a rush of hope find answers to lifes questions film: The Oxford Handbook of Queer Cinema Ronald Gregg, Amy Villarejo, 2021 Queer media is not one thing but an ensemble of at least four moving variables: history, gender and sexuality, geography, and medium. While many scholars would pinpoint the early 1990s as marking the emergence of a cinematic movement (dubbed by B. Ruby Rich, the new queer cinema) in the United States, films and television programs that clearly spoke to LGBTQ themes and viewers existed at many different historical moments and in many different forms. Cross-dressing, same-sex attraction, comedic drag performance: at some points, for example in 1950s television, these were not undercurrents but very prominent aspects of mainstream cultural production. Addressing history not as dots on a progressive spectrum but as a uneven story of struggle, writers on queer cinema in this volume stress how that queer cinema did not appear miraculously at one moment but describes currents throughout the century-long history of the medium. Likewise, while queer is an Anglophone term that has been widely circulated, it by no means names a unified or complete spectrum of sexuality and gender identity, just as the LGBTQ+ alphabet soup struggles to contain the distinctive histories, politics, and cultural productions of trans artists and genderqueer practices. Across the globe, media makers have interrogated identity and desire through the medium of cinema through rubrics that sometimes vigorously oppose the Western embrace of the pejorative term queer, instead foregrounding indigenous genders and sexualities, or those forged in the global South, or those seeking alternative epistemologies. Finally, while cinema is in our title, many scholars in this collection see that term as an encompassing one, referencing cinema and media in a convergent digital environment. The lively and dynamic conversations introduced here aspire to sustain further reflection as queer cinema shifts into new configurations--

On a dark midwinter's night in an ancient inn on the river Thames, an extraordinary event takes place. The regulars are telling stories to while away the dark hours, when the door bursts open on a grievously wounded stranger. In his arms is the lifeless body of a small child. Hours later, the girl stirs, takes a breath and returns to life. Is it a miracle? Is it magic? Or can science provide an explanation? These questions have many answers, some of them quite dark indeed. Those who dwell on the river bank apply all their ingenuity to solving the puzzle of the girl who died and lived again, yet as the days pass the mystery only deepens. The child herself is mute and unable to answer the essential questions: Who is she? Where did she come from? And to whom does she belong? But answers proliferate nonetheless. Three families are keen to claim her. A wealthy young mother knows the girl is her kidnapped daughter, missing for two years. A farming family reeling from the discovery of their son's secret liaison stand ready to welcome their granddaughter. The parson's housekeeper, humble and isolated, sees in the child the image of her younger sister. But the return of a lost child is not without complications and no matter how heartbreaking the past losses, no matter how precious the child herself, this girl cannot be everyone's. Each family has

mysteries of its own, and many secrets must be revealed before the girl's identity can be known. Once Upon a River is a glorious tapestry of a book that combines folklore and science, magic and myth. Suspenseful, romantic, and richly atmospheric, this is "a beguiling tale, full of twists and turns like the river at its heart, and just as rich and intriguing" (M.L. Stedman, #1 New York Times bestselling author of *The Light Between Oceans*).

a rush of hope find answers to lifes questions film: *You're Not F*cking Crazy* Kendra Bergman, 2023-04-18 We are not crazy simply because we see images or hear voices in our mind. When our Logical Brain thinks about it, it cannot rationalize what is happening. Our Egoic Mind

jumps into action, convincing us we couldn't possibly be having these experiences and certainly shouldn't tell people about them. Our Egoic Mind knows these things sound crazy, "whackadoo", "woo-woo," out there, or impossible. Humanity is waking up to the reality that our Egoic Mind doesn't know what is or is not possible. My generation was told, "Be careful what you say, or they'll put you in the funny farm," (meaning mental institution). Back then, little was known about mental health. The general public was simply taught that they lock up the crazy people. 'They' was assumed to be the courts and 'crazy people' were those who acted or thought outside of societal norms. If you were crazy, it was understood that the police would come to your home, put you in a straitjacket, and haul you away to an institution where doctors would run experiments and medicate you, while they attempted a cure. Obviously that wasn't accurate, even back then. Now, scientists and doctors have studied the brain and human behavior to understand that not everything people experience that isn't understood by our Egoic Mind is mental illness; this is exactly the reason I want you, the person reading this book, to share your experiences and accept you are not f*cking crazy.

a rush of hope find answers to lifes questions film: Hammer Is a Word: Perry Stuart Gordon Anderson, 2013-06-18 Late one evening in the fall of 2005, just twenty minutes outside of Charlottetown, Prince Edward Island, a thirty-seven-year-old man takes a break from Coldplay to go outside his trailer on a farmer's field only to find out he is not alone. There was something floating a mere hundred feet or so just above him. It was the classic case of alien visitation, only there was nothing to suggest it was actually alien . . . just alien to him. Indeed it looked more like an Area 51 project gone astray. There were two of them, both identical and jet-black except for lights, extremely stealthy looking and totally silent. It wouldn't be the last time Mr. Anderson would come face-to-face with the paranormal. Something about their behavior seemed to be telling him that it was just somebody's mistake and to just go back inside the house and forget he had seen anything . . . trouble was . . . he didn't forget! He starts to wonder about his French speaking skills. Next morning he awoke to Sarah McLachlan's rendition of Black Bird.
