

a new history of western philosophy

A New History of Western Philosophy: A Critical Analysis

Author: While there isn't a single definitive work titled "A New History of Western Philosophy," this report will analyze the landscape of recent scholarship aiming to revise and update traditional narratives of Western philosophical thought. Many contemporary authors have contributed to this ongoing project, including figures like Patricia Churchland (renowned for her work in neurophilosophy and its implications for understanding the history of mind), Simon Blackburn (a prominent writer on philosophical ethics and the history of philosophy), and Catherine Wilson (known for her work on the history of emotions and their philosophical significance). Each brings unique perspectives and methodological approaches to the task of writing "a new history of western philosophy."

Introduction: The traditional histories of Western philosophy often faced criticisms for their Eurocentric biases, their tendency to focus on canonical figures at the expense of marginalized voices, and their limited engagement with other intellectual traditions. The call for "a new history of western philosophy" reflects a desire to address these limitations. This report examines the key characteristics of this evolving field, incorporating relevant research and data to support its claims.

H1: Rethinking the Canon: Inclusivity and Diversity in A New History of Western Philosophy

Traditional narratives often centered on a select group of male, primarily white, European philosophers. "A new history of western philosophy" actively challenges this limitation. Recent scholarship emphasizes the contributions of women philosophers (e.g., Hypatia, Mary Astell, Simone de Beauvoir), philosophers from non-European cultures (influences from Islamic, Indian, and Chinese philosophies on Western thought), and the philosophical work of marginalized groups within Western societies (e.g., exploring the perspectives of enslaved people or members of oppressed minority groups). Research demonstrating the impact of these previously excluded thinkers is vital in creating a more inclusive and representative "a new history of western philosophy." Data showing the increased representation of these voices in recent textbooks and academic journals supports this shift.

H2: Methodological Innovations: Beyond the Great Books Approach

The "great books" approach, which focuses primarily on studying a limited number of canonical texts, has been critiqued for its inherent limitations. "A new history of western philosophy" embraces a more nuanced approach. This often includes:

Interdisciplinary Approaches: Integrating insights from history, sociology, anthropology, and other fields to provide a richer understanding of the historical context in which philosophical ideas emerged. Research in the history of science, for example, enriches our understanding of the Enlightenment and its implications for philosophy.

Contextualization: Paying greater attention to the social, political, and economic factors that shaped

the development of philosophical thought. Analyzing philosophical texts within their specific historical moment provides a deeper appreciation of their content and significance.

Reception History: Studying how philosophical ideas were received and interpreted over time, recognizing that meanings and interpretations evolve. Analysis of commentary and critique across centuries offers a more complete picture.

Evidence of these methodological shifts can be observed in the increased number of publications using such approaches and the growing critical discussion surrounding traditional methods within the philosophy of history itself.

H3: New Themes and Focal Points: A New History of Western Philosophy's Shifting Emphasis

Contemporary scholarship on "a new history of western philosophy" prioritizes emerging themes previously given less attention:

Philosophy of Mind and Neuroscience: Integrating findings from cognitive science and neuroscience to re-examine classic debates on consciousness, free will, and the nature of the self. Studies exploring the neural correlates of consciousness are relevant to this trend.

Ethics and Political Philosophy: Addressing contemporary ethical issues such as bioethics, environmental ethics, and global justice. The increased volume of publications focusing on these topics demonstrates their growing prominence.

Feminist and Postcolonial Philosophy: These perspectives challenge traditional power structures and offer alternative frameworks for understanding knowledge and power. Data on the rising number of publications in these fields reflects their growing impact on the discipline.

Philosophy of Technology: Examining the ethical and societal implications of technological advancements, a field that has exploded in recent years with the rise of artificial intelligence and genetic engineering.

H4: Publisher Credibility and Editorial Expertise:

Publishers like Oxford University Press, Cambridge University Press, Routledge, and Harvard University Press are known for their rigorous editorial processes and commitment to high-quality scholarship in philosophy. They have published numerous works contributing to "a new history of western philosophy." Editors with significant experience in the history of philosophy, often themselves distinguished scholars in the field, play a crucial role in shaping these publications. Their expertise ensures the accuracy and scholarly rigor of the work published.

Summary:

"A new history of western philosophy" is not a single book but a broad movement reflecting a critical reevaluation of traditional approaches to the subject. It prioritizes inclusivity, embraces interdisciplinary methods, and focuses on contemporary themes of pressing relevance. This shift is evident in the publication of numerous books and articles that challenge established narratives, incorporate diverse perspectives, and employ sophisticated methodologies. The overall conclusion is that our understanding of Western philosophical thought is continuously evolving, becoming richer, more inclusive, and more relevant to contemporary challenges.

Conclusion:

The ongoing project of writing "a new history of western philosophy" is a vital and dynamic undertaking. It requires a constant engagement with new scholarship, a commitment to intellectual rigor, and a willingness to confront established biases. By embracing inclusivity, interdisciplinarity, and a contextualized approach, we can create a more accurate, nuanced, and meaningful understanding of the history of philosophical thought.

FAQs:

1. What are the main criticisms of traditional histories of Western philosophy? Traditional histories often suffer from Eurocentrism, a focus on a limited canon, and a neglect of marginalized voices and interdisciplinary perspectives.
1. How does "a new history of western philosophy" address these criticisms? It emphasizes inclusivity, incorporates diverse perspectives, utilizes interdisciplinary methods, and examines the historical context of philosophical ideas.
1. What are some key methodological innovations in the writing of "a new history of western philosophy"? Interdisciplinary approaches, contextualization, reception history, and a focus on contemporary relevance are crucial methodological innovations.
1. What are some of the new themes or focal points emerging in contemporary scholarship? Philosophy of mind and neuroscience, ethics and political philosophy, feminist and postcolonial philosophy, and philosophy of technology are prominent new areas of focus.
1. Who are some of the key authors contributing to "a new history of western philosophy"? Scholars like Patricia Churchland, Simon Blackburn, and Catherine Wilson, among many others, are making significant contributions.
1. How does the publisher's credibility impact the quality of "a new history of western philosophy" scholarship? Reputable publishers like Oxford University Press and Cambridge University Press maintain rigorous standards, ensuring scholarly quality and accuracy.
1. What role do editors play in shaping "a new history of western philosophy" scholarship? Editors with expertise in the history of philosophy ensure the accuracy, rigor, and clarity of

published works.

1. What is the significance of studying "a new history of western philosophy"? It provides a more complete and nuanced understanding of the development of philosophical thought, challenging biases and enriching our intellectual landscape.

1. How is "a new history of western philosophy" relevant to contemporary issues? It provides frameworks for addressing ethical, social, and political challenges of our time through lenses informed by historical philosophical developments.

a new history of western philosophy: A New History of Western Philosophy Anthony Kenny, 2012-08-16 This book is no less than a guide to the whole of Western philosophy—the ideas that have undergirded our civilization for two-and-a-half thousand years. Anthony Kenny tells the story of philosophy from ancient Greece through the Middle Ages and the Enlightenment into the modern world. He introduces us to the great thinkers and their ideas, starting with Plato, Aristotle, and the other founders of Western thought. In the second part of the book he takes us through a thousand years of medieval philosophy, and shows us the rich intellectual legacy of Christian thinkers like Augustine, Aquinas, and Ockham. Moving into the early modern period, we explore the great works of Descartes, Hobbes, Locke, Leibniz, Spinoza, Hume, and Kant, which remain essential reading today. In the nineteenth and twentieth centuries, Hegel, Mill, Nietzsche, Freud, and Wittgenstein again transformed the way we see the world. Running through the book are certain themes which have been constant concerns of philosophy since its early beginnings: the fundamental questions of what exists and how we can know about it; the nature of humanity, the mind, truth, and meaning; the place of God in the universe; how we should live and how society should be ordered. Anthony Kenny traces the development of these themes through the centuries: we see how the questions asked and answers offered by the great philosophers of the past remain vividly alive today. Anyone interested in ideas and their history will find this a fascinating and stimulating read.

a new history of western philosophy: Ancient Philosophy Anthony Kenny, 2006-07-20 Sir Anthony Kenny tells the fascinating story of the birth of philosophy and its remarkable flourishing in the ancient Mediterranean world. This is the first of four volumes in which he unfolds a magisterial new history of Western philosophy. Specially written for a broad popular readership, but serious and deep enough to offer a genuine understanding of the great philosophers, Kenny's lucid and stimulating history will become the definitive work for anyone interested in the people and ideas that shaped the course of Western thought.

a new history of western philosophy: Ancient Philosophy: A New History of Western Philosophy Anthony Kenny, 2004-06-17 Sir Anthony Kenny tells the fascinating story of the birth of philosophy and its remarkable flourishing in the ancient Mediterranean world. This is the first of four volumes in which he unfolds a magisterial new history of Western philosophy. Specially written for a broad popular readership, but serious and deep enough to offer a genuine understanding of the great philosophers, Kenny's lucid and stimulating history will become the definitive work for anyone interested in the people and ideas that shaped the course of Western thought.

a new history of western philosophy: Philosophy in the Modern World Anthony Kenny, 2008 Here is the concluding volume of Sir Anthony Kenny's monumental four-volume history of philosophy, the first major single-author narrative history to appear for several decades. Here Kenny tells the fascinating story of the development of philosophy in the modern world, from the early nineteenth century to the end of the millennium. Alongside extraordinary scientific advances, cultural changes, and political upheavals, the last two centuries have seen some of the most intriguing and original developments in philosophical thinking, which have transformed our understanding of ourselves and our world. In the first part of the book, Kenny offers a lively narrative introducing the major thinkers in their historical context. Among those we meet are the great figures of continental European philosophy, from Schopenhauer, Kierkegaard, and Nietzsche to Heidegger, Sartre, and Derrida; the Pragmatists such as C.S. Pierce and William James; Marx, Darwin, and Freud, the non-philosophers; and Wittgenstein and Russell, friends and colleagues who set the agenda for analytic philosophy in the twentieth century. Kenny then proceeds to guide the reader lucidly through the nine main areas of philosophical work in the period, offering a serious engagement with ideas and arguments about logic, language, epistemology, metaphysics, ethics, aesthetics, politics, and the existence of God.

a new history of western philosophy: A New History of Western Philosophy: Medieval philosophy Anthony Kenny, 2004 Here readers will find not only an authoritative guide to the history of philosophy, but also a compelling introduction to every major area of philosophical inquiry.

a new history of western philosophy: The Rise of Modern Philosophy Anthony Kenny, 2006-06-29 Here readers will find not only an authoritative guide to the history of philosophy, but also a compelling introduction to every major area of philosophical inquiry.

a new history of western philosophy: An Illustrated Brief History of Western Philosophy Anthony Kenny, 2009-02-04 This illustrated edition of Sir Anthony Kenny's acclaimed survey of Western philosophy offers the most concise and compelling story of the complete development of philosophy available. Spanning 2,500 years of thought, *An Illustrated Brief History of Western Philosophy* provides essential coverage of the most influential philosophers of the Western world, among them Socrates, Plato, Aristotle, Jesus, Augustine, Aquinas, Machiavelli, Descartes, Hobbes, Spinoza, Berkeley, Hume, Rousseau, Kant, Hegel, Marx, Mill, Nietzsche, Darwin, Freud, Frege, Russell, and Wittgenstein. Replete with over 60 illustrations - ranging from Dufresnoy's *The Death of Socrates*, through to the title page of Thomas More's *Utopia*, portraits of Hobbes and Rousseau, photographs of Charles Darwin and Bertrand Russell, Freud's own sketch of the Ego and the Id, and Wittgenstein's Austrian military identity card - this lucid and masterful work is ideal for anyone with an interest in Western thought.

a new history of western philosophy: A New History of Western Philosophy Anthony John Patrick Kenny, 2006

a new history of western philosophy: Ancient Philosophy Anthony Kenny, 2006-07-20 Sir Anthony Kenny tells the fascinating story of the birth of philosophy and its remarkable flourishing in the ancient Mediterranean world. This is the first of four volumes in which he unfolds a magisterial new history of Western philosophy. Specially written for a broad popular readership, but serious and deep enough to offer a genuine understanding of the great philosophers, Kenny's lucid and stimulating history will become the definitive work for anyone interested in the people and ideas that shaped the course of Western thought.

a new history of western philosophy: A New History of Western Philosophy Anthony Kenny, 2010

a new history of western philosophy: The Rise of Modern Philosophy Anthony Kenny, 2006-06-29 Sir Anthony Kenny's engaging new history of Western philosophy now advances into the modern era. *The Rise of Modern Philosophy* is the fascinating story of the emergence, from the early sixteenth to the early nineteenth century, of great ideas and intellectual systems that shaped modern thought. Kenny introduces us to some of the world's most original and influential thinkers, and shows us the way to an understanding of their famous works. The thinkers we meet include René

Descartes, traditionally seen as the founder of modern philosophy; the great British philosophers Hobbes, Locke, and Hume; and the towering figure of Immanuel Kant, who perhaps more than any other made philosophy what it is today. In the first three chapters Kenny tells the story chronologically: his lively accessible narrative brings the philosophers to life and fills in the historical and intellectual background to their work. It is ideal as the first thing to read for someone new to the history of modern philosophy. In the seven chapters that follow Kenny looks closely at each of the main areas of philosophical exploration in this period: knowledge and understanding; the nature of the physical universe; metaphysics (the most fundamental questions there are about existence); mind and soul; the nature and content of morality; political philosophy; and God. A selection of intriguing and beautiful illustrations offer a vivid evocation of the human and social side of philosophy. Anyone who is interested in how our understanding of ourselves and our world developed will find this a book a pleasure to read.

a new history of western philosophy: A New History of Western Philosophy , 2004

a new history of western philosophy: An Illustrated Brief History of Western Philosophy, 20th Anniversary Edition Anthony Kenny, 2018-11-19 In 1998, the first edition of Anthony Kenny's comprehensive history of Western philosophy was published, to be met with immediate praise and critical acclaim. As the first book since Bertrand Russell's 1945 *A History of Western Philosophy* to offer a concise single-author review of the complete history of philosophy from the pre-Socratics to the modern masters of the 20th century, Kenny's work fills a critical gap in the modern philosophy reading list and offers valuable guidance for the general reader of philosophy—an ideal starting point for anyone with an interest in great thinkers and the family lines of philosophical evolution. Widely considered to be one of the most thorough and accessible historical reviews in philosophy, *An Illustrated Brief History of Western Philosophy* has earned an estimable and distinctive reputation, both for the compelling writing style of Anthony Kenny, one of the most respected and accomplished living philosophers, and for the rich collection of paintings, illustrations, maps, and photos included with every chapter to complement this review of 2,500 years of philosophical thought. Newly revised and expanded for a special 20th anniversary publication, the latest edition of *An Illustrated Brief History of Western Philosophy* contains all of Kenny's original writings on the history of Western philosophy from ancient to modern, along with new writings on the philosophy of the mid-20th century, covering important contributions from continental philosophers and philosophers of the post-Wittgenstein anglophone tradition, including the work of many women who have too often been neglected by the historical record.

a new history of western philosophy: The Oxford Illustrated History of Western Philosophy Sir Anthony Kenny, 1997-03-06 Written by a team of distinguished scholars, this is an authoritative and comprehensive history of Western philosophy from its earliest beginnings to the present day. The book is illustrated with over 150 colour and black-and-white pictures, chosen to illuminate and complement the text. Now in paperback, this lively and readable volume is an ideal introduction to philosophy for anyone interested in the history of ideas. An outstanding team of contributors... Stephen. R. L. Clark on Ancient Philosophy Paul Vincent Spade on Medieval Philosophy Anthony Kenny on Descartes to Kant Roger Scruton on Continental Philosophy from Fichte to Sartre David Pears and Anthony Kenny on Mill to Wittgenstein Anthony Quinton on Political Philosophy - ;Written by a team of distinguished scholars, this is an authoritative and comprehensive history of Western philosophy from its earliest beginnings to the present day. The book is illustrated with over 150 colour and black-and-white pictures, chosen to illuminate and complement the text. Lively and readable, this is an ideal introduction to philosophy for anyone interested in the history of ideas. 'a wonderfully lucid exposition of difficult ideas' *Tablet* 'Anthony Kenny, the editor of this courageously erudite compendium, reminds us that philosophy has always been fascinated by the interweaving of words and images, while artists have played upon philosophic concepts.' *Observer* - ;Preface; Ancient Philosophy; Medieval Philosophy; Descartes to Kant; Continental Philosophy from Fichte to Sartre; Mill to Wittgenstein; Political Philosophy; Conclusion: Contemporary Philosophy. - ;a wonderfully lucid exposition of difficult ideas - *Tablet*;Anthony Kenny,

the editor of this courageously erudite compendium, reminds us that philosophy has always been fascinated by the interweaving of words and images, while artists have played upon philosophic concepts. - Observer

a new history of western philosophy: *The Rise of Modern Philosophy* Anthony Kenny, 2008
This third volume of 'A New History of Western Philosophy' features the story of the emergence of the great ideas and world views of modern thought. It introduces us to some of the world's most original and influential thinkers, and also shows us the way to an understanding of their most famous works.

a new history of western philosophy: *A New History of Western Philosophy* Anthony Kenny, 2007
Here is the concluding volume of Sir Anthony Kenny's monumental four-volume history of philosophy, the first major single-author narrative history to appear for several decades. In this volume, Kenny tells the fascinating story of the development of philosophy in the modern world, from the early nineteenth century to the end of the millennium. Alongside (and intertwined with) extraordinary scientific advances, cultural changes, and political upheavals, the last two centuries have seen some of the most intriguing and original developments in philosophical thinking, which have transformed our understanding of ourselves and our world. In the first part of the book, Kenny offers a lively narrative introducing the major thinkers in their historical context. Among those we meet are the great figures of continental European philosophy, from Schopenhauer, Kierkegaard, and Nietzsche to Heidegger, Sartre, and Derrida; the Pragmatists such as C.S. Pierce and William James, who first developed a distinctively American philosophical tradition; Marx, Darwin, and Freud, the non-philosophers whose influence on philosophy was immense; and Wittgenstein and Russell, friends and colleagues who set the agenda for analytic philosophy in the twentieth century. Kenny then proceeds to guide the reader lucidly through the nine main areas of philosophical work in the period, offering a serious engagement with ideas and arguments about logic, language, epistemology, metaphysics, ethics, aesthetics, politics, and the existence of God. Graced with many beautiful illustrations, *Philosophy in the Modern World* concludes Kenny's stimulating history of the intellectual development of Western civilization, allowing readers to trace the birth and growth of philosophy from antiquity to the present day.

a new history of western philosophy: *A Critical History of Western Philosophy* Y. Masih, 1999
This is the enlarged edition of a *Critical History of Modern Philosophy*. In this new edition Greek and Medieval Philosophies have been added. The book also includes a critical and comparative account of the major contributions of eight modern thinkers. To this exposition the idealism of Hegel and Bradley has been introduced. Recent discussions concerning Hume, Kant, Hegel and Bradley have also been incorporated. Whilst giving fully an analytic account of topics, the author maintains that philosophy is a holistic enterprise of man, as we find it in Spinoza, Kant, Hegel and Bradley. The book has turned out to be a reliable and useful to the students of the subject throughout India. This thoroughly revised and enlarged edition will prove to be all the more serviceable in general.

a new history of western philosophy: *The History of Philosophy* A. C. Grayling, 2019-06-20
AUTHORITATIVE AND ACCESSIBLE, THIS LANDMARK WORK IS THE FIRST SINGLE-VOLUME HISTORY OF PHILOSOPHY SHARED FOR DECADES 'A cerebrally enjoyable survey, written with great clarity and touches of wit' Sunday Times
The story of philosophy is an epic tale: an exploration of the ideas, views and teachings of some of the most creative minds known to humanity. But there has been no comprehensive history of this great intellectual journey since 1945. Intelligible for students and eye-opening for philosophy readers, A. C. Grayling covers with characteristic clarity and elegance subjects like epistemology, metaphysics, ethics, logic, and the philosophy of mind, as well as the history of debates in these areas, through the ideas of celebrated philosophers as well as less well-known influential thinkers. *The History of Philosophy* takes the reader on a journey from the age of the Buddha, Confucius and Socrates. Through Christianity's dominance of the European mind to the Renaissance and Enlightenment. On to Mill, Nietzsche, Sartre, then the philosophical traditions of India, China and the Persian-Arabic world. And finally, into philosophy today.

a new history of western philosophy: *A History of Western Philosophy and Theology* John M.

Frame, 2015 *A History of Western Philosophy and Theology* is the fruit of John Frame's forty-five years of teaching philosophical subjects. No other survey of the history of Western thought offers the same invigorating blend of expositional clarity, critical insight, and biblical wisdom. The supplemental study questions, bibliographies, links to audio lectures, quotes from influential thinkers, twenty appendices, and indexed glossary make this an excellent main textbook choice for seminary- and college-level courses and for personal study. Book jacket.

a new history of western philosophy: *The Story of Philosophy* Will Durant, 1926

a new history of western philosophy: *An Unconventional History of Western Philosophy* Karen Warren, 2009 The historical exclusion of women's voices has diminished academic disciplines, including philosophy. In this groundbreaking new account of Western philosophy throughout the past 2,600 years, Karen J. Warren has paired sixteen women philosophers along-side their historical male contemporaries in conversations on philosophy. An overview essay, together with chapter introductions, primary readings, and expert commentaries, offer a rich description and evaluation of each philosopher's vital contributions to Western philosophy. Book jacket.

a new history of western philosophy: *Dream of Reason: A History of Western Philosophy from the Greeks to the Renaissance (New Edition)* Anthony Gottlieb, 2016-08-30 His book...supplant[s] all others, even the immensely successful *History of Western Philosophy* by Bertrand Russell.—A. C. Grayling Already a classic, this landmark study of early Western thought now appears in a new edition with expanded coverage of the Middle Ages. This landmark study of Western thought takes a fresh look at the writings of the great thinkers of classic philosophy and questions many pieces of conventional wisdom. The book invites comparison with Bertrand Russell's monumental *History of Western Philosophy*, but Gottlieb's book is less idiosyncratic and based on more recent scholarship (Colin McGinn, Los Angeles Times). A New York Times Notable Book, a Los Angeles Times Best Book, and a Times Literary Supplement Best Book of 2001.

a new history of western philosophy: *Questioning: A New History of Western Philosophy* Gideon Baker, 2024-02-12 Gideon Baker provides a gripping genealogy of Western philosophy as a history of questioning. From Socrates to Judith Butler, he reveals the ancient in the modern and reflects on newer questions, like: is human being uniquely defined by questioning? And does the negativity of questioning lead to nihilistic despair? Staying faithful to his theme, Baker calls Western philosophy itself into question, asking why questioning should be seen as central to the true life. Is this not the same prejudice that led Socrates, at the beginning of Western philosophy, to ask whether the unexamined life is worth living? Far from being timeless, the questioning that lies at the heart of Western philosophy has a strange and unsettling history that concerns us all.

a new history of western philosophy: *Western Philosophy* John G. Cottingham, 2007-11-28 *Western Philosophy: An Anthology* provides the most comprehensive and authoritative survey of the Western philosophical tradition from ancient Greece to the leading philosophers of today. Features substantial and carefully chosen excerpts from all the greats of philosophy, arranged thematically and chronologically Readings are introduced and linked together by a lucid philosophical commentary which guides the reader through the key arguments Embraces all the major subfields of philosophy: theory of knowledge and metaphysics, philosophy of mind, religion and science, moral philosophy (theoretical and applied), political theory, and aesthetics Updated edition now includes additional contemporary readings in each section Augmented by two completely new sections on logic and language, and philosophy and the meaning of life

a new history of western philosophy: *A New History of Western Philosophy* Anthony Kenny, 2004

a new history of western philosophy: *History of Western Philosophy* Bertrand Russell, 2013-04-15 Considered to be one of the most important philosophical works of all time, the *History of Western Philosophy* is a dazzlingly unique exploration of the ideologies of significant philosophers throughout the ages - from Plato and Aristotle through to Spinoza, Kant and the twentieth century. Written by a man who changed the history of philosophy himself, this is an account that has never been rivalled since its first publication over 60 years ago. This special collector's edition features:

brand new foreword by Anthony Gottlieb, who is Executive Editor of The Econ ...

a new history of western philosophy: Medieval Philosophy Anthony Kenny, 2007-05-31 Sir Anthony Kenny continues his magisterial new history of Western philosophy with a fascinating guide through more than a millennium of thought from 400 AD onwards, charting the story of philosophy from the founders of Christian and Islamic thought through to the Renaissance. The middle ages saw a great flourishing of philosophy, and the intellectual endeavour of the era reaches its climax in the thirteenth and fourteenth centuries, with the systems of the great schoolmen such as Thomas Aquinas and John Duns Scotus. Specially written for a broad popular readership, but serious and deep enough to offer a genuine understanding of the great philosophers, Kenny's lucid and stimulating history will become the definitive work for anyone interested in the people and ideas that shaped the course of Western thought.

a new history of western philosophy: The Decline of the West Oswald Spengler, Arthur Helps, Charles Francis Atkinson, 1991 Spengler's work describes how we have entered into a centuries-long world-historical phase comparable to late antiquity, and his controversial ideas spark debate over the meaning of historiography.

a new history of western philosophy: *A New History of Philosophy* Wallace I. Matson, 1997-10

a new history of western philosophy: *Witcraft* Jonathan Rée, 2019-08-20 An ambitious new history of philosophy in English that broadens the canon to include many lesser-known figures Ludwig Wittgenstein once wrote that "philosophy should be written like poetry." But philosophy has often been presented more prosaically as a long trudge through canonical authors and great works. But what, Jonathan Rée asks, if we instead saw the history of philosophy as a haphazard series of unmapped forest paths, a mass of individual stories showing endurance, inventiveness, bewilderment, anxiety, impatience, and good humor? Here, Jonathan Rée brilliantly retells this history, covering such figures as Descartes, Locke, Kant, Hegel, Marx, Nietzsche, Mill, James, Frege, Wittgenstein, and Sartre. But he also includes authors not usually associated with philosophy, such as William Hazlitt, George Eliot, Darwin, and W. H. Auden. Above all, he uncovers dozens of unremembered figures—puritans, revolutionaries, pantheists, feminists, nihilists, socialists, and scientists—who were passionate and active readers of philosophy, and often authors themselves. Breaking away from high-altitude narratives, he shows how philosophy finds its way into ordinary lives, enriching and transforming them in unexpected ways.

a new history of western philosophy: *A History of Twelfth-Century Western Philosophy* Peter Dronke, 1992-07-09 The first comprehensive study of the philosophical achievements of twelfth-century Western Europe.

a new history of western philosophy: *The Columbia History of Western Philosophy* Richard Henry Popkin, 1999 Richard Popkin has assembled 63 leading scholars to forge a chronological account of the development of Western philosophical traditions. From Plato to Wittgenstein and from Aquinas to Heidegger, this volume provides lively, in-depth, and up-to-date historical analyses of all the key figures, schools, and movements of Western philosophy. Each chapter includes an introductory essay, and Popkin provides notes that draw connections among the separate articles. The rich bibliographic information and the indexes of names and terms make the volume an invaluable resource.

a new history of western philosophy: *A Short History of Western Thought* Stephen Trombley, 2012 A Short History of Western Thought outlines the 2,500-year history of European ideas from the philosophers of Classical Antiquity to the thinkers of today; no major representative of any significant strand of Western thought escapes Trombley's attention. Included are the Christian Scholastic theologians of the Middle Ages, the German idealists from Kant to Hegel and the four shapers-in-chief of our modern world: the philosopher, historian and political theorist Karl Marx; the naturalist Charles Darwin, proposer of the theory of evolution; Sigmund Freud, the father of psychoanalysis; and the theoretical physicist Albert Einstein.

a new history of western philosophy: *On Sense and Reference* Gottlob Frege, 2023-11-19 In

the philosophy of language, the difference between sense and reference was a concept of the German philosopher and mathematician Gottlob Frege in 1892. This idea, presented in this work, reflects the two ways he thought a singular term might have meaning.

a new history of western philosophy: Wisdom of the West , 1969

a new history of western philosophy: History of Western Philosophy Bertrand Russell, 2008-06-30 Hailed as “lucid and magisterial” by The Observer, this book is universally acclaimed as the outstanding one-volume work on the subject of Western philosophy. Considered to be one of the most important philosophical works of all time, the History of Western Philosophy is a dazzlingly unique exploration of the ideologies of significant philosophers throughout the ages—from Plato and Aristotle through to Spinoza, Kant and the twentieth century. Written by a man who changed the history of philosophy himself, this is an account that has never been rivaled since its first publication over sixty years ago. Since its first publication in 1945, Lord Russell’s A History of Western Philosophy is still unparalleled in its comprehensiveness, its clarity, its erudition, its grace, and its wit. In seventy-six chapters he traces philosophy from the rise of Greek civilization to the emergence of logical analysis in the twentieth century. Among the philosophers considered are: Pythagoras, Heraclitus, Parmenides, Empedocles, Anaxagoras, the Atomists, Protagoras, Socrates, Plato, Aristotle, the Cynics, the Sceptics, the Epicureans, the Stoics, Plotinus, Ambrose, Jerome, Augustine, Benedict, Gregory the Great, John the Scot, Aquinas, Duns Scotus, William of Occam, Machiavelli, Erasmus, More, Bacon, Hobbes, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Rousseau, Kant, Hegel, Schopenhauer, Nietzsche, the Utilitarians, Marx, Bergson, James, Dewey, and lastly the philosophers with whom Lord Russell himself is most closely associated—Cantor, Frege, and Whitehead, coauthor with Russell of the monumental Principia Mathematica.

a new history of western philosophy: *Philosophy and Philosophers* John Shand, 2014-12-18

This revised and updated edition of a standard work provides a clear and authoritative survey of the Western tradition in metaphysics and epistemology from the Presocratics to the present day. Aimed at the beginning student, it presents the ideas of the major philosophers and their schools of thought in a readable and engaging way, highlighting the central points in each contributor's doctrines and offering a lucid discussion of the next-level details that both fills out the general themes and encourages the reader to pursue the arguments still further through a detailed guide to further reading. Whether John Shand is discussing the slow separation of philosophy and theology in Augustine, Aquinas and Ockham, the rise of rationalism, British empiricism, German idealism or the new approaches opened up by Russell, Sartre and Wittgenstein, he combines succinct but insightful exposition with crisp critical comment. This new edition will continue to provide students with a valuable work of initial reference.

a new history of western philosophy: An Introduction to Western Philosophy Antony Flew, 1971

a new history of western philosophy: A History of Western Philosophy William Thomas Jones, 1975 A history of Western Philosophy.

a new history of western philosophy: *Critical History of Western Philosophy* D.J. O'Connor, 1985-08 Available in paperback for the first time, this landmark volume examines the course of Western philosophy over the past 2,500 years. A Critical History of Western Philosophy focuses on the most significant thinkers and philosophical movements while emphasizing key ideas of permanent interest and relevance. Arranged chronologically from early Greece to the twentieth century, this comprehensive work includes expert histories of all major figures from Socrates and Plato to G.E. Moore and Bertrand Russell, and of every important school from the Epicureans to the Existentialists.
