According to William Ellery Channing: National Literature Includes More Than Just Books

Author: This report is authored by [Your Name/Institution Name], a researcher specializing in 19th-century American literature and transcendentalist thought. My research focuses on the intellectual and cultural currents shaping American identity during the formative period when William Ellery Channing's ideas held significant sway.

Introduction: William Ellery Channing (1780-1842), a prominent Unitarian minister and intellectual figure of the American Renaissance, profoundly impacted American thought and culture. His views on literature, particularly national literature, offer a valuable insight into the evolving cultural identity of the young United States. Understanding what, according to William Ellery Channing, national literature includes is crucial to grasping the intellectual landscape of his time and its lasting influence on subsequent literary and cultural discourse. This report delves into Channing's perspective, supported by evidence from his writings and the historical context of his era.

Keyword: The keyword "according to William Ellery Channing national literature includes" will be naturally integrated throughout the text to enhance SEO optimization.

Channing's Transcendentalist Lens: Shaping the Definition of National Literature

Channing's perspective was deeply rooted in Transcendentalism, a philosophical movement emphasizing intuition, individual experience, and the inherent goodness of humanity. This philosophical framework significantly shaped his understanding of what constituted national literature. According to William Ellery Channing, national literature included far more than just a collection of books; it was a reflection of a nation's soul, its moral character, and its aspirations. It was not merely a stylistic or aesthetic category but a powerful instrument for shaping national identity and promoting social reform.

Beyond Mere Aesthetics: Moral and Spiritual Dimensions

Unlike purely aesthetic-driven definitions of literature, according to William Ellery Channing, national literature includes a profound moral and spiritual dimension. He believed that a nation's literature should embody its highest ideals, reflecting its values and aspirations. He championed literature that promoted intellectual and spiritual growth, fostering a sense of national unity and purpose. He criticized literature that merely entertained without contributing to moral and intellectual development.

Evidence from Channing's Writings:

Channing's essays and sermons often explicitly or implicitly address the qualities he deemed essential to national literature. For instance, in his influential essay "Remarks on the Character and Writings of John Milton," he emphasizes Milton's ability to express profound moral truths and inspire readers to strive for higher ideals. This reflects Channing's belief that great literature should transcend mere entertainment and engage with fundamental questions of human existence and societal well-being. This aligns directly with understanding what, according to William Ellery Channing, national literature includes.

Furthermore, his advocacy for a literature rooted in democratic principles highlights another critical component of his perspective. According to William Ellery Channing, national literature includes voices from all segments of society, reflecting the diversity and complexity of the national experience. He believed in the power of literature to bridge social divides and promote understanding among different groups. This commitment to inclusivity was significantly ahead of its time.

The Role of National Literature in Shaping Character and Promoting Reform

Channing firmly believed that national literature played a crucial role in shaping the moral and intellectual character of a nation. According to William Ellery Channing, national literature includes works that inspire patriotism, promote social justice, and encourage intellectual inquiry. He saw literature as a powerful instrument for social reform, capable of influencing public opinion and inspiring positive change. This perspective is evident in his support for writers who tackled social issues and advocated for progressive causes.

The Influence of the American Landscape

Channing's appreciation for the natural world also influenced his view of national literature. According to William Ellery Channing, national literature includes representations of the American landscape and its impact on the national character. He valued works that captured the unique beauty and spirit of the American environment, reflecting the nation's distinct identity. This emphasis on the natural world aligns with the Transcendentalist appreciation of nature's spiritual significance.

Beyond the Written Word: Expanding the Definition

While Channing primarily focused on written works, his broader definition of national literature likely extended beyond mere books. According to William Ellery Channing, national literature includes oral traditions, folk songs, and other forms of cultural expression that reflect the collective consciousness of a nation. These forms, often overlooked in formal literary canons, contribute significantly to a nation’s cultural identity.

Publisher and Editor Information:

This report draws heavily upon the collected works of William Ellery Channing, published by [Publisher Name - e.g., a reputable academic press

like Harvard University Press or similar]. [Publisher Name] is known for its rigorous scholarly standards and commitment to preserving and disseminating important historical texts. The information has been compiled and analyzed by [Your Name/Institution Name], ensuring accurate representation of Channing's views. The editor of this report, [Editor's Name - if applicable], possesses expertise in [Editor's Area of Expertise - e.g., American literary history, Transcendentalism], lending further credibility to the research and analysis presented.

Summary:

This report explores William Ellery Channing's profound and multifaceted conception of national literature. According to William Ellery Channing, national literature includes not just aesthetically pleasing works, but also those with significant moral and spiritual depth, reflecting the nation's ideals and aspirations. He emphasized the role of literature in shaping national character, promoting social reform, and fostering a sense of national unity. His vision extended beyond written works, encompassing oral traditions and cultural expressions that capture the essence of national identity. Understanding Channing's perspective offers valuable insights into the formation of American cultural identity and the evolving role of literature in society.

Conclusion:

William Ellery Channing's vision of national literature offers a rich and enduring framework for understanding the relationship between literature, morality, and national identity. His emphasis on the moral and spiritual dimensions of literature, his advocacy for inclusivity, and his appreciation for the American landscape continue to resonate with contemporary discussions about the role of literature in society. According to William Ellery Channing, national literature includes a diverse range of expressions that collectively reflect the soul of a nation, its aspirations, and its ongoing journey towards self-understanding.

FAQs:

1. What was William Ellery Channing's religious affiliation? Channing was a prominent Unitarian minister.

1. How did Transcendentalism influence Channing's views on literature? Transcendentalism emphasized intuition, individual experience, and inherent goodness, shaping his belief that literature should promote moral and spiritual growth.

1. Did Channing advocate for specific types of literature? He championed literature that promoted moral and intellectual development and social reform.

1. How did Channing's view of national literature differ from purely aesthetic approaches? He prioritized moral and spiritual dimensions over mere aesthetic qualities.

1. What role did nature play in Channing's conception of national literature? He valued literature reflecting the American landscape and its influence on national character.

1. Did Channing's definition of national literature include non-written forms of expression? Yes, he likely considered oral traditions and other forms of cultural expression.

1. What is the significance of understanding Channing's views today? His perspective offers valuable insights into the relationship between literature and national identity.

1. How did Channing's views on literature influence subsequent American writers? His emphasis on morality and social reform resonated with many later American authors.

1. Where can I find more information on William Ellery Channing's writings? His collected works are available through reputable academic publishers and online archives.

according to william ellery channing national literature includes: Archives of American Time Lloyd Pratt, 2011-07-07 American historians have typically argued that a shared experience of time worked to bind the antebellum nation together. Trains, technology, and expanding market forces catapulted the United States into the future on a straight line of progressive time. The nation's exceedingly diverse population could cluster around this common temporality as one forward-looking people. In a bold revision of this narrative, Archives of American Time examines American literature's figures and forms to disclose the competing temporalities that in fact defined the antebellum period. Through discussions that link literature's essential qualities to social theories of modernity, Lloyd Pratt asserts that the competition between these varied temporalities forestalled the consolidation of national and racial identity. Paying close attention to the relationship between literary genre and theories of nationalism, race, and regionalism, Archives of American Time shows how the fine details of literary genres tell against the notion that they helped to create national, racial, or regional communities. Its chapters focus on images of invasive forms of print culture, the American historical romance, African American life writing, and Southwestern humor. Each in turn revises our sense of how these images and genres work in such a way as to reconnect them to a broad literary and social history of modernity. At precisely the moment when American authors began self-consciously to quest after a future in which national and racial identity would reign triumphant over all, their writing turned out to restructure time in a way that began foreclosing on that particular future.

according to william ellery channing national literature includes: *The Profession of Authorship in America, 1800-1870* William Charvat, 1992 This study focuses on the complex relations between author, publisher and contemporary reading public in 19th-century America; in particular, the emergence of Irving and Cooper as America's first successful literary entrepreneurs, how Poe's and Melville's successes and failures affected their writing, the popularization of poetry in the 1830s and 1840s, the role of the literary magazine in the 1840s and 1850s, and the beginnings of book promotion. It pays particular attention to the way social and economic forces helped to shape literary works.

according to william ellery channing national literature includes: Women Writers and Old Age in Great Britain, 1750-1850 Devoney Looser, 2008-08-01 This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories,

Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of classics, adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

according to william ellery channing national literature includes: *Complete Poems* Ernest Hemingway, 1992-01-01 Ernest Hemingway never wished to be widely known as a poet. He concentrated on writing short stories and novels, for which he won the Nobel Prize in 1956. But his poetry deserves close attention, if only because it is so revealing. Through verse he expressed anger and disgust—at Dorothy Parker and Edmund Wilson, among others. He parodied the poems and sensibilities of Rudyard Kipling, Joyce Kilmer, Robert Graves, Robert Louis Stevenson, and Gertrude Stein. He recast parts of poems by the likes of Ezra Pound and T. S. Eliot, giving them his own twist. And he invested these poems with the preoccupations of his novels: sex and desire, battle and aftermath, cats, gin, and bullfights. Nowhere is his delight in drubbing snobs and overrefined writers more apparent. In this revised edition of the Complete Poems, the editor, Nicholas Gerogiannis, offers here an afterword assessing the influence of the collection, first published in 1979, and an updated bibliography. Readers will be particularly interested in the addition of Critical Intelligence, a poem written soon after Hemingway's divorce from his first wife in 1927. Also available as a Bison Book: Hemingway's Quarrel with Androgyny by Mark Spilka.

according to william ellery channing national literature includes: *Reading Fiction in Antebellum America* James L. Machor, 2011-04-01 James L. Machor offers a sweeping exploration of how American fiction was received in both public and private spheres in the United States before the Civil War. Machor takes four antebellum authors—Edgar Allan Poe, Herman Melville, Catharine Sedgwick, and Caroline Chesebro'—and analyzes how their works were published, received, and interpreted. Drawing on discussions found in book reviews and in private letters and diaries, Machor examines how middle-class readers of the time engaged with contemporary fiction and how fiction reading evolved as an interpretative practice in nineteenth-century America. Through careful analysis, Machor illuminates how the reading practices of nineteenth-century Americans shaped not only the experiences of these writers at the time but also the way the writers were received in the twentieth century. What Machor reveals is that these authors were received in ways strikingly different from how they are currently read, thereby shedding significant light on their present status in the literary canon in comparison to their critical and popular positions in their own time. Machor deftly combines response and reception criticism and theory with work in the history of reading to engage with groundbreaking scholarship in historical hermeneutics. In so doing, Machor takes us ever closer to understanding the particular and varying reading strategies of historical audiences and how they impacted authors’ conceptions of their own readership.

according to william ellery channing national literature includes: Benét's Reader's Encyclopedia of American Literature George B. Perkins, Barbara Perkins, Phillip Leininger, 1991 Portions of this book appeared in a somewhat modified form in The Reader's encyclopedia of American literature (T.Y. Crowell, 1962) and in Benet's reader's encyclopedia, 3d ed. (Harper and Row, 1987). Some 1,500 entries are new; those that are not new have been revised and updated. The scope is American literature from the period of European exploration to the 1990s, with emphasis on

the US but including extensive coverage of Canada and Latin America. Entries include writers and writings, literary groups and movements, newspapers and other periodicals, and literary terms; also within the alphabetical arrangement are broad historical and topical essays. according to william ellery channing national literature includes: Reform in America Robert H. Walker, 2014-07-15 In discussing slavery and woman's rights, social security and the graduated income tax, writes Robert Walker, the reformers have defined and redefined America. Recognizing in the history of reform a prime source for the discovery of cultural priorities, Walker seeks in Reform in America to organize the reform experience in a new way, so that its collective patterns can be seen. Reform in America identifies three principal streams of reform advocacy in American history. Politico-economic issues, the mainstream of reform, are exemplified by a detailed study of the politics of money from 1832 to 1913. Reform on behalf of special groups, the second major category, is illuminated by the examples of movements on behalf of blacks and women and by an examination of the civil liberties and civil rights movements, which again have been principally concerned with the extension of rights and liberties to particular groups. A third category is established by connecting communitarianism, utopianism, and visionary planning to form a tradition through which ideal alternatives are offered to the existing social order. Walker's interpretation minimizes the stark contrasts in social activity and underlines those continuous forces that have moved American society steadily in the direction of broadened political participation, increased concern for special groups, and a dynamic sequence of cultural goals. He thus draws our attention to what may be America's most lasting frontier—the management of social change toward certain general objectives. The appreciation of reform, in the end, requires an adjusted perception of the national character, one that sees competitive individualism as at least balanced and perhaps outweighed by a demonstrated preoccupation with the common weal.

according to william ellery channing national literature includes: Outline of American Literature Kathryn Van Spanckeren, 2009-09-24 The Outline of American literature, newly revised, traces the paths of American narrative, fiction, poetry and drama as they move from pre-colonial times into the present, through such literary movements as romanticism, realism and experimentation. Contents: 1) Early American and Colonial Period to 1776. 2) Democratic Origins and Revolutionary Writers, 1776-1820. 3) The Romantic Period, 1820-1860, Essayists and Poets. 4) The Romantic Period, 1820-1860, Fiction. 5) The Rise of Realism: 1860-1914. 6) Modernism and Experimentation: 1914-1945. 7) American Poetry, 1945-1990: The Anti-Tradition. 8) American Prose, 1945-1990: Realism and Experimentation. 9) Contemporary American Poetry. 10) Contemporary American Literature.

according to william ellery channing national literature includes: Cracks in the Dome: Fractured Histories of Empire in the Zanzibar Museum, 1897-1964 Sarah Longair, 2016-03-09 As one of the most monumental and recognisable landmarks from Zanzibar’s years as a British Protectorate, the distinctive domed building of the Zanzibar Museum (also known as the Beit al-Amani or Peace Memorial Museum) is widely known and familiar to Zanzibaris and visitors alike. Yet the complicated and compelling history behind its construction and collection has been overlooked by historians until now. Drawing on a rich and wide range of hitherto unexplored archival, photographic, architectural and material evidence, this book is the first serious investigation of this remarkable institution. Although the museum was not opened until 1925, this book traces the longer history of colonial display which culminated in the establishment of the Zanzibar Museum. It reveals the complexity of colonial knowledge production in the changing political context of the twentieth century British Empire and explores the broad spectrum of people from diverse communities who shaped its existence as staff, informants, collectors and teachers. Through vivid narratives involving people, objects and exhibits, this book exposes the fractures, contradictions and tensions in creating and maintaining a colonial museum, and casts light on the conflicted character of the ’colonial mission’ in eastern Africa.

according to william ellery channing national literature includes: *Haunted Childhoods in George MacDonald* John Patrick Pazdziora, 2020-08-25 George MacDonald is generally remembered as a benevolent preacher who wrote fairy-tale books for children. Closer reading, however, reveals one of the most startlingly inventive, slyly subversive Scottish writers of the nineteenth century. His writings for children emerged from his own long struggle with faith and doubt in the face of multiple bereavements, chronic illness, and the persistent threat of early death. Haunted Childhoods in George MacDonald reconsiders death and divine love in MacDonald's writings for children. It examines his private letters and public sermons, obscure early writings, and most beloved stories. Setting his work alongside texts by James Hogg and Andrew Lang, it argues that MacDonald appropriated traditional Scottish folk narratives to help child readers apprehend his mystically-inclined understanding of mortality.

according to william ellery channing national literature includes: The Essential Writings of Ralph Waldo Emerson Ralph Waldo Emerson, 2009-09-30 Introduction by Mary Oliver Commentary by Henry James, Robert Frost, Matthew Arnold, Oliver Wendell Holmes, and Henry David Thoreau The definitive collection of Emerson's major speeches, essays, and poetry, The Essential Writings of Ralph Waldo Emerson chronicles the life's work of a true "American Scholar." As one of the architects of the transcendentalist movement, Emerson embraced a philosophy that championed the individual, emphasized independent thought, and prized "the splendid labyrinth of one's own perceptions." More than any writer of his time, he forged a style distinct from his European predecessors and embodied and defined what it meant to be an American. Matthew Arnold called Emerson's essays "the most important work done in prose." INCLUDES A MODERN LIBRARY READING GROUP GUIDE

according to william ellery channing national literature includes: Emerson's Protégés David Dowling, 2014-08-26 In the late 1830s, Ralph Waldo Emerson, American essayist, poet, lecturer, and leader of the Transcendentalist movement, publicly called for a radical nationwide vocational reinvention, and an idealistic group of collegians eagerly responded. Assuming the role of mentor, editor, and promoter, Emerson freely offered them his time, financial support, and anti-materialistic counsel, and profoundly shaped the careers of his young acolytes—including Henry David Thoreau, renowned journalist and women's rights advocate Margaret Fuller, and lesser-known literary figures such as Samuel Ward and reckless romantic poets Jones Very, Ellery Channing, and Charles Newcomb. Author David Dowling's history of the professional and personal relationships between Emerson and his protégés—a remarkable collaboration that alternately proved fruitful and

destructive, tension-filled and liberating—is a fascinating true story of altruism, ego, influence, pettiness, genius, and the bold attempt to reshape the literary market of the mid-nineteenth century.

according to william ellery channing national literature includes: Narrating the Nation Stefan Berger, Linas Eriksonas, Andrew Mycock, 2008-10-01 A sustained and systematic study of the construction, erosion and reconstruction of national histories across a wide variety of states is highly topical and extremely relevant in the context of the accelerating processes of Europeanization and globalization. However, as demonstrated in this volume, histories have not, of course, only been written by professional historians. Drawing on studies from a number of different European nation states, the contributors to this volume present a systematic exploration, of the representation of the national paradigm. In doing so, they contextualize the European experience in a more global framework by providing comparative perspectives on the national histories in the Far East and North America. As such, they expose the complex variables and diverse actors that lie behind the narration of a nation.

according to william ellery channing national literature includes: *Literary Dollars and Social Sense* Ronald J. Zboray, Mary Saracino Zboray, 2013-10-08 Prior to the Civil War, publishing in America underwent a transformation from a genteel artisan trade supported by civic patronage and religious groups to a thriving, cut-throat national industry propelled by profit. Literary Dollars and Social Sense represents an important chapter in the historical experience of print culture, it illuminates the phenomenon of amateur writing and delineates the access points of the emerging mass market for print for distributors consumers and writers. It challenges the conventional assumptions that the literary public had little trouble embracing the new literary marketing that emerged at mid-century. The book uncover the tensions that author's faced between literature's role in the traditional moral economy and the lure of literary dollars for personal gain and fame. This book marks an important example in how scholars understand and conduct research in American literature.

according to william ellery channing national literature includes: The Declaration of Independence Carl Lotus Becker, 2017 In this long essay Becker analyzed the structure, drafting, and philosophy of the Declaration. He recognizes that it was not intended as an objective historical statement of the causes of the Revolution, but merely furnished a moral and legal justification for rebellion. Step by step, the colonists modified their theory to suit their needs. Whenever men become sufficiently dissatisfied with the existing regime of positive law and custom, they will be found reaching out beyond it for the rational basis of what they conceive ought to be. This is what the Americans did in their controversy with Great Britain.

according to william ellery channing national literature includes: Narratives of Enlightenment Karen O'Brien, 1997-06-05 Narratives of Enlightenment is an interdisciplinary study of cosmopolitan approaches to the past. It reappraises the work of five of the most important narrative historians of the century - Voltaire, David Hume, William Robertson, Edward Gibbon and the historian of the American Revolution, David Ramsay - in the context of political and national debates in France, Scotland, England and America; and it investigates the nature and degree of their intellectual investment in the idea of a common European civilisation. Karen O'Brien combines the methodologies of literary criticism and intellectual history to explore debates about Enlightenments and the political uses of narrative. Where previous studies have emphasised the growth of nationalism in eighteenth-century literature, she reveals the development of cosmopolitan ways of thinking beyond national cultural issues.

according to william ellery channing national literature includes: Higher Education , 1981

according to william ellery channing national literature includes: *Building a National Literature* Peter Uwe Hohendahl, 1989 Building a National Literature boldly takes issue with traditional literary criticism for its failure to explain how literature as a body is created and shaped by institutional forces. Peter Uwe Hohendahl approaches literary history by focusing on the material and ideological structures that determine the canonical status of writers and works. He examines important elements in the making of a national literature, including the political and literary public sphere, the theory and practice of literary criticism, and the emergence of academic criticism as literary history. Hohendahl considers such key aspects of the process in Germany as the rise of liberalism and nationalism, the delineation of the borders of German literature, the idea of its history, the understanding of its cultural function, and the notion of a canon of major and minor authors.
