The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

aba business law section annual meeting 2022: *The Anatomy of Corporate Law* Reinier Kraakman, John Armour, Paul Davies, Luca Enriques, Henry B. Hansmann, Gérard Hertig, Klaus J. Hopt, Hideki Kanda, Edward B. Rock, 2009-07-23 This is the long-awaited second edition of this highly regarded comparative overview of corporate law. This edition has been comprehensively updated to reflect profound changes in corporate law. It now includes consideration of additional matters such as the highly topical issue of enforcement in corporate law, and explores the continued convergence of corporate law across jurisdictions. The authors start from the premise that corporate (or company) law across jurisdictions addresses the same three basic agency problems: (1) the opportunism of managers vis-à-vis shareholders; (2) the opportunism of controlling shareholders vis-à-vis minority shareholders; and (3) the opportunism of shareholders as a class vis-à-vis other corporate constituencies, such as corporate creditors and employees. Every jurisdiction must address these problems in a variety of contexts, framed by the corporation's internal dynamics and its interactions with the product, labor, capital, and takeover markets. The authors' central claim, however, is that corporate (or company) forms are fundamentally similar and that, to a surprising degree, jurisdictions pick from among the same handful of legal strategies to address the three basic agency issues. This book explains in detail how (and why) the principal European jurisdictions, Japan, and the United States sometimes select identical legal strategies to address a given corporate law problem, and sometimes make divergent choices. After an introductory discussion of agency issues and legal strategies, the book addresses the basic governance structure of the corporation, including the powers of the board of directors and the shareholders meeting. It proceeds to creditor protection measures, related-party transactions, and fundamental corporate actions such as mergers and charter amendments. Finally, it concludes with an examination of friendly acquisitions, hostile takeovers, and the regulation of the capital markets.

aba business law section annual meeting 2022: *Beyond Smart* Ronda Muir, 2017 Everyone is familiar with IQ--intelligence quotient. Most lawyers put their IQ scores up there with their SAT and LSAT scores as generally acknowledged evidence of their competence. But what is your emotional intelligence quotient? And why should you care? Emotional intelligence (EI) is the ability to recognize, understand, and regulate our own and others' emotions. Industries worldwide have incorporated EI into their education, hiring, training, and management programs to maximize performance. *BEYOND SMART: LAWYERING WITH EMOTIONAL INTELLIGENCE* is the first comprehensive guide to understanding and raising emotional intelligence in the unique context of law practice. It explains the origins of EI, a lawyer's historic role in developing the concept, how lawyers compare in EI to other professionals and how to determine your level of EI. *Beyond Smart* also outlines how: - Emotionally intelligent lawyers are smarter, better practitioners--as negotiators, litigators and judges, make more money, and are physically and mentally healthier;- Emotionally intelligent law departments and law firms profit from more effective leadership, greater performance, enhanced teamwork, and increased client satisfaction, as well as lower attrition, healthcare and professional liability costs;- Emotionally intelligent practices can thrive in an increasingly competitive and technologically complex marketplace, even outperforming artificial intelligence; and- Individuals, workplaces and law schools can take steps to raise emotional intelligence. This user-friendly, practical resource is designed for today's legal professional who desires to improve their communication, client service and leadership skills and create a high performance, high functioning workplace.

aba business law section annual meeting 2022: *Marijuana Law, Policy, and Authority* Robert A. Mikos, 2017-05-17 *Marijuana Law, Policy, and Authority* is a first-of-its-kind law school casebook in a rapidly-emerging and exciting new field. The accessible, comprehensive, and engaging material guides students through the competing approaches to regulating marijuana, the purposes and effects of those approaches, and the legal authorities for choosing among them. The helpful organization intersperses these issues of substantive law, policy, and authority throughout the discussion of users, suppliers, and third parties. Substantive law materials cover either prohibitions

or regulations targeting users, suppliers, or third parties. Policy materials cover the goals of marijuana law and policy as well as the research on the impact of different marijuana policies. Authority materials address the different levels of government—federal, state, and local. Notes, questions, and numerous problems in each chapter provide additional thought-provoking material and help to reinforce student learning. Current, news-headlining cases keep the discussion interesting and lively. Key Features: Internationally renowned author Robert Mikos is the premier authority on marijuana law. He draws upon nearly a decade of professional experience teaching, lecturing, consulting, and writing about marijuana law and policy. Three distinct but inter-woven topics are covered: the substantive law governing marijuana; the policy rationales behind and outcomes produced by different approaches to regulating the drug; and the legal authority to regulate the drug. Students are guided through the multi-faceted legal and policy issues now confronting lawyers, lawmakers, judges, and policy analysts working in this emerging field. Written in a style that is familiar to law students, but also accessible to a much broader audience, including graduate and upper level undergraduate students in courses in policy studies, political science, and criminology. Cutting-edge issues are included that are intellectually engaging for students and professors alike—e.g., how are conflicts between state/ federal law resolved? What are the roles of courts and executive officers in terms of policy? Dives deeply into classic legal issues: contract enforceability and powers of court, Congress, and the state. Notes and Questions following cases offer stimulating fodder for discussion.

aba business law section annual meeting 2022: Discovery Across the Globe Brett Harrison (Lawyer), Gavin Foggo, Jorge Mestre (Lawyer), 2020 Discovery is one of the principal areas of civil litigation that requires collaboration across national lines and efficacy of court orders beyond jurisdictional boundaries. Although central to the practice of civil litigation in the United States, discovery is virtually unknown in most civil law jurisdictions, which creates a problem for obtaining necessary evidence from these countries. This book considers the procedures for obtaining evidence in the United States through the Federal Rules of Civil Procedure and the Hague Evidence Convention. The book then describes the laws that enable foreign litigants to obtain evidence in the respective countries. Each chapter discusses the controlling law on foreign discovery, including the type of evidence obtainable, confidentiality and privilege, alternative dispute resolution, and costs.
