a history of love and hate in 21 statues: A History of Love and Hate in 21 Statues Peter Hughes, 2021-09-14 From antiquity to the present day, this book offers a fascinating insight into the histories, movements and conflicts which have come to shape our world, viewed through the stories of the destruction of 21 statues. Confederate soldiers hacked to pieces. A British slave trader dumped in the river. An Aboriginal warrior twice beheaded. A Chinese philosopher consumed by fire. A Greek goddess left to rot in the desert... Statues stand as markers of collective memory connecting us to a shared sense of belonging. When societies fracture into warring tribes, we convince ourselves that the past is irredeemably evil. So, we tear down our statues. But what begins with the destruction of statues, ends with the killing of people. This remarkable book is a compelling history of love and hate spanning every continent, religion and era, told through the destruction of 21 statues. Peter Hughes' original approach, blending philosophy, psychology and history, explores how these symbols of our identity give us more than an understanding of our past. In the wars that rage around them, they may also hold the key to our future. The 21 statues are Hatshepsut (Ancient Egypt), Nero (Suffolk, UK), Athena (Syria), Buddhas of Bamiyan (Afghanistan), Hecate (Constantinople), Our Lady of Caversham (near Reading, UK), Huitzilopochtli (Mexico), Confucius (China), Louis XV (France), Mendelssohn (Germany), The Confederate Monument (US), Sir John A. Macdonald (Canada), Christopher Columbus (Venezuela), Edward Colston (Bristol, UK), Cecil Rhodes (South Africa), George Washington (US), Stalin (Hungary), Yagan (Australia), Saddam Hussein (Iraq), B. R. Ambedkar (India) and Frederick Douglass (US). A History of Love and Hate in 21 Statues is a profound and necessary meditation on identity which resonates powerfully today as statues tumble around the world.

a history of love and hate in 21 statues: In the Shadow of Statues Mitch Landrieu, 2019-03-19 The New Orleans mayor who removed the Confederate statues confronts the racism that shapes us and argues for white America to reckon with its past. A passionate, personal, urgent book from the man who sparked a national debate. There is a difference between remembrance of history and reverence for it. When Mitch Landrieu addressed the people of New Orleans in May 2017 about his decision to take down four Confederate monuments, including the statue of Robert E. Lee, he struck a nerve nationally, and his speech has now been heard or seen by millions across the country. In his first book, Mayor Landrieu discusses his personal journey on race as well as the path he took to making the decision to remove the monuments, tackles the broader history of slavery, race and institutional inequities that still bedevil America, and traces his personal relationship to this history. His father, as state legislator and mayor, was a huge force in the integration of New Orleans in the 1960s and 1970s. Landrieu grew up with a progressive education in one of the nation's most racially divided cities, but even he had to relearn Southern history as it really happened. Equal parts unblinking memoir, history, and prescription for finally confronting America's most painful legacy, *In the Shadow of Statues* contributes strongly to the national conversation about race in the age of

Donald Trump, at a time when racism is resurgent with seemingly tacit approval from the highest levels of government and when too many Americans have a misplaced nostalgia for a time and place that never existed.

a history of love and hate in 21 statues: *The Birth of Pleasure* Carol Gilligan, 2003-08-12 The author of the classic *In a Different Voice* offers a brilliant, provocative book about love that has powerful implications for the way we live and love today. "Compelling ... A thrilling new paradigm." —The Times Literary Supplement Carol Gilligan, whose *In a Different Voice* revolutionized the study of human psychology, now asks: Why is love so often associated with tragedy? Why are our experiences of pleasure so often shadowed by loss? And can we change these patterns? Gilligan observes children at play and adult couples in therapy and discovers that the roots of a more hopeful view of love are all around us. She finds evidence in new psychological research and traces a path leading from the myth of Psyche and Cupid through Shakespeare's plays and Freud's case histories, to Anne Frank's diaries and contemporary novels.

a history of love and hate in 21 statues: *A Little History of the World* E. H. Gombrich, 2014-10-01 E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

a history of love and hate in 21 statues: *A History of Art History* Christopher S. Wood, 2021-03-02 In this authoritative book, the first of its kind in English, Christopher Wood tracks the evolution of the historical study of art from the late middle ages through the rise of the modern scholarly discipline of art history. Synthesizing and assessing a vast array of writings, episodes, and personalities, this original and accessible account of the development of art-historical thinking will appeal to readers both inside and outside the discipline. The book shows that the pioneering chroniclers of the Italian Renaissance--Lorenzo Ghiberti and Giorgio Vasari--measured every epoch against fixed standards of quality. Only in the Romantic era did art historians discover the virtues of medieval art, anticipating the relativism of the later nineteenth century, when art history learned to admire the art of all societies and to value every work as an index of its times. The major art historians of the modern era, however--Jacob Burckhardt, Aby Warburg, Heinrich Wölfflin, Erwin Panofsky, Meyer Schapiro, and Ernst Gombrich--struggled to adapt their work to the rupture of artistic modernism, leading to the current predicaments of the discipline. Combining erudition with clarity, this book makes a landmark contribution to the understanding of art history.--from book jacket

a history of love and hate in 21 statues: How the Word Is Passed Clint Smith, 2021-06-01 This “important and timely” (Drew Faust, Harvard Magazine) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be. a history of love and hate in 21 statues: *Robert E. Lee* Allen C. Guelzo, 2021-09-28 A WALL STREET JOURNAL BEST BOOK OF THE YEAR • From the award-winning historian and best-selling author of *Gettysburg* comes the definitive biography of Robert E. Lee. An intimate look at the Confederate general in all his complexity—his hypocrisy and courage, his inner turmoil and outward calm, his disloyalty and his honor. An important contribution to reconciling the myths with the facts. —New York Times Book Review Robert E. Lee is one of the most confounding figures in American history. Lee betrayed his nation in order to defend his home state and uphold the slave system he claimed to oppose. He was a traitor to the country he swore to serve as an Army officer, and yet he was admired even by his enemies for his composure and leadership. He considered slavery immoral, but benefited from inherited slaves and fought to defend the institution. And behind his genteel demeanor and perfectionism lurked the insecurities of a man haunted by the legacy of a father who stained the family name by declaring bankruptcy and who disappeared when Robert was just six years old. In *Robert E. Lee*, the award-winning historian Allen Guelzo has written the definitive biography of the general, following him from his refined upbringing in Virginia high society, to his long career in the U.S. Army, his agonized decision to side with Virginia when it seceded from the Union, and his leadership during the Civil War. Above all, Guelzo captures Robert E. Lee in all his complexity—his hypocrisy and courage, his outward calm and inner turmoil, his honor and his disloyalty.

a history of love and hate in 21 statues: You Must Change Your Life Peter Sloterdijk, 2014-10-15 In his major investigation into the nature of humans, Peter Sloterdijk presents a critique of myth - the myth of the return of religion. For it is not religion that is returning; rather, there is something else quite profound that is taking on increasing significance in the present: the human as a practising, training being, one that creates itself through exercises and thereby transcends itself. Rainer Maria Rilke formulated the drive towards such self-training in the early twentieth century in the imperative 'You must change your life'. In making his case for the expansion of the practice zone for individuals and for society as a whole, Sloterdijk develops a fundamental and fundamentally new anthropology. The core of his science of the human being is an insight into the self-formation of all things human. The activity of both individuals and collectives constantly comes back to affect them: work affects the worker, communication the communicator, feelings the feeler. It is those humans who engage expressly in practice that embody this mode of existence most clearly: farmers, workers, warriors, writers, yogis, rhetoricians, musicians or models. By examining their training plans and peak performances, this book offers a panorama of exercises that are necessary to be, and remain, a human being.

a history of love and hate in 21 statues: Fallen Idols Alex von Tunzelmann, 2021-10-19 An Economist Best Book of the Year In this timely and lively look at the act of toppling monuments, the popular historian and author of *Blood and Sand* explores the vital question of how a society remembers—and confronts—the past. In 2020, history came tumbling down. From the US and the UK to Belgium, New Zealand, and Bangladesh, Black Lives Matter protesters defaced, and in some cases, hauled down statues of Confederate icons, slaveholders, and imperialists. General Robert E. Lee, head of the Confederate Army, was covered in graffiti in Richmond, Virginia. Edward Colston, a member of Parliament and slave trader, was knocked off his plinth in Bristol, England, and hurled into the harbor. Statues of Christopher Columbus were toppled in Minnesota, burned and thrown into a lake in Virginia, and beheaded in Massachusetts. Belgian King Leopold II was set on fire in Antwerp and doused in red paint in Ghent. Winston Churchill's monument in London was daubed with the word "racist." As these iconic effigies fell, the backlash was swift and intense. But as the past three hundred years have shown, history is not erased when statues are removed. If anything, Alex von Tunzelmann reminds us, it is made. Exploring the rise and fall of twelve famous, yet now controversial statues, she takes us on a fascinating global historical tour around North America, Western and Eastern Europe, Latin America and Asia, filled with larger than life characters and dramatic stories. Von Tunzelmann reveals that statues are not historical records but political statements and distinguishes between statuary—the representation of "virtuous" individuals, usually "Great Men"—and other forms of sculpture, public art, and memorialization. Nobody wants to get rid of all memorials. But *Fallen Idols* asks: have statues had their day?

He runs for his life but it seems that no one can see what he's running from. No one, except Edie, who is also trapped in this strange world. a history of love and hate in 21 statues: The Darkening Age Catherine Nixey, 2018-04-17 A New York Times Notable Book, winner of the Jerwood Award from the Royal Society of Literature, a New York Times Book Review Editors' Choice, and named a Book of the Year by the Telegraph, Spectator, Observer, and BBC History Magazine, this bold new history of the rise of Christianity shows how its radical followers helped to annihilate Greek and Roman civilizations. *The Darkening Age* is the largely unknown story of how a militant religion deliberately attacked and suppressed the teachings of the Classical world, ushering in centuries of unquestioning adherence to one true faith. Despite the long-held notion that the early Christians were meek and mild, going to their martyrs' deaths singing hymns of love and praise, the truth, as Catherine Nixey reveals, is very different. Far from being meek and mild, they were violent, ruthless, and fundamentally intolerant. Unlike the polytheistic world, in which the addition of one new religion made no fundamental difference to the old ones, this new ideology stated not only that it was the way, the truth, and the light but that, by extension, every single other way was wrong and had to be destroyed. From the first century to the sixth, those who didn't fall into step with its beliefs were pursued in every possible way: social, legal, financial, and physical. Their altars were upturned and their temples demolished, their statues hacked to pieces, and their priests killed. It was an annihilation. Authoritative, vividly written, and utterly compelling, this is a remarkable debut from a brilliant young historian.

a history of love and hate in 21 statues: *21 Days in October* Magali Favre, 2014-04 This work of historical fiction deals with the occupation of Quebec by the Canadian Army and the massive imprisonment of French-speaking Canadian artists and trade unionists, based on the pretext of two political kidnappings. In October 1970, 21 days was the legal limit, under the War Measures Act, during which the Canadian government could hold prisoners incommunicado without charging them or justifying their arrest. Gaetan is 16. He has quit school, works in a factory in Montreal's Saint-Henri district, and finds himself embroiled in a political conflict. His good friend is arrested for taking part in a union meeting, his father, for speaking out too loudly about city elections held during the crisis. By chance, Gaetan meets Louise, a young college student who, although she is from a different background and is involved with radical friends, takes a keen interest in him. In this troubled period of Quebec's and Canada's history, young people are confronted with unrelenting factory work, unemployment, harsh police and military action, and imprisonment, but also, hope, political commitment and first love.

a history of love and hate in 21 statues: *Germania* Simon Winder, 2010-03-16 A UNIQUE EXPLORATION OF GERMAN CULTURE, FROM SAUSAGE ADVERTISEMENTS TO WAGNER Sitting on a bench at a communal table in a restaurant in Regensburg, his plate loaded with disturbing amounts of bratwurst and sauerkraut made golden by candlelight shining through a massive glass of beer, Simon Winder was happily swinging his legs when a couple from Rottweil politely but awkwardly asked: So: why are you here? This book is an attempt to answer that question. Why spend time wandering around a country that remains a sort of dead zone for many foreigners, surrounded as it is by a force field of historical, linguistic, climatic, and gastronomic barriers? Winder's book is propelled by a wish to reclaim the brilliant, chaotic, endlessly varied German civilization that the Nazis buried and ruined, and that, since 1945, so many Germans have worked to rebuild. *Germania* is a very funny book on serious topics—how we are misled by history, how we twist history, and how sometimes it is best to know no history at all. It is a book full of curiosities: odd food, castles, mad princes, fairy tales, and horse-mating videos. It is about the limits of language, the meaning of culture, and the pleasure of townscape.

a history of love and hate in 21 statues: *Irena's Vow* Dan Gordon, 2024-03-26 When Irena Gut witnessed a Nazi officer murder a baby and its mother in front of her eyes, she could do nothing. Then and there, she made a vow to God that if she ever had the opportunity to save a life, she would do it. But she did much more than that. When she was appointed the housekeeper for a German major, the highest-ranking German officer in Tarnopol, Poland, Irena saved thirteen lives by hiding twelve Jews in her employer's basement, without his knowledge, for eight months. The thirteenth life

she saved was a baby who was conceived in hiding. Now a major motion picture starring Sophie Nélisse, *Irena's Vow* is one of the most remarkable, true stories of courage to come out of the Holocaust.

a history of love and hate in 21 statues: *The Statues that Walked* Terry Hunt, Carl Lipo, 2011-06-21 The monumental statues of Easter Island, both so magisterial and so forlorn, gazing out in their imposing rows over the island's barren landscape, have been the source of great mystery ever since the island was first discovered by Europeans on Easter Sunday 1722. How could the ancient people who inhabited this tiny speck of land, the most remote in the vast expanse of the Pacific islands, have built such monumental works? No such astonishing numbers of massive statues are found anywhere else in the Pacific. How could the islanders possibly have moved so many multi-ton monoliths from the quarry inland, where they were carved, to their posts along the coastline? And most intriguing and vexing of all, if the island once boasted a culture developed and sophisticated enough to have produced such marvelous edifices, what happened to that culture? Why was the island the Europeans encountered a sparsely populated wasteland? The prevailing accounts of the island's history tell a story of self-inflicted devastation: a glaring case of eco-suicide. The island was dominated by a powerful chiefdom that promulgated a cult of statue making, exercising a ruthless hold on the island's people and rapaciously destroying the environment, cutting down a lush palm forest that once blanketed the island in order to construct contraptions for moving more and more statues, which grew larger and larger. As the population swelled in order to sustain the statue cult, growing well beyond the island's agricultural capacity, a vicious cycle of warfare broke out between opposing groups, and the culture ultimately suffered a dramatic collapse. When Terry Hunt and Carl Lipo began carrying out archaeological studies on the island in 2001, they fully expected to find evidence supporting these accounts. Instead, revelation after revelation uncovered a very different truth. In this lively and fascinating account of Hunt and Lipo's definitive solution to the mystery of what really happened on the island, they introduce the striking series of archaeological discoveries they made, and the path-breaking findings of others, which led them to compelling new answers to the most perplexing questions about the history of the island. Far from irresponsible environmental destroyers, they show, the Easter Islanders were remarkably inventive environmental stewards, devising ingenious methods to enhance the island's agricultural capacity. They did not devastate the palm forest, and the culture did not descend into brutal violence. Perhaps most surprising of all, the making and moving of their enormous statues did not require a bloated population or tax their precious resources; their statue building was actually integral to their ability to achieve a delicate balance of sustainability. The Easter Islanders, it turns out, offer us an impressive record of masterful environmental management rich with lessons for confronting the daunting environmental challenges of our own time. Shattering the conventional wisdom, Hunt and Lipo's ironclad case for a radically different understanding of the story of this most mysterious place is scientific discovery at its very best.

a history of love and hate in 21 statues: *Piranesi* Susanna Clarke, 2021 Piranesi lives in the House. Perhaps he always has. In his notebooks, day after day, he makes a clear and careful record of its wonders: the labyrinth of halls, the thousands upon thousands of statues, the tides that thunder up staircases, the clouds that move in slow procession through the upper halls. On Tuesdays and Fridays Piranesi sees his friend, the Other. At other times he brings tributes of food and waterlilies to the Dead. But mostly, he is alone. Messages begin to appear, scratched out in chalk on the pavements. There is someone new in the House. But who are they and what do they want? Are they a friend or do they bring destruction and madness as the Other claims? Lost texts must be found; secrets must be uncovered. The world that Piranesi thought he knew is becoming strange and dangerous

a history of love and hate in 21 statues: *The Early History of Rome* Livy, 1971 With stylistic brilliance and historical imagination, the first five books of Livy's monumental history of Rome record events from the foundation of Rome through the history of the seven kings, the establishment of the Republic and its internal struggles, up to Rome's recovery after the fierce Gallic invasion of the fourth century bc. Livy vividly depicts the great characters, legends, and tales, including the story of Romulus and Remus. Reprinting Robert Ogilvie's lucid 1971 introduction, this highly regarded edition now boasts a new preface, examining the text in light of recent Livy scholarship, informative maps, bibliography, and an index. Translated by Aubrey de Sélincourt with an introduction by Robert Ogilvie.

a history of love and hate in 21 statues: *Coldheart Canyon* Clive Barker, 2009-03-17 "[Clive Barker] is a mapmaker of the mind, charting the farthest reaches of the imagination." —Washington Post From *The Books of Blood* to *Hellraiser* to *Imajica*, *Abarat*, and *Mister B. Gone*, Clive Barker's extraordinary vision knows no bounds. With *Coldheart Canyon*, the New York Times bestselling master of dark fantasy who has been called "a cross between Stephen King and Gabriel Garcia Marquez" (Boston Herald) thrills readers with a "Hollywood ghost story" as audacious and chilling as anything he (or anyone else) has ever written. Film's most popular action hero needs a place to heal after surgery that has gone terribly wrong. His fiercely loyal agent finds him just such a place in a luxurious, forgotten mansion high in the Hollywood Hills. But the original owner of the mansion was a beautiful woman devoted to pleasure at any cost, and the terrible legacy of her deed has not yet died. There are ghosts and monsters haunting Coldheart Canyon, where nothing is forbidden. USA Today calls Barker's novel, "Endlessly entertaining...wickedly enjoyable," and fans everywhere will agree—a tense and winding trip down into the hellish depths of Coldheart Canyon is well worth making.

a history of love and hate in 21 statues: *My Vanishing Country* Bakari Sellers, 2020-05-19 New York Times Bestseller: This insightful and deeply personal portrait of African American working-class life "offers something so authentic . . . compelling" (Charleston Post and Courier). Part memoir, part historical and cultural analysis, *My Vanishing Country* is an eye-opening journey through the South's past, present, and future. Anchored in Bakari Sellers' hometown of Denmark, South Carolina, *My Vanishing Country* illuminates the pride and pain that continues to fertilize the soil of one of the poorest states in the nation. He traces his father's rise to become a friend of Stokely Carmichael and Martin Luther King, civil rights hero, and member of the Student Non-Violent Coordinating Committee (SNCC), in the process exploring the plight of the South's dwindling rural black working class—many of whom can trace their ancestry back for seven generations. In his poetic personal history, we are awakened to the crisis affecting the other "forgotten men and women," seldom acknowledged by the media. For Sellers, these are his family members, neighbors, and friends. He humanizes the struggles that shape their lives—to gain access to healthcare as rural hospitals disappear; to make ends meet as the factories they have relied on shut down and move overseas; to hold on to precious traditions as their towns erode; to forge a path forward without succumbing to despair. *My Vanishing Country* is also a love letter to fatherhood—to Sellers' father, his lodestar, whose life lessons have shaped him, and to his newborn twins, who he hopes will embrace the Sellers family name and honor its legacy. "An engaging memoir." —Kirkus Reviews "Family trauma—even inherited trauma—can take a tremendous toll on children. But as Bakari Sellers makes plain in *My Vanishing Country*, family trauma can also be a source of strength." —BookPage

a history of love and hate in 21 statues: *The Night Bus Hero* Onjali Q. Rauf, 2020-10-15 From Onjali Q. Rauf, the award-winning and best-selling author of *The Boy at the Back of the Class*, comes another incredible story, told with humour and heart. 'The boy's an absolute menace.' 'He's a bully. A lost cause!' 'Why can't he be more like his sister?' I've been getting into trouble for as long I can remember. Usually I don't mind 'cos some of my best, most brilliant ideas have come from sitting in detention. But recently it feels like no one believes me about anything - even when I'm telling the truth! And it's only gotten worse since I played a prank on the old man who lives in the park.

Everyone thinks I'm just a bully. They don't believe I could be a hero. But I'm going to prove them all wrong... Told from the perspective of a bully, this book explores themes of bullying and homelessness, while celebrating kindness, friendship and the potential everyone has to change for the good.

a history of love and hate in 21 statues: *The Color Purple* Alice Walker, 2023-08-01 The inspiration for the new film adaptation of the Tony-winning Broadway musical Alice Walker's iconic modern classic, and winner of the Pulitzer Prize and the National Book Award A powerful cultural touchstone of modern literature, *The Color Purple* depicts the lives of African American women in early twentieth-century rural Georgia. Separated as girls, sisters Celie and Nettie sustain their loyalty to and hope in each other across time, distance, and silence. Through a series of letters spanning twenty years, first from Celie to God, then the sisters to each other despite the unknown, the novel draws readers into its rich and memorable portrayals of Celie, Nettie, Shug Avery and Sofia and their experience. *The Color Purple* broke the silence around domestic and sexual abuse, narrating the lives of women through their pain and struggle, companionship and growth, resilience and bravery. Deeply compassionate and beautifully imagined, Alice Walker's epic carries readers on a spirit-affirming journey toward redemption and love.

a history of love and hate in 21 statues: *The Age of Atlantic Revolution* Patrick Griffin, 2023-05-16 A bold new account of the Age of Revolution, one of the most complex and vast transformations in human history "A fresh and illuminating framework for understanding our past

and imagining our future. Powerfully argued and engagingly written, Patrick Griffin's timely account of revolutionary regime change and reaction shows how a world of empires became our world of nation-states."—Peter S. Onuf, coauthor of *Most Blessed of the Patriarchs* "When we speak of an age of revolution, what do we mean? In this synoptic, compelling book, Patrick Griffin asks the difficult questions and invites readers to reconsider the answers."—Eliga Gould, author of *Among the Powers of the Earth* The Age of Atlantic Revolution was a defining moment in western history. Our understanding of rights, of what makes the individual an individual, of how to define a citizen versus a subject, of what states should or should not do, of how labor, politics, and trade would be organized, of the relationship between the church and the state, and of our attachment to the nation all derive from this period (c. 1750–1850). Historian Patrick Griffin shows that the Age of Atlantic Revolution was rooted in how people in an interconnected world struggled through violence, liberation, and war to reimagine themselves and sovereignty. Tying together the revolutions, crises, and conflicts that undid British North America, transformed France, created Haiti, overturned Latin America, challenged Britain and Europe, vexed Ireland, and marginalized West Africa, Griffin tells a transnational tale of how empires became nations and how our world came into being.
