a deadly education audiobook: A Deadly Education Naomi Novik, 2020-09-29 NEW YORK TIMES BESTSELLER • From the author of *Uprooted* and *Spinning Silver* comes the first book of the Scholomance trilogy, the story of an unwilling dark sorceress who is destined to rewrite the rules of magic. FINALIST FOR THE LODESTAR AWARD • “The dark school of magic I’ve been waiting for.”—Katherine Arden, author of the *Winternight Trilogy* I decided that Orion Lake needed to die after the second time he saved my life. Everyone loves Orion Lake. Everyone else, that is. Far as I’m concerned, he can keep his flashy combat magic to himself. I’m not joining his pack of adoring fans. I don’t need help surviving the Scholomance, even if they do. Forget the hordes of monsters and cursed artifacts, I’m probably the most dangerous thing in the place. Just give me a chance and I’ll level mountains and kill untold millions, make myself the dark queen of the world. At least, that’s what the world expects. Most of the other students in here would be delighted if Orion killed me like one more evil thing that’s crawled out of the drains. Sometimes I think they want me to turn into the evil witch they assume I am. The school certainly does. But the Scholomance isn’t getting what it wants from me. And neither is Orion Lake. I may not be anyone’s idea of the shining hero, but I’m going to make it out of this place alive, and I’m not going to slaughter thousands to do it, either. Although I’m giving serious consideration to just one. With flawless mastery, Naomi Novik creates a school bursting with magic like you’ve never seen before, and a heroine for the ages—a character so sharply realized and so richly nuanced that she will live on in hearts and minds for generations to come. The magic of the Scholomance trilogy continues in *The Last Graduate* “The can’t-miss fantasy of fall 2020, a brutal coming-of-power story steeped in the aesthetics of dark academia. . . . A Deadly Education will cement Naomi Novik’s place as one of the greatest and most versatile fantasy writers of our time.”—BookPage (starred review) “A must-read . . . Novik puts a refreshingly dark, adult spin on the magical boarding school. . . . Readers will delight in the push-and-pull of El and Orion’s relationship, the fantastically detailed world, the clever magic system, and the matter-of-fact diversity of the student body.”—Publishers Weekly (starred review)

a deadly education audiobook: The Last Graduate Naomi Novik, 2021-09-28 NEW YORK TIMES BESTSELLER • The specter of graduation looms large as Naomi Novik’s groundbreaking, New York Times bestselling trilogy continues in the stunning sequel to *A Deadly Education*. “The climactic graduation-day battle will bring cheers, tears, and gasps as the second of the Scholomance trilogy closes with a breathtaking cliff-hanger.”—Booklist (starred review) HUGO AWARD FINALIST • LOCUS AWARD FINALIST • ONE OF THE BEST BOOKS OF THE YEAR: Polygon, Thrillist, She Reads In Wisdom, Shelter. That’s the official motto of the Scholomance. I suppose you could even argue that it’s true—only the wisdom is hard to come by, so the shelter’s rather scant. Our beloved school does its best to devour all its students—but now that I’ve reached my senior year and have actually won myself a handful of allies, it’s suddenly developed a very particular craving for me. And even if I somehow make it through the endless waves of maleficaria that it keeps throwing at me in between grueling homework assignments, I haven’t any idea how my allies and I are going to make it through the graduation hall alive. Unless, of course, I finally accept my foretold destiny of dark sorcery and destruction. That would certainly let me sail straight out of here. The course of wisdom, surely. But I’m not giving in—not to the mals, not to fate, and especially not to the Scholomance. I’m going to get myself and my friends out of this hideous place for good—even if it’s the last thing I do. With keen insight and mordant humor, Novik reminds us that sometimes it is not enough to rewrite the rules—sometimes, you need to toss out the entire rulebook. The magic of the Scholomance

trilogy continues in *The Golden Enclaves*

NATIONAL BESTSELLER • Saving the world is a test no school of magic can prepare you for in the triumphant conclusion to the New York Times bestselling trilogy that began with *A Deadly Education* and *The Last Graduate*. The one thing you never talk about while you're in the Scholomance is what you'll do when you get out. Not even the richest enclaver would tempt fate that way. But it's all we dream about: the hideously slim chance we'll survive to make it out the gates and improbably find ourselves with a life ahead of us, a life outside the Scholomance halls. And now the impossible dream has come true. I'm out, we're all out—and I didn't even have to turn into a monstrous dark witch to make it happen. So much for my great-grandmother's prophecy of doom and destruction. I didn't kill enclavers, I saved them. Me and Orion and our allies. Our graduation plan worked to perfection: We saved everyone and made the world safe for all wizards and brought peace and harmony to all the enclaves everywhere. Ha, only joking! Actually, it's gone all wrong. Someone else has picked up the project of destroying enclaves in my stead, and probably everyone we saved is about to get killed in the brewing enclave war. And the first thing I've got to do now, having miraculously gotten out of the Scholomance, is turn straight around and find a way back in.

a deadly education audiobook: *In Other Lands* Sarah Rees Brennan, 2017-07-17 Georgia Peach Award Nominee • Florida Teens Read Award Nominee • ABC Best Books for Young Readers • Bank Street College Best Children's Books of the Year • A Junior Library Guild Selection • Hugo & Locus award finalist *In Other Lands* is an exhilarating novel from bestselling author Sarah Rees Brennan about surviving four years in the most unusual of schools - friendship, falling in love, diplomacy, and finding your own place in the world — even if it means giving up your phone. Excerpt: The Borderlands aren't like anywhere else. Don't try to smuggle a phone or any other piece of technology over the wall that marks the Border — unless you enjoy a fireworks display in your backpack. (Ballpoint pens are okay.) There are elves, harpies, and — best of all as far as Elliot is concerned — mermaids. What's your name? Serene. Serena? Elliot asked. Serene, said Serene. My full name is Serene-Heart-in-the-Chaos-of-Battle. Elliot's mouth fell open. That is badass. Elliot? Who's Elliot? Elliot is thirteen years old. He's smart and just a tiny bit obnoxious. Sometimes more than a tiny bit. When his class goes on a field trip and he can see a wall that no one else can see, he is given the chance to go to school in the Borderlands. It turns out that on the other side of the wall, classes involve a lot more weaponry and fitness training and fewer mermaids than he expected. On the other hand, there's Serene-Heart-in-the-Chaos-of-Battle, an elven warrior who is more beautiful than anyone Elliot has ever seen, and then there's her human friend Luke: sunny, blond, and annoyingly likeable. There are lots of interesting books. There's even the chance Elliot might be able to change the world. Chapter illustrations by Casey Nowak.

a deadly education audiobook: In the Forests of the Night Amelia Atwater-Rhodes,

2009-08-11 I was born to the name of Rachel Weatere in the year 1684, more than three hundred years ago. The one who changed me named me Risika, and Risika I became, though I never asked what it meant. I continue to call myself Risika, even though I was transformed into what I am against my will. By day, Risika sleeps in a shaded room in Concord, Massachusetts. By night, she hunts the streets of New York City. She is used to being alone. But now someone is following Risika. Someone has left her a black rose, the same sort of rose that sealed her fate three hundred years ago. Three hundred years ago Risika had a family -- a brother and a sister who loved her. Three hundred years ago she was human. Now she is a vampire, a powerful one. And her past has come back to torment her. This atmospheric, haunting tale marks the stunning debut of a promising fourteen-year-old novelist.

a deadly education audiobook: How to Avoid a Climate Disaster Bill Gates, 2021-02-16 NEW YORK TIMES BESTSELLER NATIONAL BESTSELLER In this urgent, singularly authoritative book, Bill Gates sets out a wide-ranging, practical--and accessible--plan for how the world can get to zero greenhouse gas emissions in time to avoid an irreversible climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help and guidance of experts in the fields of physics, chemistry, biology, engineering, political science and finance, he has focused on exactly what must be done in order to stop the planet's slide toward certain environmental disaster. In this book, he not only gathers together all the information we need to fully grasp how important it is that we work toward net-zero emissions of greenhouse gases but also details exactly what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. He describes the areas in which technology is already helping to reduce emissions; where and how the current technology can be made to function more effectively; where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete plan for achieving the goal of zero emissions--suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but by following the guidelines he sets out here, it is a goal firmly within our reach.

a deadly education audiobook: The Last Graduate Naomi Novik, 2021-09-28 NEW YORK TIMES BESTSELLER • The specter of graduation looms large as Naomi Novik's groundbreaking, New York Times bestselling trilogy continues in the stunning sequel to *A Deadly Education*. "The climactic graduation-day battle will bring cheers, tears, and gasps as the second of the Scholomance trilogy closes with a breathtaking cliff-hanger."—Booklist (starred review) HUGO AWARD FINALIST • LOCUS AWARD FINALIST • ONE OF THE BEST BOOKS OF THE YEAR: Polygon, Thrillist, She Reads In Wisdom, Shelter. That's the official motto of the Scholomance. I suppose you could even argue that it's true—only the wisdom is hard to come by, so the shelter's rather scant. Our beloved school does its best to devour all its students—but now that I've reached my senior year and have actually won myself a handful of allies, it's suddenly developed a very particular craving for me. And even if I somehow make it through the endless waves of maleficaria that it keeps throwing at me in between grueling homework assignments, I haven't any idea how my allies and I are going to make it through the graduation hall alive. Unless, of course, I finally accept my foretold destiny of dark sorcery and destruction. That would certainly let me sail straight out of here. The course of wisdom, surely. But I'm not giving in—not to the mals, not to fate, and especially not to the Scholomance. I'm going to get myself and my friends out of this hideous place for good—even if it's the last thing I do. With keen insight and mordant humor, Novik reminds us that sometimes it is not enough to rewrite the rules—sometimes, you need to toss out the entire rulebook. The magic of the Scholomance trilogy continues in *The Golden Enclaves*

a deadly education audiobook: The Anthropology of Climate Change Hans Baer, Merrill Singer, 2014-04-24 In addressing the urgent questions raised by climate change, this book provides a comprehensive overview of the anthropology of climate change guided by a critical political ecological framework. It argues that anthropologists must significantly expand their focus on climate change and their contributions to responding to climate change as a grave risk to humanity. The book presents a human socioecological framework for conceptualizing climate change. It examines the emergence and slow maturation of the anthropology of climate change; reviews the historic foundations for this work in the archaeology of climate change; and presents three alternative contemporary theoretical perspectives in the anthropology of climate change. The book synthesizes anthropological work and perspectives on climate change in the form of case studies in various regions of the world revealing the nature of global climate change as constituting multiple and somewhat diverse changes in local settings. It explores the applied anthropology of climate change in terms of the ways anthropologists are contributing to climate policy, working with communities on climate change issues, as well as within the climate movement both internationally and nationally. Finally it provides an overview of what other the social sciences are saying about climate change and explores ways that the anthropology of climate change can interface with sociology, political science, and human geography in order to create an integrated social science of climate change. This book gives researchers and students in Environmental Anthropology, Climate Change, Human Geography, and Sociology, a novel framework for understanding climate change that emphasizes human socioecological interactions.

a deadly education audiobook: *Connecting Children with Classics* Meagan Lacy, Pauline Dewan, 2018-03-14 This guide identifies hundreds of books that can help children develop into engaged readers. Children's librarians, collection development specialists in public libraries, as well as K-8 school librarians and teachers will choose from the best in children's titles. This unique readers' advisory and collection development guide for librarians and others who work with children focuses on readers and their needs, rather than simply categorizing books by their characteristics and features as traditional literature guides do. Taking this unusual perspective brings forth powerful new tools and curricular ideas on how to promote the classics, and how to best engage with young readers and meet their personal and emotional needs to boost interest and engagement. The guide identifies seven reader-driven appeals, or themes, that are essential to successful readers' advisory: awakening new perspectives; providing models for identity; offering reassurance, comfort, strength, and confirmation of self-worth; connecting with others; giving courage to make a change; facilitating acceptance; and building a disinterested understanding of the world. By becoming aware of and tapping into these seven themes, librarians and other educators can help children more deeply connect with books, thereby increasing the odds of becoming lifelong readers. The detailed descriptions of each book provide plot summaries as well as notes on themes, subjects, reading interest levels, adaptations and alternative formats, translations, and read-alikes. This informative guide will also aid librarians in collection development and bibliotherapy services.
