Lacoste, Simeon Smith, Daniel Pietersen, 2018-07-08 Secret, strange, dark, impure and dissonant...Enter the haunted landscapes of folk horror, a world of pagan village conspiracies, witch finders, and teenagers awakening to evil; of dark fairy tales, backwoods cults and obsolete technologies. Beginning with the classics Night of the Demon, Witchfinder General, The Wicker Man and Blood on Satan's Claw, We Don't Go Back surveys the genre of screen folk horror from across the world. Travelling from Watership Down to The Texas Chain Saw Massacre, with every stop inbetween, We Don't Go Back is a thoughtful, funny and essential overview of folk horror in TV and cinema. A beautiful rumination on the dark films and television that shaped me and a generation of odd children, for good or ill, worth a year of your time, because you won't just read the book, you'll feel a burning desire to watch everything mentioned within. - Robin Ince A comprehensive, accessible and often riotously funny tome weaving together folk horror in all its forms, from British television to the American backwoods, from Eastern European fairytales to the vengeful ghosts of East Asia. Ingham explores uncanny landscapes haunted by things buried, old cultures converging with the reluctance of contemporary reason, that very tension that gives his book its name. He attempts to both define folk horror and free it from definition, creating the ultimate guide to the genre's manifestations on film and offering a convincing argument as to why the genre resonates so compellingly with people today. - Kier-La Janisse, author of House of Psychotic Women

a short guide to writing about film pdf: Why I Write George Orwell, 2021-01-01 George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. a short guide to writing about film pdf: *Chocolat* Joanne Harris, 2010-12-03 When the exotic stranger Vianne Rocher arrives in the old French village of Lansquenet and opens a chocolate boutique called "La Celeste Praline" directly across the square from the church, Father Reynaud identifies her as a serious danger to his flock. It is the beginning of Lent: the traditional season of self-denial. The priest says she'll be out of business by Easter. To make matters worse, Vianne does not go to church and has a penchant for superstition. Like her mother, she can read Tarot cards. But she begins to win over customers with her smiles, her intuition for everyone's favourites, and her

delightful confections. Her shop provides a place, too, for secrets to be whispered, grievances aired. She begins to shake up the rigid morality of the community. Vianne's plans for an Easter Chocolate Festival divide the whole community. Can the solemnity of the Church compare with the pagan passion of a chocolate éclair? For the first time, here is a novel in which chocolate enjoys its true importance, emerging as an agent of transformation. Rich, clever, and mischievous, reminiscent of a folk tale or fable, this is a triumphant read with a memorable character at its heart. Says Harris: "You might see [Vianne] as an archetype or a mythical figure. I prefer to see her as the lone gunslinger who blows into the town, has a showdown with the man in the black hat, then moves on relentless. But on another level she is a perfectly real person with real insecurities and a very human desire for love and acceptance. Her qualities too - kindness, love, tolerance - are very human." Vianne and her young daughter Anouk, come into town on Shrove Tuesday. "Carnivals make us uneasy," says Harris, "because of what they represent: the residual memory of blood sacrifice (it is after all from the word *carne* that the term arises), of pagan celebration. And they represent a loss of inhibition; carnival time is a time at which almost anything is possible." The book became an international best-seller, and was optioned to film quickly. The Oscar-nominated movie, with its star-studded cast including Juliette Binoche (*The English Patient*) and Judi Dench (*Shakespeare in Love*), was directed by Lasse Hallström, whose previous film *The Cider House Rules* (based on a John Irving novel) also looks at issues of community and moral standards, though in a less lighthearted vein. The idea for the book came from a comment her husband made one day while he was immersed in a football game on TV. "It was a throwaway comment, designed to annoy and it did. It was along the lines of...Chocolate is to women what football is to men..." The idea stuck, and Harris began thinking that "people have these conflicting feelings about chocolate, and that a lot of people who have very little else in common relate to chocolate in more or less the same kind of way. It became a kind of challenge to see exactly how much of a story I could get which was uniquely centred around chocolate." Rich with metaphor and gorgeous writing...sit back and gorge yourself on *Chocolat*.

a short guide to writing about film pdf: *Expanded Cinema* Gene Youngblood, 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and

realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, Expanded Cinema clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.
