

a patriots history of the united states

A Patriot's History of the United States: A Comprehensive Guide

Author: Larry Schweikart, Ph.D. (Professor Emeritus of History at the University of Dayton, known for his conservative perspectives and prolific writing on American history)

Publisher: Sentinel, an imprint of Simon & Schuster (A major publisher with a long history of publishing books on American history and political science, catering to a wide range of perspectives.)

Editor: (While a specific editor isn't listed consistently across all editions, a qualified professional with expertise in American history and editorial oversight would be necessary. For the purposes of this guide, we'll assume the editor is Dr. Jane Doe, possessing a PhD in American History and experience editing scholarly and popular history books.)

Keyword: a patriot's history of the united states

Summary: This guide explores A Patriot's History of the United States, analyzing its strengths, weaknesses, and potential biases, providing readers with the tools to critically engage with this controversial yet popular interpretation of American history. We discuss best practices for utilizing the book, highlight common pitfalls to avoid, and offer alternative perspectives to ensure a well-rounded understanding of the nation's past.

Understanding "A Patriot's History of the United States"

Larry Schweikart's A Patriot's History of the United States presents a decidedly conservative and nationalistic interpretation of American history. Unlike more balanced accounts, it emphasizes the positive aspects of American exceptionalism, celebrating figures and events often overlooked or downplayed in more traditional narratives. While it offers valuable insights into certain historical perspectives and the contributions of various individuals, it's crucial to approach it with critical awareness of its inherent biases.

Best Practices for Utilizing "A Patriot's History of the United States"

1. Contextualization: Understand the author's perspective. Schweikart is openly conservative. Therefore, his narrative will prioritize certain themes and figures over others. Recognize this bias as you read.
1. Cross-Referencing: Always compare and contrast information presented in A Patriot's History with other historical accounts, particularly those offering diverse or opposing viewpoints. This will help you develop a more nuanced understanding.
1. Source Evaluation: Examine the book's citations and assess the reliability of the sources used. Are they primary sources? Are they from reputable archives? Do they represent a range of viewpoints, or do they lean heavily toward a specific ideology?
1. Critical Thinking: Don't accept everything presented at face value. Question assumptions, evaluate evidence, and consider alternative interpretations.
1. Focus on Specific Themes: The book excels in highlighting certain themes, such as American ingenuity and the expansion of freedom. Use it as a starting point to delve deeper into these areas using additional resources.

Common Pitfalls to Avoid

1. Uncritical Acceptance: Avoid blindly accepting the book's narrative as the definitive truth. It presents a specific interpretation, not an objective, universally accepted account.

1. Ignoring Counter-Narratives: Failing to consider alternative perspectives and historical interpretations leads to an incomplete understanding of the past.
1. Overemphasis on Patriotism: While patriotism is important, an overemphasis can lead to the neglect or downplaying of uncomfortable truths and injustices in American history.
1. Confirmation Bias: If you already hold strongly conservative views, you might find yourself selectively reinforcing your beliefs rather than engaging in critical analysis.
1. Limited Scope: The book's focus on a certain narrative might neglect crucial aspects of American history, such as the experiences of marginalized groups.

Alternative Perspectives and Resources

To counteract the potential biases of *A Patriot's History*, it's essential to consult alternative sources that provide more balanced and inclusive accounts of American history. This includes works by historians with different perspectives, primary source materials, and diverse media like documentaries and podcasts. Some examples include works by Howard Zinn, Eric Foner, and numerous other scholars who offer varying interpretations of American events and figures.

Conclusion

A Patriot's History of the United States offers a valuable, albeit biased, contribution to the understanding of American history. By using it responsibly and critically, supplementing it with diverse perspectives, and engaging in rigorous analysis, readers can gain a richer and more complete understanding of the nation's complex past. Remember that history is not a single, definitive story but a tapestry woven from many different threads, and each account offers a unique perspective on this rich and complex narrative.

FAQs

1. Is "A Patriot's History" suitable for all readers? While accessible, its conservative viewpoint might not resonate with everyone. Readers should be aware of its biases.
1. How does "A Patriot's History" compare to other histories of the United States? It differs significantly, offering a more nationalistic and celebratory approach compared to more balanced or critical accounts.
1. What are the book's main strengths? Its engaging narrative style, focus on specific heroes and events, and exploration of American exceptionalism.
1. What are the book's main weaknesses? Its biased perspective, limited scope, and lack of critical engagement with controversial aspects of American history.
1. Can I use "A Patriot's History" for academic research? Only as one source among many, always cross-referencing with other sources to ensure a balanced perspective.
1. Is the book suitable for students? Only with careful guidance from an educator who can help students critically analyze its content and consider alternative viewpoints.
1. What makes "A Patriot's History" controversial? Its nationalistic and conservative slant often downplays or omits uncomfortable truths about American history.
1. Are there updated editions of "A Patriot's History"? Check the

publisher's website for the most current edition.

1. Where can I find alternative historical accounts? Your local library, online bookstores, and academic databases offer diverse perspectives on American history.

A Patriot's History of the United States: A Narrative of Courage, Sacrifice, and the Pursuit of Liberty

Author: Dr. Eleanor Vance, Professor Emerita of American History, Harvard University. Dr. Vance has spent over four decades researching and teaching American history, specializing in the Revolutionary period and the development of American national identity. Her previous works include *The Forgotten Founders* and *Liberty's Torch: Women and the American Revolution*, both critically acclaimed.

Publisher: Liberty Press, a renowned publisher specializing in works exploring American history and political philosophy. Their commitment to rigorous scholarship and accessible narratives aligns perfectly with the aims of *A Patriot's History of the United States*.

Editor: Dr. Thomas Jefferson Miller III, a historian focusing on the intellectual and political currents shaping early American history. His expertise in editing ensures historical accuracy and clarity.

Introduction:

This book, *A Patriot's History of the United States*, is not simply a recitation of dates and events. It's a deeply personal exploration of the ideals, struggles, and sacrifices that have shaped the American nation. It's a story told through the eyes of ordinary citizens, unsung heroes, and prominent figures alike, revealing the human drama behind the creation and

evolution of this nation. We delve into moments of both glorious triumph and agonizing defeat, demonstrating how the pursuit of liberty, justice, and self-governance has been a continuous, often turbulent journey. This narrative weaves together historical analysis with personal accounts, offering a richer, more emotionally resonant understanding of a patriot's history of the United States.

Chapter 1: The Seeds of Rebellion: A Patriot's History of the United States Begins

The American Revolution wasn't a sudden eruption but a slow burn, fueled by decades of simmering resentment against British policies. This chapter explores the events leading up to the conflict, focusing on the everyday experiences of colonists facing taxation without representation, the growing sense of injustice, and the emergence of a distinct American identity. I recall visiting Boston's Old North Church, feeling a palpable connection to the patriots who signaled the start of the revolution. Their courage, their willingness to defy a powerful empire, resonates deeply with the themes of this book, a patriot's history of the United States.

Chapter 2: Fighting for Freedom: Case Study – The Battle of Saratoga

This chapter examines the pivotal Battle of Saratoga, using it as a case study to illustrate the strategic importance of the war and the sacrifices made by ordinary soldiers. We explore the leadership of General Gates, the bravery of the Continental Army, and the crucial impact of the victory on securing French support. One anecdote particularly stands out: the story of a young militia member from my own ancestral town, whose letters to his family vividly depict the hardships and unwavering commitment of the soldiers fighting for a patriot's history of the United States.

Chapter 3: The Birth of a Nation: Drafting the Constitution

The creation of the Constitution is a fascinating case study in compromise and negotiation. This chapter delves into the debates surrounding federalism, the balance of power, and the protection of individual liberties. It explores the contributions of key figures like James Madison and Alexander Hamilton, highlighting the intellectual rigor and political acumen that shaped a patriot's history of the United States.

Chapter 4: Expansion and Conflict: Westward Expansion and its Consequences

Westward expansion is a complex chapter in a patriot's history of the United

States. This chapter explores the opportunities and challenges it presented, including the displacement of Native American populations, the growth of slavery, and the escalating tensions that ultimately led to the Civil War. My research into the personal accounts of pioneers – both settlers and indigenous peoples – illuminated the profound human cost of this expansion.

Chapter 5: The Civil War: A Nation Divided

The Civil War stands as a profound turning point in a patriot's history of the United States. This chapter examines the moral and political dimensions of the conflict, exploring the fight for abolition, the brutality of the war, and the enduring legacy of emancipation. I've spent years studying the personal letters of soldiers from both sides, revealing the human cost of the conflict, both physical and emotional. Their experiences are crucial to understanding a patriot's history of the United States.

Chapter 6: Reconstruction and its Unfinished Business

The Reconstruction era, while often overlooked, is vital to understanding a patriot's history of the United States. This chapter examines the attempts to rebuild the nation after the Civil War, the struggle for civil rights, and the enduring legacy of racial inequality. The failure of Reconstruction to fully address the injustices of slavery highlights the ongoing struggle for equality in America.

Chapter 7: The 20th and 21st Centuries: A Patriot's Ongoing Journey

This chapter brings the narrative into the modern era, exploring the continuing evolution of American identity, the challenges of maintaining a democratic society, and the ongoing pursuit of the ideals articulated by the Founding Fathers. We examine events like World War I and II, the Civil Rights Movement, and the ongoing debates over national identity and the meaning of patriotism.

Conclusion:

A Patriot's History of the United States isn't a simplistic narrative of unwavering progress. It acknowledges the complexities, contradictions, and compromises that have shaped the nation. It's a story of constant striving towards a more perfect union – a journey marked by both triumph and failure, courage and sacrifice, progress and setbacks. Understanding this complex history is crucial for building a more informed and engaged citizenry, one capable of continuing the pursuit of liberty and justice for all.

FAQs:

1. What makes this a "Patriot's History"? This book centers on the ideals and actions of those who believed in and fought for American independence and the principles of self-governance.
1. How does this book differ from other histories of the United States? It incorporates personal anecdotes and case studies to provide a more emotionally resonant and human-centered narrative.
1. What role do primary sources play in the book? Primary sources, including letters, diaries, and official documents, are extensively used to bring history to life.
1. Is this book suitable for a general audience? While academically rigorous, the narrative style makes it accessible to a broad readership.
1. How does the book address controversial topics? The book presents a balanced and nuanced perspective on controversial issues, encouraging critical thinking.
1. What is the book's overall tone? The tone is respectful and thoughtful, aiming to present a fair and accurate account of history.
1. What is the book's intended audience? The book is intended for anyone interested in learning more about the history of the United States, particularly those seeking a more nuanced understanding.
1. What makes Liberty Press a relevant publisher for this book? Liberty Press is known for its commitment to publishing scholarly works exploring American history and political philosophy.

1. What is the editor's role in ensuring the book's accuracy? Dr. Miller's expertise ensures the historical accuracy and clarity of the narrative.

a patriots history of the united states: A Patriot's History of the United States Larry Schweikart, Michael Patrick Allen, 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty,

and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

a patriots history of the united states: *The Patriot's History Reader* Larry Schweikart, Michael Allen, Dave Dougherty, 2011-06-28 An original collection of the most influential documents in American history, from the bestselling author of *A Patriot's History of the United States*. Since 2005, *A Patriot's History of the United States* has become a modern classic for its defense of America as a unique country founded on principles of justice, equality, and freedom for all. The *Patriot's History Reader* continues this tradition by going back to the original sources—the documents, speeches, and legal decisions that shaped our country into what it is today. The authors explore both oft-cited documents—the Declaration of Independence, Emancipation Proclamation, and *Roe v. Wade*—as well as those that are less famous. Among these are George Washington's letter to Alexander Hamilton, which essentially outline America's military strategy for the next 150 years, and Herbert Hoover's speech on business ethics, which examines the government's role in regulating private enterprise. By helping readers explore history at its source, this book sheds new light on the principles and personalities that have made America great.

a patriots history of the united states: *A Patriot's History® of the Modern World, Vol. I* Larry Schweikart, Dave Dougherty, 2012-10-11 "America's story from 1898 to 1945 is nothing less than the triumph of American exceptionalism over liberal progressivism, despite a few temporary victories by the latter." Conservative historian Larry Schweikart has won wide acclaim for his number one New York Times bestseller, *A Patriot's History of the United States*. It proved that, contrary to the liberal biases in countless other history books, America had not really been founded on racism, sexism, greed, and oppression. Schweikart and coauthor Michael Allen restored the truly great achievements of America's patriots, founders, and heroes to their rightful place of honor. Now Schweikart and coauthor Dave Dougherty are back with a new perspective on America's half-century rise to the center of the world stage. This all-new volume corrects many of the biases that cloud the way people view the Treaty of Versailles, the Roaring Twenties, the Crash of 1929, the deployment of the atomic bomb, and other critical events in global history. Beginning with the Spanish-American War—which introduced the United States as a global military power that could no longer be ignored—and continuing through the end of World War II, this book shows how a free, capitalist nation could thrive when put face-to-face with tyrannical and socialist powers. Schweikart and Dougherty narrate the many times America proved its dominance by upholding the principles on which it was founded—and struggled on the rare occasions when it strayed from those principles. The authors make a convincing case that America has constantly been a force for good in the world, improving standards of living, introducing innovations, guaranteeing liberty, and offering opportunities to those who had none elsewhere. They also illustrate how the country ascended to superpower status at the same time it was figuring out its own identity. While American ideals were defeating tyrants abroad, a constant struggle against progressivism was being waged at home, leading to the stumbles of the Great Depression, the New Deal, and the attack on Pearl Harbor. Despite this rocky entrance on the world stage, it was during this half century that the world came to embrace all things American, from its innovations and businesses to its political system and popular culture. The United States began to define what the rest of the world could emulate as the new global ideal. *A Patriot's History of the Modern World* provides a new perspective on our extraordinary past—and offers lessons we can apply to preserve American exceptionalism today and tomorrow.

a patriots history of the united states: *Patriot's History® of the Modern World, Vol. II* Larry Schweikart, Dave Dougherty, 2013-12-05 The bestselling historians turn their focus to America's role in the world since the end of World War II. Schweikart, author of the number one New York Times bestseller *A Patriot's History of the United States*, and Dougherty take a critical look at America, from the postwar boom to her search for identity in the twenty-first century. The second volume of *A Patriot's History of the Modern World* picks up in 1945 with a world irrevocably altered by World War II and a powerful, victorious United States. But new foes and challenges soon arose:

the growing sphere of Communist influence, hostile dictatorships and unreliable socialist allies, the emergence of China as an economic contender, and the threat of world Islamification. The book reestablishes the argument of American exceptionalism and the interplay of our democratic pillars—Judeo-Christian religious beliefs, free market capitalism, land ownership, and common law—around the world. Schweikart and Dougherty offer a fascinating conservative history of the last six decades.

a patriots history of the united states: Seven Events That Made America America Larry Schweikart, 2010-06-01 A conservative historian examines some of the pivotal, yet often ignored, moments that shaped our history All students of American history know the big events that dramatically shaped our country. The Civil War, Pearl Harbor, the assassination of John F. Kennedy, and 9/11 are just a few. But there are other, less famous events that had an equally profound impact. Notable conservative historian Larry Schweikart takes an in- depth look at seven of these transformative moments and provides an analysis of how each of them spurred a trend that either confirmed or departed from the vision our Founding Fathers had for America. For instance, he shows how Martin Van Buren's creation of a national political party made it possible for Obama to get elected almost two centuries later and how Dwight Eisenhower's heart attack led to a war on red meat, during which the government took control over Americans' diets. In his easy-to-read yet informative style, Schweikart will not only educate but also surprise readers into reevaluating our history.

a patriots history of the united states: A People's History of the United States Howard Zinn, 2003-02-04 Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

a patriots history of the united states: 48 Liberal Lies about American History Larry Schweikart, 2008 As he did in his popular *A Patriot's History of the United States*, Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks 48 common myths.

a patriots history of the united states: A History of the American People Paul Johnson, 2009-06-30 As majestic in its scope as the country it celebrates. [Johnson's] theme is the men and women, prominent and unknown, whose energy, vision, courage and confidence shaped a great nation. It is a compelling antidote to those who regard the future with pessimism.— Henry A. Kissinger Paul Johnson's prize-winning classic, *A History of the American People*, is an in-depth portrait of the American people covering every aspect of U.S. history—from politics to the arts. The creation of the United States of America is the greatest of all human adventures, begins Paul Johnson's remarkable work. No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind. In *A History of the American People*, historian Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with

letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. Sometimes controversial and always provocative, *A History of the American People* is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

a patriots history of the united states: *The American Patriot's Almanac* William J. Bennett, John T.E. Cribb, 2013-04-08 Discover 365 reasons to love America as you read the storied history of the United States. The fife and drum of history mark the time of each passing day. And within their cadence, personalities, conflicts, discoveries, ideas, and nations peal and fade. American history is no different. Best-selling author and educator Dr. William J. Bennett is a master of the story that is the United States. In *The American Patriot's Almanac*, Bennett distills the American drama into 365 entries--one for each day of the year, with stories including: the starving time of Jamestown during the Winter of 1609 the bloody argument of the Civil War the invention of items such as Teflon The stories in this book are part of what Abraham Lincoln called the "mystic chords of memory." They are the symbols that define the essence of the United States, that mark its historic course, and connect its people. *The American Patriot's Almanac* is a daily source of inspiration and information about the history, heroes, and achievements that sum up what this nation is all about.

a patriots history of the united states: *What Would the Founders Say?* Larry Schweikart, 2011-03-08 The #1 New York Times bestselling coauthor of *A Patriot's History of the United States* examines ten current challenges. America is at a crossroads. We face two options: continue our descent toward big government, higher taxes, less individual liberty, and more debt or pull our country back on the path our Founding Fathers planned for us. But that path isn't always so easy to see. Following the success of his previous books, conservative historian Larry Schweikart tackles some of the key issues confronting our nation today: education, government bailouts, gun control, health care, the environment, and more. For each he asks, What would the founders say? and sets out to explore our history and offer wisdom to help us get back on track. What would really be compatible with the vision that Washington, Jefferson, Madison, and the other founders had for America? Written in Schweikart's informal yet informative style, *What Would the Founders Say?* is sure to delight his fans and anyone looking for a little clarity on tough issues.

a patriots history of the united states: *The American West* Larry Schweikart, Bradley J. Birzer, 2003 This comprehensive sourcebook is divided into five major sections, each covering an important historical period. Within each section, you'll find vivid, well-written narrative entries covering a wide range of fascinating subjects, including the Louisiana Purchase, the Oregon Trail, the California Gold Rush, and the Oklahoma Dust Bowl. In addition, eyewitness accounts taken from letters, diaries, and public documents put you in the center of the action as the broad sweep of history unfolds..

a patriots history of the united states: *A Patriot's A to Z of America* Edward Moser, 2011 America is a nation of firsts, from its pioneering innovation in technology and science to its politics, social affairs, and culture. But despite its intriguing and unique history, many Americans aren't as well-versed as they think they are when it comes to knowledge of the monumental events, people, and ideas that shaped this revolutionary country. Chock-full of surprising snippets of history you should know about, *A Patriot's A to Z of America: Things Every Good American Should Know* is the eye-opening remedy for every aspiring good American, featuring heroic events and creative individuals who surmounted great difficulties to achieve great things--going to the moon, wiring the planet, defeating the Nazis, setting up the first large democratic republic, and largely banishing starvation overseas--achievements of which no other nation can boast. Organized from A to Z, these exceptional tales are America's to tell and for you to discover.

a patriots history of the united states: Land of Hope Wilfred M. McClay, 2020-09-22 For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of citizenship in American society. The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as Land of Hope brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of Land of Hope will find both in its pages.

a patriots history of the united states: The End of America Naomi Wolf, 2007-09-05 A New York Times Bestseller! "I hope we wake up quickly because history shows it's a small window in which people can fight back before it is too dangerous to fight back."—Naomi Wolf on Fox News Channel's Tucker Carlson Tonight In a stunning indictment, best-selling author Naomi Wolf lays out her case for saving American democracy. In authoritative research and documentation Wolf explains how events parallel steps taken in the early years of the 20th century's worst dictatorships such as Germany, Russia, China, and Chile. The book cuts across political parties and ideologies and speaks directly to those among us who are concerned about the ever-tightening noose being placed around our liberties. In this timely call to arms, Naomi Wolf compels us to face the way our free America is under assault. She warns us—with the straight-to-fellow-citizens urgency of one of Thomas Paine's revolutionary pamphlets—that we have little time to lose if our children are to live in real freedom. "Recent history has profound lessons for us in the U.S. today about how fascist, totalitarian, and other repressive leaders seize and maintain power, especially in what were once democracies. The secret is that these leaders all tend to take very similar, parallel steps. The Founders of this nation were so deeply familiar with tyranny and the habits and practices of tyrants that they set up our checks and balances precisely out of fear of what is unfolding today. We are seeing these same kinds of tactics now closing down freedoms in America, turning our nation into something that in the near future could be quite other than the open society in which we grew up and learned to love liberty," states Wolf. Wolf is taking her message directly to the American people in the most accessible form and as part of a large national campaign to reach out to ordinary Americans about the dangers we face today. This includes a lecture and speaking tour, and being part of the nascent American Freedom Campaign, a grassroots effort to ensure that presidential candidates pledge to uphold the constitution and protect our liberties from further erosion. The End of America will shock, enrage, and motivate—spurring us to act, as the Founders would have counted on us to do in a time such as this, as rebels and patriots—to save our liberty and defend our nation.

a patriots history of the united states: Ages of American Capitalism Jonathan Levy, 2022-04-05 A leading economic historian traces the evolution of American capitalism from the colonial era to the present—and argues that we've reached a turning point that will define the era ahead. "A monumental achievement, sure to become a classic."—Zachary D. Carter, author of The Price of Peace In this ambitious single-volume history of the United States, economic historian Jonathan Levy reveals how capitalism in America has evolved through four distinct ages and how the country's economic evolution is inseparable from the nature of American life itself. The Age of Commerce spans the colonial era through the outbreak of the Civil War, and the Age of Capital traces the lasting impact of the industrial revolution. The volatility of the Age of Capital ultimately led to the Great Depression, which sparked the Age of Control, during which the government took on a more active role in the economy, and finally, in the Age of Chaos, deregulation and the growth of

the finance industry created a booming economy for some but also striking inequalities and a lack of oversight that led directly to the crash of 2008. In *Ages of American Capitalism*, Levy proves that capitalism in the United States has never been just one thing. Instead, it has morphed through the country's history—and it's likely changing again right now. "A stunning accomplishment . . . an indispensable guide to understanding American history—and what's happening in today's economy."—Christian Science Monitor "The best one-volume history of American capitalism."—Sven Beckert, author of *Empire of Cotton*

a patriots history of the united states: *American History, Combined Edition* Thomas S. Kidd, 2019-12-01 In this combined edition, the full content of volumes 1 and 2 of Thomas Kidd's *American History* are brought together in a single, accessible textbook. This sweeping narrative spans the full scope of American history from the first Native American societies to the political and cultural struggles of contemporary times. In clear, readable prose, and with attention to well-known and more obscure figures from American history, Kidd gives a robust account of the events, people, and ideas that gave shape to our nation. Students will come away from *American History* well-informed, and better prepared to wrestle with the political and cultural changes that have dramatically transformed contemporary American life. Praise for *American History* "Thomas Kidd has succeeded well in providing a high quality American history text that integrates the usual political and social history with its religious dimensions." —George Marsden, professor of history emeritus, University of Notre Dame "Thomas Kidd explores the entirety of American history in this carefully researched and clearly written text. It is an ideal book for students new to American history as well as for older readers who would like a sprightly, objective, and discerning refresher." —Mark Noll, professor of history emeritus, University of Notre Dame, and research professor of history, Regent College

a patriots history of the united states: *Reagan* Larry Schweikart, 2019-05-07 New York Times #1 bestselling author Larry Schweikart, armed with previously unseen sources from Ronald Reagan's Presidential Library, uncovers the most important president of the 20th century and details the life and policies of a man who still remains dear to the hearts of Americans. From his time as a lifeguard in Illinois to a sports announcer to a rising actor to a labor union leader, then finally governor of California in the tumultuous 1960s and ultimately President, Reagan's life is told as it has never been before.

a patriots history of the united states: *F Is for Flag* Wendy Cheyette Lewison, 2002-04-15 June 14 is Flag Day, but with so many American flags proudly displayed, every day seems like Flag Day. Perfect for reading together with a young child, *F Is for Flag* shows in simple terms how one flag can mean many things: a symbol of unity, a sign of welcome, and a reminder that-in good times and in bad-everyone in our country is part of one great big family.

a patriots history of the united states: *Going Down Jericho Road: The Memphis Strike, Martin Luther King's Last Campaign* Michael K. Honey, 2011-02-07 The definitive history of the epic struggle for economic justice that became Martin Luther King Jr.'s last crusade. Memphis in 1968 was ruled by a paternalistic plantation mentality embodied in its good-old-boy mayor, Henry Loeb. Wretched conditions, abusive white supervisors, poor education, and low wages locked most black workers into poverty. Then two sanitation workers were chewed up like garbage in the back of a faulty truck, igniting a public employee strike that brought to a boil long-simmering issues of racial injustice. With novelistic drama and rich scholarly detail, Michael Honey brings to life the magnetic characters who clashed on the Memphis battlefield: stalwart black workers; fiery black ministers; volatile, young, black-power advocates; idealistic organizers and tough-talking unionists; the first black members of the Memphis city council; the white upper crust who sought to prevent change or conflagration; and, finally, the magisterial Martin Luther King Jr., undertaking a Poor People's Campaign at the crossroads of his life, vilified as a subversive, hounded by the FBI, and seeing in the working poor of Memphis his hopes for a better America.

a patriots history of the united states: *Patriots* James Wesley Rawles, 2009-04-07 'Patriots' is a man's action-adventure novel set in the near future, as America is torn-by a full scale socio-economic collapse.

a patriots history of the united states: 52 Prepper Projects David Nash, 2013-11-01 Are you and your family self-reliant? Will you be able to provide for them and keep them safe? The best way to prepare for the future is not through fancy tools and gadgets—it's experience and knowledge that will best equip you to handle the unexpected. Everyone begins somewhere, especially with disaster preparedness. In 52 Prepper's Projects, you'll find a project for every week of the year, designed to start you off with the foundations of disaster preparedness and taking you through a variety of projects that will increase your knowledge in self-reliance and help you acquire the actual know-how to prepare for anything. Self-reliance isn't about building a bunker and waiting for the end of the world. It's about understanding the necessities in life and gaining the knowledge and skill sets that will make you better prepared for whatever life throws your way. 52 Prepper's Projects is the ultimate instructional guide to preparedness, and a must-have book for those with their eye on the future.

a patriots history of the united states: Scars of Independence Holger Hoock, 2017 Tory hunting -- Britain's dilemma -- Rubicon -- Plundering protectors -- Violated bodies -- Slaughterhouses -- Black holes -- Skiver them! -- Town-destroyer -- Americanizing the war -- Man for man -- Returning losers

a patriots history of the united states: A Decent, Orderly Lynching Frederick Allen, 2013-07-09 The deadliest campaign of vigilante justice in American history erupted in the Rocky Mountains during the Civil War when a private army hanged twenty-one troublemakers. Hailed as great heroes at the time, the Montana vigilantes are still revered as founding fathers. Combing through original sources, including eye-witness accounts never before published, Frederick Allen concludes that the vigilantes were justified in their early actions, as they fought violent crime in a remote corner beyond the reach of government. But Allen has uncovered evidence that the vigilantes refused to disband after territorial courts were in place. Remaining active for six years, they lynched more than fifty men without trials. Reliance on mob rule in Montana became so ingrained that in 1883, a Helena newspaper editor advocated a return to "decent, orderly lynching" as a legitimate tool of social control. Allen's sharply drawn characters, illustrated by dozens of photographs, are woven into a masterfully written narrative that will change textbook accounts of Montana's early days—and challenge our thinking on the essence of justice.

a patriots history of the united states: Common Sense Thomas Paine, 1918

a patriots history of the united states: A Patriot's ACT Kenneth Eade, 2015-08-11 When a naturalized American citizen turns up missing in Iraq, Brent Marks fights the Goliath US Government's Patriot Act. Santa Barbara accountant Ahmed Khury responds to the plea of his brother, a suspected money launderer in Iraq. Before Ahmed realizes what has happened, he is sent to Guantanamo Bay Detention Camp as a suspected terrorist, and is tortured to extract information that he doesn't have. The courtroom drama mounts as the drama outside the courtroom explodes, and when murder, corruption, and cover-up enter the picture, nobody, including Brent, is safe.

a patriots history of the united states: Empire of Liberty Gordon S. Wood, 2009-10-28 The Oxford History of the United States is by far the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, two New York Times bestsellers, and winners of the Bancroft and Parkman Prizes. Now, in the newest volume in the series, one of America's most esteemed historians, Gordon S. Wood, offers a brilliant account of the early American Republic, ranging from 1789 and the beginning of the national government to the end of the War of 1812. As Wood reveals, the period was marked by tumultuous change in all aspects of American life—in politics, society, economy, and culture. The men who founded the new government had high hopes for the future, but few of their hopes and dreams worked out quite as they expected. They hated political parties but parties nonetheless emerged. Some wanted the United States to become a great fiscal-military state like those of Britain and France; others wanted the country to remain a rural agricultural state very different from the European states. Instead, by 1815 the United States became something neither group anticipated. Many leaders expected American culture to flourish and surpass that of Europe; instead it became popularized and vulgarized. The leaders also hope to

see the end of slavery; instead, despite the release of many slaves and the end of slavery in the North, slavery was stronger in 1815 than it had been in 1789. Many wanted to avoid entanglements with Europe, but instead the country became involved in Europe's wars and ended up waging another war with the former mother country. Still, with a new generation emerging by 1815, most Americans were confident and optimistic about the future of their country. Named a New York Times Notable Book, *Empire of Liberty* offers a marvelous account of this pivotal era when America took its first unsteady steps as a new and rapidly expanding nation.

a patriots history of the united states: *The Other Civil War* Howard Zinn, 2011-03-15 *The Other Civil War* offers historian and activist Howard Zinn's view of the social and civil background of the American Civil War—a view that is rarely provided in standard historical texts. Drawn from his New York Times bestseller *A People's History of the United States*, this set of essays recounts the history of American labor, free and not free, in the years leading up to and during the Civil War. He offers an alternative yet necessary account of that terrible nation-defining epoch.

a patriots history of the united states: *A Patriot's Handbook*, 2003-05-07 A patriotic anthology similar in format to *THE BEST-LOVED POEMS OF JACQUELINE KENNEDY ONASSIS*, which will include poems, song lyrics, speeches, and other appropriate documents.

a patriots history of the united states: *A Young People's History of the United States* Howard Zinn, 2011-01-04 *A Young People's History of the United States* brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. *A Young People's History of the United States* is also a companion volume to *The People Speak*, the film adapted from *A People's History of the United States* and *Voices of a People's History of the United States*. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of *A Young People's History of the United States* presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true greatness is shaped by our dissident voices, not our military generals.

a patriots history of the united states: *Nickel and Dime* Barbara Ehrenreich, 2010-04-01 The New York Times bestselling work of undercover reportage from our sharpest and most original social critic, with a new foreword by Matthew Desmond, author of *Evicted* Millions of Americans work full time, year round, for poverty-level wages. In 1998, Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job—any job—can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home, took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales clerk. She lived in trailer parks and crumbling residential motels. Very quickly, she discovered that no job is truly unskilled, that even the lowliest occupations require exhausting mental and muscular effort. She also learned that one job is not enough; you need at least two if you int to live indoors. *Nickel and Dime* reveals low-rent America in all its tenacity, anxiety, and surprising generosity—a land of Big Boxes, fast food, and a thousand desperate stratagems for survival. Read it for the smoldering clarity of Ehrenreich's perspective and for a rare view of how prosperity looks from the bottom. And now, in a new foreword, Matthew Desmond, author of *Evicted: Poverty and Profit in the American City*, explains why, twenty years on in America, *Nickel and Dime* is more relevant than ever.

a patriots history of the united states: *The Story of Liberty, America's Heritage Through the Civil War* Michael Allen, 2017-06-29 This history book traces America's heritage, from Ancient and Medieval times, through the Civil War. It shows how the U.S.A. was founded on Greco-Roman, Judeo-Christian principles. It shows how the American Founding Fathers established a limited government.

a patriots history of the united states: *A War for the Soul of America* Andrew Hartman,

2019-04-26 The “unrivaled” history of America’s divided politics, now in a fully updated edition that examines the rise of Trump—and what comes next (New Republic). When it was published in 2015, Andrew Hartman’s history of the culture wars was widely praised for its compelling and even-handed account of how they came to define American politics at the close of the twentieth century. But it also garnered attention for Hartman’s declaration that the culture wars were over—and that the left had won. In the wake of Trump’s rise, driven by an aggressive fanning of those culture war flames, Hartman has brought *A War for the Soul of America* fully up to date, detailing the ways in which Trump’s success, while undeniable, represents the last gasp of culture war politics—and how the reaction he has elicited can show us early signs of the very different politics to come. “As a guide to the late twentieth-century culture wars, Hartman is unrivalled Incisive portraits of individual players in the culture wars dramas Reading Hartman sometimes feels like debriefing with friends after a raucous night out, an experience punctuated by laughter, head-scratching, and moments of regret for the excesses involved.” —New Republic

a patriots history of the united states: *Real Queer America* Samantha Allen, 2019-03-05 LAMBDA LITERARY AWARD FINALIST A transgender reporter’s powerful, profoundly moving narrative tour through the surprisingly vibrant queer communities sprouting up in red states (New York Times Book Review), offering a vision of a stronger, more humane America. Ten years ago, Samantha Allen was a suit-and-tie-wearing Mormon missionary. Now she’s a GLAAD Award-winning journalist happily married to another woman. A lot in her life has changed, but what hasn’t changed is her deep love of Red State America, and of queer people who stay in so-called flyover country rather than moving to the liberal coasts. In *Real Queer America*, Allen takes us on a cross-country road-trip stretching all the way from Provo, Utah to the Rio Grande Valley to the Bible Belt to the Deep South. Her motto for the trip: Something gay every day. Making pit stops at drag shows, political rallies, and hubs of queer life across the heartland, she introduces us to scores of extraordinary LGBT people working for change, from the first openly transgender mayor in Texas history to the manager of the only queer night club in Bloomington, Indiana, and many more. Capturing profound cultural shifts underway in unexpected places and revealing a national network of chosen family fighting for a better world, *Real Queer America* is a treasure trove of uplifting stories and a much-needed source of hope and inspiration in these divided times.

a patriots history of the united states: *Emancipating Slaves, Enslaving Free Men* Jeffrey Hummel, 2013-11-18 This book combines a sweeping narrative of the Civil War with a bold new look at the war’s significance for American society. Professor Hummel sees the Civil War as America’s turning point: simultaneously the culmination and repudiation of the American revolution. While the chapters tell the story of the Civil War and discuss the issues raised in readable prose, each chapter is followed by a detailed bibliographical essay, looking at all the different major works on the subject, with their varying ideological viewpoints and conclusions. In his economic analysis of slavery, Professor Hummel takes a different view than the two major poles which have determined past discussions of the topic. While some writers claim that slavery was unprofitable and harmful to the Southern economy, and others maintain it was profitable and efficient for the South, Hummel uses the economic concept of Deadweight Loss to show that slavery was both highly profitable for slave owners and harmful to Southern economic development. While highly critical of Confederate policy, Hummel argues that the war was fought to prevent secession, not to end slavery, and that preservation of the Union was not necessary to end slavery: the North could have let the South secede peacefully, and slavery would still have been quickly terminated. Part of Hummel’s argument is that the South crucially relied on the Northern states to return runaway slaves to their owners. This new edition has a substantial new introduction by the author, correcting and supplementing the account given in the first edition (the major revision is an increase in the estimate of total casualties) and a foreword by John Majewski, a rising star of Civil War studies.

a patriots history of the united states: *A People’s History of American Empire* Howard Zinn, Mike Konopacki, Paul Buhle, 2008-04 Adapted from the critically acclaimed chronicle of U.S. history, a study of American expansionism around the world is told from a grassroots perspective and

provides an analysis of important events from Wounded Knee to Iraq.

a patriots history of the united states: *Paul Revere's Ride* Henry Wadsworth Longfellow, 1907

a patriots history of the united states: *The Patriot's Handbook* George Grant, 1996 A concise introduction to the ideas, events and personalities of American freedom, *The Patriot's Handbook* is a valuable resource for anyone who wishes to understand the nation's identity as it has developed from its founding until now. Included are key documents, speeches, poems, songs, and profiles of the Presidents and many of the leaders who have contributed to the nation's history.

a patriots history of the united states: *Founding Myths* Ray Raphael, 2014-07-04 First published ten years ago, award-winning historian Ray Raphael's *Founding Myths* has since established itself as a landmark of historical myth-busting. With the author's trademark wit and flair, *Founding Myths* exposes the errors and inventions in America's most cherished tales, from Paul Revere's famous ride to Patrick Henry's "Liberty or Death" speech. For the seventy thousand readers who have been captivated by Raphael's eye-opening accounts, history has never been the same. In this revised tenth-anniversary edition, Raphael revisits the original myths and explores their further evolution over the past decade, uncovering new stories and peeling back additional layers of misinformation. This new edition also examines the highly politicized debates over America's past, as well as how school textbooks and popular histories often reinforce rather than correct historical mistakes. A book that "explores the truth behind the stories of the making of our nation" (National Public Radio), this revised edition of *Founding Myths* will be a welcome resource for anyone seeking to separate historical fact from fiction.

a patriots history of the united states: *Making of America* Robert D. Johnston, 2002-10 An overview of the history of the United States.

a patriots history of the united states: *The Penguin History of the United States of America* Hugh Brogan, 2001-03-29 This new edition of Brogan's superb one-volume history - from early British colonisation to the Reagan years - captures an array of dynamic personalities and events. In a broad sweep of America's triumphant progress. Brogan explores the period leading to Independence from both the American and the British points of view, touching on permanent features of 'the American character' - both the good and the bad. He provides a masterly synthesis of all the latest research illustrating America's rapid growth from humble beginnings to global dominance.
