Now, in *To Free a Dolphin*, he passionately recounts the dramatic story of his heart-breaking campaign to release captive dolphins back into the wild. With wit and insight he chronicles the extreme opposition he has faced from bureaucrats, major players in the captive-dolphin industry, rival wildlife groups, and well-meaning sentimentalists. He introduces readers to famous show animals he has helped, including Bogie and Bacall of Key Largo. And, most fascinating, he describes his struggles to deprogram and rehabilitate dolphins emotionally scarred from years of captivity--struggles that become battles for the animals' souls.

990 the answer listen live: Ask Me About My Uterus Abby Norman, 2018-03-06 For any woman who has experienced illness, chronic pain, or endometriosis comes an inspiring memoir advocating for recognition of women's health issues In the fall of 2010, Abby Norman's strong dancer's body dropped forty pounds and gray hairs began to sprout from her temples. She was repeatedly hospitalized in excruciating pain, but the doctors insisted it was a urinary tract infection and sent her home with antibiotics. Unable to get out of bed, much less attend class, Norman dropped out of college and embarked on what would become a years-long journey to discover what was wrong with her. It wasn't until she took matters into her own hands -- securing a job in a hospital and educating herself over lunchtime reading in the medical library -- that she found an accurate diagnosis of endometriosis. In *Ask Me About My Uterus*, Norman describes what it was like to have her pain dismissed, to be told it was all in her head, only to be taken seriously when she was accompanied by a boyfriend who confirmed that her sexual performance was, indeed, compromised. Putting her own trials into a broader historical, sociocultural, and political context, Norman shows that women's bodies have long been the battleground of a never-ending war for power, control, medical knowledge, and truth. It's time to refute the belief that being a woman is a preexisting condition.

990 the answer listen live: Parenting Matters National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their

participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

990 the answer listen live: Why We Fight Sebastian Gorka, 2018-10-09 Sebastian Gorka was [President Trump's] strategist. Dr. Gorka knows Donald Trump and the threats we face. Buy and read *Why We Fight* to find how we win and what it means to be an American hero. — RUSH LIMBAUGH WAR. It will happen again. We must be ready. Sober words from Dr. Sebastian Gorka, a man who has made the unvarnished truth his specialty. And there's one eternal truth that Americans are in danger of forgetting: the most important weapon in any geopolitical conflict is the will to win. And we must win. In this powerful manifesto, Dr. Gorka explains the basic principles that have guided strategists since Sun Tzu penned *The Art of War* in the sixth century B.C. To defeat your enemy, you must know him. But that's the last thing liberal elites are interested in. Willful ignorance about our adversary—whether it's Russia, China, or the global jihadi movement—has been crippling. Tearing off America's politically correct blindfold, Dr. Gorka clarifies who our foes are and what makes them tick. An eight-year vacation from geopolitical reality under Obama left our country dangerously weakened. Dr. Gorka addresses the pressing questions we face as we rebuild under President Trump's leadership: - What are the most serious threats to American security? - How are they different from the threats of the past? - What can we do to counter these threats? - How can we achieve the "perfect victory" of vanquishing our enemies without mortal combat? All the money and weapons in the world cannot substitute for the will to fight for our precious country and what she represents. To remind us of what the will to win looks like, Dr. Gorka intersperses the stories of four American heroes—Stephen Decatur, Chesty Puller, "Red" McDaniel, and a warrior who never took up arms, Whittaker Chambers—men who believed in their country and put everything on the line for her.

990 the answer listen live: The MAGA Doctrine Charlie Kirk, 2020-03-03 NEW YORK TIMES BESTSELLER. The movement that brought Donald Trump to the White House has better ideas than the old right or the new left. It's time that the rest of America started listening. The Tea Party began as a protest for patriots who feared Big Government. President Trump has become a hero for patriots who are against Big Everything. Fed up with Silicon Valley, the media, liberal higher education, the military-industrial complex, Twitter mobs, swamp monsters, Big Pharma, out-of-control prosecutors, and gun-grabbing fascists, ordinary Americans miss the days when

America cared about rule of the people, by the people, and for the people. Remember when you didn't feel bombarded on all sides by coastal billionaires and their government stooges? The MAGA Doctrine urges an overdue restoration of self-rule by a populace long taken for granted by its rulers. Turning Point USA founder and social media superstar Charlie Kirk explains once and for all why a New York real estate magnate found an audience among young conservatives all over the country. Trump and his allies are working to protect all the small things that both parties dismissed: local businesses, families, churches, and the rights of the individual. Kirk explains why it took a reality TV superstar to see past the sclerotic and power-hungry institutions, from the United Nations and Google to Harvard and Viacom, working to crush real America. The Trump Doctrine is all about giving you a say in the future of America and a hand in making it happen. As the mainstream media keep churning out lies about the "real reasons" behind the new conservative agenda, Charlie Kirk's The MAGA Doctrine is a powerful reminder of the true narrative of freedom and greatness that swept Donald Trump to the presidency.

990 the answer listen live: Defeating Jihad Sebastian Gorka, 2016-04-11 Now a New York Times bestseller! America is at war. The fight against global jihad has cost 7,000 American lives and almost \$2 trillion, and yet, most Americans do not understand what is at stake. The public lacks knowledge and safety because two presidents and their administrations neglected the most basic strategic question: who is the enemy? Presidents Bush and Obama both named the global jihadi movement—a movement with an intent to destroy the West—"violent extremism." Their tidy term was an attempt to maintain peace with the Muslim community. But when they failed to appropriately name the enemy, they failed to fully understand Islamic extremism. This failure is why the U.S. has been in Afghanistan for sixteen years with no end in sight. But this war is eminently winnable if we remove our ideological blinders, accurately name our enemy, and draw up a strategy to defeat the ideas that inspire terrorism. So says Dr. Sebastian Gorka, one of the most experienced and sought-after authorities on counterterrorism. Dr. Gorka has been one of the intelligence community's go-to experts on counterterrorism since 9/11. He's been called to brief Congress and the Marine Corps and was asked to analyze the Patriot's Day Boston Marathon Bombing for the US government. Dr. Gorka's report for the trial of Dzhokhar Jahar Tsarnaev was widely circulated in counterterrorism circles and the media because it accurately painted a picture, not of a teenager on the cover of Rolling Stone, but of a terrorist. Dr. Gorka is respected by peers because he understands our enemy is not terror or violent extremism. Our enemy is the global jihadi movement, a modern totalitarian ideology rooted in the doctrines and martial history of Islam whose goals are to build an empire, suppress "false Muslims," and engage in guerilla warfare against infidels. Taking his cue from the formerly top-secret analyses that shaped the U.S. response to the communist threat, Dr. Gorka has produced a compelling profile of the jihadi movement—its mind and

motivation—and a plan to defeat it.

990 the answer listen live: *Philadelphia Radio* Alan Boris, 2011 Philadelphia radio broadcasting began in 1922, when the city's first officially licensed stations went on the air. Within a few years, what had begun as a small, experimental medium became a full-fledged craze as families listened to live news, sports, and entertainment for the first time. In the 1950s, a few stations began playing rock and roll, and Philadelphia became known as a city that not only produced hit music but also consistently broke new acts. By the 1970s, FM radio began to grab the majority of listeners, and once again Philadelphia stations were responsible for breaking new artists, such as Billy Joel and Bruce Springsteen.

990 the answer listen live: *God, Grades, and Graduation* Ilana M. Horwitz, 2022 It's widely acknowledged that American parents from different class backgrounds take different approaches to raising their children. Upper and middle-class parents invest considerable time facilitating their children's activities, while working class and poor families take a more hands-off approach. These different strategies influence how children approach school. But missing from the discussion is the fact that millions of parents on both sides of the class divide are raising their children to listen to God. What impact does a religious upbringing have on their academic trajectories? Drawing on 10 years of survey data with over 3,000 teenagers and over 200 interviews, *God, Grades, and Graduation* (GGG) offers a revealing and at times surprising account of how teenagers' religious

upbringing influences their educational pathways from high school to college. GGG introduces readers to a childrearing logic that cuts across social class groups and accounts for Americans' deep relationship with God: religious restraint. This book takes us inside the lives of these teenagers to discover why they achieve higher grades than their peers, why they are more likely to graduate from college, and why boys from lower middle-class families particularly benefit from religious restraint. But readers also learn how for middle-upper class kids--and for girls especially--religious restraint recalibrates their academic ambitions after graduation, leading them to question the value of attending a selective college despite their stellar grades in high school. By illuminating the far-reaching effects of the childrearing logic of religious restraint, GGG offers a compelling new narrative about the role of religion in academic outcomes and educational inequality--

Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

990 the answer listen live: The War for America's Soul Sebastian Gorka, 2019-10-08 "Take it from someone who has been on the inside, who understands the fight we are currently in, and who knows what must be done to save our country. Dr. Sebastian Gorka's latest book, The War for America's Soul, leverages the former White House strategist's expertise, driven by his determination to preserve what made America great in the first place." — MARK LEVIN Our country is at war with itself. On one side are American patriots, dedicated to freedom under the Constitution; on the other side are leftists campaigning not just to win elections, but to radically transform the nation. In this political war for the soul of our country, America's patriots need a strategist with a blueprint for victory. Luckily, we have such a man in Dr. Sebastian Gorka—a former strategist for President Trump and now a nationally syndicated radio host and a fearless culture warrior. In his essential new book, The War for America's Soul, Dr. Gorka shows how America's elite—in both parties—betrayed our heartland, sabotaged the American dream, and accepted national decline as inevitable. It took a candidate with remarkable vision, dauntless courage, and unbreakable determination to change the narrative. That man was Donald Trump. A candidate who owed no favors to special interests, Trump articulated a new American nationalism that has been an extraordinary force for economic and political renewal.

990 the answer listen live: Dangers to the Faith Al Kresta, 2013-05-28 A storm has been brewing in society and its treatment, views, and activities toward the Catholic Faith. Some are subtle, others are more brazen -- New Age thought, questionable spirituality, creedless Christianity, relativism, scientific skepticism, the triumph of technology, and even the self-styled spirituality of Oprah Winfrey. All these masquerade as truth, making it tough for the average Catholic to know how to resist, let alone respond. No one is more qualified to pull back the curtain on the challenges the Catholic Church faces today than Al Kresta, popular Catholic author, speaker, and radio show host. A revert to Catholicism, Kresta is well known for his rigorous examination of topics in art, religion, academia, and business. Dangers to the Faith: Recognizing Catholicism's 21st Century Opponents is the perfect springboard for discussing the new world in which the Catholic Church exists today.

Learn how to better carry out the missionary mandate of the Church. The question isn't whether you will be a witness to Christ, but whether you will be an effective witness.

990 the answer listen live: Everything You Always Wanted to Know About God (but were afraid to ask) Eric Metaxas, 2009-01-21 Who doesn't have questions about God? But where in the world can you go to get answers? Eric Metaxas has been there, so he gets it. Which is why he's written this shockingly down-to-earth book on the big questions everyone asks (but not always out loud). Totally conversational and sometimes flat-out hilarious, this book asks: * How can a good God create a world that has evil and suffering? * Is God anti-sex? * Doesn't science make God obsolete? * What's the real story on miracles? * If God is everywhere, why go to church? * Don't we already have God within us? * Isn't God too busy running the universe to care about the details of my day? These questions (and many more) get no-nonsense answers that don't hide behind dull theological language. So get the lowdown (and more than a few laughs) on what are probably the most important questions anyone has.

When Prince Harry married Meghan Markle in 2018, two billion people watched around the world. For one brief moment, love recreated the cosmos, the world came together. And the Bishop Michael Curry preached his revolutionary sermon on the power of love. In this book, Bishop Curry shares his deep faith that characterised that cultural moment: the way of love.
