Chapters explore issues, such as the impact of AIDS, the defense budget, the emerging dynamic between the military and China's new leadership, resettling demobilized troops back into civilian life, and the role of the militia, reserve units, and other civilian groups. The contributors are highly respected specialists in China studies, including political scientists, historians, PLA specialists, and sociologists. They present a vibrant portrait of the new civil-military dynamic in the PRC within the complex social changes that China is exploring today.

a number of sources indicate that writing: *Florence Nightingale on Society and Politics, Philosophy, Science, Education and Literature* Lynn McDonald, 2006-01-01 Florence

Nightingale on Society and Politics, Philosophy, Science, Education and Literature, Volume 5 in the Collected Works of Florence Nightingale, is the main source of Nightingale's work on the methodology of social science and her views on social reform. Here we see how she took her "call to service" into practice: by first learning how the laws of God's world operate, one can then determine how to intervene for good. There is material on medical statistics, the census, pauperism and Poor Law reform, the need for income security measures and better housing, on crime, gender and the family. Her comments on a new edition of The Dialogues of Plato are given, with their impact on the revision of the next edition. We see Nightingale's condemnation of Plato's "community of wives," with her stirring approval of love (even outside marriage!), marriage and the family. In this volume also her views on natural science, education and literature are reported. Nightingale was an astute behind-the-scenes political activist. Society and Politics publishes (much of it for the first time) her correspondence with such leading political figures as Queen Victoria, W.E. Gladstone and J.S. Mill. There are notes and essays on public administration and personal observations on various members of royalty, prime ministers and ministers, and Indian viceroys. Nightingale's support of the vote for women (contrary to much in the secondary literature) is here shown. Correspondence and notes on British general elections from 1834 to 1900 is reported, with letters to and for (Liberal) political candidates and fierce condemnations of Conservatives. Currently, Volumes 1 to 11 are available in e-book version by subscription or from university and college libraries through the following vendors: Canadian Electronic Library, Ebrary, MyiLibrary, and Netlibrary.

a number of sources indicate that writing: **Embellishing the Liturgy** Alejandro Enrique Planchart, 2017-07-05 After the imposition of Gregorian chant upon most of Europe by the authority of the Carolingian kings and emperors in the eighth and ninth centuries, a large number of repertories arose in connection with the new chant and its liturgy. Of these repertories, the tropes, together with the sequences, represent the main creative activity of European musicians in the ninth, tenth, and eleventh centuries. Because they were not an absolutely official part of the liturgy, as was Gregorian chant, they reflect local traditions, particularly in terms of melody, and more so than the new pieces that were composed at the time. In addition, the earlier layers of tropes represent, in many cases, a survival of the pre local pre Gregorian melodic traditions. This volume provides an introduction to the study of tropes in the form of an extensive anthology of major studies and a comprehensive bibliography and constitutes a classic reference resource for the study of one of the most important musico-liturgical genres of the central middle ages.
