a family venture walkthrough: The Art of Asking Amanda Palmer, 2014-11-11 Rock star, crowdfunding pioneer, and TED speaker Amanda Palmer knows all about asking. Performing as a living statue in a wedding dress, she wordlessly asked thousands of passersby for their dollars. When she became a singer, songwriter, and musician, she was not afraid to ask her audience to support her as she surfed the crowd (and slept on their couches while touring). And when she left her record label to strike out on her own, she asked her fans to support her in making an album, leading to the world's most successful music Kickstarter. Even while Amanda is both celebrated and attacked for her fearlessness in asking for help, she finds that there are important things she cannot ask for--as a musician, as a friend, and as a wife. She learns that she isn't alone in this, that so many people are afraid to ask for help, and it paralyzes their lives and relationships. In this groundbreaking book, she explores these barriers in her own life and in the lives of those around her, and discovers the emotional, philosophical, and practical aspects of *The Art of Asking*. Part manifesto, part revelation, this is the story of an artist struggling with the new rules of exchange in the twenty-first century, both on and off the Internet. *The Art of Asking* will inspire readers to rethink their own ideas about asking, giving, art, and love.

a family venture walkthrough: Songs of Profit, Songs of Loss Daniel Scott Souleles, 2019-06-01 Since the early 1980s, private equity investors have heralded and shepherded massive changes in American capitalism. From outsourcing to excessive debt taking, private equity investment helped normalize once-taboo business strategies while growing into an over \$3 trillion industry in control of thousands of companies and millions of workers. Daniel Scott Souleles opens a window into the rarefied world of private equity investing through ethnographic fieldwork on private equity financiers. *Songs of Profit, Songs of Loss* documents how and why investors buy, manage, and sell the companies that they do; presents the ins and outs of private equity deals, management, and valuation; and explains the historical context that gave rise to private equity and other forms of investor-led capitalism. In addition to providing invaluable ethnographic insight, *Songs of Profit, Songs of Loss* is also an anthropological study of inequality as Souleles connects the core components of financial capitalism to economic disparities. Souleles uses local ideas of value and time to frame the ways private equity investors comprehend their work and to show how they justify the prosperity and poverty they create. Throughout, Souleles argues that understanding private equity investors as contrasted with others in society writ large is essential to fully understanding

private equity within the larger context of capitalism in the United States.

a family venture walkthrough: How Artifacts Afford Jenny L. Davis, 2020-08-11 A conceptual update of affordance theory that introduces the mechanisms and conditions framework, providing a vocabulary and critical perspective. Technological affordances mediate between the features of a technology and the outcomes of engagement with that technology. The concept of affordances, which migrated from psychology to design with Donald Norman's influential 1988 book, *The Design of Everyday Things*, offers a useful analytical tool in technology studies—but, Jenny Davis argues in *How Artifacts Afford*, it is in need of a conceptual update. Davis provides just such an update, introducing the mechanisms and conditions framework, which offers both a vocabulary and necessary critical perspective for affordance analyses. The mechanisms and conditions framework shifts the question from what objects afford to how objects afford, for whom, and under what circumstances. Davis shows that through this framework, analyses can account for the power and politics of technological artifacts. She situates the framework within a critical approach that views technology as materialized action. She explains how request, demand, encourage, discourage, refuse, and allow are mechanisms of affordance, and shows how these mechanisms take shape through variable conditions—perception, dexterity, and cultural and institutional legitimacy. Putting the framework into action, Davis identifies existing methodological approaches that complement it, including critical technocultural discourse analysis (CTDA), app feature analysis, and adversarial design. In today's rapidly changing sociotechnical landscape, the stakes of affordance analyses are high. Davis's mechanisms and conditions framework offers a timely theoretical reboot, providing tools for the crucial tasks of both analysis and design.

a family venture walkthrough: Rise of the Spectacular John Hannigan, 2021-08-29 In this prequel to *Fantasy City: Pleasure and Profit in the Postmodern Metropolis* (1998), his acclaimed book about the post-industrial city as a site of theming, branding and simulated spaces, sociologist John Hannigan travels back in time to the 1950s. Unfairly stereotyped as 'the tranquillized decade', America at mid-century hosted an escalating proliferation and conjunction of 'spectacular' events, spaces, and technologies. Spectacularization was collectively defined by five features. It reflected and legitimated a dramatic increase in scale from the local/regional to the national. It was mediated by the increasingly popular medium of television. It exploited middle-class tension between comfortable conformity and desire for safe adventure. It celebrated technological progress, boosterism and military power. It was orchestrated and marketed by a constellation, sometimes a coalition, of entrepreneurs and dream merchants, most prominently Walt Disney. In this wide-ranging odyssey across mid-century America, Hannigan visits leisure parks (Cypress Gardens),

parades (Tournament of Roses), mega-events (Squaw Valley Olympics, Century 21 Exposition), architectural styles (desert modernism), innovations (underwater photography, circular film projection) and everyday wonders (chemistry sets). Collectively, these fashioned the 'spectacular gaze', a prism through which Americans in the 1950s were acculturated to and conscripted into a vision of a progressive, technology-based future. Rise of the Spectacular will appeal to architects, landscape designers, geographers, sociologists, historians, and leisure/tourism researchers, as well as non-academic readers who are by a fascinating era in history.

a family venture walkthrough: *Reviving Ophelia* Mary Pipher, PhD, 2005-08-01 #1 New York Times Bestseller The groundbreaking work that poses one of the most provocative questions of a generation: what is happening to the selves of adolescent girls? As a therapist, Mary Pipher was becoming frustrated with the growing problems among adolescent girls. Why were so many of them turning to therapy in the first place? Why had these lovely and promising human beings fallen prey to depression, eating disorders, suicide attempts, and crushingly low self-esteem? The answer hit a nerve with Pipher, with parents, and with the girls themselves. Crashing and burning in a "developmental Bermuda Triangle," they were coming of age in a media-saturated culture preoccupied with unrealistic ideals of beauty and images of dehumanized sex, a culture rife with addictions and sexually transmitted diseases. They were losing their resiliency and optimism in a "girl-poisoning" culture that propagated values at odds with those necessary to survive. Told in the brave, fearless, and honest voices of the girls themselves who are emerging from the chaos of adolescence, *Reviving Ophelia* is a call to arms, offering important tactics, empathy, and strength, and urging a change where young hearts can flourish again, and rediscover and reengage their sense of self.

a family venture walkthrough: *Whose Middle Ages?* Andrew Albin, Mary C. Erler, Thomas O'Donnell, Nicholas L. Paul, Nina Rowe, 2019-10-15 *Whose Middle Ages?* is an interdisciplinary collection of short, accessible essays intended for the nonspecialist reader and ideal for teaching at

an undergraduate level. Each of twenty-two essays takes up an area where digging for meaning in the medieval past has brought something distorted back into the present: in our popular entertainment; in our news, our politics, and our propaganda; and in subtler ways that inform how we think about our histories, our countries, and ourselves. Each author looks to a history that has refused to remain past and uses the tools of the academy to read and re-read familiar stories, objects, symbols, and myths. *Whose Middle Ages?* gives nonspecialists access to the richness of our historical knowledge while debunking damaging misconceptions about the medieval past. Myths about the medieval period are especially beloved among the globally resurgent far right, from crusading emblems on the shields borne by alt-right demonstrators to the on-screen image of a purely white European populace defended from actors of color by Internet trolls. This collection attacks these myths directly by insisting that readers encounter the relics of the Middle Ages on their own terms. Each essay uses its author's academic research as a point of entry and takes care to explain how the author knows what she or he knows and what kinds of tools, bodies of evidence, and theoretical lenses allow scholars to write with certainty about elements of the past to a level of detail that might seem unattainable. By demystifying the methods of scholarly inquiry, *Whose Middle Ages?* serves as an antidote not only to the far right's errors of fact and interpretation but also to its assault on scholarship and expertise as valid means for the acquisition of knowledge.

Green-sky is an ideal place. Violence doesn't exist. Its citizens, the Kindar, glide from tree to tree and exchange happy thoughts. This is all thanks to their rulers, the Ol-zhaan. And on his thirteenth birthday, Raamo D'ok is chosen to become one of the Ol-zhaan. Raamo is surprised to be named a Chosen. He isn't a very good student—but the Ol-zhaan believe he has strong Spirit-force. But during his training, Raamo discovers that these good rulers aren't as benevolent as they appear. They harbor secrets about his people, his family, and what lies below the forest floor. Now Raamo must decide: Should he keep the peace, or reveal the secrets that the Ol-zhaan have protected for so long? This ebook features an extended biography of Zilpha Keatley Snyder.
