11301 financial centre pkwy little rock ar 72211: The Child Survivor Joyanna L. Silberg, 2021-08-18 In this second edition of Joyanna Silberg's classic *The Child Survivor*, practitioners who treat dissociative children will find practical tools that are backed up by recent advances in clinical research. Chapters are filled with examples of clinical dilemmas that can challenge even the most expert child trauma clinicians, and Silberg shows how to handle these dilemmas with creativity, attunement, and sensitivity to the adaptive nature of even the most complex dissociative symptoms. The new edition addresses the impact of the Covid-19 pandemic on children and provides tips for working with traumatized children in telehealth. A new chapter on organized abuse explains how children victimized by even the most sadistic crimes can respond well to therapy. Clinicians on the front lines of treatment will come away from the book with an arsenal of therapeutic techniques that they can put into practice right away, limiting the need for restrictive hospitalizations or out-of-home placements for their young clients.

11301 financial centre pkwy little rock ar 72211: A Few Seconds of Radiant Filmstrip Kevin Brockmeier, 2014-04-01 At age twelve, Kevin Brockmeier is ready to become a different person: not the boy he has always been—the one who cries too easily and laughs too easily, who lives in an otherland of sparkling daydreams and imaginary catastrophes—but someone else altogether. Over the course of one school year—seventh grade—he sets out in search of himself. Along the way, he happens into his first kiss at a church party, struggles to understand why his old friends tease him at the lunch table, becomes the talk of the entire school thanks to his Halloween costume, and booby-traps his lunch to deter a thief. With the same deep feeling and oddly dreamlike precision that are the hallmarks of his fiction, the acclaimed novelist now explores the dream of his own past and recovers the person he used to be.

11301 financial centre pkwy little rock ar 72211: *Herding Donkeys* Ari Berman, 2010-09-28 After the 2004 election, the Republican Party held the White House, both houses of Congress, twenty-eight governorships, and a majority of state legislatures. One-party rule, it seemed, was here to stay. *Herding Donkeys* tells the improbable tale of the grassroots resurgence that transformed the Democratic Party from a lonely minority to a sizable majority. It chronicles the inside story of Howard Dean's visionary yet deeply controversial fifty-state strategy, charting his unpredictable journey from insurgent presidential candidate, to front-running flameout, to chairman and conscience of the Democratic Party in an unexpected third act. Ari Berman reveals how the Obama campaign built upon Dean's strategy when others ridiculed it, expanding the ranks of the party and ultimately laying the groundwork for Obama's historic electoral victory—but also sowing the seeds of dissent that would lead to legislative stalemate and intraparty strife. Revelatory and entertaining, in the vein of Timothy Crouse's *The Boys on the Bus* and Rick Perlstein's *Nixonland*, *Herding Donkeys* combines fresh reportage with a rich and colorful cast of characters. It captures the untold stories of the people and places that reshaped the electoral map, painting a vivid portrait of a shifting country while dissecting the possibility and peril of a new era in American politics.

11301 financial centre pkwy little rock ar 72211: *Dissociation in Traumatized Children and Adolescents* Sandra Wieland, 2015-03-27 *Dissociation in Traumatized Children and Adolescents* presents a series of unique and compelling case studies written by some of the foremost international experts in the study of dissociation in young people. In the new edition, chapters have been updated to include discussion of the most recent findings in trauma and neuroscience as well

as Joyanna Silberg's popular affect-avoidance model. In addition, Sandra Wieland's incisive commentaries on each case study have been updated. Each chapter presents a detailed narrative of a therapist's work with a child or adolescent interspersed with the therapist's own thought process, and every therapist explains the theory and research behind her clinical decisions. The case studies present many aspects of working with traumatized children—attachment work, trauma processing, work with the family, interactions with the community, psychoeducation related to dissociation, and encouragement of communication between the dissociated parts—and provide a frank analysis of the difficulties clinicians encounter in various therapeutic situations. While the book is exceptional in its clear and detailed descriptions of theory related to dissociation in children, most importantly, it illustrates how theory can be translated into successful therapeutic interactions.
