abby de la rosa interview: Emotional Inheritance Galit Atlas, 2022-02-03 This book is about those family secrets that belong not only to us, but to our parents, grandparents, and other loved ones, and about the ways these impact our lives - keeping us from living to our full potential, creating gaps between what we want for ourselves and what we are able to have, and haunting us like ghosts. In the last decade, contemporary psychoanalysis and empirical research have expanded the literature on epigenetics and what is called intergenerational transmission of trauma, referring to the way trauma is transmitted from generation to generation and held in our minds and bodies, sometimes in uncanny ways. The people we love and those who raised us live inside us: we experience their emotional pain, we dream their memories, and these things shape our lives in ways that we don't always recognise. Emotional Inheritance describes the many ways in which we can identify the ghosts of the past that hold us back and interfere with our lives. For it is only by following the traces that those ghosts leave, and identifying the links between our life struggles and the emotional inheritance we carry, that we can change our destiny.

abby de la rosa interview: *Rafael Viñoly* Rafael Viñoly, 2002-11-21 Rafael Vinoly became famous as the architect of the stunning Tokyo International Forum (1989-1996). In Japan, where land is at a premium and public spaces are rare, the Forum with its 2.7 hectares and unusual design of public space, was widely admired. Originating in Uruguay, Vinoly heads an architectural office with an impressive list of projects in the areas of architecture, urban planning and interior design, including significant buildings such as the Philadelphia Regional Performing Arts Center which opened recently, Princeton University Stadium, the New Bronx Supreme Criminal Court Complex. In 1969 Vinoly founded his first office in Buenos Aires which was influenced by the Modern Movement but also by the ideas and concepts of the 1960s reflected in the work of Buckminster Fuller, Archigram and the Smithsons. Due to the political situation he emigrated and opened an office in New York in 1982. Despite the difficulties involved in starting over again in a new country where in the meantime post-modernism was prevalent, Vinoly stayed true to his style of architecture, feeling bound to the ethical considerations of modernism yet constantly questioning it, adapting it to changing conditions. With offices in New York and Tokyo, Rafael Vinoly Architects is now one of the most successful architectural offices worldwide. This book documents a large number of Vinoly's most significant buildings and projects. It also includes an essay by Joan Ockman, one of the best-known architecture theoreticians in the USA, and texts by Rafael Vinoly on his career which has been marked by the difficult political situation in Argentina and the cultural exchange between S. America, Europe and the USA.

abby de la rosa interview: *The Meaning of Mariah Carey* Mariah Carey, 2020-09-29 The global icon, award-winning singer, songwriter, producer, actress, mother, daughter, sister, storyteller and artist finally tells the unfiltered story of her life in *The Meaning of Mariah Carey*. It took me a lifetime to have the courage and the clarity to write my memoir. I want to tell the story of the moments - the ups and downs, the triumphs and traumas, the debacles and the dreams - that contributed to the person I am today. Though there have been countless stories about me throughout my career and very public personal life, it's been impossible to communicate the complexities and depths of my experience in any single magazine article or a ten-minute television

interview. And even then, my words were filtered through someone else's lens, largely satisfying someone else's assignment to define me. This book is composed of my memories, my mishaps, my struggles, my survival and my songs. Unfiltered. I went deep into my childhood and gave the scared little girl inside of me a big voice. I let the abandoned and ambitious adolescent have her say, and the betrayed and triumphant woman I became tell her side. Writing this memoir was incredibly hard, humbling and healing. My sincere hope is that you are moved to a new understanding, not only about me, but also about the resilience of the human spirit. Love, Mariah

abby de la rosa interview: Where the Wild Ladies Are Aoko Matsuda, 2020-10-20 In this delightfully uncanny collection of feminist retellings of traditional Japanese folktales (The New York Times Book Review), humans live side by side with spirits who provide a variety of useful services—from truth-telling to babysitting, from protecting castles to fighting crime. A busybody aunt who disapproves of hair removal; a pair of door-to-door saleswomen hawking portable lanterns; a cheerful lover who visits every night to take a luxurious bath; a silent house-caller who babysits and cleans while a single mother is out working. Where the Wild Ladies Are is populated by these and many other spirited women—who also happen to be ghosts. This is a realm in which jealousy, stubbornness, and other excessive “feminine” passions are not to be feared or suppressed, but rather cultivated; and, chances are, a man named Mr. Tei will notice your talents and recruit you, dead or alive (preferably dead), to join his mysterious company. With Where the Wild Ladies Are, Aoko Matsuda takes the rich, millenia-old tradition of Japanese folktales—shapeshifting wives and foxes, magical trees and wells—and wholly reinvents them, presenting a world in which humans are consoled, guided, challenged, and transformed by the only sometimes visible forces that surround them.

abby de la rosa interview: Qualitative Research Using R: A Systematic Approach Yanto Chandra, Liang Shang, 2019-04-23 This book highlights the rise of the Strauss-Corbin-Gioia (SCG) methodology as an important paradigm in qualitative research in the social sciences, and demonstrates how the SCG methodology can be operationalized and enhanced using RQDA. It also provides a technical and methodological review of RQDA as a new CAQDAS tool. Covering various techniques, it offers methodological guidance on how to connect CAQDAS tool with accepted paradigms, particularly the SCG methodology, to produce high- quality qualitative research and includes step-by-step instructions on using RQDA under the SCG qualitative research paradigm. Lastly, it comprehensively discusses methodological issues in qualitative research. This book is useful for qualitative scholars, PhD/postdoctoral students and students taking qualitative methodology courses in the broader social sciences, and those who are familiar with programming languages and wish to cross over to qualitative data analysis. At long last! We now have a qualitative data-analysis approach that enhances the use of a systematic methodology for conducting qualitative research. Chandra and Shang should be applauded for making our research lives a lot easier. And to top it all off, it's free. Dennis Gioia, Robert & Judith Auritt Klein Professor of Management, Smeal College of Business at Penn State University, USA “While we have a growing library of books on qualitative data analysis, this new volume provides a much needed new perspective. By combining a sophisticated understanding of qualitative research with an impressive command of R, the authors provide an important new toolkit for qualitative researchers that will improve the depth and rigor of their data analysis. And given that R is open source and freely available, their approach solves the all too common problem of access that arises from the prohibitive cost of more traditional qualitative

data analysis software. Students and seasoned researchers alike should take note!" Nelson Phillips, Abu Dhabi Chamber Chair in Strategy and Innovation, Imperial College Business School, United Kingdom This helpful book does what it sets out to do: offers a guide for systematizing and building a trail of evidence by integrating RQDA with the Gioia approach to analyzing inductive data. The authors provide easy-to-follow yet detailed instructions underpinned by sound logic, explanations and examples. The book makes me want to go back to my old data and start over! Nicole Coviello, Lazaridis Research Professor, Wilfrid Laurier University, Canada Qualitative Research Using R: A Systematic Approach guides aspiring researchers through the process of conducting a qualitative study with the assistance of the R programming language. It is the only textbook that offers "click-by-click" instruction in how to use RQDA software to carry out analysis. This book will undoubtedly serve as a useful resource for those interested in learning more about R as applied to qualitative or mixed methods data analysis. Helpful as well is the six-step procedure for carrying out a grounded-theory type study (the "Gioia approach") with the support of RQDA software, making it a comprehensive resource for those interested in innovative qualitative methods and uses of CAQDAS tools. abby de la rosa interview: Loisaida as Urban Laboratory Timo Schrader, 2020-11-15 Loisaida as Urban Laboratory is the first in-depth analysis of the network of Puerto Rican community activism

in New York City's Lower East Side from 1964 to 2001. Combining social history, cultural history, Latino studies, ethnic studies, studies of social movements, and urban studies, Timo Schrader uncovers the radical history of the Lower East Side. As little scholarship exists on the roles of institutions and groups in twentieth and twenty-first-century Puerto Rican community activism, Schrader enriches a growing discussion around alternative urbanisms. Loisaida was among a growing number of neighborhoods that pioneered a new form of urban living. The term Loisaida was coined, and then widely adopted, by the activist and poet Bittman "Bimbo" Rivas in an unpublished 1974 poem called "Loisaida" to refer to a part of the Lower East Side. Using this Spanglish version instead of other common labels honors the name that the residents chose themselves to counter real estate developers who called the area East Village or Alphabet City in an attempt to attract more artists and ultimately gentrify the neighborhood. Since the 1980s, urban planners and scholars have discussed strategies of urban development that revisit the pre-World War II idea of neighborhoods as community-driven and ecologically conscious entities. These "new urbanist" ideals are reflected in Schrader's rich historical and ethnographic study of activism in Loisaida, telling a vivid story of the Puerto Rican community's struggles for the right to stay and live with dignity in its home neighborhood.

abby de la rosa interview: Your Story, My Story Connie Palmen, 2021 From the award-winning author of *The Friendship* comes a shattering, brilliantly inventive novel based on the volatile true love story of literary icons Sylvia Plath and Ted Hughes. In 1963 Sylvia Plath took her own life in her London flat. Her death was the culmination of a brief, brilliant life lived in the shadow of clinical depression—a condition exacerbated by her tempestuous relationship with mercurial poet Ted Hughes. The ensuing years saw Plath rise to martyr status while Hughes was cast as the cause of her suicide, his infidelity at the heart of her demise. For decades, Hughes never bore witness to the truth of their marriage—one buried beneath a mudslide of apocryphal stories, gossip, sensationalism, and myth. Until now. In this mesmerizing fictional work, Connie Palmen tells his side of the story, previously untold, delivered in Ted Hughes's own uncompromising voice. A brutal and lyrical confessional, *Your Story, My Story* paints an indelible picture of their seven-year relationship—the soaring highs and profound lows of star-crossed soul mates bedeviled by their personal demons. It will forever change the way we think about these two literary icons.

abby de la rosa interview: Mud Sweeter than Honey Margo Rejmer, 2021-10-21 [An] incredibly moving collection of oral histories . . . important enough to be added to the history curriculum Telegraph A moving evocation of the 'everyday terror' systematically perpetrated over 41 years of Albanian communism . . . An illuminating if harrowing insight into life in a totalitarian state. Clarissa de Waal, author of *ALBANIA: PORTRAIT OF A COUNTRY IN TRANSITION* Albania,

enigmatic, mysterious Albania, was always the untold story of the Cold War, the 1989 revolutions and the fall of the Berlin Wall. *Mud Sweeter Than Honey* goes a very long way indeed towards putting that right New European After breaking ties with Yugoslavia, the USSR and then China, Enver Hoxha believed that Albania could become a self-sufficient bastion of communism. Every day, many of its citizens were thrown into prisons and forced labour camps for daring to think independently, for rebelling against the regime or trying to escape - the consequences of their actions were often tragic and irreversible. *Mud Sweeter than Honey* gives voice to those who lived in Albania at that time - from poets and teachers to shoe-makers and peasant farmers, and many others whose aspirations were brutally crushed in acts of unimaginable repression - creating a vivid, dynamic and often painful picture of this totalitarian state during the forty years of Hoxha's ruthless dictatorship. Very little emerged from Albania during communist times. With these personal accounts, Rejmer opens a window onto a terrifying period in the country's history. *Mud Sweeter than Honey* is not only a gripping work of reportage, but also a necessary and unique portrait of a nation. With an Introduction by Tony Barber *Winner of the Polityka Passport Prize**Winner of the Koscielski Award* Translated from the Polish by Zosia Krasodomska-Jones and Antonia Lloyd-Jones

abby de la rosa interview: *Moon Brow* Shahriar Mandanipour, 2018-04-24 Before he enlisted as a soldier in the Iran-Iraq war and disappeared, Amir Yamini was a carefree playboy whose only concerns were seducing women and riling his religious family. Five years later, his mother and sister Reyhaneh find him in a mental hospital for shell-shocked soldiers, his left arm and most of his memory lost. Amir is haunted by the vision of a mysterious woman whose face he cannot see-- the crescent moon on her forehead shines too brightly. He names her Moon Brow. Back home in Tehran, the prodigal son is both hailed as a living martyr to the cause of Ayatollah Khomeini's Revolution and confined as a dangerous madman. His sense of humor, if not his sanity, intact, Amir cajoles Reyhaneh into helping him escape the garden walls to search for Moon Brow. Piecing together the puzzle of his past, Amir decides theres only one solution: he must return to the battlefield and find the remains of his severed arm-- and discover its secrets--Amazon.com.

abby de la rosa interview: *Feminism and the Politics of Childhood* Rachel Rosen, Katherine Twamley, 2018-02-22 *Feminism and the Politics of Childhood* offers an innovative and critical exploration of perceived commonalities and conflicts between women and children and, more broadly, between various forms of feminism and the politics of childhood. This unique collection of 18 chapters brings into dialogue authors from a range of geographical contexts, social science disciplines, activist organisations, and theoretical perspectives. The wide variety of subjects include refugee camps, care labour, domestic violence and childcare and education. Chapter authors focus on local contexts as well as their global interconnections, and draw on diverse theoretical traditions such as poststructuralism, psychoanalysis, posthumanism, postcolonialism, political economy, and the ethics of care. Together the contributions offer new ways to conceptualise relations between women and children, and to address injustices faced by both groups. Praise for *Feminism and the Politics of Childhood: Friends or Foes?* 'This book is genuinely ground-breaking.' – Val Gillies, University of Westminster 'Feminism and the Politics of Childhood: Friends or Foes?' asks an impossible question, and then casts prismatic light on all corners of its impossibility.' – Cindi Katz, CUNY 'This provocative and stimulating publication comes not a day too soon.' – Gerison Lansdown, Child to Child 'A smart, innovative, and provocative book.' – Chandra Talpade Mohanty, Syracuse University 'This volume raises and addresses issues so pressing that it is surprising they are not already at the heart of scholarship.' – Ann Phoenix, UCL

abby de la rosa interview: *Havana Year Zero* Karla Suárez, 2021-02-23 Sex, lies, and scientific history collide in 1993 Havana. It was as if we'd reached the minimum critical point of a mathematical curve. Imagine a parabola. Zero point down, at the bottom of an abyss. That's how low we sank. The year is 1993. Cuba is at the height of the Special Period, a widespread economic crisis following the collapse of the Soviet bloc. For Julia, a mathematics lecturer who hates teaching, this is

Year Zero: the lowest possible point. But a way out appears: the search for a missing document that will prove the telephone was invented in Havana, secure her reputation, and give Cuba a purpose once more. What begins as an investigation into scientific history becomes a tangle of sex, friendship, family legacies, and the intricacies of how people find ways to survive in a country at its lowest ebb.

abby de la rosa interview: International Arbitration: Law and Practice Gary B. Born, 2021-06-07 International Arbitration: Law and Practice (Third Edition) provides comprehensive and authoritative coverage of the basic principles and legal doctrines, and the practice, of international arbitration. The book contains a systematic, but concise, treatment of all aspects of the arbitral process, including international arbitration agreements, international arbitral proceedings and international arbitral awards. The Third Edition guides both students and practitioners through the entire arbitral process, beginning with drafting, enforcing and interpreting international arbitration agreements, to selecting arbitrators and conducting arbitral proceedings, to recognizing, enforcing and seeking to annul arbitral awards. The book is written in clear, accessible language, suited for both law students and non-specialist practitioners, as well as more experienced readers. This highly regarded work addresses both international commercial arbitration and the related fields of investment and state-to-state arbitration and is essential reading for any student of international arbitration and any practitioner seeking a complete introduction to the field. The Third Edition has been comprehensively updated to include recent legislative amendments, judicial decisions and arbitral awards. Among other things, the book provides detailed treatment of the New York Convention, the UNCITRAL Model Law on International Commercial Arbitration, all leading institutional arbitration rules (including ICC, SIAC, LCIA, AAA and others), the ICSID Convention and ICSID Arbitration Rules, and judicial decisions from leading jurisdictions. The Third Edition is integrated with the author's classic International Commercial Arbitration and with the online Born International Arbitration Lectures, enabling students, teachers and practitioners to explore particular topics in more detail. About the Author: Gary B. Born is the world's leading authority on international arbitration and litigation. He has practiced extensively in both fields in Europe, the United States, Asia and elsewhere. He is the author of International Commercial Arbitration (Kluwer Law International 3rd ed. 2021), International Arbitration and Forum Selection Agreements: Drafting and Enforcing (Kluwer Law International 6th ed. 2021), International Commercial Arbitration: Cases and Materials (Aspen 3rd ed. 2021) and International Civil Litigation in United States Courts (Aspen 6th ed. 2018).

abby de la rosa interview: The Optical Unconscious Rosalind E. Krauss, 1994-07-25 The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of vision itself. And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and

continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about smart Jewish girls with their typewriters in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as Anti-Form. These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

abby de la rosa interview: Art for the Future Erina Duganne, 2022-01-11 A collective history of the 1980s anti-imperialist campaign In the early 1980s, a group of artists, writers and activists came together in New York City to form Artists Call Against US Intervention in Central America, a creative campaign that mobilized nationwide in an effort to bring attention to the US government's violent involvement in Latin American nations such as Nicaragua and El Salvador. Together the group staged over 200 exhibitions, concerts and other public events in a single year, raising awareness and funds for those disenfranchised by such political crises. Art for the Future illuminates the history of Artists Call with archival pieces and newly commissioned work in the spirit of the group's message. In Spanish and English, a wide selection of artists and organizers examine the group's history as well as the issues that were as urgent to Artists Call in 1984 as they are now: decolonization, Indigeneity, collectivity, human rights and self-determination. Artists include: Antena Aire, Benvenuto Chavajay, Leon Golub, Hans Haacke, Fredman Barahona & Christian Dietkus Lord, Sandra Monterroso, Carlos Motta, Claes Oldenburg, Gregory Sholette and Coosje van Bruggen, Maria Thereza Alves, Sabra Moore, Jerri Allyn, Dona Ann McAdams, Rudolf Baranik, Susan Meiselas, Alfredo Jaar, Martha Rosler, Jesús Romeo Galdámez and Jimmie Durham.
