The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, The New Yorker "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at

forcing a new view of known human behavior.”—American Journal of Psychiatry

across the obelisk character guide: *Wild Seed* Octavia E. Butler, 2023-03-28 In an epic, game-changing, moving and brilliant story of love and hate, two immortals chase each other across continents and centuries, binding their fates together -- and changing the destiny of the human race (Viola Davis). Doro knows no higher authority than himself. An ancient spirit with boundless powers, he possesses humans, killing without remorse as he jumps from body to body to sustain his own life. With a lonely eternity ahead of him, Doro breeds supernaturally gifted humans into empires that obey his every desire. He fears no one -- until he meets Anyanwu. Anyanwu is an entity like Doro and yet different. She can heal with a bite and transform her own body, mending injuries and reversing aging. She uses her powers to cure her neighbors and birth entire tribes, surrounding herself with kindred who both fear and respect her. No one poses a true threat to Anyanwu -- until she meets Doro. The moment Doro meets Anyanwu, he covets her; and from the villages of 17th-century Nigeria to 19th-century United States, their courtship becomes a power struggle that echoes through generations, irrevocably changing what it means to be human.
