accounting solutions hampstead nc: In Defense of Housing Peter Marcuse, David Madden, 2024-08-27

In every major city in the world there is a housing crisis. How did this happen and what can we do about it? Everyone needs and deserves housing. But today our homes are being transformed into commodities, making the inequalities of the city ever more acute. Profit has become more important than social need. The poor are forced to pay more for worse housing. Communities are faced with the violence of displacement and gentrification. And the benefits of decent housing are only available for those who can afford it. In *Defense of Housing* is the definitive statement on this crisis from leading urban planner Peter Marcuse and sociologist David Madden. They look at the causes and consequences of the housing problem and detail the need for progressive alternatives. The housing crisis cannot be solved by minor policy shifts, they argue. Rather, the housing crisis has deep political and economic roots—and therefore requires a radical response.

accounting solutions hampstead nc: The Culture of Homelessness Megan Ravenhill, 2016-03-16

Despite an extensive literature on homelessness there is surprisingly little work that investigates the roots of homelessness by tracking homeless people over time. In this fascinating and much-needed ethnographic study, Megan Ravenhill presents the results of ten years' research on the streets and in the hostels and day-centres of the UK, incorporating intensive interviews with 150 homeless and formerly homeless people as well as policy makers and professionals working with homeless people. Ravenhill discusses the biographical, structural and behavioural factors that lead to homelessness. Amongst the important and unique features of the study are: the use of life-route maps showing the circumstances and decisions that lead to homelessness, a systematic study of the timescales involved, and a survey of people's exit routes from homelessness. Ravenhill also identifies factors that predict those most vulnerable to homelessness and factors that prevent or considerably delay the onset of homelessness.

accounting solutions hampstead nc: London's Urban Landscape Christopher Tilley, 2019-05-07

London's Urban Landscape is the first major study of a global city to adopt a materialist perspective and stress the significance of place and the built environment to the urban landscape. Edited by Christopher Tilley, the volume is inspired by phenomenological thinking and presents fine-grained ethnographies of the practices of everyday life in London. In doing so, it charts a unique

perspective on the city that integrates ethnographies of daily life with an analysis of material culture. The first part of the volume considers the residential sphere of urban life, discussing in detailed case studies ordinary residential streets, housing estates, suburbia and London's mobile 'linear village' of houseboats. The second part analyses the public sphere, including ethnographies of markets, a park, the social rhythms of a taxi rank, and graffiti and street art. London's Urban Landscape returns us to the everyday lives of people and the manner in which they understand their lives. The deeply sensuous character of the embodied experience of the city is invoked in the thick descriptions of entangled relationships between people and places, and the paths of movement between them. What stories do door bells and house facades tell us about contemporary life in a Victorian terrace? How do antiques acquire value and significance in a market? How does living in a concrete megastructure relate to the lives of the people who dwell there? These and a host of other questions are addressed in this fascinating book that will appeal widely to all readers interested in London or contemporary urban life.

accounting solutions hampstead nc: *Mapping Society* Laura Vaughan, 2018-09-24 From a rare map of yellow fever in eighteenth-century New York, to Charles Booth's famous maps of poverty in nineteenth-century London, an Italian racial zoning map of early twentieth-century Asmara, to a map of wealth disparities in the banlieues of twenty-first-century Paris, Mapping Society traces the evolution of social cartography over the past two centuries. In this richly illustrated book, Laura Vaughan examines maps of ethnic or religious difference, poverty, and health inequalities, demonstrating how they not only serve as historical records of social enquiry, but also constitute inscriptions of social patterns that have been etched deeply on the surface of cities. The book covers themes such as the use of visual rhetoric to change public opinion, the evolution of sociology as an academic practice, changing attitudes to physical disorder, and the complexity of segregation as an urban phenomenon. While the focus is on historical maps, the narrative carries the discussion of the spatial dimensions of social cartography forward to the present day, showing how disciplines such as public health, crime science, and urban planning, chart spatial data in their current practice.

Containing examples of space syntax analysis alongside full colour maps and photographs, this volume will appeal to all those interested in the long-term forces that shape how people live in cities.

accounting solutions hampstead nc: Destination London Andrew Smith, Anne Graham, 2019-05-21 London is one of the world's most popular destinations and visitors contribute approximately £14.9 billion of expenditure to the city every year. Its tourism and events sectors are growing and over the last few years London has received more visitors than ever before. However, detailed accounts of the city's visitor economy are conspicuously absent. This book analyses how the capital is developing as a destination through the expansion of tourism and events into new urban spaces. The book outlines how parts of London not previously regarded as tourist territory are now subject to the visitor gaze with tourism spreading beyond established central zones into peripheral, suburban and residential areas - in part propelled by a big rise in peer to peer accommodation use. Simultaneously, London's airports and sports stadiums and their surrounds are becoming destinations in their own right. New vantage points have been created, allowing tourists to explore the city: from above, at night-time or through tours given by the homeless; via the opening up of the River Thames; or through the transformation of local parks into eventsapes. The book explores these trends and shows how urban destinations expand. In doing so, it enhances our understanding of London and highlights the growing significance of tourism and events in global cities.

accounting solutions hampstead nc: National security through technology Great Britain: Ministry of Defence, 2012-02 This White Paper, divided into two parts, lays out the Government's policy objectives in relation to National Security through Technology, particularly in relation to technology, equipment, and support for UK defence and security. Part 1: UK Defence and Security Procurement - sets out the Government's aims for the procurement of technology, equipment and support to meet the UK's defence and security needs; Part 2: The UK Defence and Security Industry - looks at the wider UK perspective, including growth, skills, and emerging sectors, within the context of defence and security procurement policy and at government action to encourage UK-based companies to fulfil defence requirements here and develop successful exports. The publication follows up and develops themes and issues raised in the Green Paper Equipment, support and technology for UK defence and security: consultation paper (Cm.7989, ISBN 9780101798921, published December 2010). A second publication, published alongside this White Paper, Cm. 8277 (ISBN 9780101827720), contains the Government's responses to the original Green Paper.

accounting solutions hampstead nc: The Meanings of Violence Elizabeth A Stanko, 2005-08-18 The media often makes sense of violence in terms of 'randomness' and 'evil'. But the reality, as the contributors to *The Meanings of Violence* demonstrate, is far more complex. Drawing on the diverse subject matter of the ESRC's Violence Research Programme - from interviews with killers to discussions with children in residential facilities - this volume locates the meaning of violence within social contexts, identities and social divisions. It aims to break open our way of speaking about violence and demonstrate the value in exploring the multiple, contradictory and complex meanings of violence in society. The wide range of topics include: *Prostitute and client

violence *Violence amongst young people at school and on the streets *Violence in bars and nightclubs *Violence in prison *Racist and homophobic violence This book will be fascinating reading for students of criminology and academics working in the field of violent crime.

accounting solutions hampstead nc: *The Contemporary Medieval in Practice* Clare A. Lees, Gillian R. Overing, 2019-10-07 Contemporary arts, both practice and methods, offer medieval scholars innovative ways to examine, explore, and reframe the past. Medievalists offer contemporary studies insights into cultural works of the past that have been made or reworked in the present. Creative-critical writing invites the adaptation of scholarly style using forms such as the dialogue, short essay, and the poem; these are, the authors argue, appropriate ways to explore innovative pathways from the contemporary to the medieval, and vice versa. Speculative and non-traditional, *The Contemporary Medieval in Practice* adapts the conventional scholarly essay to reflect its cross-disciplinary, creative subject. This book 'does' Medieval Studies differently by bringing it into relation with the field of contemporary arts and by making 'practice', in the sense used by contemporary arts and by creative-critical writing, central to it. Intersecting with a number of urgent critical discourses and cultural practices, such as the study of the environment and the ethics of understanding bodies, identities, and histories, this short, accessible book offers medievalists a distinctive voice in multi-disciplinary, trans-chronological, collaborative conversations about the Humanities. Its subject is early medieval British culture, often termed Anglo-Saxon Studies (c. 500–1100), and its relation with, use of, and re-working in contemporary visual, poetic, and material culture (after 1950). 'The Contemporary Medieval in Practice is both wise and unafraid to take risks. Fully embedded in scholarship yet reaching into unmapped territory, the authors move across disciplines and forge surprising links. Thought-provoking and evocative, this is a book that will have an impact that far belies its modest length.' – Linda Anderson, Newcastle University

accounting solutions hampstead nc: *Mapping Water in Dominica* Mark W. Hauser, 2021-05-23 Open access edition: DOI 10.6069/ 9780295748733 Dominica, a place once described as "Nature's Island," was rich in biodiversity and seemingly abundant water, but in the eighteenth century a brief, failed attempt by colonial administrators to replace cultivation of varied plant species with sugarcane caused widespread ecological and social disruption. Illustrating how deeply intertwined plantation slavery was with the environmental devastation it caused, *Mapping Water in Dominica* situates the social lives of eighteenth-century enslaved laborers in the natural history of two Dominican enclaves. Mark Hauser draws on archaeological and archival history from Dominica to reconstruct the changing ways that enslaved people interacted with water and exposes crucial pieces of Dominica's colonial history that have been omitted from official documents. The archaeological record—which preserves traces of slave households, waterways, boiling houses, mills, and vessels for storing water—reveals changes in political authority and in how social relations were mediated through the environment. Plantation monoculture, which depended on both slavery and an

abundant supply of water, worked through the environment to create predicaments around scarcity, mobility, and belonging whose resolution was a matter of life and death. In following the vestiges of these struggles, this investigation documents a valuable example of an environmental challenge centered around insufficient water. Mapping Water in Dominica is available in an open access edition through the Sustainable History Monograph Pilot, thanks to the generous support of the Andrew W. Mellon Foundation and Northwestern University Libraries.

accounting solutions hampstead nc: *The Best Democracy Money Can Buy* Greg Palast, 2003-02-25 Palast is astonishing, he gets the real evidence no one else has the guts to dig up. Vincent Bugliosi, author of *None Dare Call it Treason* and Helter Skelter Award-winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation in the US and abroad. His uncanny investigative skills as well as his no-holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership. This exciting collection, now revised and updated, brings together some of Palast's most powerful writing of the past decade. Included here are his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, and recent stories on George W. Bush's payoffs to corporate cronies, the payola behind Hillary Clinton, and the faux energy crisis. Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.
