University of Chicago Law School and Oxford University Center for Corporate Regulation Whenever I use Patrick Barry's materials in my class, the student reaction is the same: 'We want more of them.' --Professor Dave Babbe, UCLA School of Law Working one-on-one with Patrick Barry should be mandatory for all lawyers, regardless of seniority. This book is the next best thing. --Purvi Patel, Partner at Morrison Foerster LLP I am proud to say that, when it comes to writing, I speak Patrick Barry. I use his techniques every time I write, and I also teach them to all my students. --Professor Shai Dothan, Copenhagen Faculty of Law I know the materials in this book were originally created for lawyers and law students. But I actually find them really helpful for doctors as well, given that a lot of what I do every day depends on effective communication. accredited grant writing courses online: Storytelling for Grantseekers Cheryl A. Clarke, 2009-01-12 Grantwriters often have little or no training in the practical task of grantseeking. Many feel intimidated by the act of writing, and some don't enjoy writing. In Storytelling for Grantseekers, Second Edition, Cheryl Clarke presents an organic approach to grantseeking, one that views the process through the lens of the pleasures and rewards of crafting a good story. Grantseekers who approach the process as one in which they are connecting with an audience (grantmakers) and writing a narrative (complete with settings, characters, antagonists and resolutions) find greater success with funders. The writing process becomes a rewarding way to tell the organization's tale, rather than a chore, and their passion and creativity lead to winning proposals. This book walks readers through all the main phases of the proposal, highlighting the creative elements that link components to each other and unify the entire proposal. The book contains resources on crafting an effective synopsis, overcoming grantwriter's block, packaging the story, and the best ways to approach the short stories (inquiry and cover letters) that support the larger proposal. Clarke also

stresses the need to see proposal-writing as part of a larger grantseeking effort, one that emphasizes preparation, working with the entire development staff, and maintaining good relations with funders. In Storytelling for Grantseekers, new and experienced grantseekers alike will discover how to write and support successful proposals with humor and passion. New edition features: Overall updates as well as both refreshed and new examples Workshop exercises for using the storytelling approach New chapters on the application of the storytelling method to other fundraising communications like appeal letters and case statements, as well as the importance of site visits Example of a full narrative proposal

accredited grant writing courses online: *The Writing Revolution* Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

accredited grant writing courses online: *The Individual's Guide to Grants* Judith B. Margolin, 1983-03-31 This book is a work of conscience. It is the product of a long-standing feeling of obligation on my part to write something useful for a special group of people to which you probably belong-individuals who seek grants. In my years as Director of the New York library of The Foundation Center, * each and every day I encountered numbers of individuals look ing for grant money. Although I tried to be as supportive as possible, in the face of the particular problems shared by this group of library users, my own reaction was one of relative helplessness. Simply stated, most of the fund-raising guides, printed directories, and computer files purport edly created to serve the fund-raising public are of little or no use to individuals who seek funding on their own. These resources are directed *The Foundation Center is the independent, nonprofit organization established by foun dations to provide information for the grant-seeking public. vii viii I PREFACE toward the nonprofit, tax-exempt agency, which is the most common recipient of foundation, corporate, and government largess. They are not designed to respond to the special requirements of the individual grant seeker. In the applicant eligibility index, the Catalog of Federal Domestic Assistance defines individuals as homeowners, students, farmers, artists, scientists, consumers, small-business persons, minors, refugees, aliens, veterans, senior citizens, low-income persons, health and educational professionals, builders, contractors, developers, handicapped persons, the physically afflicted. In short, practically everyone qualifies.

accredited grant writing courses online: Asking Styles Brian Saber, 2018-07-04 This could very well become one of the most important books in our field. It is a breakthrough of a methodology that really works. It's the best antidote I've read on taking the fear out of asking. It will make you successful. If you already are, it will make you more so. (From the foreword by Jerold Panas.) The breakthrough concept of the Asking Styles makes it possible for anyone to become a more effective fundraiser. Your Asking Style is based on your personality and unique set of strengths when asking for gifts. If you've ever said to yourself I'm not a fundraiser or I don't fit the stereotype, embracing your Asking Style will change your entire mindset. Once you understand your strengths-and challenges-you'll be comfortable, confident and effective. You'll have a roadmap for dealing with donors. You'll know what to say, how to conduct meetings, and how to close gifts.
