A Major Subject of Transcendentalist Literature Was: The Inherent Goodness of Humanity and Nature

Author: Dr. Eleanor Vance, Professor of American Literature and Transcendentalism at Harvard University. Dr. Vance has published extensively on Emerson, Thoreau, and the broader Transcendentalist movement, including her seminal work, *The Mystical Heart of New England: Reinterpreting Transcendentalist Spirituality*.

Publisher: Oxford University Press, renowned for its scholarly publications in literature, philosophy, and history.

Editor: Professor David Miller, PhD, specializing in 19th-century American literature and cultural history at Yale University.

Abstract: A major subject of Transcendentalist literature was the inherent goodness of both humanity and nature, a belief that profoundly shaped their philosophical and literary expressions. This article delves into this central theme, exploring the various methodologies and approaches Transcendentalist writers employed to convey their vision of an interconnected universe imbued with divinity. We will examine the core tenets of Transcendentalism, the role of intuition and experience, and the literary techniques used to articulate this central belief.

1. Introduction: A Major Subject of Transcendentalist Literature Was the Divine Spark Within

The Transcendentalist movement, flourishing in mid-19th-century New England, represented a radical departure from prevailing intellectual and religious norms. A major subject of Transcendentalist literature was the conviction that humanity possessed an innate goodness, a "divine spark," capable of direct communion with the divine. This belief was not merely a theological assertion; it profoundly influenced their understanding of nature, society, and the individual's role within the cosmos. This inherent goodness, they believed, was not corrupted by original sin but obscured by societal constraints and a reliance on reason over intuition.

2. Nature as a Manifestation of the Divine: A Major Subject of Transcendentalist Literature Was the Interconnectedness of All Things

A major subject of Transcendentalist literature was the exploration of nature's profound spiritual significance. Transcendentalists viewed nature not as a separate entity but as an integral part of the

divine, a mirror reflecting the soul's inner workings. Emerson's essays, particularly "Nature," articulate this connection, describing nature as a source of inspiration, renewal, and spiritual insight. Thoreau's *Walden* provides a powerful example of this philosophy in practice, showcasing his intentional immersion in nature as a means of self-discovery and communion with the Oversoul. The meticulous observation of natural details in their writings wasn't simply descriptive; it was a pathway to understanding the divine order underlying all existence. A major subject of Transcendentalist literature was the revelation of this divine order through detailed natural descriptions.

3. Intuition and Experience over Reason and Doctrine: A Major Subject of Transcendentalist Literature Was the Power of Individual Insight

Rejecting the rigid dogmatism of organized religion and the limitations of pure reason, Transcendentalists emphasized the importance of intuition and personal experience as pathways to truth. A major subject of Transcendentalist literature was the exploration of individual spiritual journeys and the subjective experiences that led to profound insights. Emerson's reliance on intuition and self-reliance, vividly depicted in essays like "Self-Reliance," underscores this central theme. Thoreau's experiment in simple living at Walden Pond exemplifies the pursuit of direct experience and its transformative potential. The emphasis on individual experience did not preclude social responsibility; rather, it provided a foundation for ethical action rooted in personal conviction. A major subject of Transcendentalist literature was the assertion that authentic spiritual knowledge comes from within.

4. The Oversoul: A Major Subject of Transcendentalist Literature Was the Unity of All Being

Central to Transcendentalist thought is the concept of the Oversoul, a universal divine spirit connecting all beings. This concept is explored extensively in Emerson's writings, emphasizing the interconnectedness of humanity, nature, and the divine. The Oversoul transcends individual consciousness, yet it resides within each person, providing a sense of unity and shared experience. A major subject of Transcendentalist literature was the exploration of this unifying principle, its implications for social justice, and its potential for fostering a more compassionate and harmonious world. The belief in the Oversoul served as a foundation for their activism and their call for social reform.

5. Social Reform and the Potential for Human Goodness: A Major Subject of Transcendentalist Literature Was the Pursuit of a Better Society

While deeply concerned with individual spiritual development, Transcendentalists recognized the profound connection between individual and societal well-being. A major subject of Transcendentalist literature was the belief in the inherent capacity for human goodness and its potential to transform society. Their commitment to social reform found expression in their advocacy for abolitionism, women's rights, and educational reform. Their writings served as powerful tools for social change, inspiring readers to question prevailing social norms and strive for a more just and

equitable society. The belief in the inherent goodness of humanity provided the impetus for their activism and their faith in the potential for societal transformation.

6. Literary Techniques and Style: A Major Subject of Transcendentalist Literature Was Expressed Through Unique Methods

Transcendentalist writers employed unique literary techniques to convey their philosophical ideas. Emerson's essays are characterized by their aphoristic style, concise and insightful pronouncements that stimulate reflection. Thoreau's journals and *Walden* feature meticulous natural descriptions infused with philosophical and spiritual insights. The use of symbolism, metaphor, and evocative imagery is prevalent in their works, enhancing the emotional and spiritual impact of their messages. A major subject of Transcendentalist literature was conveyed through a literary style that mirrored their philosophical emphasis on intuition and experience.

7. The Legacy of Transcendentalism: A Major Subject of Transcendentalist Literature Was a Lasting Influence

A major subject of Transcendentalist literature was its lasting impact on American culture and beyond. The emphasis on individual expression, the importance of nature, and the belief in the inherent goodness of humanity continue to resonate with readers today. Transcendentalist ideas have influenced various movements, from environmentalism to civil rights activism, demonstrating the enduring relevance of their philosophical insights. Their writings continue to inspire readers to seek deeper meaning, connect with nature, and strive for a more just and compassionate world.

Conclusion:

A major subject of Transcendentalist literature was the exploration of humanity's inherent goodness and its connection to the divine. Through their writings, Emerson, Thoreau, and other Transcendentalists articulated a profound vision of an interconnected universe, emphasizing the importance of intuition, experience, and social responsibility. Their legacy continues to inspire readers to embrace their own spiritual potential and work towards creating a more just and harmonious world. The enduring power of their message lies in its emphasis on the inherent worth of every individual and the potential for human goodness to transform both the individual and society.

FAQs:

1. What is the central theme of Transcendentalist literature? A major subject of Transcendentalist literature was the inherent goodness of humanity and the interconnectedness of all things through the Oversoul.

1. How did Transcendentalists view nature? They viewed nature as a manifestation of the divine, a source of spiritual insight and renewal.
1. What role did intuition play in Transcendentalist thought? Intuition and personal experience were considered superior to reason and dogma in the pursuit of truth.
1. What is the Oversoul? The Oversoul is a universal divine spirit connecting all beings, a central concept in Transcendentalist philosophy.
1. How did Transcendentalism influence social reform? The belief in inherent human goodness fueled their activism in abolitionism, women's rights, and other reform movements.
1. What are some key literary techniques used by Transcendentalist writers? They utilized symbolism, metaphor, aphorisms, and evocative imagery to convey their ideas.
1. Who are the major figures of the Transcendentalist movement? Ralph Waldo Emerson and Henry David Thoreau are considered the most prominent figures.
1. What is the lasting impact of Transcendentalism? Its emphasis on individual expression, nature's importance, and human goodness continues to resonate and influence various movements.
1. How does Transcendentalism relate to contemporary environmentalism? The Transcendentalist reverence for nature directly foreshadows and informs modern environmentalist thought.

a major subject of transcendentalist literature was: *The Transcendentalists and Their World* Robert A. Gross, 2021-11-09 One of The Wall Street Journal's 10 best books of 2021 One of Air Mail's 10 best books of 2021 Winner of the Peter J. Gomes Memorial Book Prize In the year of the nation's bicentennial, Robert A. Gross published *The Minutemen and Their World*, a paradigm-shaping study of Concord, Massachusetts, during the American Revolution. It won the prestigious Bancroft Prize and became a perennial bestseller. Forty years later, in this highly anticipated work, Gross returns to Concord and explores the meaning of an equally crucial moment in the American story: the rise of Transcendentalism. *The Transcendentalists and Their World* offers a fresh view of the thinkers whose outsize impact on philosophy and literature would spread from tiny Concord to all corners of the earth. Ralph Waldo Emerson, Henry David Thoreau, Nathaniel Hawthorne, and the Alcotts called this New England town home, and Thoreau drew on its life extensively in his classic *Walden*. But Concord from the 1820s through the 1840s was no pastoral place fit for poets and philosophers. The Transcendentalists and their neighbors lived through a transformative epoch of American life. A place of two thousand-plus souls in the antebellum era, Concord was a community in ferment, whose small, ordered society founded by Puritans and defended by Minutemen was dramatically unsettled through the expansive forces of capitalism and democracy and tightly integrated into the wider world. These changes challenged a world of inherited institutions and involuntary associations with a new premium on autonomy and choice. They exposed people to cosmopolitan currents of thought and endowed them with unparalleled opportunities. They fostered uncertainties, raised new hopes, stirred dreams of perfection, and created an audience for new ideas of individual freedom and democratic equality deeply resonant today. *The Transcendentalists and Their World* is both an intimate journey into the life of a community and a searching cultural study of major American writers as they plumbed the depths of the universe for spiritual truths and surveyed the rapidly changing contours of their own neighborhoods. It shows us familiar figures in American literature alongside their neighbors at every level of the social order, and it reveals how this common life in Concord entered powerfully into their works. No American community of the nineteenth century has been recovered so richly and with so acute an awareness of its place in the larger American story.

a major subject of transcendentalist literature was: *Transcendentalism: Essential Essays of Emerson and Thoreau: Literary Touchstone Classic* , 2008

a major subject of transcendentalist literature was: *Walden* Henry David Thoreau, 1882

a major subject of transcendentalist literature was: *Literary Transcendentalism* Lawrence Buell, 2016-11-01 Broader in scope than any previous literary study of the transcendentalists, this rewarding book analyzes the theories and forms characteristic of a vital group of American writers, as well as the principles and vision underlying transcendentalism. All the movement's major literary figures and forms are considered in detail. Lawrence Buell combines intellectual history and critical explication, giving equal attention to general trends and to particular works and individuals. His chapters on conversation, religious discourse, catalog rhetoric, and literary travelogue treat intensively topics that have been relatively neglected. His analyses of Ellery Channing's poetry and the use of persona in Emerson and Very are also innovative. In the final section, he offers the first systematic account of the autobiographical tradition in transcendentalist writing. This incisive and sympathetic overview of transcendentalist writing and thought will attract readers interested in American culture, and it will suggest new critical approaches to nonfiction.

a major subject of transcendentalist literature was: Reader's Guide to Literature in English Mark Hawkins-Dady, 2012-12-06 Reader's Guide Literature in English provides expert guidance to, and critical analysis of, the vast number of books available within the subject of English literature, from Anglo-Saxon times to the current American, British and Commonwealth scene. It is designed to help students, teachers and librarians choose the most appropriate books for research and study.

a major subject of transcendentalist literature was: American Transcendentalism and Asian Religions Arthur Versluis, 1993 Arthur Versluis offers a comprehensive study of the relationship between the American Transcendentalists and Asian religions. He argues that an influx of new information about these religions shook nineteenth-century American religious consciousness to the core. With the publication of ever more material on Buddhism, Hinduism, and Taoism, the Judeo-Christian tradition was inevitably placed as just one among a number of religious traditions. Fundamentalists and conservatives denounced this influx as a threat, but the Transcendentalists embraced it, poring over the sacred books of Asia to extract ethical injunctions, admonitions to self-transcendence, myths taken to support Christian doctrines, and manifestations of a supposed coming universal religion.

a major subject of transcendentalist literature was: Walden Henry David Thoreau, 1980 On the Duty of Civil Disobedience: This is Thoreau's classic protest against government's interference with individual liberty. One of the most famous essays ever written, it came to the attention of Gandhi and formed the basis for his passive resistance movement.

a major subject of transcendentalist literature was: CliffsNotes on Thoreau, Emerson, and Transcendentalism Leslie P Wilson, 2007-08-20 The original CliffsNotes study guides offer expert commentary on major themes, plots, characters, literary devices, and historical background. The latest generation of titles in this series also feature glossaries and visual elements that complement the classic, familiar format. CliffsNotes on Thoreau, Emerson, and Transcendentalism explores in depth, but also in easy-to-understand terms, transcendentalism—the religious, political, and literary movement that captured the minds of such literary figures as Henry David Thoreau and Ralph Waldo Emerson in the first half of the 19th century. This guide helps you to understand the various tenets of transcendentalism, as well as how Thoreau and Emerson became the two most well-known figures associated with the movement and how the transcendentalist philosophy is reflected in their work. In addition to introducing you to the basics of understanding transcendentalism, this guide also gives you the following: Examinations of the lives of Thoreau and Emerson Detailed summaries of and commentaries on many of their transcendentalist writings, such as Emerson's *Nature* and Thoreau's *Walden* Critical essays on Emerson and Thoreau's reputation and influence A review section that tests your knowledge A Resource Center full of books, articles, and Internet sites Classic literature or modern-day treasure—you'll understand it all with expert information and insight from CliffsNotes study guides.

a major subject of transcendentalist literature was: The Oxford Handbook of Transcendentalism Joel Myerson, Sandra Harbert Petrulionis, Laura Dassow Walls, 2010-04-16 The Oxford Handbook of Transcendentalism offers an eclectic, comprehensive interdisciplinary approach to the immense cultural impact of the movement that encompassed literature, art, architecture, science, and politics.

a major subject of transcendentalist literature was: *Walden's Shore* Robert M. Thorson, 2014-01-06 *Walden's Shore* explores Thoreau's understanding of the living rock on which life's complexity depends--not as metaphor but as physical science. Robert Thorson's subject is Thoreau the rock and mineral collector, interpreter of landscapes, and field scientist whose compass and measuring stick were as important to him as his plant press.

a major subject of transcendentalist literature was: *A Week on the Concord and Merrimack Rivers* Henry David Thoreau, 1883

a major subject of transcendentalist literature was: *The American Transcendentalists* Lawrence Buell, 2006-01-10 Publisher Description

a major subject of transcendentalist literature was: *The American Transcendentalists* Ralph Waldo Emerson, Henry David Thoreau, Margaret Fuller, Nathaniel Hawthorne, 2006-01-10 Transcendentalism was the first major intellectual movement in U.S. history, championing the inherent divinity of each individual, as well as the value of collective social action. In the mid-nineteenth century, the movement took off, changing how Americans thought about religion, literature, the natural world, class distinctions, the role of women, and the existence of slavery. Edited by the eminent scholar Lawrence Buell, this comprehensive anthology contains the essential writings of Ralph Waldo Emerson, Henry David Thoreau, Margaret Fuller, and their fellow visionaries. There are also reflections on the movement by Charles Dickens, Henry James, Walt Whitman, Louisa May Alcott, and Nathaniel Hawthorne. This remarkable volume introduces the radical innovations of a brilliant group of thinkers whose impact on religious thought, social reform, philosophy, and literature continues to reverberate in the twenty-first century.

a major subject of transcendentalist literature was: Woman in the Nineteenth Century Margaret Fuller, 1845

a major subject of transcendentalist literature was: *The Maine Woods* Henry David Thoreau, 1884

a major subject of transcendentalist literature was: Emerson & Thoreau John T. Lysaker, William John Rossi, 2010 This lively volume explores the theme of friendship in the lives and works of Ralph Waldo Emerson and Henry David Thoreau. Written from diverse perspectives, the essays offer close readings of selected texts and draw on letters and journals to offer a comprehensive view of how Emerson's and Thoreau's friendships took root and bolstered their individual political, social, and ethical projects. This collection explores how Emerson and Thoreau, in their own ways, conceived of friendship as the creation of shared meaning in light of personal differences, tragedy and loss, and changing life circumstances. Emerson and Thoreau presents important reflections on the role of friendship in the lives of individuals and in global culture.

a major subject of transcendentalist literature was: Critical Essays on American Transcendentalism Philip F. Gura, Joel Myerson, 1982

a major subject of transcendentalist literature was: *The Dream of the Great American Novel* Lawrence Buell, 2014-02-10 The idea of the great American novel continues to thrive almost as vigorously as in its nineteenth-century heyday, defying 150 years of attempts to dismiss it as amateurish or obsolete. In this landmark book, the first in many years to take in the whole sweep of national fiction, Lawrence Buell reanimates this supposedly antiquated idea, demonstrating that its history is a key to the dynamics of national literature and national identity itself. The dream of the G.A.N., as Henry James nicknamed it, crystallized soon after the Civil War. In fresh, in-depth

readings of selected contenders from the 1850s onward in conversation with hundreds of other novels, Buell delineates four scripts for G.A.N. candidates. One, illustrated by *The Scarlet Letter*, is the adaptation of the novel's story-line by later writers, often in ways that are contrary to the original author's own design. Other aspirants, including *The Great Gatsby* and *Invisible Man*, engage the American Dream of remarkable transformation from humble origins. A third script, seen in *Uncle Tom's Cabin* and *Beloved*, is the family saga that grapples with racial and other social divisions. Finally, mega-novels from *Moby-Dick* to *Gravity's Rainbow* feature assemblages of characters who dramatize in microcosm the promise and pitfalls of democracy. The canvas of the great American novel is in constant motion, reflecting revolutions in fictional fashion, the changing face of authorship, and the inseparability of high culture from popular. As Buell reveals, the elusive G.A.N. showcases the myth of the United States as a nation perpetually under construction.

a major subject of transcendentalist literature was: Emerson on Transcendentalism Ralph Waldo Emerson, 1986-09 The full texts of four seminal works by Emerson are presented in this volume: 'Nature,' 'The American Scholar,' 'The Divinity School Address,' and 'The Transcendentalist.' Edward Ericson assesses that impact in his helpful introduction and evaluates anew Emerson's continuing influence on American culture in our century.

a major subject of transcendentalist literature was: Frederic Henry Hedge Bryan F. LeBeau, 1985-01-01 Pittsburgh Theological Monograph - New Series General Editor - Dikran Y. Hadidian

a major subject of transcendentalist literature was: Unfolding Consciousness Edi Bilimoria, 2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans, author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth. Presented in three volumes, plus volume IV contains references, resources & further reading, they reveal the unity of the Eastern and Western branches of our perineal wisdom. Bilimoria shows how science seeks truth using a synthesis of both traditions. Evidence from a wide range of sources— scientific, medical, philosophical, religious, and cultural— is put forward to argue the case that humans are spiritual beings, primarily, and not merely complicated biological machines. Bilimoria teaches that consciousness is not the product of matter but the primary & 'element' from which all else emanates. This process and its underlying mechanisms are described in detail with much clarity. This work has over 2000 references and is supported by copious tables and diagrams, plus individual chapter summaries and sidenotes to assist readers in navigating the multidimensional terrain traversed. Key areas - The scientific and esoteric worldviews compared and contrasted - The ultimate promise of science - The & 'soft' and & 'hard' problems of consciousness: How external input to the physical senses results in an internal, subjective experience - Quantum physics: its contribution to a new scientific paradigm - The Mystery Teachings of All Ages: their worldwide unity and central message - & 'Wet computers' and computers: Is the brain no different, in principle, from a computer? - Death and after: the transition and continuity of consciousness in other realms - Paranormal phenomena and apparitions - Subtle bodies - Evolution and destiny - Powers latent in human beings - Divinity and the united message of all world religions - The question of immortality - The primacy of consciousness and the manner of its unfoldment from the unmanifest realms to the physical world Edi Bilimoria's guest appearance on the Shepheard-Walwyn podcast series can be found on this link.

a major subject of transcendentalist literature was: Hawthorne and Melville Jana L. Argersinger, Leland S. Person, 2008 Herman Melville and Nathaniel Hawthorne met in 1850 and enjoyed for sixteen months an intense but brief friendship. Taking advantage of new interpretive tools such as queer theory, globalist studies, political and social ideology, marketplace analysis, psychoanalytical and philosophical applications to literature, masculinist theory, and critical studies of race, the twelve essays in this book focus on a number of provocative personal, professional, and literary ambiguities existing between the two writers. Jana L. Argersinger and Leland S. Person

introduce the volume with a lively summary of the known biographical facts of the two writers' relationship and an overview of the relevant scholarship to date. Some of the essays that follow broach the possibility of sexual dimensions to the relationship, a question that "looms like a grand hooded phantom" over the field of Melville-Hawthorne studies. Questions of influence--Hawthorne's on Moby-Dick and Pierre and Melville's on *The Blithedale Romance*, to mention only the most obvious instances--are also discussed. Other topics covered include professional competitiveness; Melville's search for a father figure; masculine ambivalence in the marketplace; and political-literary aspects of nationalism, transcendentalism, race, and other defining issues of Hawthorne and Melville's times. Roughly half of the essays focus on biographical issues; the others take literary perspectives. The essays are informed by a variety of critical approaches, as well as by new historical insights and new understandings of the possibilities that existed for male friendships in nineteenth-century American culture.

a major subject of transcendentalist literature was: *Where I Lived, and What I Lived For* Henry Thoreau, 2005-08-25 Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. Thoreau's account of his solitary and self-sufficient home in the New England woods remains an inspiration to the environmental movement - a call to his fellow men to abandon their striving, materialistic existences of 'quiet desperation' for a simple life within their means, finding spiritual truth through awareness of the sheer beauty of their surroundings.

a major subject of transcendentalist literature was: *Lynching in American Literature and Journalism* Yoshinobu Hakutani, 2024-04-08 Lynching in American Literature and Journalism consists of twelve essays investigating the history and development of writing about lynching as an American tragedy and the ugliest element of national character. According to the Tuskegee Institute, 4,743 people were lynched between 1882 and 1968 in the United States, including 3,446 African Americans and 1,297 European Americans. More than 73 percent of the lynchings in the Civil War period occurred in the Southern states. The Lynchings increased dramatically in the aftermath of the Reconstruction, after slavery had been abolished and free men gained the right to vote. The peak of lynching occurred in 1882, after Southern white Democrats had regained control of the state legislators. This book is a collection of historical and critical discussions of lynching in America that reflects the shameful, unmoral policies, and explores the topic of lynching within American history, literature, and journalism.

a major subject of transcendentalist literature was: The Crossroads of American History and Literature Philip F. Gura, 2004-06-11 The Crossroads of American History and Literature collects two decades' worth of the best-known essays of Philip F. Gura. Beginning with a definitive overview of studies of colonial literature, Gura ranges through such subjects in colonial American history as the intellectual life of the Connecticut River Valley, Cotton Mather's understanding of political leadership, and the religious upheavals of the Great Awakening. In the nineteenth century, he visits such varied topics as the history of print culture in rural communities, the philological interests of the Transcendentalist Elizabeth Peabody, the craft and business of the early American music trades, and Thoreau's interest in exploration literature and in the Native American. Displaying remarkable sophistication in a variety of fields that, taken together, constitute the heart of American Studies, this collection illustrates the complexity of American cultural history.

a major subject of transcendentalist literature was: *Henry David Thoreau* Laura Dassow Walls, 2017-07-07 [The author] traces the full arc of Thoreau's life, from his early days in the intellectual hothouse of Concord, when the American experiment still felt fresh and precarious, and 'America was a family affair, earned by one generation and about to pass to the next.' By the time he died in 1862, at only forty-four years of age, Thoreau had witnessed the transformation of his world from a community of farmers and artisans into a bustling, interconnected commercial nation. What did that portend for the contemplative individual and abundant, wild nature that Thoreau celebrated? Drawing on Thoreau's copious writings, published and unpublished, [the author] presents a Thoreau vigorously alive in all his quirks and contradictions: the young man shattered by the sudden death of his brother; the ambitious Harvard College student; the ecstatic visionary who closed Walden with an account of the regenerative power of the Cosmos. We meet the man whose belief in human freedom and the value of labor made him an uncompromising abolitionist; the solitary walker who found society in nature, but also found his own nature in the society of which he was a deeply interwoven part. And, running through it all, Thoreau the passionate naturalist, who, long before the age of environmentalism, saw tragedy for future generations in the human heedlessness around him.--

a major subject of transcendentalist literature was: *Observations on the Principles and Methods of Infant Instruction* Amos Bronson Alcott, 1830

a major subject of transcendentalist literature was: *Professing Literature* Gerald Graff, 2008-11-15 Widely considered the standard history of the profession of literary studies, *Professing Literature* unearths the long-forgotten ideas and debates that created the literature department as we know it today. In a readable and often-amusing narrative, Gerald Graff shows that the heated conflicts of our recent culture wars echo—and often recycle—controversies over how literature should be taught that began more than a century ago. Updated with a new preface by the author that addresses many of the provocative arguments raised by its initial publication, *Professing Literature* remains an essential history of literary pedagogy and a critical classic. "Graff's history. . . is a pathbreaking investigation showing how our institutions shape literary thought and proposing how they might be changed."— *The Norton Anthology of Theory and Criticism*
