Topics include fantasy quests in computer games, celebrity walking tours, dark tourism sites, Hobbiton as theme park, surf movies, and social gangs of Disneyland. How physical, virtual, and imagined locations create a sense of place through their immediate experience or visitation is undergoing a revolution in technology, travel modes, and tourism behaviour. A number of shows originally staged Off Broadway have gone on to their own successful Broadway runs, from the ever-popular *A Chorus Line* and *Rent* to more off-beat productions like *Avenue Q* and *Little Shop of Horrors*. And while it remains to be seen if other popular Off Broadway shows like *Stomp*, *Blue Man Group*, and *Altar Boyz* will make it to the larger Broadway theaters, their Off Broadway runs have been enormously successful in their own right. This book discusses more than 1,800 Off Broadway, Off Off Broadway, showcase, and workshop musical productions. It includes detailed descriptions of Off Broadway musicals that closed in previews or in rehearsal, selected musicals that opened in Brooklyn and in New Jersey, and American operas that opened in New York, along with general overviews of Off Broadway institutions such as the Light Opera of Manhattan. The typical entry includes the name of the host theater or theaters; the opening date and number of performances; the production's cast and creative team; a list of songs; a brief plot synopsis; and general comments and reviews from the New York critics. Besides the individual entries, the book also includes a preface, a bibliography, and 21 appendices including a discography, filmography, a list of published scripts, and lists of musicals categorized by topic and composer.

More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works, designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.

a tourist guide to love cast: *Encyclopedia of American Short Films, 1926-1959* Graham Webb, 2020-07-27 Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.

to visit New York at least once. The Big Apple is a global tourist destination with a dizzying array of attractions throughout the five boroughs. The only problem is figuring out where to start—and that's where the city's tour guides come in. These guides are a vital part of New York's raucous sidewalk culture, and, as *The Tour Guide* reveals, the tours they offer are as fascinatingly diverse—and eccentric—as the city itself. Visitors can take tours that cover Manhattan before the arrival of European settlers, the nineteenth-century Irish gangs of Five Points, the culinary traditions of Queens, the culture of Harlem, or even the surveillance cameras of Chelsea—in short, there are tours to satisfy anyone's curiosity about the city's past or present. And the guides are as intriguing as the subjects, we learn, as Jonathan R. Wynn explores the lives of the people behind the tours, introducing us to office workers looking for a diversion from their desk jobs, unemployed actors honing their vocal skills, and struggling retirees searching for a second calling. Matching years of research with his own experiences as a guide, Wynn also lays bare the grueling process of acquiring an official license and offers a how-to guide to designing and leading a tour. Touching on the long history of tour-giving across the globe as well as the ups and downs of New York's tour guide industry in the wake of 9/11, *The Tour Guide* is as informative and insightful as the chatty, charming, and colorful characters at its heart.

a tourist guide to love cast: Climate Change and Human Security Michael R. Redclift, David Manuel Navarrete, Mark Pelling, 2011-07 The challenge presented by climate change is, by its nature, global. The populations of the Mexican Caribbean, the focus of this book, are faced by everyday decisions not unlike those in the urban North. The difference is that for the people of the Mexican Caribbean evidence of the effects of climate change, including hurricanes, is very familiar to them. This important study documents the choices and risks of people who are powerless to change the economic development model which is itself forcing climate change. The book examines the Mexican Caribbean coast and explores the wider issues of managing climate change in vulnerable areas of the tropics. It also points to the inability to integrate development thinking into climate change adaptation. The authors suggest that failures in local governance - the transparency of state actions and the local populations lack of effective power - represents a greater threat to adaptation than the absence of technical capacity in vulnerable areas. Using local case studies of communities, fishing villages and tourist destinations, this well-researched book will appeal to international students and academics working on climate change and professionals in development, conservation and tourism industries.

a tourist guide to love cast: Read My Life and Travel Experiences and I will Throw in a Kid Judy Tarvin, 2022-12-16 All the stories you will read in this book are true. My life and travel experiences are a collection of true short stories--mostly funny, some serious, some informational to the location, and some spiritual, covering seventy years. I share personal insights on the road to my relationship with Jesus Christ in hopes that you, too, will not only know of him but will truly know him. One of my favorite verses, among the hundreds in the Bible, which has guided me through many things is from Jeremiah 33:3, and it says, Call unto me, and I will answer thee, and show thee great and mighty things, which thou knowest not. Let me explain the kid part of this book. My oldest child was six when I became a believer. Her daddy was lost to the war in Vietnam. Later, a son came along and then two more daughters. There is no way I could have raised these kids without the help of Jesus growing me so I could grow them. The things I learned along the way were paramount in my life and theirs. However, there were many laughs along the way, and many times when I just had to shake my head and go on. If you have raised kids, I am sure you will relate.

a tourist guide to love cast: Critical Inclusive Tourism Catheryn Khoo, Prachi Thakur, Paolo Mura, Jess Sanggeyong Je, Mona Yang, 2024-09-06 This groundbreaking book addresses the

longstanding lack of consensus surrounding the approach to marginalization in tourism. The chapters identify critical components and question the legitimacy of who qualifies as marginalized. Crucially, the book formulates effective solutions to address marginalization within the tourism context. While previous studies in tourism and social sciences have presented diverse conceptualizations and explanations of marginalization, the chapters in this book meticulously scrutinize their contextualization in constructing structural marginalization within the tourism industry. By doing so the book offers a comprehensive understanding of how marginalisation manifests in the complex dynamics within the tourism sector. The chapters unravel the multifaceted dimensions of marginalization, providing a nuanced and informed perspective that contributes significantly to the ongoing discourse on inclusivity and equity within tourism knowledge. This book will be useful to tourism practitioners, academics, students, researchers and policymakers. The chapters in this book were originally published as a special issue of Tourism Recreation Research.

a tourist guide to love cast: Terror Television John Kenneth Muir, 2013-02-25 Although horror shows on television are popular in the 1990s thanks to the success of Chris Carter's The X-Files, such has not always been the case. Creators Rod Serling, Dan Curtis, William Castle, Quinn Martin, John Newland, George Romero, Stephen King, David Lynch, Wes Craven, Sam Raimi, Aaron Spelling and others have toiled to bring the horror genre to American living rooms for years. This large-scale reference book documents an entire genre, from the dawn of modern horror television with the watershed Serling anthology, Night Gallery (1970), a show lensed in color and featuring more graphic makeup and violence than ever before seen on the tube, through more than 30 programs, including those of the 1998-1999 season. Complete histories, critical reception, episode guides, cast, crew and guest star information, as well as series reviews are included, along with footnotes, a lengthy bibliography and an in-depth index. From Kolchak: The Night Stalker to Millennium, from The Evil Touch to Buffy the Vampire Slayer and Twin Peaks, Terror Television is a detailed reference guide to three decades of frightening television programs, both memorable and obscure.

a tourist guide to love cast: Touring Poverty Bianca Freire-Medeiros, 2014-11-13 Touring Poverty addresses a highly controversial practice: the transformation of impoverished neighbourhoods into valued attractions for international tourists. In the megacities of the Global South, selected and idealized aspects of poverty are being turned into a tourist commodity for consumption. The book takes the reader on a journey through Rocinha, a neighbourhood in Rio de Janeiro which is advertised as the largest favela in Latin America. Bianca Freire-Medeiros presents interviews with tour operators, guides, tourists and dwellers to explore the vital questions raised by this kind of tourism. How and why do diverse social actors and institutions orchestrate, perform and consume touristic poverty? In the context of globalization and neoliberalism, what are the politics of selling and buying the social experience of cities, cultures and peoples? With a full and sensitive exploration of the ethical debates surrounding the 'sale of emotions' elicited by the first-hand contemplation of poverty, Touring Poverty is an innovative book that provokes the reader to think about the role played by tourism - and our role as tourists - within a context of growing poverty. It will be of interest to students of sociology, anthropology, ethnography and methodology, urban studies, tourism studies, mobility studies, development studies, politics and international relations.
