A Patriot's History of the United States Summary: A Nationalist Perspective

"A Patriot's History of the United States," authored by Larry Schweikart and Michael Allen, presents a distinctly nationalist interpretation of American history. A central theme explored in a Patriot's History of the United States summary is the consistent emphasis on exceptionalism and the inherent goodness of American ideals and actions. The book downplays or omits controversial aspects of American history, such as slavery, Native American genocide, and the ongoing struggle for racial equality. This omission, or at least the manner in which these topics are treated, is a key source of critical debate surrounding the book. A Patriot's History of the United States summary often highlights moments of national unity and triumph, portraying American history as a largely linear progression towards liberty and prosperity. This narrative, while appealing to a sense of national pride, arguably simplifies and distorts the complex realities of the past.

The book's methodology, as detailed in various a Patriot's History of the United States summary analyses, is frequently criticized for its selective use of sources and its tendency to prioritize certain interpretations over others. It's important to acknowledge that the authors are not historians in the traditional academic sense. Their backgrounds primarily lie in political science and business, a fact which influences the tone and perspective presented. This lack of a purely historical approach further contributes to the criticisms leveled against the work. Many scholars argue that a thorough

a Patriot's History of the United States summary must address the complexities, contradictions, and less glorious chapters of the nation's past.

Impact on Current Trends: A Contested Narrative

The book's popularity and enduring influence demonstrate its resonance with certain segments of the American population. The emphasis on American exceptionalism and the narrative of continuous progress appeals to a sense of national identity and pride, a feeling particularly strong amongst those who perceive a decline in American power and influence on the world stage. A Patriot's History of the United States summary therefore becomes a tool to reaffirm national pride and bolster a sense of shared identity in a time of political and social division.

However, the book's selective portrayal of history has been criticized for contributing to the polarization of American society. By omitting or downplaying uncomfortable truths, it reinforces existing biases and limits a nuanced understanding of the nation's past. This, in turn, contributes to an inability to grapple with contemporary challenges rooted in historical injustices. Consequently, a Patriot's History of the United States summary often becomes a focal point of debate about historical accuracy and the role of national narratives in shaping public opinion. This selective framing of the past makes it difficult to engage in meaningful discussions about race relations, economic inequality, and the ongoing fight for social justice.

The impact of "A Patriot's History of the United States" is not solely confined to academic circles. Its nationalist perspective has demonstrably influenced political discourse, particularly within conservative and populist movements. Discussions surrounding the book often intersect with broader debates about patriotism, national identity, and the role of history in shaping political ideologies. The book's simple and easily digestible narrative has made it particularly appealing in the age of social media, where concise and emotionally resonant messages often prevail over nuanced and complex accounts. Consequently, a Patriot's History of the United States summary often becomes a viral topic, fueling various online debates.

Critical Assessments and Alternative Perspectives

Numerous scholarly critiques have challenged the book's historical accuracy and its ideological underpinnings. These critiques highlight the omission of crucial events and perspectives, the skewed presentation of historical figures, and the overall lack of critical analysis. These critical analyses offer alternative narratives that incorporate a wider range of voices and perspectives, leading to a more complete and nuanced understanding of American history. A comprehensive a Patriot's History of the United States

summary must therefore always consider these counter-arguments.

For a more balanced understanding of American history, it is crucial to consult a variety of sources and perspectives. Textbooks adhering to established historical methodologies, which prioritize evidence-based analysis and consider multiple viewpoints, provide a stark contrast to the nationalist narrative presented in "A Patriot's History." By engaging with diverse historical accounts, readers can cultivate a more comprehensive and critical understanding of the American experience.

Conclusion

"A Patriot's History of the United States" presents a simplified and nationalistic interpretation of American history that resonates with certain audiences but is subject to significant criticism from the academic community. A Patriot's History of the United States summary must be approached with caution, recognizing its limitations and inherent biases. While the book's popularity highlights the enduring appeal of nationalistic narratives, its impact on contemporary political discourse and social understanding demands a critical and multifaceted response. To achieve a truly informed understanding of American history, it's vital to incorporate diverse perspectives and rigorous historical methodologies, moving beyond the limitations of a singular, nationalistic account as presented in a Patriot's History of the United States summary.

FAQs

1. What are the main criticisms of "A Patriot's History of the United States"? The book is criticized for its selective use of sources, its omission of controversial aspects of American history, and its generally nationalistic and uncritical perspective.
1. Who are the authors, and what is their background? The authors are Larry Schweikart and Michael Allen, with backgrounds primarily in political science and business, not traditional academic history.
1. Does the book promote a particular political ideology? Yes, the book is generally considered to promote a conservative and nationalist ideology.

1. How has the book impacted contemporary political discourse? The book has influenced political discourse, particularly within conservative and populist movements, by reinforcing nationalistic sentiments and simplifying complex historical events.
1. What are some alternative resources for learning about American history? Numerous academic textbooks and scholarly articles offer more comprehensive and balanced accounts of American history.
1. Is "A Patriot's History" a useful source for understanding American history? While it can provide a certain perspective, its selective approach and lack of critical analysis limit its usefulness as a primary source for a balanced understanding of American history.
1. How does the book's popularity reflect broader societal trends? The book's popularity reflects a desire for simple, nationalistic narratives, particularly in times of political division and uncertainty.
1. What are the implications of relying solely on "A Patriot's History" for understanding the past? Relying solely on this book leads to an incomplete and potentially biased understanding, neglecting crucial aspects of American history and its complexities.
1. What role does the book play in debates about national identity and patriotism? The book becomes a central point in discussions about patriotism, often used to support or challenge different conceptions of national identity and its relationship to historical narratives.

a patriots history of the united states summary: A Patriot's History of the United States Larry Schweikart, Michael Patrick Allen, 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

a patriots history of the united states summary: A People's History of the United States Howard Zinn, 2003-02-04 Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

a patriots history of the united states summary: A Patriot's History® of the Modern World, Vol. I Larry Schweikart, Dave Dougherty, 2012-10-11 "America's story from 1898 to 1945 is nothing less than the triumph of American exceptionalism over liberal progressivism, despite a few temporary victories by the latter." Conservative historian Larry Schweikart has won wide acclaim for his number one New York Times bestseller, A Patriot's History of the United States. It proved that, contrary to the liberal biases in countless other history books, America had not really been founded on racism, sexism, greed, and oppression. Schweikart and coauthor Michael Allen restored the truly great achievements of America's patriots, founders, and heroes to their rightful place of honor. Now Schweikart and coauthor Dave Dougherty are back with a new perspective on America's half-century rise to the center of the world stage. This all-new volume corrects many of the biases that cloud the way people view the Treaty of Versailles, the Roaring Twenties, the Crash of 1929, the deployment of the atomic bomb, and other critical events in global history. Beginning with the Spanish-American War— which introduced the United States as a global military power that could no longer be ignored—and continuing through the end of World War II, this book shows how a free, capitalist nation could thrive when put face-to-face with tyrannical and socialist powers. Schweikart and Dougherty narrate the many times America proved its dominance by upholding the principles on which it was founded—and struggled on the rare occasions when it strayed from those principles.

The authors make a convincing case that America has constantly been a force for good in the world, improving standards of living, introducing innovations, guaranteeing liberty, and offering opportunities to those who had none elsewhere. They also illustrate how the country ascended to superpower status at the same time it was figuring out its own identity. While American ideals were defeating tyrants abroad, a constant struggle against progressivism was being waged at home, leading to the stumbles of the Great Depression, the New Deal, and the attack on Pearl Harbor. Despite this rocky entrance on the world stage, it was during this half century that the world came to embrace all things American, from its innovations and businesses to its political system and popular culture. The United States began to define what the rest of the world could emulate as the new global ideal. A Patriot's History of the Modern World provides a new perspective on our extraordinary past—and offers lessons we can apply to preserve American exceptionalism today and tomorrow.

a patriots history of the united states summary: Our First Civil War H. W. Brands, 2022-09-13 A fast-paced, often riveting account of the military and political events leading up to the Declaration of Independence and those that followed during the war ... Brands does his readers a service by reminding them that division, as much as unity, is central to the founding of our nation.—The Washington Post From best-selling historian and Pulitzer Prize finalist H. W. Brands comes a gripping, page-turning narrative of the American Revolution that shows it to be more than a fight against the British: it was also a violent battle among neighbors forced to choose sides, Loyalist or Patriot. What causes people to forsake their country and take arms against it? What prompts their neighbors, hardly distinguishable in station or success, to defend that country against the rebels? That is the question H. W. Brands answers in his powerful new history of the American Revolution. George Washington and Benjamin Franklin were the unlikeliest of rebels. Washington in the 1770s stood at the apex of Virginia society. Franklin was more successful still, having risen from humble origins to world fame. John Adams might have seemed a more obvious candidate for rebellion, being of cantankerous temperament. Even so, he revered the law. Yet all three men became rebels against the British Empire that fostered their success. Others in the same circle of family and friends chose differently. William Franklin might have been expected to join his father, Benjamin, in rebellion but remained loyal to the British. So did Thomas Hutchinson, a royal governor and friend of the Franklins, and Joseph Galloway, an early challenger to the Crown. They soon heard themselves denounced as traitors—for not having betrayed the country where they grew up. Native Americans and the enslaved were also forced to choose sides as civil war broke out around them. After the Revolution, the Patriots were cast as heroes and founding fathers while the Loyalists were relegated to bit parts best forgotten. Our First Civil War reminds us that before America could win its revolution against Britain, the Patriots had to win a bitter civil war against family, neighbors, and friends.

a patriots history of the united states summary: Defiance of the Patriots Benjamin L. Carp, 2010-10-26 An evocative and enthralling account of a defining event in American history This thrilling book tells the full story of the an iconic episode in American history, the Boston Tea Party—exploding myths, exploring the unique city life of eighteenth-century Boston, and setting this audacious prelude to the American Revolution in a global context for the first time. Bringing vividly to life the diverse array of people and places that the Tea Party brought together—from Chinese tea-pickers to English businessmen, Native American tribes, sugar plantation slaves, and Boston's ladies of leisure—Benjamin L. Carp illuminates how a determined group of New Englanders shook the foundations of the British Empire, and what this has meant for Americans since. As he reveals many little-known historical facts and considers the Tea Party's uncertain legacy, he presents a compelling and expansive history of an iconic event in America's tempestuous past.

a patriots history of the united states summary: American Insurgents, American Patriots T. H. Breen, 2010-05-11 Before there could be a revolution, there was a rebellion; before patriots, there were insurgents. Challenging and displacing decades of received wisdom, T. H. Breen's strikingly original book explains how ordinary Americans—most of them members of farm

families living in small communities—were drawn into a successful insurgency against imperial authority. This is the compelling story of our national political origins that most Americans do not know. It is a story of rumor, charity, vengeance, and restraint. *American Insurgents, American Patriots* reminds us that revolutions are violent events. They provoke passion and rage, a willingness to use violence to achieve political ends, a deep sense of betrayal, and a strong religious conviction that God expects an oppressed people to defend their rights. The American Revolution was no exception. A few celebrated figures in the Continental Congress do not make for a revolution. It requires tens of thousands of ordinary men and women willing to sacrifice, kill, and be killed. Breen not only gives the history of these ordinary Americans but, drawing upon a wealth of rarely seen documents, restores their primacy to American independence. Mobilizing two years before the Declaration of Independence, American insurgents in all thirteen colonies concluded that resistance to British oppression required organized violence against the state. They channeled popular rage through elected committees of safety and observation, which before 1776 were the heart of American resistance. *American Insurgents, American Patriots* is the stunning account of their insurgency, without which there would have been no independent republic as we know it.

a patriots history of the united states summary: 52 Prepper Projects David Nash, 2013-11-01 Are you and your family self-reliant? Will you be able to provide for them and keep them safe? The best way to prepare for the future is not through fancy tools and gadgets—it's experience and knowledge that will best equip you to handle the unexpected. Everyone begins somewhere, especially with disaster preparedness. In *52 Prepper's Projects*, you'll find a project for every week of the year, designed to start you off with the foundations of disaster preparedness and taking you through a variety of projects that will increase your knowledge in self-reliance and help you acquire the actual know-how to prepare for anything. Self-reliance isn't about building a bunker and waiting for the end of the world. It's about understanding the necessities in life and gaining the knowledge and skill sets that will make you better prepared for whatever life throws your way. *52 Prepper's Projects* is the ultimate instructional guide to preparedness, and a must-have book for those with their eye on the future.

a patriots history of the united states summary: The Patriots Winston Groom, 2020-12-10 In this masterful narrative, Winston Groom brings his signature storytelling panache to the intricately crafted tale of three of our nation's most fascinating founding fathers--Alexander Hamilton, Thomas Jefferson, and John Adams--and paints a vivid picture of the improbable events, bold ideas, and extraordinary characters who created the United States of America. When the Revolutionary War ended in victory, there remained the stupendous problem of how to establish a workable democratic government in the vast, newly independent country. Three key founding fathers played significant roles: John Adams, the brilliant, dour, thin-skinned New Englander; Thomas Jefferson, the aristocratic Southern renaissance man; and Alexander Hamilton, an immigrant from the Caribbean island of Nevis. In this complex and riveting narrative, best-selling author Winston Groom tells the story of these men--all of whom served in George Washington's first cabinet--as the patriots fundamentally responsible for the ideas that shaped the foundation of the United States. Their lives and policies could not have been more different; their relationships with each other were complex, and often rife with animosity. And yet these three men led the charge--two of them creating and signing the Declaration of Independence, and the third establishing a national treasury and the earliest delineation of a Republican party. The time in which they lived was fraught with danger; the smell of liberty was in the air, though their excitement was strained by vast antagonisms that recall the intense political polarization of today. But through it all, they managed to shoulder the heavy mantle of creating the United States of America, putting aside their differences to make a great country, once and always. Drawing on extensive correspondence, epic tales of war, and rich histories of their day-to-day interactions, best-selling author Winston Groom shares the remarkable story of the beginnings of our great nation.

a patriots history of the united states summary: A True History of the United States Daniel A. Sjsuren, 2021-06-01 "Thought-provoking—a must read for [everyone] seeking a firm grasp of

accurate American history. —Kirkus (starred review) Brilliant, readable, and raw. Maj. (ret.) Danny Sjursen, who served combat tours in Iraq and Afghanistan and later taught history at West Point, delivers a true epic and the perfect companion to Howard Zinn's *A People's History of the United States*. Sjursen shifts the lens and challenges readers to think critically and to apply common sense to their understanding of our nation's past—and present—so we can view history as never before. *A True History of the United States* was inspired by a course that Sjursen taught to cadets at West Point, his alma mater. With chapter titles such as *Patriots or Insurgents?* and *The Decade That Roared and Wept*, *A True History* is accurate with respect to the facts and intellectually honest in its presentation and analysis. Essential reading for every American with a conscience. Meticulously researched, Sjursen provides a more complete sense of history and encourages readers to view our country objectively. Sjursen's powerful storytelling reveals balanced portraits of key figures and the role they played. Sjursen exposes the dominant historical narrative as at best myth, and at times a lie . . . He brings out from the shadows those who struggled, often at the cost of their own lives, for equality and justice. Their stories, so often ignored or trivialized, give us examples of who we should emulate and who we must become. —Chris Hedges, author of *Empire of Illusion* and *America: The Farewell Tour*

a patriots history of the united states summary: *The Patriot's History Reader* Larry Schweikart, Michael Allen, Dave Dougherty, 2011-06-28 An original collection of the most influential documents in American history, from the bestselling author of *A Patriot's History of the United States*. Since 2005, *A Patriot's History of the United States* has become a modern classic for its defense of America as a unique country founded on principles of justice, equality, and freedom for all. *The Patriot's History Reader* continues this tradition by going back to the original sources—the documents, speeches, and legal decisions that shaped our country into what it is today. The authors explore both oft-cited documents—the Declaration of Independence, Emancipation Proclamation, and *Roe v. Wade*--as well as those that are less famous. Among these are George Washington's letter to Alexander Hamilton, which essentially outline America's military strategy for the next 150 years, and Herbert Hoover's speech on business ethics, which examines the government's role in regulating private enterprise. By helping readers explore history at its source, this book sheds new light on the principles and personalities that have made America great.

a patriots history of the united states summary: *America's Beginnings* Tony J. Williams, 2010-12-16 At a time when surveys reveal that Americans know less and less about our past, Tony Williams provides entertaining and informative descriptions of 50 of the most important and dramatic events from the colonial and Revolutionary period—some known and some forgotten—from the Mayflower Compact to the Annapolis Convention. Published in association with The Colonial Williamsburg Foundation, *America's Beginnings* takes the reader throughout the American colonies and introduces many leading figures, from John Smith and John Winthrop to the Founding Fathers. Along the way, Williams examines the principles that led colonists to come to America and succeeding generations to become a free and independent nation. Read individually or from cover to cover, these stories illuminate the founding principles and heroic struggles that established the country and shaped the American character.

a patriots history of the united states summary: *The Patriot Threat* Steve Berry, 2015-03-31 From New York Times bestseller Steve Berry, *The Patriot Threat* finds Cotton Malone racing to stop a rogue ex-KGB agent plotting revenge against the US

a patriots history of the united states summary: *Black Patriots and Loyalists* Alan Gilbert, 2012-04-20 In this thought-provoking history, Gilbert illuminates how the fight for abolition and equality - not just for the independence of the few but for the freedom and self-government of the many - has been central to the American story from its inception.--Pub. desc.

a patriots history of the united states summary: *The Other Civil War* Howard Zinn, 2011-03-15 *The Other Civil War* offers historian and activist Howard Zinn's view of the social and civil background of the American Civil War—a view that is rarely provided in standard historical texts. Drawn from his New York Times bestseller *A People's History of the United States*, this set of

essays recounts the history of American labor, free and not free, in the years leading up to and during the Civil War. He offers an alternative yet necessary account of that terrible nation-defining epoch.

a patriots history of the united states summary: A People's History of American Empire

Howard Zinn, Mike Konopacki, Paul Buhle, 2008-04 Adapted from the critically acclaimed chronicle of U.S. history, a study of American expansionism around the world is told from a grassroots perspective and provides an analysis of important events from Wounded Knee to Iraq.

a patriots history of the united states summary: Patriot's History® of the Modern World, Vol. II

Larry Schweikart, Dave Dougherty, 2013-12-05 The bestselling historians turn their focus to America's role in the world since the end of World War II. Schweikart, author of the number one New York Times bestseller *A Patriot's History of the United States*, and Dougherty take a critical look at America, from the postwar boom to her search for identity in the twenty-first century. The second volume of *A Patriot's History of the Modern World* picks up in 1945 with a world irrevocably altered by World War II and a powerful, victorious United States. But new foes and challenges soon arose: the growing sphere of Communist influence, hostile dictatorships and unreliable socialist allies, the emergence of China as an economic contender, and the threat of world Islamification. The book reestablishes the argument of American exceptionalism and the interplay of our democratic pillars—Judeo-Christian religious beliefs, free market capitalism, land ownership, and common law—around the world. Schweikart and Dougherty offer a fascinating conservative history of the last six decades.

a patriots history of the united states summary: Making Patriots

Walter Berns, 2002-09-15 Although Samuel Johnson once remarked that patriotism is the last refuge of scoundrels, over the course of the history of the United States we have seen our share of heroes: patriots who have willingly put their lives at risk for this country and, especially, its principles. And this is even more remarkable given that the United States is a country founded on the principles of equality and democracy that encourage individuality and autonomy far more readily than public spiritedness and self-sacrifice. Walter Berns's *Making Patriots* is a pithy and provocative essay on precisely this paradox. How is patriotism inculcated in a system that, some argue, is founded on self-interest? Expertly and intelligibly guiding the reader through the history and philosophy of patriotism in a republic, from the ancient Greeks through contemporary life, Berns considers the unique nature of patriotism in the United States and its precarious state. And he argues that while both public education and the influence of religion once helped to foster a public-minded citizenry, the very idea of patriotism is currently under attack. Berns finds the best answers to his questions in the thought and words of Abraham Lincoln, who understood perhaps better than anyone what the principles of democracy meant and what price adhering to them may exact. The graves at Arlington and Gettysburg and Omaha Beach in Normandy bear witness to the fact that self-interested individuals can become patriots, and *Making Patriots* is a compelling exploration of how this was done and how it might be again.

a patriots history of the united states summary: A History of the American People

Paul Johnson, 2009-06-30 As majestic in its scope as the country it celebrates. [Johnson's] theme is the men and women, prominent and unknown, whose energy, vision, courage and confidence shaped a great nation. It is a compelling antidote to those who regard the future with pessimism.— Henry A. Kissinger Paul Johnson's prize-winning classic, *A History of the American People*, is an in-depth portrait of the American people covering every aspect of U.S. history—from politics to the arts. The creation of the United States of America is the greatest of all human adventures, begins Paul Johnson's remarkable work. No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind. In *A History of the American People*, historian Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence

and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. Sometimes controversial and always provocative, *A History of the American People* is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

a patriots history of the united states summary: The Common Cause Robert G. Parkinson, 2016-05-18 When the Revolutionary War began, the odds of a united, continental effort to resist the British seemed nearly impossible. Few on either side of the Atlantic expected thirteen colonies to stick together in a war against their cultural cousins. In this pathbreaking book, Robert Parkinson argues that to unify the patriot side, political and communications leaders linked British tyranny to colonial prejudices, stereotypes, and fears about insurrectionary slaves and violent Indians. Manipulating newspaper networks, Washington, Jefferson, Adams, Franklin, and their fellow agitators broadcast stories of British agents inciting African Americans and Indians to take up arms against the American rebellion. Using rhetoric like domestic insurrectionists and merciless savages, the founding fathers rallied the people around a common enemy and made racial prejudice a cornerstone of the new Republic. In a fresh reading of the founding moment, Parkinson demonstrates the dual projection of the common cause. Patriots through both an ideological appeal to popular rights and a wartime movement against a host of British-recruited slaves and Indians forged a racialized, exclusionary model of American citizenship.

a patriots history of the united states summary: The Children's Book of America William J. Bennett, 1998-11-02 Presents stories of significant events and people in American history, patriotic songs, and American folk tales and poems.

a patriots history of the united states summary: Ages of American Capitalism Jonathan Levy, 2022-04-05 A leading economic historian traces the evolution of American capitalism from the colonial era to the present—and argues that we've reached a turning point that will define the era ahead. "A monumental achievement, sure to become a classic."—Zachary D. Carter, author of *The Price of Peace* In this ambitious single-volume history of the United States, economic historian Jonathan Levy reveals how capitalism in America has evolved through four distinct ages and how the country's economic evolution is inseparable from the nature of American life itself. The Age of Commerce spans the colonial era through the outbreak of the Civil War, and the Age of Capital traces the lasting impact of the industrial revolution. The volatility of the Age of Capital ultimately led to the Great Depression, which sparked the Age of Control, during which the government took on a more active role in the economy, and finally, in the Age of Chaos, deregulation and the growth of the finance industry created a booming economy for some but also striking inequalities and a lack of oversight that led directly to the crash of 2008. In *Ages of American Capitalism*, Levy proves that capitalism in the United States has never been just one thing. Instead, it has morphed through the country's history—and it's likely changing again right now. "A stunning accomplishment . . . an indispensable guide to understanding American history—and what's happening in today's economy."—*Christian Science Monitor* "The best one-volume history of American capitalism."—Sven Beckert, author of *Empire of Cotton*

a patriots history of the united states summary: How Would a Patriot Act? Glenn Greenwald, 2006 Glenn Greenwald was not a political man — neither liberal nor conservative. To him, the U.S. was generally on track and would remain forever centrist. But all that has changed. Over the past five years, a creeping extremism has taken hold of our federal government, which threatens to alter our system of governing ourselves and our national character. This extremism is neither liberal nor conservative, but is driven by the Bush administration's radical theories of executive power. Greenwald writes that we cannot abide these unlimited and unchecked presidential powers if we are to remain a constitutional republic. Because when you answer to no one, you're not

a president — you're a despot. This is one man's story of being galvanized into action to defend his country, and his concise and penetrating analysis of what is at stake for America when its president has secretly bestowed upon himself the powers of a king. From 9/11 to the question of nuclear war in Iran, Greenwald shows how Bush's claims of unlimited power play out. In the spirit of the colonists who once mustered the strength to denounce a king, Greenwald asks: how would a patriot act today?

a patriots history of the united states summary: American Revolutions: A Continental History, 1750-1804 Alan Taylor, 2016-09-06 “Excellent . . . deserves high praise. Mr. Taylor conveys this sprawling continental history with economy, clarity, and vividness.”—Brendan Simms, Wall Street Journal The American Revolution is often portrayed as a high-minded, orderly event whose capstone, the Constitution, provided the nation its democratic framework. Alan Taylor, a two-time Pulitzer Prize winner, gives us a different creation story in this magisterial history. The American Revolution builds like a ground fire overspreading Britain’s colonies, fueled by local conditions and resistant to control. Emerging from the continental rivalries of European empires and their native allies, the revolution pivoted on western expansion as well as seaboard resistance to British taxes. When war erupted, Patriot crowds harassed Loyalists and nonpartisans into compliance with their cause. The war exploded in set battles like Saratoga and Yorktown and spread through continuing frontier violence. The discord smoldering within the fragile new nation called forth a movement to concentrate power through a Federal Constitution. Assuming the mantle of “We the People,” the advocates of national power ratified the new frame of government. But it was Jefferson’s expansive “empire of liberty” that carried the revolution forward, propelling white settlement and slavery west, preparing the ground for a new conflagration.

a patriots history of the united states summary: George Washington Janet Benge, Geoff Benge, 2001 A biography of George Washington, Commander in Chief of the Continental Army and first president of the United States.

a patriots history of the united states summary: America's History James Henretta, Eric Foner, Rebecca Edwards, Robert O. Self, 2018-03-09 America’s History for the AP® Course offers a thematic approach paired with skills-oriented pedagogy to help students succeed in the redesigned AP® U.S. History course. a patriots history of the united states summary: Patriots James Wesley Rawles, 2009-04-07

'Patriots' is a man's action-adventure novel set in the near future, as America is torn-by a full scale socio-economic collapse.

a patriots history of the united states summary: The Making of a Patriot Sheila L. Skemp, 2013 In *The Making of a Patriot*, renowned Franklin historian Sheila Skemp presents a insightful, lively narrative that goes beyond the traditional Franklin biography--and behind the common myths--to demonstrate how Franklin's ultimate decision to support the colonists was by no means a foregone conclusion.

a patriots history of the united states summary: *The True Patriot* Eric Liu, Nick Hanauer, 2012-06-05 An essential read for both progressives and conservatives, this 'little red book' challenges modern patriotism, calling for a return to the ideals on which our democracy was founded Over the course of a generation, patriotism in America has been hijacked by the right and abandoned by the left. But the principles and values of true patriotism—country above self, contribution above consumption, stewardship over exploitation, freedom with responsibility, purpose through sacrifice and service, pragmatism, a fair shot for all—are inherently progressive. Written in the pamphleteering style of Thomas Paine (*Common Sense*), *The True Patriot* challenges progressives to reclaim patriotism and spells out just how to do it. This powerful and timely “little red book” combines a manifesto, a ten-principle plan, a model speech, and a moral code. Throughout, it weaves between the words of the authors and excerpts from foundational American texts and speeches, as well as a parade of iconic American images.

a patriots history of the united states summary: **U.S. History** P. Scott Corbett, Volker Janssen, John M. Lund, Todd Pfannestiel, Sylvie Waskiewicz, Paul Vickery, 2024-09-10 *U.S. History* is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). *U.S. History* covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

a patriots history of the united states summary: **48 Liberal Lies about American History** Larry Schweikart, 2008 As he did in his popular *A Patriot's History of the United States*, Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks 48 common myths.

a patriots history of the united states summary: **Bring the War Home** Kathleen Belew, 2019-05-07 A Guardian Best Book of the Year “A gripping study of white power...Explosive.” —New York Times “Helps explain how we got to today’s alt-right.” —Terry Gross, *Fresh Air* The white power movement in America wants a revolution. Returning to a country ripped apart by a war they felt they were not allowed to win, a small group of Vietnam veterans and disgruntled civilians who shared their virulent anti-communism and potent sense of betrayal concluded that waging war on their own country was justified. The command structure of their covert movement gave women a prominent place. They operated with discipline, made tragic headlines in Waco, Ruby Ridge, and Oklahoma City, and are resurgent under President Trump. Based on a decade of deep immersion in previously classified FBI files and on extensive interviews, *Bring the War Home* tells the story of American paramilitarism and the birth of the alt-right. “A much-needed and troubling revelation... The power of Belew’s book comes, in part, from the fact that it reveals a story about white-racist violence that we should all already know.” —The Nation “Fascinating... Shows how hatred of the federal government, fears of communism, and racism all combined in white-power ideology and explains why our responses to the movement have long been woefully inadequate.” —Slate “Superbly comprehensive...supplants all journalistic accounts of America’s resurgent white supremacism.” —Pankaj Mishra, *The Guardian*

a patriots history of the united states summary: These Truths: A History of the United States Jill Lepore, 2018-09-18 “Nothing short of a masterpiece.” —NPR Books A New York Times Bestseller and a Washington Post Notable Book of the Year In the most ambitious one-volume American history in decades, award-winning historian Jill Lepore offers a magisterial account of the

origins and rise of a divided nation. Widely hailed for its “sweeping, sobering account of the American past” (New York Times Book Review), Jill Lepore’s one-volume history of America places truth itself—a devotion to facts, proof, and evidence—at the center of the nation’s history. The American experiment rests on three ideas—“these truths,” Jefferson called them—political equality, natural rights, and the sovereignty of the people. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation’s truths, or belied them. To answer that question, Lepore wrestles with the state of American politics, the legacy of slavery, the persistence of inequality, and the nature of technological change. “A nation born in contradiction... will fight, forever, over the meaning of its history,” Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. With *These Truths*, Lepore has produced a book that will shape our view of American history for decades to come.

a patriots history of the united states summary: *Willing Patriots* Robert J. Dalessandro, Gerald Torrence, Michael G. Knapp, 2009 Provides deeply researched information on the black Americans who served in the U.S. Army and the combat history/battle participation of all black troops (including the two infantry divisions, supporting organizations of the Services of Supply, and the special troops) as well as nearly 300 detailed color and war-era photographs of these men.

a patriots history of the united states summary: *American Entrepreneur* Larry Schweikart, Lynne Pierson Doti, 2010 Weaving together vivid narrative with economic analysis, *American Entrepreneur* vividly illustrates the history of business in the United States from the point of view of the enterprising men and women who made it happen.

a patriots history of the united states summary: *Congress at War* Fergus M. Bordewich, 2020 The story of how Congress helped win the Civil War—placing a dynamic House and Senate, rather than Lincoln, at the center of the conflict.

a patriots history of the united states summary: *Producers, Parasites, Patriots* Daniel Martinez HoSang, Joseph E. Lowndes, 2019-04-09 The shifting meaning of race and class in the age of Trump The profound concentration of economic power in the United States in recent decades has produced surprising new forms of racialization. In *Producers, Parasites, Patriots*, Daniel Martinez HoSang and Joseph E. Lowndes show that while racial subordination is an enduring feature of U.S. political history, it continually changes in response to shifting economic and political conditions, interests, and structures. The authors document the changing politics of race and class in the age of Trump across a broad range of phenomena, showing how new forms of racialization work to alter the economic protections of whiteness while promoting some conservatives of color as models of the neoliberal regime. Through careful analyses of diverse political sites and conflicts—racially charged elections, attacks on public-sector unions, new forms of white precarity, the rise of black and brown political elites, militia uprisings, multiculturalism on the far right—they highlight new, interwoven deployments of race in the ascendant age of inequality. Using the concept of “racial transposition,” the authors demonstrate how racial meanings and signification can be transferred from one group to another to shore up both neoliberalism and racial hierarchy. From the militia movement to the Alt-Right to the mainstream Republican Party, *Producers, Parasites, Patriots* brings to light the changing role of race in right-wing politics.

a patriots history of the united states summary: *Liberty Is Sweet* Woody Holton, 2021-10-19 A “deeply researched and bracing retelling” (Annette Gordon-Reed, Pulitzer Prize-winning historian) of the American Revolution, showing how the Founders were influenced by overlooked Americans—women, Native Americans, African Americans, and religious dissenters. Using more than a thousand eyewitness records, *Liberty Is Sweet* is a “spirited account” (Gordon S. Wood, Pulitzer Prize-winning author of *The Radicalism of the American Revolution*) that explores countless connections between the Patriots of 1776 and other Americans whose passion for freedom often brought them into conflict with the Founding Fathers. “It is all one story,” prizewinning historian Woody Holton writes. Holton describes the origins and crucial battles of the Revolution from Lexington and Concord to the British surrender at Yorktown, always focusing on marginalized

Americans—enslaved Africans and African Americans, Native Americans, women, and dissenters—and on overlooked factors such as weather, North America's unique geography, chance, misperception, attempts to manipulate public opinion, and (most of all) disease. Thousands of enslaved Americans exploited the chaos of war to obtain their own freedom, while others were given away as enlistment bounties to whites. Women provided material support for the troops, sewing clothes for soldiers and in some cases taking part in the fighting. Both sides courted native people and mimicked their tactics. *Liberty Is Sweet* is a "must-read book for understanding the founding of our nation" (Walter Isaacson, author of *Benjamin Franklin*), from its origins on the frontiers and in the Atlantic ports to the creation of the Constitution. Offering surprises at every turn—for example, Holton makes a convincing case that Britain never had a chance of winning the war—this majestic history revivifies a story we thought we already knew.

a patriots history of the united states summary: The Story of Liberty, America's Heritage Through the Civil War Michael Allen, 2017-06-29 This history book traces America's heritage, from Ancient and Medieval times, through the Civil War. It shows how the U.S.A. was founded on Greco-Roman, Judeo-Christian principles. It shows how the American Founding Fathers established a limited government.
