### INTRODUCTION:

SAMANTHA POWER'S SEMINAL WORK, *A PROBLEM FROM HELL: AMERICA AND THE AGE OF GENOCIDE*, REMAINS A CHILLINGLY RELEVANT EXPLORATION OF THE UNITED STATES' RESPONSE TO GENOCIDE THROUGHOUT THE 20TH CENTURY. PUBLISHED BY BASIC BOOKS IN 2002, *A PROBLEM FROM HELL* BY SAMANTHA POWER ISN'T JUST A HISTORICAL ACCOUNT; IT'S A DAMNING INDICTMENT OF INACTION, A POWERFUL CALL TO ACTION, AND A FOUNDATIONAL TEXT IN THE ONGOING DEBATE SURROUNDING THE PREVENTION OF MASS ATROCITIES. THIS ARTICLE DELVES INTO THE BOOK'S CORE ARGUMENTS, ITS LASTING IMPACT ON POLICY AND ACADEMIA, AND ITS CONTINUING RELEVANCE IN A WORLD STILL GRAPPLING WITH THE SPECTER OF GENOCIDE.

### THE CORE ARGUMENT OF *A PROBLEM FROM HELL* BY SAMANTHA POWER

POWER METICULOUSLY DOCUMENTS NUMEROUS INSTANCES OF GENOCIDE—FROM THE ARMENIAN GENOCIDE TO THE RWANDAN GENOCIDE—DEMONSTRATING A RECURRING PATTERN OF US GOVERNMENT INDIFFERENCE, BUREAUCRATIC INERTIA, AND A PRIORITIZATION OF POLITICAL EXPEDIENCY OVER HUMANITARIAN INTERVENTION. *A PROBLEM FROM HELL* BY SAMANTHA POWER POWERFULLY ARGUES THAT THIS CONSISTENT FAILURE TO ACT, DRIVEN BY A COMPLEX INTERPLAY OF POLITICAL, ECONOMIC, AND IDEOLOGICAL FACTORS, CONSTITUTES A MORAL FAILING OF SIGNIFICANT PROPORTIONS. SHE DISSECTS THE INTERNAL DEBATES WITHIN THE US GOVERNMENT, REVEALING THE OFTEN-CONFLICTING PRIORITIES AND THE CHILLING EASE WITH WHICH THE PLIGHT OF DISTANT POPULATIONS COULD BE DISMISSED.

### IMPACT ON POLICY AND THE "RESPONSIBILITY TO PROTECT" (R2P) DOCTRINE

THE BOOK'S PUBLICATION HAD A PROFOUND IMPACT ON THE DISCOURSE SURROUNDING GENOCIDE PREVENTION. *A PROBLEM FROM HELL* BY SAMANTHA POWER PROVIDED COMPELLING EVIDENCE FOR THE NEED FOR A MORE PROACTIVE AND CONSISTENT APPROACH TO ADDRESSING MASS ATROCITIES. IT SIGNIFICANTLY CONTRIBUTED TO THE DEVELOPMENT AND ADOPTION OF THE "RESPONSIBILITY TO PROTECT" (R2P) DOCTRINE, A LANDMARK INTERNATIONAL COMMITMENT THAT PLACES THE ONUS ON THE INTERNATIONAL COMMUNITY TO PREVENT AND RESPOND TO GENOCIDE, WAR CRIMES, ETHNIC CLEANSING, AND CRIMES AGAINST HUMANITY. WHILE R2P HAS FACED CRITICISMS AND LIMITATIONS IN ITS IMPLEMENTATION, *A PROBLEM FROM HELL* BY SAMANTHA POWER SERVED AS A CRUCIAL CATALYST FOR ITS CREATION.

### CRITICISMS AND ONGOING DEBATES

WHILE WIDELY PRAISED, *A Problem from Hell* by Samantha Power hasn't been without its critics. Some have questioned the scope of the book's analysis, arguing that it overemphasizes the role of the US government while overlooking other contributing factors. Others have criticized the book's potential for "mission creep," suggesting that a too-broad interpretation of R2P could lead to unwarranted interventions. Nevertheless, these critiques don't diminish the book's enduring significance as a powerful and influential work.

## THE ENDURING RELEVANCE OF *A Problem from Hell* BY SAMANTHA POWER

IN THE YEARS SINCE ITS PUBLICATION, THE WORLD HAS WITNESSED FURTHER INSTANCES OF MASS VIOLENCE AND ATROCITIES. FROM DARFUR TO SYRIA, THE LESSONS HIGHLIGHTED IN *A Problem from Hell* by Samantha Power remain tragically relevant. The book's exploration of the bureaucratic and political obstacles to intervention offers valuable insights into the complexities of preventing genocide. Understanding these challenges is crucial for developing effective strategies to protect vulnerable populations and hold perpetrators accountable.

## *A Problem from Hell* BY SAMANTHA POWER AND THE FUTURE OF GENOCIDE PREVENTION

*A Problem from Hell* by Samantha Power serves as a stark reminder of the devastating consequences of inaction in the face of mass atrocities. While the book's focus is on the US response, its implications extend far beyond. It highlights the shared responsibility of the international community to prevent genocide and the urgent need for more robust mechanisms for early warning, rapid response, and accountability. The book compels us to examine our own complicity, our own potential for inaction, and to confront the uncomfortable truths about our collective response to suffering on a global scale. The ongoing relevance of *A Problem from Hell* by Samantha Power underscores the need for continued vigilance, critical analysis, and a renewed commitment to preventing future genocides.

**a problem from hell by samantha power: *The Education of an Idealist*** Samantha Power, 2019-09-10 A NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER An intimate, powerful, and galvanizing memoir by Pulitzer Prize winner, human rights advocate, and

former US Ambassador to the UN Samantha Power. Named one of the best books of the year: The New York Times • National Public Radio • Time • The Economist • The Washington Post • Vanity Fair • Christian Science Monitor • Publishers Weekly • Audible “Her highly personal and reflective memoir . . . is a must-read for anyone who cares about our role in a changing world.”—President Barack Obama Includes an updated afterword Tracing her distinctly American journey from immigrant to war correspondent to presidential Cabinet official, Samantha Power’s acclaimed memoir is a unique blend of suspenseful storytelling, vivid character portraits, and shrewd political insight. After her critiques of US foreign policy caught the eye of Senator Barack Obama, he invited her to work with him on Capitol Hill and then on his presidential campaign. When Obama won the presidency, Power went from being an activist outsider to serving as his human rights adviser and, in 2013, becoming the youngest-ever US Ambassador to the United Nations. Power transports us from her childhood in Dublin to the streets of war-torn Bosnia to the White House Situation Room and the world of high-stakes diplomacy, offering a compelling and deeply honest look at navigating the halls of power while trying to put one’s ideals into practice. Along the way, she lays bare the searing battles and defining moments of her life, shows how she juggled the demands of a 24/7 national security job with raising two young children, and makes the case for how we each can advance the cause of human dignity. This is an unforgettable account of the power of idealism—and of one person’s fierce determination to make a difference. “This is a wonderful book. [...] The interweaving of Power’s personal story, family story, diplomatic history and moral arguments is executed seamlessly and with unblinking honesty.”—THOMAS L. FRIEDMAN, The New York Times Book Review “Truly engrossing...A pleasure to read.”—RACHEL MADDOW “A beautiful memoir about the times we’re living in and the questions we must ask ourselves...I honestly couldn’t put it down.” —CHERYL STRAYED, author of Wild “Power’s compelling memoir provides critically important insights we should all understand as we face some of the most vexing issues of our time.” —BRYAN STEVENSON, author of Just Mercy

**a problem from hell by samantha power:** The Unquiet American Derek Chollet, Samantha Power, 2011-11-08 Richard Holbrooke, who died in December 2010, was a pivotal player in U.S. diplomacy for more than forty years. Most recently special envoy for Iraq and Afghanistan under President Obama, Holbrooke also served as assistant secretary of state for both Asia and Europe, and as ambassador to both Germany and the United Nations. He had a key role in brokering a peace agreement among warring factions in Bosnia that led to the Dayton Peace Accords in 1995. Widely regarded to possess one of the most penetrating minds of any modern diplomat of any nation, Holbrooke was also well known for his outsized personality, and his capacity to charm and offend in equally colossal measures. In this book, the friends and colleagues who knew him best survey his

accomplishments as a diplomat, activist, and author. Excerpts from Holbrooke's own writings further illuminate each significant period of his career. The *Unquiet American* is both a tribute to an exceptional public servant and a backstage history of the last half-century of American foreign policy.

**a problem from hell by samantha power:** *Fighting for Darfur* Rebecca Hamilton, 2011-02-01 Around the world, millions of people have added their voices to protest marches and demonstrations because they believe that, together, they can make a difference. When we failed to stop the genocide in Rwanda in 1994, we promised to never let such a thing happen again. But nine years later, as

news began to trickle out of killings in western Sudan, an area known as Darfur, the international community again faced the problem of how the United Nations and the United States government could respond to mass atrocity. Rebecca Hamilton passionately narrates the six-year grassroots campaign to draw global attention to the plight of Darfur's people. From college students who galvanized entire university campuses in the belief that their outcry could save millions of Darfuris still at risk, to celebrities such as Mia Farrow, who spurred politicians to act, to Steven Spielberg, who boycotted the 2008 Summer Olympics in Beijing, Hamilton details how advocacy for Darfur was an exuberant, multibillion-dollar effort. She then does what no one has done to date: she takes us into the corridors of power and the camps of Darfur, and reveals the impact of ordinary people's fierce determination to uphold the mantra of never again. Fighting for Darfur weaves a gripping story that both dramatizes our moral dilemma and shows the promise and perils of citizen engagement in a new era of global compassion.

Beyond that, *Never Again?* explores the uneasy U.S. relationship to the U.N. Genocide Convention and posits an analysis of U.S. response to genocide past and forthcoming: nonintervention followed by post-genocide justice. Visit our website for sample chapters!

**a problem from hell by samantha power: Why Evolution is True** Jerry A. Coyne, 2010-01-14 For all the discussion in the media about creationism and 'Intelligent Design', virtually nothing has been said about the evidence in question - the evidence for evolution by natural selection. Yet, as this succinct and important book shows, that evidence is vast, varied, and magnificent, and drawn from many disparate fields of science. The very latest research is uncovering a stream of evidence revealing evolution in action - from the actual observation of a species splitting into two, to new fossil discoveries, to the deciphering of the evidence stored in our genome. *Why Evolution is True* weaves together the many threads of modern work in genetics, palaeontology, geology, molecular biology, anatomy, and development to demonstrate the 'indelible stamp' of the processes first proposed by Darwin. It is a crisp, lucid, and accessible statement that will leave no one with an open mind in any doubt about the truth of evolution.

**a problem from hell by samantha power: The Failure to Prevent Genocide in Rwanda** Fred Grünfeld, Anke Huijboom, 2007-05-23 This volume is about the failure to prevent genocide in Rwanda in 1994. In particular, the research focuses on why the early warnings of an emerging genocide were not translated into early preventative action. The warnings were well documented by the most authoritative source, the Canadian U.N. peace-keeping commander General Romeo Dallaire and sent to the leading political civil servants in New York. The communications and the decisionmaking are scrutinized, i.e., who received what messages at what time, to whom the messages were forwarded and which (non-) decisions were taken in response to the alarming reports of weapon deliveries and atrocities. This book makes clear that this genocide could have been prevented. Published under the Transnational Publishers imprint.

**a problem from hell by samantha power: Shake Hands With the Devil** Romeo Dallaire, 2009-02-24 On the tenth anniversary of the date that UN peacekeepers landed in Rwanda, Random House Canada is proud to publish the unforgettable first-hand account of the genocide by the man who led the UN mission. Digging deep into shattering memories, General Dallaire has written a

powerful story of betrayal, naïveté, racism and international politics. His message is simple and undeniable: "Never again." When Lt-Gen. Roméo Dallaire received the call to serve as force commander of the UN intervention in Rwanda in 1993, he thought he was heading off on a modest and straightforward peacekeeping mission. Thirteen months later he flew home from Africa, broken, disillusioned and suicidal, having witnessed the slaughter of 800,000 Rwandans in only a hundred days. In *Shake Hands with the Devil*, he takes the reader with him on a return voyage into the hell of Rwanda, vividly recreating the events the international community turned its back on. This book is an unsparing eyewitness account of the failure by humanity to stop the genocide, despite timely warnings. Woven through the story of this disastrous mission is Dallaire's own journey from confident Cold Warrior, to devastated UN commander, to retired general engaged in a painful struggle to find a measure of peace, reconciliation and hope. This book is General Dallaire's personal account of his conversion from a man certain of his worth and secure in his assumptions to a man conscious of his own weaknesses and failures and critical of the institutions he'd relied on. It might not sit easily with standard ideas of military leadership, but understanding what happened to General Dallaire and his mission to Rwanda is crucial to understanding the moral minefields our peacekeepers are forced to negotiate when we ask them to step into the world's dirty wars. Excerpt from *Shake Hands with the Devil* My story is not a strictly military account nor a clinical, academic study of the breakdown of Rwanda. It is not a simplistic indictment of the many failures of the UN as a force for peace in the world. It is not a story of heroes and villains, although such a work could easily be written. This book is a *cri de coeur* for the slaughtered thousands, a tribute to the souls hacked apart by machetes because of their supposed difference from those who sought to hang on to power. . . . This book is the account of a few humans who were entrusted with the role of helping others taste the fruits of peace. Instead, we watched as the devil took control of paradise on earth and fed on the blood of the people we were supposed to protect.

**a problem from hell by samantha power:** *First Do No Harm* David N. Gibbs, 2009 In *First Do No Harm*, David Gibbs raises basic questions about the humanitarian interventions that have played a key role in U.S. foreign policy for the past twenty years. Using a wide range of sources, including government documents, transcripts of international war crimes trials, and memoirs, Gibbs shows how these interventions often heightened violence and increased human suffering. The book focuses on the 1991–99 breakup of Yugoslavia, which helped forge the idea that the United States and its allies could stage humanitarian interventions that would end ethnic strife. It is widely believed that NATO bombing campaigns in Bosnia and Kosovo played a vital role in stopping Serb-directed aggression, and thus resolving the conflict. Gibbs challenges this view, offering an extended critique of Samantha Power's Pulitzer Prize-winning book, *A Problem from Hell: America in the Age of Genocide*. He shows that intervention contributed to the initial breakup of Yugoslavia, and then helped spread the violence and destruction. Gibbs also explains how the motives for U.S. intervention were rooted in its struggle for continued hegemony in Europe. *First Do No Harm* argues for a new, noninterventionist model for U.S. foreign policy, one that deploys nonmilitary methods for addressing ethnic violence.

**a problem from hell by samantha power: Blood and Soil** Ben Kiernan, 2008-10-01 A book of surpassing importance that should be required reading for leaders and policymakers throughout the world For thirty years Ben Kiernan has been deeply involved in the study of genocide and crimes against humanity. He has played a key role in unearthing confidential documentation of the atrocities committed by the Khmer Rouge. His writings have transformed our understanding not only of twentieth-century Cambodia but also of the historical phenomenon of genocide. This new book—the first global history of genocide and extermination from ancient times—is among his most important achievements. Kiernan examines outbreaks of mass violence from the classical era to the present, focusing on worldwide colonial exterminations and twentieth-century case studies including the Armenian genocide, the Nazi Holocaust, Stalin's mass murders, and the Cambodian and Rwandan genocides. He identifies connections, patterns, and features that in nearly every case gave early warning of the catastrophe to come: racism or religious prejudice, territorial expansionism,

and cults of antiquity and agrarianism. The ideologies that have motivated perpetrators of mass killings in the past persist in our new century, says Kiernan. He urges that we heed the rich historical evidence with its telltale signs for predicting and preventing future genocides.

**a problem from hell by samantha power: Amity and Prosperity** Eliza Griswold, 2018-06-12 Winner of the 2019 Pulitzer Prize for General Nonfiction In *Amity and Prosperity*, the prizewinning poet and journalist Eliza Griswold tells the story of the energy boom's impact on a small town at the edge of Appalachia and one woman's transformation from a struggling single parent to an unlikely activist. Stacey Haney is a local nurse working hard to raise two kids and keep up her small farm when the fracking boom comes to her hometown of Amity, Pennsylvania. Intrigued by reports of lucrative natural gas leases in her neighbors' mailboxes, she strikes a deal with a Texas-based energy company. Soon trucks begin rumbling past her small farm, a fenced-off drill site rises on an adjacent hilltop, and domestic animals and pets start to die. When mysterious sicknesses begin to afflict her children, she appeals to the company for help. Its representatives insist that nothing is wrong. Alarmed by her children's illnesses, Haney joins with neighbors and a committed husband-and-wife legal team to investigate what's really in the water and air. Against local opposition, Haney and her allies doggedly pursue their case in court and begin to expose the damage that's being done to the land her family has lived on for centuries. Soon a community that has long been suspicious of outsiders faces wrenching new questions about who is responsible for their fate, and for redressing it: The faceless corporations that are poisoning the land? The environmentalists who fail to see their economic distress? A federal government that is mandated to protect but fails on the job? Drawing on seven years of immersive reporting, Griswold reveals what happens when an imperiled town faces a crisis of values, and a family wagers everything on an improbable quest for justice.

**a problem from hell by samantha power: Border Wars** Julie Hirschfeld Davis, Michael D. Shear, 2019-10-08 Two New York Times Washington correspondents provide a detailed, "fact-based account of what precipitated some of this administration's more brazen assaults on immigration" (*The Washington Post*) filled with never-before-told stories of this key issue of Donald Trump's presidency. No issue matters more to Donald Trump and his administration than restricting immigration. Julie Hirschfeld Davis and Michael D. Shear have covered the Trump administration from its earliest days. In *Border Wars*, they take us inside the White House to document how Stephen Miller and other anti-immigration officials blocked asylum-seekers and refugees, separated families, threatened deportation, and sought to erode the longstanding bipartisan consensus that immigration and immigrants make positive contributions to America. Their revelation of Trump's desire for a border moat filled with alligators made national news. As the authors reveal, Trump has used immigration to stoke fears ("the caravan"), attack Democrats and the courts, and distract from negative news and political difficulties. As he seeks reelection in 2020, Trump has elevated immigration in the imaginations of many Americans into a national crisis. *Border Wars* identifies the players behind Trump's anti-immigration policies, showing how they planned, stumbled and fought their way toward changes that have further polarized the nation. "[Davis and Shear's] exquisitely reported *Border Wars* reveals the shattering horror of the moment, [and] the mercurial unreliability and instability of the president" (*The New York Times Book Review*).

**a problem from hell by samantha power: Why Baseball Matters** Susan Jacoby, 2018-03-20 Baseball, first dubbed the "national pastime" in print in 1856, is the country's most tradition-bound sport. Despite remaining popular and profitable into the twenty-first century, the game is losing young fans, among African Americans and women as well as white men. Furthermore, baseball's greatest charm—a clockless suspension of time—is also its greatest liability in a culture of digital distraction. These paradoxes are explored by the historian and passionate baseball fan Susan Jacoby in a book that is both a love letter to the game and a tough-minded analysis of the current challenges to its special position—in reality and myth—in American culture. The concise but wide-ranging analysis moves from the Civil War—when many soldiers played ball in northern and southern prisoner-of-war camps—to interviews with top baseball officials and young men who prefer playing

online “fantasy baseball” to attending real games. Revisiting her youthful days of watching televised baseball in her grandfather’s bar, the author links her love of the game with the informal education she received in everything from baseball’s history of racial segregation to pitch location. Jacoby argues forcefully that the major challenge to baseball today is a shortened attention span at odds with a long game in which great hitters fail two out of three times. Without sanitizing this basic problem, *Why Baseball Matters* remind us that the game has retained its grip on our hearts precisely because it has repeatedly demonstrated the ability to reinvent itself in times of immense social change.

**a problem from hell by samantha power: *The End of the Myth*** Greg Grandin, 2019-03-05  
WINNER OF THE PULITZER PRIZE A new and eye-opening interpretation of the meaning of the frontier, from early westward expansion to Trump’s border wall. Ever since this nation’s inception, the idea of an open and ever-expanding frontier has been central to American identity. Symbolizing a future of endless promise, it was the foundation of the United States’ belief in itself as an exceptional nation – democratic, individualistic, forward-looking. Today, though, America has a new symbol: the border wall. In *The End of the Myth*, acclaimed historian Greg Grandin explores the meaning of the frontier throughout the full sweep of U.S. history – from the American Revolution to the War of 1898, the New Deal to the election of 2016. For centuries, he shows, America’s constant expansion – fighting wars and opening markets – served as a “gate of escape,” helping to deflect domestic political and economic conflicts outward. But this deflection meant that the country’s problems, from racism to inequality, were never confronted directly. And now, the combined catastrophe of the 2008 financial meltdown and our unwinnable wars in the Middle East have slammed this gate shut, bringing political passions that had long been directed elsewhere back home. It is this new reality, Grandin says, that explains the rise of reactionary populism and racist nationalism, the extreme anger and polarization that catapulted Trump to the presidency. The border wall may or may not be built, but it will survive as a rallying point, an allegorical tombstone marking the end of American exceptionalism.

**a problem from hell by samantha power: *When Should Law Forgive?*** Martha Minow, 2019-09-24 “Martha Minow is a voice of moral clarity: a lawyer arguing for forgiveness, a scholar arguing for evidence, a person arguing for compassion.” —Jill Lepore, author of *These Truths* In an age increasingly defined by accusation and resentment, Martha Minow makes an eloquent, deeply-researched argument in favor of strengthening the role of forgiveness in the administration of law. Through three case studies, Minow addresses such foundational issues as: Who has the right to forgive? Who should be forgiven? And under what terms? The result is as lucid as it is compassionate: A compelling study of the mechanisms of justice by one of this country’s foremost legal experts.

**a problem from hell by samantha power: *Liars*** Cass R. Sunstein, 2021-02-04 A powerful analysis of why lies and falsehoods spread so rapidly now, and how we can reform our laws and policies regarding speech to alleviate the problem. Lying has been with us from time immemorial. Yet today is different-and in many respects worse. All over the world, people are circulating damaging lies, and these falsehoods are amplified as never before through powerful social media platforms that reach billions. Liars are saying that COVID-19 is a hoax. They are claiming that vaccines cause autism. They are lying about public officials and about people who aspire to high office. They are lying about their friends and neighbors. They are trying to sell products on the basis of untruths. Unfriendly governments, including Russia, are circulating lies in order to destabilize other nations, including the United Kingdom and the United States. In the face of those problems, the renowned legal scholar Cass Sunstein probes the fundamental question of how we can deter lies while also protecting freedom of speech. To be sure, we cannot eliminate lying, nor should we try to do so. Sunstein shows why free societies must generally allow falsehoods and lies, which cannot and should not be excised from democratic debate. A main reason is that we cannot trust governments to make unbiased judgments about what counts as fake news. However, governments should have the power to regulate specific kinds of falsehoods: those that genuinely endanger health, safety, and the

capacity of the public to govern itself. Sunstein also suggests that private institutions, such as Facebook and Twitter, have a great deal of room to stop the spread of falsehoods, and they should be exercising their authority far more than they are now doing. As Sunstein contends, we are allowing far too many lies, including those that both threaten public health and undermine the foundations of democracy itself.

**a problem from hell by samantha power:** Unrivaled Michael C. Beckley, 2018-09-15 Beckley demonstrates that no country is poised to upend American primacy, not economically, not militarily, and not technologically.... The evidence he assembles should be part of any serious debate about where we are headed.— The New York Times The United States has been the world's dominant power for more than a century. Now many analysts believe that other countries are rising and the United States is in decline. Is the unipolar moment over? Is America finished as a superpower? In this book, Michael Beckley argues that the United States has unique advantages over other nations that, if used wisely, will allow it to remain the world's sole superpower throughout this century. We are not living in a transitional, post-Cold War era. Instead, we are in the midst of what he calls the unipolar era—a period as singular and important as any epoch in modern history. This era, Beckley contends, will endure because the US has a much larger economic and military lead over its closest rival, China, than most people think and the best prospects of any nation to amass wealth and power in the decades ahead. Deeply researched and brilliantly argued, this book covers hundreds of years of great power politics and develops new methods for measuring power and predicting the rise and fall of nations. By documenting long-term trends in the global balance of power and explaining their implications for world politics, the book provides guidance for policymakers, businesspeople, and scholars alike.

**a problem from hell by samantha power:** East West Street Philippe Sands, 2016-05-24 A profound, important book, a moving personal detective story and an uncovering of secret pasts, set in Europe's center, the city of bright colors—Lviv, Ukraine, dividing east from west, north from south, in what had been the Austro-Hungarian Empire. A book that explores the development of the world-changing legal concepts of “genocide” and “crimes against humanity” that came about as a result of the unprecedented atrocities of Hitler's Third Reich. It is also a spellbinding family memoir, as the author traces the mysterious story of his grandfather as he maneuvered through Europe in the face of Nazi atrocities. This is “a monumental achievement ... told with love, anger and precision” (John le Carré, acclaimed internationally bestselling author). East West Street looks at the personal and intellectual evolution of the two men who simultaneously originated the ideas of “genocide” and “crimes against humanity,” both of whom, not knowing the other, studied at the same university with the same professors, in “the Paris of Ukraine,” a major cultural center of Europe, a city variously called Lemberg, Lwów, Lvov, or Lviv. Phillippe Sands changes the way we look at the world, at our understanding of history and how civilization has tried to cope with mass murder

**a problem from hell by samantha power:** The Key to My Neighbor's House Elizabeth Neuffer, 2015-04-21 Interviewing war criminals and their victims, Neuffer explains, through the voices of people she follows over the course of a decade, how genocide erodes a nation's social and political environment. Her characters' stories and their competing notions of justice—from searching for the bodies of loved ones, to demanding war crime trials, to seeking bloody revenge—convinces readers that crimes against humanity cannot be resolved by simple talk of forgiveness, or through the more common recourse to forgetfulness.

**a problem from hell by samantha power:** Why Not Kill Them All? Daniel Chirot, Clark McCauley, 2010-07-01 Genocide, mass murder, massacres. The words themselves are chilling, evoking images of the slaughter of countless innocents. What dark impulses lurk in our minds that even today can justify the eradication of thousands and even millions of unarmed human beings caught in the crossfire of political, cultural, or ethnic hostilities? This question lies at the heart of *Why Not Kill Them All?* Cowritten by historical sociologist Daniel Chirot and psychologist Clark McCauley, the book goes beyond exploring the motives that have provided the psychological

underpinnings for genocidal killings. It offers a historical and comparative context that adds up to a causal taxonomy of genocidal events. Rather than suggesting that such horrors are the product of abnormal or criminal minds, the authors emphasize the normality of these horrors: killing by category has occurred on every continent and in every century. But genocide is much less common than the imbalance of power that makes it possible. Throughout history human societies have developed techniques aimed at limiting intergroup violence. Incorporating ethnographic, historical, and current political evidence, this book examines the mechanisms of constraint that human societies have employed to temper partisan passions and reduce carnage. Might an understanding of these mechanisms lead the world of the twenty-first century away from mass murder? *Why Not Kill Them All?* makes clear that there are no simple solutions, but that progress is most likely to be made through a combination of international pressures, new institutions and laws, and education. If genocide is to become a grisly relic of the past, we must fully comprehend the complex history of violent conflict and the struggle between hatred and tolerance that is waged in the human heart. In a new preface, the authors discuss recent mass violence and reaffirm the importance of education and understanding in the prevention of future genocides.

**a problem from hell by samantha power:** *The Undying* Anne Boyer, 2019-09-17 WINNER OF THE 2020 PULITZER PRIZE IN GENERAL NONFICTION *The Undying* is a startling, urgent intervention in our discourses about sickness and health, art and science, language and literature, and mortality and death. In dissecting what she terms 'the ideological regime of cancer,' Anne Boyer has produced a profound and unforgettable document on the experience of life itself. —Sally Rooney, author of *Normal People* Anne Boyer's radically unsentimental account of cancer and the 'carcinogenosphere' obliterates cliché. By demonstrating how her utterly specific experience is also irreducibly social, she opens up new spaces for thinking and feeling together. *The Undying* is an outraged, beautiful, and brilliant work of embodied critique. —Ben Lerner, author of *The Topeka School* A week after her forty-first birthday, the acclaimed poet Anne Boyer was diagnosed with highly aggressive triple-negative breast cancer. For a single mother living paycheck to paycheck who had always been the caregiver rather than the one needing care, the catastrophic illness was both a crisis and an initiation into new ideas about mortality and the gendered politics of illness. A twenty-first-century *Illness as Metaphor*, as well as a harrowing memoir of survival, *The Undying* explores the experience of illness as mediated by digital screens, weaving in ancient Roman dream diarists, cancer hoaxers and fetishists, cancer vloggers, corporate lies, John Donne, pro-pain "dolorists," the ecological costs of chemotherapy, and the many little murders of capitalism. It excoriates the pharmaceutical industry and the bland hypocrisies of "pink ribbon culture" while also diving into the long literary line of women writing about their own illnesses and ongoing deaths: Audre Lorde, Kathy Acker, Susan Sontag, and others. A genre-bending memoir in the tradition of *The Argonauts*, *The Undying* will break your heart, make you angry enough to spit, and show you contemporary America as a thing both desperately ill and occasionally, perversely glorious. Includes black-and-white illustrations

**a problem from hell by samantha power:** *Strange Rebels* Christian Caryl, 2014-03-11 Few moments in history have seen as many seismic transformations as 1979. That single year marked the emergence of revolutionary Islam as a political force on the world stage, the beginning of market revolutions in China and Britain that would fuel globalization and radically alter the international economy, and the first stirrings of the resistance movements in Eastern Europe and Afghanistan that ultimately led to the collapse of the Soviet Union. More than any other year in the latter half of the twentieth century, 1979 heralded the economic, political, and religious realities that define the

twenty-first. In *Strange Rebels*, veteran journalist Christian Caryl shows how the world we live in today -- and the problems that plague it -- began to take shape in this pivotal year. 1979, he explains, saw a series of counterrevolutions against the progressive consensus that had dominated the postwar era. The year's epic upheavals embodied a startling conservative challenge to communist and socialist systems around the globe, fundamentally transforming politics and economics worldwide. In China, 1979 marked the start of sweeping market-oriented reforms that have made the country the economic powerhouse it is today. 1979 was also the year that Pope John Paul II traveled to Poland, confronting communism in Eastern Europe by reigniting its people's suppressed Catholic faith. In Iran, meanwhile, an Islamic Revolution transformed the nation into a theocracy almost overnight, overthrowing the Shah's modernizing monarchy. Further west, Margaret Thatcher became prime minister of Britain, returning it to a purer form of free-market capitalism and opening the way for Ronald Reagan to do the same in the US. And in Afghanistan, a Soviet invasion fueled an Islamic holy war with global consequences; the Afghan mujahedin presaged the rise of al-Qaeda and served as a key factor -- along with John Paul's journey to Poland -- in the fall of communism. Weaving the story of each of these counterrevolutions into a brisk, gripping narrative, *Strange Rebels* is a groundbreaking account of how these far-flung events and disparate actors and movements gave birth to our modern age.

**a problem from hell by samantha power: *The New Killing Fields*** Kira Brunner, Nicolaus Mills, 2003-08-07 The question of the responsibility inherent in the unrivaled might of the U.S. military is one that continues to take up headlines across the globe. This award-winning group of reporters and scholars, including, among others, David Rieff, Peter Maass, Philip Gourevitch, William Shawcross, George Packer, Bill Berkeley and Samantha Power revisit four of the worst instances of state-sponsored killing--Cambodia, Yugoslavia, Rwanda, and East Timor--in the last half of the twentieth century in order to reconsider the success and failure of U.S. and U.N. military and humanitarian intervention. Featuring original essays and reporting, *The New Killing Fields* poses vital questions about the future of peacekeeping in the next century. In addition, theoretical essays by Michael Walzer and Michael Ignatieff frame the issue of intervention in terms of today's post-cold war reality and the future of human rights.

**a problem from hell by samantha power: *A People Betrayed*** Linda Melvern, 2014-04-10 Events in Rwanda in 1994 mark a landmark in the history of modern genocide. Up to one million people were killed in a planned public and political campaign. In the face of indisputable evidence, the Security Council of the United Nations failed to respond. In this classic of investigative journalism, Linda Melvern tells the compelling story of what happened. She holds governments to account, showing how individuals could have prevented what was happening and didn't do so. The book also reveals the unrecognised heroism of those who stayed on during the genocide, volunteer peacekeepers and those who ran emergency medical care. Fifteen years on, this new edition examines the ongoing impact of the 1948 Genocide Convention and the shock waves Rwanda caused around the world. Based on fresh interviews with key players and newly-released documents, *A People Betrayed* is a shocking indictment of the way Rwanda is and was forgotten and how today it is remembered in the West.

**a problem from hell by samantha power: *The Craft of Research, Fourth Edition*** Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, Joseph Bizup, William T. FitzGerald, 2016-10-07 With more than three-quarters of a million copies sold since its first publication, *The Craft of Research* has helped generations of researchers at every level—from first-year undergraduates to advanced graduate students to research reporters in business and government—learn how to conduct effective and meaningful research. Conceived by seasoned researchers and educators Wayne C. Booth, Gregory G. Colomb, and Joseph M. Williams, this fundamental work explains how to find and evaluate sources, anticipate and respond to reader reservations, and integrate these pieces into an argument that stands up to reader critique. The fourth edition has been thoroughly but respectfully revised by Joseph Bizup and William T. FitzGerald. It retains the original five-part structure, as well as the sound advice of earlier editions, but reflects the way research and writing

are taught and practiced today. Its chapters on finding and engaging sources now incorporate recent developments in library and Internet research, emphasizing new techniques made possible by online databases and search engines. Bizup and FitzGerald provide fresh examples and standardized terminology to clarify concepts like argument, warrant, and problem. Following the same guiding principle as earlier editions—that the skills of doing and reporting research are not just for elite students but for everyone—this new edition retains the accessible voice and direct approach that have made *The Craft of Research* a leader in the field of research reference. With updated examples and information on evaluation and using contemporary sources, this beloved classic is ready for the next generation of researchers.

Farah Jasmine Griffin has taken to her heart the phrase read until you understand, a line her father, who died when she was nine, wrote in a note to her. She has made it central to this book about love of the majestic power of words and love of the magnificence of Black life. Griffin has spent years rooted in the culture of Black genius and the legacy of books that her father left her. A beloved professor, she has devoted herself to passing these works and their wisdom on to generations of students. Here, she shares a lifetime of discoveries: the ideas that inspired the stunning oratory of Frederick Douglass and Malcolm X, the soulful music of Marvin Gaye and Stevie Wonder, the daring literature of Phillis Wheatley and Toni Morrison, the inventive artistry of Romare Bearden, and many more. Exploring these works through such themes as justice, rage, self-determination, beauty, joy, and mercy allows her to move from her aunt's love of yellow roses to Gil Scott-Heron's *Winter in America*. Griffin entwines memoir, history, and art while she keeps her finger on the pulse of the present, asking us to grapple with the continuing struggle for Black freedom and the ongoing project that is American democracy. She challenges us to reckon with our commitment to all the nation's inhabitants and our responsibilities to all humanity.

**a problem from hell by samantha power: Becoming Hitler** Thomas Weber, 2017 In *Becoming Hitler*, Thomas Weber continues from where he left off in his previous book, *Hitler's First War*, stripping away the layers of myth and fabrication in Hitler's own tale to tell the real story of Hitler's politicization and radicalization in post-First World War Munich. It is the gripping account of how an awkward and unemployed loner with virtually no recognizable leadership qualities and fluctuating political ideas turned into the charismatic, self-assured, virulently anti-Semitic leader with an all-or-nothing approach to politics with whom the world was soon to become tragically familiar. As Weber clearly shows, far from the picture of a fully-formed political leader which Hitler wanted to portray in *Mein Kampf*, his ideas and priorities were still very uncertain and largely undefined in early 1919 - and they continued to shift until 1923.

**a problem from hell by samantha power: Realizing Human Rights** NA NA, Samantha Power, Graham Allison, 2016-09-27 At the dawn of a new era, this book brings together leading activists, policy-makers and critics to reflect upon fifty years of attempts to improve respect for human rights. Authors include President Jimmy Carter, who helped inject human rights concerns into US policy; Wei Jingsheng, who struggled to do so in China; Louis Henkin, the modern father of international law, and Richard Goldstone, the former chief prosecutor for the Yugoslav and Rwandan war crimes tribunals. A half-century since the adoption of the Universal Declaration of Human Rights the time is right to assess how policies and actions effect the realization of human rights and to point to new directions and challenges that lie ahead. A must have for everyone in the human rights community and the broader foreign policy community as well as the reader who is increasingly aware of the

visibility of human rights concerns on the public stage.
