatives all over the country. Trump and his allies are working to protect all the small things that both parties dismissed: local businesses, families, churches, and the rights of the individual. Kirk explains why it took a reality TV superstar to see past the sclerotic and power-hungry institutions, from the United Nations and Google to Harvard and Viacom, working to crush real America. The Trump Doctrine is all about giving you a say in the future of America and a hand in making it happen. As the mainstream media keep churning out lies about the "real reasons" behind the new conservative agenda, Charlie Kirk's The MAGA Doctrine is a powerful reminder of the true narrative of freedom and greatness that swept Donald Trump to the presidency.

870 the answer live: Defeating Jihad Sebastian Gorka, 2016-04-11 Now a New York Times bestseller! America is at war. The fight against global jihad has cost 7,000 American lives and almost \$2 trillion, and yet, most Americans do not understand what is at stake. The public lacks knowledge and safety because two presidents and their administrations neglected the most basic strategic question: who is the enemy? Presidents Bush and Obama both named the global jihadi movement—a movement with an intent to destroy the West—"violent extremism." Their tidy term was an attempt to maintain peace with the Muslim community. But when they failed to appropriately name the enemy, they failed to fully understand Islamic extremism. This failure is why the U.S. has been in Afghanistan for sixteen years with no end in sight. But this war is eminently winnable if we remove our ideological blinders, accurately name our enemy, and draw up a strategy to defeat the ideas that inspire terrorism. So says Dr. Sebastian Gorka, one of the most experienced and sought-after authorities on counterterrorism. Dr. Gorka has been one of the intelligence community's go-to experts on counterterrorism since 9/11. He's been called to brief Congress and the Marine Corps and was asked to analyze the Patriot's Day Boston Marathon Bombing for the US government. Dr. Gorka's report for the trial of Dzhokhar Jahar Tsarnaev was widely circulated in counterterrorism circles and the media because it accurately painted a picture, not of a teenager on the cover of Rolling Stone, but of a terrorist. Dr. Gorka is respected by peers because he understands our enemy is not terror or violent extremism. Our enemy is the global jihadi movement, a modern totalitarian ideology rooted in the doctrines and martial history of Islam whose goals are to build an empire, suppress "false Muslims," and engage in guerilla warfare against infidels. Taking his cue from the formerly top-secret analyses that shaped the U.S. response to the communist threat, Dr. Gorka has

produced a compelling profile of the jihadi movement—its mind and motivation—and a plan to defeat it.

870 the answer live: Happiness Is a Serious Problem Dennis Prager, 2009-10-13 In this unique blend of self-help and moral philosophy, perfect for fans of Gretchen Rubin’s The Happiness Project or Dan Harris’ 10% Happier, talk-radio host Dennis Prager shows us that happiness isn’t just a value—it’s a moral obligation. When you ask people about their most cherished values, “happiness” is always at the top of the list. In this enduring happiness manifesto, Prager examines how happiness not only makes us better people, but has an effect on the lives of everyone around us—providing them with a positive environment in which to thrive and be happy themselves. Achieving that happiness won’t be easy, though: to Prager, it requires a continuing process of counting your blessings and giving up any expectations that life is supposed to be wonderful. Can we decide to be satisfied with what we have? he asks. A poor man who can make himself satisfied with his portion will be happier than a wealthy man who does not allow himself to be satisfied. Prager echoes other political commentators in complaining that too many people today see themselves as victims; he submits that the only way to achieve your desires is to take responsibility for your life rather than blaming others. If you’re willing to put some thought into achieving a happier outlook, you will find plenty to mull over in Happiness Is a Serious Problem.

870 the answer live: Netflixed Gina Keating, 2012-10-11 Netflix has come a long way since 1997, when two Silicon Valley entrepreneurs, Marc Randolph and Reed Hastings, decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch-day traffic in April 1998 crashed their server and resulted in 150 sales. Today, Netflix has more than 25 million subscribers and annual revenues above \$3 billion. Yet long-term success-or even survival-is still far from guaranteed. Journalist Gina Keating recounts the absorbing, fast-paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video-store behemoth Blockbuster, transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu, Amazon, and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals, and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success, Netflix is still a polarizing company. Hastings is often heralded as a visionary-he was named Business Person of the Year in 2010 by Fortune-even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.

870 the answer live: Transforming the Workforce for Children Birth Through Age 8

National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

870 the answer live: *A Lot Like Me* Larry Elder, 2018-05-07 "I hated my father—really, really hated him. I hated working for him and I hated being around him. I hated it when he walked through the front door at home. And we feared him from the moment he pulled up in front of the house in his car." So writes conservative firebrand and popular radio host Larry Elder. For ten years Elder and his father did not talk to each other. When they finally did, the conversation went on for eight hours—eight hours that took Elder on his father's journey from the Jim Crow South, to service in the Marine Corps, to starting a business in Southern California. Elder emerged not just reconciled with his dad, but admiring him, and realizing that he had never fully known him or understood him. Heartfelt, beautifully written, compulsively readable, *A Lot Like Me*—originally published as *Dear Father, Dear Son*—is both a powerfully affecting memoir and a personal, provocative slice of American history.

870 the answer live: *Best Friends, Worst Enemies* Michael Thompson, PhD, Catherine O'Neill-Grace, 2001-10-24 Friends broaden our children's horizons, share their joys and secrets, and accompany them on their journeys into ever wider worlds. But friends can also gossip and betray, tease and exclude. Children can cause untold suffering, not only for their peers but for parents as well. In this wise and insightful book, psychologist Michael Thompson, Ph.D., and children's book author Catherine O'Neill Grace, illuminate the crucial and often hidden role that friendship plays in the lives of children from birth through adolescence. Drawing on fascinating new research as well as their own extensive experience in schools, Thompson and Grace demonstrate that children's friendships begin early—in infancy—and run exceptionally deep in intensity and loyalty. As children grow, their friendships become more complex and layered but also more emotionally fraught,

marked by both extraordinary intimacy and bewildering cruelty. As parents, we watch, and often live through vicariously, the tumult that our children experience as they encounter the “cool” crowd, shifting alliances, bullies, and disloyal best friends. *Best Friends, Worst Enemies* brings to life the drama of childhood relationships, guiding parents to a deeper understanding of the motives and meanings of social behavior. Here you will find penetrating discussions of the difference between friendship and popularity, how boys and girls deal in unique ways with intimacy and commitment, whether all kids need a best friend, why cliques form and what you can do about them. Filled with anecdotes that ring amazingly true to life, *Best Friends, Worst Enemies* probes the magic and the heartbreak that all children experience with their friends. Parents, teachers, counselors—indeed anyone who cares about children—will find this an eye-opening and wonderfully affirming book.

Turtle Alveston is a survivor. At fourteen, she roams the woods along the northern California coast. The creeks, tide pools, and rocky islands are her haunts and her hiding grounds, and she is known to wander for miles. But while her physical world is expansive, her personal one is small and treacherous: Turtle has grown up isolated since the death of her mother, in the thrall of her tortured and charismatic father, Martin. Her social existence is confined to the middle school (where she fends off the interest of anyone, student or teacher, who might penetrate her shell) and to her life with her father. Then Turtle meets Jacob, a high-school boy who tells jokes, lives in a big clean house, and looks at Turtle as if she is the sunrise. And for the first time, the larger world begins to come into focus: her life with Martin is neither safe nor sustainable. Motivated by her first experience with real friendship and a teenage crush, Turtle starts to imagine escape, using the very survival skills her father devoted himself to teaching her. What follows is a harrowing story of bravery and redemption. With Turtle's escalating acts of physical and emotional courage, the reader watches, heart in throat, as this teenage girl struggles to become her own hero—and in the process, becomes ours as well. Shot through with striking language in a fierce natural setting, *My Absolute Darling* is an urgently told, profoundly moving read that marks the debut of an extraordinary new writer.
