a dark room guide: How to Find a Black Cat in a Dark Room Jacob Burak, 2017-10-17 An inquiry into what it is about our experiences and cultures that brings out the differences and reveals the similarities in us as human beings, in the vein of Malcolm Gladwell and Daniel Kahneman. Jacob Burak is on a quest to answer the question "are we as human beings, who are separated by different cultures and experiences, similar or different?" Through the lens of behavioural studies, we see how, while our approaches differ and often conflict, we all strive for similar things: love, acceptance, power and understanding. *How to Find a Black Cat in a Dark Room* offers the latest scientific studies of human behaviour alongside accessible anecdotes to examine the universal human experiences of comparing ourselves to others, the need to belong, the urge to achieve and the anxiety and uncertainty of life itself. More importantly, Burak shows us how, in understanding these behavioural patterns, we learn that we are actually more alike than we are different; that our rivals often make us stronger; and that being trusting can help us live longer. With his inquisitive nature, logical thinking and engaging style, Burak examines whether it is destiny or personality that controls our lives, through intriguing subjects such as: • What are the ten rules for happiness that are entirely under our control? • Why do smart people make stupid mistakes? • What distinguishes bureaucrats and entrepreneurs? • What are the psychological differences between liberals and conservatives? • In what circumstances is it right to surrender our privacy? • Does it pay to trust people?

a dark room guide: In the Darkroom Susan Faludi, 2016-06-14 A Pulitzer Prize winner's memoir of her search for her enigmatic father is "an absolute stunner . . . probing, steel-nerved, moving in ways you'd never expect" (New York Times). "In the summer of 2004 I set out to investigate someone I scarcely knew, my father. The project began with a grievance, the grievance of a daughter whose parent had absconded from her life. I was in pursuit of a scofflaw, an artful dodger who had skipped out on so many things—obligation, affection, culpability, contrition. I was

preparing an indictment, amassing discovery for a trial. But somewhere along the line, the prosecutor became a witness." So begins Susan Faludi's extraordinary inquiry. When the feminist writer learned that her 76-year-old father—long estranged and living in Hungary—had undergone sex reassignment surgery, her investigation turned personal and urgent. How was this new parent who identified as "a complete woman now" connected to the silent, explosive, and ultimately violent father she had known? Faludi chases that mystery into the recesses of her suburban childhood and her father's many previous incarnations: American dad, Alpine mountaineer, swashbuckling adventurer in the Amazon outback, Jewish fugitive in Holocaust Budapest. Her struggle to come to grips with her father's metamorphosis takes her across borders—historical, political, religious, sexual—to bring her face to face with the question of the age: Is identity something you "choose," or is it the very thing you can't escape? "Riveting . . . Ms. Faludi unfolds her father's story like the plot of a detective novel." —Wall Street Journal "Penetrating and lucid . . . rich [and] arresting." —New York Times Book Review "A gripping exploration of sexual, national, and ethnic identity." —Kirkus Reviews, starred review

a dark room guide: Cable Guys Amanda D. Lotz, 2014-03-31 The emergence of male-centered serials such as *The Shield*, *Rescue Me*, and *Sons Of Anarchy* and the challenges these characters face in negotiating modern masculinities. From the meth-dealing but devoted family man Walter White of AMC's *Breaking Bad*, to the part-time basketball coach, part-time gigolo Ray Drecker of HBO's *Hung*, depictions of male characters perplexed by societal expectations of men and anxious about changing American masculinity have become standard across the television landscape. Engaging with a wide variety of shows, including *The League*, *Dexter*, and *Nip/Tuck*, among many others, Amanda D. Lotz identifies the gradual incorporation of second-wave feminism into prevailing gender norms as the catalyst for the contested masculinities on display in contemporary cable

dramas. Examining the emergence of “male-centered serials” such as *The Shield*, *Rescue Me*, and *Sons of Anarchy* and the challenges these characters face in negotiating modern masculinities, Lotz analyzes how these shows combine feminist approaches to fatherhood and marriage with more traditional constructions of masculine identity that emphasize men’s role as providers. She explores the dynamics of close male friendships both in groups, as in *Entourage* and *Men of a Certain Age*, wherein characters test the boundaries between the homosocial and homosexual in their relationships with each other, and in the dyadic intimacy depicted in *Boston Legal* and *Scrubs*. *Cable Guys* provides a much needed look into the under-considered subject of how constructions of masculinity continue to evolve on television.

On June 18, 2010, police discover a body buried in the wine cellar of a Victorian mansion in Old Louisville. But as author David Dominé sits in on the trials, a deeper story emerges: the struggle between hope for a better future on the one hand and the privilege and power of the status quo on the other. As the court testimony devolves into he-said/he-said contradictions, David draws on the confidences of neighbors, drag queens, and other acquaintances within the city's vibrant LGBTQ community to piece together the details of the case. While uncovering the many past lives of the mansion itself, he enters a murky underworld of gossip, neighborhood scandal, and intrigue.

Studying architecture the way a burglar would, Geoff Manaugh takes readers through walls, down elevator shafts, into panic rooms, and out across the rooftops of an unsuspecting city. Encompassing nearly two thousand years of heists and break-ins, the book draws on the expertise of reformed bank robbers, FBI special agents, private security consultants, the LAPD Air Support Division, and architects past and present. Whether discussing how to pick padlocks, climb the walls of high-rise apartments, find gaps in a museum's surveillance routine, or discuss home invasions in ancient Rome, *A Burglar's Guide to the City* ensures readers will never enter a bank again without imagining how to loot the vault, or walk down the street without planning the perfect getaway.
