A History of Violence: Where to Watch and its Lasting Impact on Cinema

By Dr. Anya Sharma, PhD in Film Studies, University of Southern California

Published by Cinephile Quarterly, a leading publication in film criticism and analysis, renowned for its insightful and rigorous approach to cinematic discourse.

Edited by Mr. Robert Miller, experienced film critic and editor with over 15 years of experience at Cinephile Quarterly, specializing in genre films and their cultural impact.

Keyword: a history of violence where to watch

Introduction: David Cronenberg's 2005 neo-noir thriller, *A History of Violence*, isn't just a film; it's a cultural touchstone. Its exploration of identity, masculinity, and the inherent violence lurking beneath the surface of seemingly ordinary lives continues to resonate with audiences today. But finding *A History of Violence: Where to Watch* might initially present a challenge, prompting this deep dive into its availability and its enduring significance within the landscape of contemporary cinema. This article will not only address the question of "A History of Violence where to watch," but also delve into the film's impact on the industry, its unique thematic elements, and its lasting legacy.

Where to Watch A History of Violence:

Finding *A History of Violence* in 2024 is relatively straightforward thanks to the digital age. However, the specific platform varies depending on your geographical location. "A History of Violence where to watch" depends on your region's streaming services and rental options.

Streaming Services: Check major platforms like Netflix, Amazon Prime Video, Hulu, and Apple TV+. Availability changes frequently, so regular checks are recommended. Often, the film is available for a rental or purchase on demand. **Digital Rental/Purchase:** Services like Google Play, YouTube Movies, and Vudu often carry *A History of Violence* for digital rental or purchase. This offers flexibility in viewing schedules.

Physical Media: For collectors, the film is still available on DVD and Blu-ray, offering superior picture quality and a tangible connection to the cinematic experience. This is an excellent option if you "want to watch *A History of Violence*" and prefer owning a physical copy.

The Impact of A History of Violence on the Industry:

A History of Violence's impact extends beyond its immediate critical and commercial success. The film masterfully blended genres, moving seamlessly between domestic drama and brutal crime thriller. This genre-bending approach

influenced subsequent filmmakers, encouraging a more fluid and complex approach to storytelling, blurring the lines between seemingly disparate genres.

The film's exploration of suburban normalcy masking hidden depths resonated deeply with audiences. It tapped into a pervasive anxiety about the precarious nature of identity and the potential for violence to erupt in unexpected places. This theme, explored with stark realism and psychological depth, influenced a wave of films examining the anxieties and contradictions of contemporary life. The film's success demonstrated the viability of complex narratives that challenged conventional genre expectations.

Thematic Exploration:

Cronenberg's masterful direction isn't merely about gratuitous violence; it's a sophisticated exploration of several key themes:

Identity and Deception: The core of the film revolves around Tom Stall (Viggo Mortensen), a seemingly ordinary man whose past violently resurfaces, forcing him to confront his true identity and the lies he has constructed to escape his violent past. This exploration of identity and self-deception has become a recurring theme in contemporary cinema. The question "A History of Violence where to watch" becomes less about simple viewing and more about engaging with the film's powerful commentary on the masks we wear.

Masculinity and Violence: A History of Violence presents a nuanced portrayal of masculinity, challenging traditional notions of strength and heroism. Tom's struggle to reconcile his violent past with his present life forces a confrontation with the complexities of masculine identity and the insidious nature of societal pressures that can lead to violence.

The Banality of Evil: The film doesn't shy away from depicting the mundane alongside the horrific. The seemingly idyllic suburban setting contrasts sharply with the brutality of Tom's past and present, emphasizing the chilling possibility of violence lurking beneath the surface of ordinary life. This unsettling juxtaposition influenced the way filmmakers depict violence and its relationship to seemingly normal settings.

A History of Violence: A Lasting Legacy:

The critical acclaim and cultural impact of A History of Violence ensured its place as a modern classic. Its influence can be seen in numerous subsequent films that explore similar themes of identity, violence, and the deceptive nature of appearances. The enduring popularity and the question of "A History of Violence where to watch" highlights its ongoing relevance and its enduring power to provoke thought and discussion. The film remains a potent and disturbing exploration of the human psyche and the ever-present shadow of violence.

Conclusion:

Finding A History of Violence: Where to Watch is relatively easy in the digital age, yet its enduring legacy extends far beyond its accessibility. The film's masterful blend of genres, insightful exploration of complex themes, and impactful storytelling have solidified its position as a significant contribution to contemporary cinema. The question of "A History

of Violence where to watch" is not just a question of logistical convenience; it's an invitation to engage with a film that continues to challenge, provoke, and resonate with audiences.

FAQs:

1. Is A History of Violence appropriate for all ages? No, it contains graphic violence and mature themes, making it unsuitable for younger audiences.

1. What are the key themes explored in A History of Violence? Identity, violence, masculinity, deception, and the banality of evil.

1. Who directed A History of Violence? David Cronenberg.

1. Who stars in A History of Violence? Viggo Mortensen, Maria Bello, Ed Harris, and William Hurt.

1. Is A History of Violence based on a true story? No, it is based on the graphic novel of the same name by John Wagner and Vince Locke.

a history of violence where to watch: *The Better Angels of Our Nature* Steven Pinker, 2012-09-25 Faced with the ceaseless stream of news about war, crime, and terrorism, one could easily think this is the most violent age ever seen. Yet as bestselling author Pinker shows in this startling and engaging new work, just the opposite is true.

a history of violence where to watch: *A History of Violence* John Wagner, 2011 Originally published: New York: Paradox Press, 1997.

a history of violence where to watch: *Savage Pastimes* Harold Schechter, 2005-03 In this cogent and well-researched book, Harold Schechter argues that, unlike the popular conception of the media inciting violence through displaying it, without these outlets of violence in the media a basic human need would not be met and would have to be acted out in much more destructive ways. Schechter demonstrates how violent images saturated the earliest newspaper, how art and disturbing images are not incompatible and how the demoralisation of comic books in the 1950s set up a pattern of equating testosterone fuelled entertainment with aggression.

a history of violence where to watch: *A History of Violence* Robert Muchembled, 2012 Presents a history of violence in Europe and discusses the theory that violence has actually been in decline since the thirteenth century.

a history of violence where to watch: *Bleeding Out* Thomas Abt, 2019-06-25 From a Harvard scholar and former Obama official, a powerful proposal for curtailing violent crime in America Urban violence is one of the most divisive and allegedly intractable issues of our time. But as Harvard scholar Thomas Abt shows in *Bleeding Out*, we actually possess all the tools necessary to stem violence in our cities. Coupling the latest social science with firsthand experience as a crime-fighter, Abt proposes a relentless focus on violence itself -- not drugs, gangs, or guns. Because violence is sticky, clustering among small groups of people and places, it can be predicted and prevented using a series of smart-on-crime strategies that do not require new laws or big budgets. Bringing these strategies together, Abt offers a concrete, cost-effective plan to reduce homicides by over 50 percent in eight years, saving more than 12,000 lives nationally. Violence acts as a linchpin for urban poverty, so curbing such crime can unlock the untapped potential of our cities' most disadvantaged communities and help us to bridge the nation's larger economic and social divides. Urgent yet hopeful, *Bleeding Out* offers practical solutions to the national emergency of urban violence -- and challenges readers to demand action.

a history of violence where to watch: *Pogroms* Eugene M. Avrutin, Elissa Bemporad, 2021-09-24 From the 1880s to the 1940s, an upsurge of explosive pogroms caused much pain and suffering across the eastern borderlands of Europe. Rioters attacked Jewish property and caused physical harm to women and children. During World War I and the Russian Civil War, pogrom violence turned into full-blown military actions. In some cases, pogroms wiped out of existence entire Jewish communities. More generally, they were part of a larger story of destruction, ethnic purification, and coexistence that played out in the region over a span of some six decades. *Pogroms: A Documentary History* surveys the complex history of anti-Jewish violence by bringing together archival and published sources--many appearing for the first time in English translation. The documents assembled here include eyewitness testimony, oral histories, diary excerpts, literary works, trial records, and press coverage. They also include memos and field reports authored by army officials, investigative commissions, humanitarian organizations, and government officials. This landmark volume and its distinguished roster of scholars provides an unprecedented view of the history of pogroms.

a history of violence where to watch: *David Cronenberg's A History of Violence* Bart Beaty, 2008-11-01 Arguably the most famous and critically acclaimed Canadian filmmaker, David Cronenberg is celebrated equally for his early genre films, like *Scanners* (1981) and *The Fly* (1986), and his dark artistic vision in films such as *Dead Ringers* (1988) and *Crash* (1996). The 2005 film *A History of Violence* was a mainstream success that marked Cronenberg's return to the commercial fold of Hollywood after years of independent art house filmmaking. His international reputation grew and the film was honoured with numerous awards and two Oscar nominations (for screenwriter

Josh Olson and supporting actor William Hurt). David Cronenberg's *A History of Violence* - the lead title in the new Canadian Cinema series - presents readers with a lively study of some of the filmmaker's favourite themes: violence, concealment, transformation, sex, and guilt. Bart Beaty introduces us to Cronenberg's film, situating it in the context of its aesthetic influences, and argues for its uniquely English-Canadian qualities. The author contends that *A History of Violence* is a nuanced study of masquerade and disguise, a film that thwarts our expectations of film genre as much as it challenges our perception of national geography and cultural mythology. As a contribution to the Canadian Cinema series, the volume also presents readers with an overview of Cronenberg's career, the production history of the film, a discussion of its critical reception, and a filmography. David Cronenberg's *A History of Violence* is a book for fans, critics, and cinephiles alike.

a history of violence where to watch: *The Fourth Turning* William Strauss, Neil Howe, 1997-12-29 NATIONAL BESTSELLER • Discover the game-changing theory of the cycles of history and what past generations can teach us about living through times of upheaval—with deep insights into the roles that Boomers, Generation X, and Millennials have to play—now with a new preface by Neil Howe. First comes a High, a period of confident expansion. Next comes an Awakening, a time of spiritual exploration and rebellion. Then comes an Unraveling, in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. William Strauss and Neil Howe will change the way you see the world—and your place in it. With blazing originality, *The Fourth Turning* illuminates the past, explains the present, and reimagines the future. Most remarkably, it offers an utterly persuasive prophecy about how America's past will predict what comes next. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four twenty-year eras—or “turnings”—that comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. Illustrating this cycle through a brilliant analysis of the post-World War II period, *The Fourth Turning* offers bold predictions about how all of us can prepare, individually and collectively, for this rendezvous with destiny.

a history of violence where to watch: *History of Violence* Édouard Louis, 2018-06-19 Originally published in French in 2016 by Seuil, France, as *Histoire de la violence*--Title page verso.

a history of violence where to watch: *Fields of Blood* Karen Armstrong, 2014-10-28 A sweeping exploration of religion and the history of human violence—from the New York Times bestselling author of *The History of God* • “Elegant and powerful.... Both erudite and accurate, dazzling in its breadth of knowledge and historical detail.” —The Washington Post In these times of rising geopolitical chaos, the need for mutual understanding between cultures has never been more urgent. Religious differences are seen as fuel for violence and warfare. In these pages, one of our greatest writers on religion, Karen Armstrong, amasses a sweeping history of humankind to explore the perceived connection between war and the world's great creeds—and to issue a passionate defense of the peaceful nature of faith. With unprecedented scope, Armstrong looks at the whole history of each tradition—not only Christianity and Islam, but also Buddhism, Hinduism, Confucianism, Daoism, and Judaism. Religions, in their earliest days, endowed every aspect of life with meaning, and warfare became bound up with observances of the sacred. Modernity has ushered in an epoch of spectacular violence, although, as Armstrong shows, little of it can be ascribed directly to religion. Nevertheless, she shows us how and in what measure religions came to absorb modern belligerence—and what hope there might be for peace among believers of different faiths in our time.

a history of violence where to watch: *A Pattern of Violence* David Alan Sklansky, 2021-03-23 A law professor and former prosecutor reveals how inconsistent ideas about violence, enshrined in law, are at the root of the problems that plague our entire criminal justice system—from mass incarceration to police brutality. We take for granted that some crimes are violent and others aren't. But how do we decide what counts as a violent act? David Alan Sklansky argues that legal notions

about violence—its definition, causes, and moral significance—are functions of political choices, not eternal truths. And these choices are central to failures of our criminal justice system. The common distinction between violent and nonviolent acts, for example, played virtually no role in criminal law before the latter half of the twentieth century. Yet to this day, with more crimes than ever called “violent,” this distinction determines how we judge the seriousness of an offense, as well as the perpetrator’s debt and danger to society. Similarly, criminal law today treats violence as a pathology of individual character. But in other areas of law, including the procedural law that covers police conduct, the situational context of violence carries more weight. The result of these inconsistencies, and of society’s unique fear of violence since the 1960s, has been an application of law that reinforces inequities of race and class, undermining law’s legitimacy. A Pattern of Violence shows that novel legal philosophies of violence have motivated mass incarceration, blunted efforts to hold police accountable, constrained responses to sexual assault and domestic abuse, pushed juvenile offenders into adult prisons, encouraged toleration of prison violence, and limited responses to mass shootings. Reforming legal notions of violence is therefore an essential step toward justice.

a history of violence where to watch: Every Day David Levithan, 2012-08-28 NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR by Booklist • Kirkus Reviews Celebrate all the ways love makes us who we are with the romance that Entertainment Weekly calls wise, wildly unique—from the bestselling co-author of Nick and Norah's Infinite Playlist—about a teen who wakes up every morning in a different body, living a different life. Now a major motion picture! Every day a different body. Every day a different life. Every day in love with the same girl. There’s never any warning about where it will be or who it will be. A has made peace with that, even established guidelines by which to live: Never get too attached. Avoid being noticed. Do not interfere. It’s all fine until the morning that A wakes up in the body of Justin and meets Justin’s girlfriend, Rhiannon. From that moment, the rules by which A has been living no longer apply. Because finally A has found someone he wants to be with—day in, day out, day after day. With his new novel, David Levithan, bestselling co-author of Will Grayson, Will Grayson, and Nick and Norah's Infinite Playlist, has pushed himself to new creative heights. He has written a captivating story that will fascinate readers as they begin to comprehend the complexities of life and love in A’s world, as A and Rhiannon seek to discover if you can truly love someone who is destined to change every day. “A story that is always alluring, oftentimes humorous and much like love itself—splendorous.” —Los Angeles Times

a history of violence where to watch: Slavery by Another Name Douglas A. Blackmon, 2012-10-04 A Pulitzer Prize-winning history of the mistreatment of black Americans. In this 'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

a history of violence where to watch: Histories of Violence Brad Evans, Terrell Carver, 2017-01-15 While there is a tacit appreciation that freedom from violence will lead to more prosperous relations among peoples, violence continues to be deployed for various political and social ends. Yet the problem of violence still defies neat description, subject to many competing interpretations. Histories of Violence offers an accessible yet compelling examination of the problem of violence as it appears in the corpus of canonical figures - from Hannah Arendt to Frantz Fanon, Michel Foucault to Slavoj Žižek - who continue to influence and inform contemporary political, philosophical, sociological, cultural, and anthropological study. Written by a team of internationally renowned experts, this is an essential interrogation of post-war critical thought as it relates to violence.

a history of violence where to watch: *A History of Florida* Marvin Dunn, 2016-05-24 I know Florida. I was born in Florida during the reign of Jim Crow and have lived to see black astronauts blasted into the heavens from Cape Canaveral. For three quarters of a century I have lived mostly in Florida. I have seen her flowers and her warts. This book is about both. People of African descent have been in Florida from the arrival of Ponce de Leon in 1513, yet our presence in the state is virtually hidden. A casual glance at most Florida history books depict African Americans primarily as laborers who are shown as backdrops to white history. The history of blacks in Florida has been deliberately distorted, omitted and marginalized. We have been denied our heroes and heroines. Our stories have mainly been left untold. This book lifts the veil from some of these stories and places African Americans in the very marrow of Florida history.

a history of violence where to watch: Concerning Violence Frantz Fanon, 2008-08-07 Angered by the racism he witnessed on Martinique during the Second World War, Fanon here examines the roles of class, culture and violence, and expresses his profound alienation from the idea of colonialism and its bloodshed. More than four decades on, Fanon's work still inspires liberation movements today. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

a history of violence where to watch: *Dreams of El Dorado* H. W. Brands, 2019-10-22 Epic in its scale, fearless in its scope (Hampton Sides), this masterfully told account of the American West from a two-time Pulitzer Prize finalist sets a new standard as it sweeps from the California Gold Rush and beyond. In *Dreams of El Dorado*, H. W. Brands tells the thrilling, panoramic story of the settling of the American West. He takes us from John Jacob Astor's fur trading outpost in Oregon to the Texas Revolution, from the California gold rush to the Oklahoma land rush. He shows how the migrants' dreams drove them to feats of courage and perseverance that put their stay-at-home cousins to shame-and how those same dreams also drove them to outrageous acts of violence against indigenous peoples and one another. The West was where riches would reward the miner's persistence, the cattleman's courage, the railroad man's enterprise; but El Dorado was at least as elusive in the West as it ever was in the East. Balanced, authoritative, and masterfully told, *Dreams of El Dorado* sets a new standard for histories of the American West.

a history of violence where to watch: *Cronenberg on Cronenberg* David Cronenberg, 1992 David Cronenberg is Canada's most provocative director. With internationally acclaimed films such as *Scanners*, *The Fly*, *Dead Ringers* and *Naked Lunch*, he has demonstrated his ability to touch painful nerves and invest his own unique genre with a rare philosophical and emotional intensity. In this stimulating, vivid book--combining memoir, behind-the-scenes movie stories and unsettling and original insights into the traumas of the late 20th century--David Cronenberg reveals the concerns and obsessions which dominate his rich, complex work.

a history of violence where to watch: *Wages of Rebellion* Chris Hedges, 2015-05-12 Revolutions come in waves and cycles. We are again riding the crest of a revolutionary epic, much like 1848 or 1917, from the Arab Spring to movements against austerity in Greece to the Occupy movement. In *Wages of Rebellion*, Chris Hedges -- who has chronicled the malaise and sickness of a society in terminal moral decline in his books *Empire of Illusion* and *Death of the Liberal Class* -- investigates what social and psychological factors cause revolution, rebellion, and resistance. Drawing on an ambitious overview of prominent philosophers, historians, and literary figures he shows not only the harbingers of a coming crisis but also the nascent seeds of rebellion. Hedges' message is clear: popular uprisings in the United States and around the world are inevitable in the face of environmental destruction and wealth polarization. Focusing on the stories of rebels from around the world and throughout history, Hedges investigates what it takes to be a rebel in modern times. Utilizing the work of Reinhold Niebuhr, Hedges describes the motivation that guides the actions of rebels as sublime madness -- the state of passion that causes the rebel to engage in an

unavailing fight against overwhelmingly powerful and oppressive forces. For Hedges, resistance is carried out not for its success, but as a moral imperative that affirms life. Those who rise up against the odds will be those endowed with this sublime madness. From South African activists who dedicated their lives to ending apartheid, to contemporary anti-fracking protests in Alberta, Canada, to whistleblowers in pursuit of transparency, *Wages of Rebellion* shows the cost of a life committed to speaking the truth and demanding justice. Hedges has penned an indispensable guide to rebellion.

a history of violence where to watch: *How to Watch a Movie* David Thomson, 2017-01-24 In his most inventive exploration of the medium yet, David Thomson—one of our most provocative authorities on all things cinema—shows us how to get more out of watching any movie. Guiding us through each element of the viewing experience, considering the significance of everything from what we see and hear on-screen—actors, shots, cuts, dialogue, music—to the specifics of how, where, and with whom we do the viewing, Thomson explicates the movie watching experience with his customary candor and wit. Delivering keen analyses of films ranging from *Citizen Kane* to *12 Years a Slave*, in *How to Watch a Movie*, Thomson shows moviegoers how to more deeply appreciate both the artistry and the manipulation of film—and in so doing enriches our viewing experience immensely.

a history of violence where to watch: *The History of Morris Dancing, 1458-1750* John Forrest, 2024-10-31 Morris dancing, one of the more peculiar of the English folk customs, has been greatly misunderstood. In *The History of Morris Dancing, 1458-1750* John Forrest analyses a wealth of evidence to show that Morris dancing does not, as is often assumed, have pagan or ancient origins. He examines early documentation to draw Morris traditions into the wide area of communal custom and public celebrations, showing the passage of dance ideas between groups previously considered folklorically distinct. Careful, detailed and encyclopaedic, *The History of Morris Dancing, 1458-1750*, is an essential reference work for specialists in English drama and social historians of the period, as well as offering fascinating insight for those who enjoy Morris dancing.

a history of violence where to watch: *How to Hide an Empire* Daniel Immerwahr, 2019-02-19 Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In *How to Hide an Empire*, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, *How to Hide an Empire* is a major and compulsively readable work of history.

a history of violence where to watch: *Mental Health Disorders in Adolescents* Eric P. Hazen, Mark A. Goldstein, Myrna Chandler Goldstein, 2010-12-22 This book provides essential information to help parents, educators, and general practitioners find effective ways to identify and treat psychiatric disorders that many teens face. By recognising the early symptoms of a psychiatric disorder, adults may be able to save a teen's life.

a history of violence where to watch: *The Palgrave Handbook of Violence in Africa* Obert Bernard Mlambo,

a history of violence where to watch: A History of the Laws of War: Volume 3 Alexander Gillespie, 2011-10-07 This unique work of reference traces the origins of the modern laws of warfare from the earliest times to the present day. Relying on written records from as far back as 2400 BCE, and using sources ranging from the Bible to Security Council Resolutions, the author pieces together the history of a subject which is almost as old as civilisation itself. The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them, protecting civilians who are either inadvertently or intentionally caught up between them, and controlling the use of particular classes of weapons that may be used in times of conflict. Thus it is that this work is divided into three substantial parts: Volume 1 on the laws affecting combatants and captives; Volume 2 on civilians; and Volume 3 on the law of arms control. This third volume deals with the question of the control of weaponry, from the Bronze Age to the Nuclear Age. In doing so, it divides into two parts: namely, conventional weapons and Weapons of Mass Destruction. The examination of the history of arms control of conventional weapons begins with the control of weaponry so that one side could achieve a military advantage over another. This pattern, which only began to change centuries after the advent of gunpowder, was later supplemented by ideals to control types of conventional weapons because their impacts upon opposing combatants were inhumane. By the late twentieth century, the concerns over inhumane conventional weapons were being supplemented by concerns over indiscriminate conventional weapons. The focus on indiscriminate weapons, when applied on a mass scale, is the core of the second part of the volume. Weapons of Mass Destruction are primarily weapons of the latter half of the twentieth century. Although both chemical and biological warfare have long historical lineages, it was only after the Second World War that technological developments meant that these weapons could be applied to cause large-scale damage to non-combatants. This is unlike nuclear weapons, which are a truly modern invention. Despite being the newest Weapon of Mass Destruction, they are also the weapon of which most international attention has been applied, although the frameworks by which they were contained in the last century, appear inadequate to address the needs of current times. As a work of reference this set of three books is unrivalled, and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare. It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself.

a history of violence where to watch: A History of Cant and Slang Dictionaries Julie Coleman, 2008-10-23 This book continues Julie Coleman's acclaimed history of dictionaries of English slang and cant. It describes the increasingly systematic and scholarly way in which such terms were recorded and classified in the UK, the USA, Australia, and elsewhere, and the huge growth in the publication of and public appetite for dictionaries, glossaries, and guides to the distinctive vocabularies of different social groups, classes, districts, regions, and nations. Dr Coleman describes the origins of words and phrases and explores their history. By copious example she shows how they cast light on everyday life across the globe - from settlers in Canada and Australia and cockneys in London to gang-members in New York and soldiers fighting in the Boer and First World Wars - as well as on the operations of the narcotics trade and the entertainment business and the lives of those attending American colleges and British public schools. The slang lexicographers were a colourful bunch. Those featured in this book include spiritualists, aristocrats, socialists, journalists, psychiatrists, school-boys, criminals, hoboes, police officers, and a serial bigamist. One provided the inspiration for Robert Lewis Stevenson's Long John Silver. Another was allegedly killed by a pork pie. Julie Coleman's account will interest historians of language, crime, poverty, sexuality, and the criminal underworld.

a history of violence where to watch: A History of the Laws of War: Volume 1 Alexander Gillespie, 2011-09-06 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day. Relying on written records from as far back as 2400 BCE, and using sources ranging from the Bible to Security Council Resolutions, the author pieces together the history of a subject which is almost as old as civilisation itself. The author shows

that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and regulating the treatment of captives. This first book on warfare deals with the broad question of whether the patterns of dealing with combatants and captives have changed over the last 5,000 years, and if so, how? In terms of context, the first part of the book is about combatants and those who can 'lawfully' take part in combat. In many regards, this part of the first volume is a series of 'less than ideal' pathways. This is because in an ideal world there would be no combatants because there would be no fighting. Yet as a species we do not live in such a place or even anywhere near it, either historically or in contemporary times. This being so, a second-best alternative has been to attempt to control the size of military forces and, therefore, the bloodshed. This is also not the case by which humanity has worked over the previous centuries. Rather, the clear assumption for thousands of years has been that authorities are allowed to build the size of their armed forces as large as they wish. The restraints that have been applied are in terms of the quality and methods by which combatants are taken. The considerations pertain to questions of biology such as age and sex, geographical considerations such as nationality, and the multiple nuances of informal or formal combatants. These questions have also overlapped with ones of compulsion and whether citizens within a country can be compelled to fight without their consent. Accordingly, for the previous 3,000 years, the question has not been whether there should be a limit on the number of soldiers, but rather who is or is not a lawful combatant. It has rarely been a question of numbers. It has been, and remains, one of type. The second part of this book is about people, typically combatants, captured in battle. It is about what happens to their status as prisoners, about the possibilities of torture, assistance if they are wounded and what happens to their remains should they be killed and their bodies fall into enemy hands. The theme that ties all of these considerations together is that all of the acts befall those who are, to one degree or another, captives of their enemies. As such, they are no longer masters of their own fate. As a work of reference this first volume, as part of a set of three, is unrivalled, and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare. It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself.

a history of violence where to watch: Politics and Violence in Eastern Africa David M. Anderson, Øystein H. Rolandsen, 2017-10-02 Over the fifty years between 1940 and 1990, the countries of eastern Africa were embroiled in a range of debilitating and destructive conflicts, starting with the wars of independence, but then incorporating rebellion, secession and local insurrection as the Cold War replaced colonialism. The articles gathered here illustrate how significant, widespread, and dramatic this violence was. In these years, violence was used as a principal instrument in the creation and consolidation of the authority of the state; and it was also regularly and readily utilised by those who wished to challenge state authority through insurrection and secession. Why was it that eastern Africa should have experienced such extensive and intensive violence in the fifty years before 1990? Was this resort to violence a consequence of imperial rule, the legacy of oppressive colonial domination under a coercive and non-representative state system? Did essential contingencies such as the Cold War provoke and promote the use of violence? Or, was it a choice made by Africans themselves and their leaders, a product of their own agency? This book focuses on these turbulent decades, exploring the principal conflicts in six key countries – Kenya, Uganda, Sudan, Ethiopia, Somalia and Tanzania. This book was published as a special issue of the Journal of Eastern African Studies.

a history of violence where to watch: A History of Criminal Justice in England and Wales John Hostettler, 2009-01-12 An ideal introduction to the rich history of criminal justice charting all its main developments from the dooms of Anglo-Saxon times to the rise of the Common Law, struggles for political, legislative and judicial ascendancy and the formation of the innovative Criminal Justice System of today.-back cover.

a history of violence where to watch: The History of the Tajik Civil War, 1992-1997 Parviz Mullojonov, 2022-12-16 The History of the Tajik Civil War, 1992-1997 presents a historical and analytical survey of the Tajik civil war—one of the bloodiest and most violent conflicts that took

place in the post-Soviet space after the collapse of the USSR. The conflict continued for five years as a political and military confrontation between pro-government, pro-Communist forces, and United Tajik Opposition (an alliance between Tajik democrats and Islamists). This book is an analytical reconstruction of the course of political, economic, and military events covering the entire period of the civil war starting from Perestroika to the beginning of 2000s. It explores a set of conceptual aspects such as conflict generating factors, causes, conflict dynamics, peacebuilding, and conflict transformation.

a history of violence where to watch: *The Negro Motorist Green Book* Victor H. Green, The Negro Motorist Green Book was a groundbreaking guide that provided African American travelers with crucial information on safe places to stay, eat, and visit during the era of segregation in the United States. This essential resource, originally published from 1936 to 1966, offered a lifeline to black motorists navigating a deeply divided nation, helping them avoid the dangers and indignities of racism on the road. More than just a travel guide, The Negro Motorist Green Book stands as a powerful symbol of resilience and resistance in the face of oppression, offering a poignant glimpse into the challenges and triumphs of the African American experience in the 20th century.

a history of violence where to watch: Militarized Youth Johanna Higgs, 2019-10-08 Based on ethnographic fieldwork and interviews from across Colombia—including former child guerillas, former hostages of the guerilla organization, mothers of child soldiers, and humanitarian aid workers— this volume explores the experiences of children involved with the Colombian guerilla group the Fuerzas Armadas Revolucionarias de Colombia (Farc). Going beyond the predominant humanitarian perspectives on child soldiers, Johanna Higgs delves into the specific social and cultural aspects of the Colombian conflict to give a contextualized, culturally relevant understanding of the processes of both militarization and demobilization of children, deploying the theoretical lens of “lifeworlds.” In so doing, Higgs not only provides insight into children’s involvement in conflict in Colombia, but presents a clear case for a move away from homogenized understandings of “child soldiers,” thus far dominated by viewpoints from industrialized Western nations. Tying together perspectives from anthropology, sociology, psychology, politics, and international development, Higgs provides not only a much-needed examination of how children are militarized, soldiering in the Farc context, and demilitarization, but also a blueprint for how research can be tied to specific cultural contexts.

a history of violence where to watch: *Stamped from the Beginning* Ibram X. Kendi, 2016-04-12 The National Book Award winning history of how racist ideas were created, spread, and deeply rooted in American society. Some Americans insist that we're living in a post-racial society. But racist thought is not just alive and well in America -- it is more sophisticated and more insidious than ever. And as award-winning historian Ibram X. Kendi argues, racist ideas have a long and lingering history, one in which nearly every great American thinker is complicit. In this deeply researched and fast-moving narrative, Kendi chronicles the entire story of anti-black racist ideas and their staggering power over the course of American history. He uses the life stories of five major American intellectuals to drive this history: Puritan minister Cotton Mather, Thomas Jefferson, abolitionist William Lloyd Garrison, W.E.B. Du Bois, and legendary activist Angela Davis. As Kendi shows, racist ideas did not arise from ignorance or hatred. They were created to justify and rationalize deeply entrenched discriminatory policies and the nation's racial inequities. In shedding light on this history, *Stamped from the Beginning* offers us the tools we need to expose racist thinking. In the process, he gives us reason to hope.
