When the Black Lives Matter movement began in 2013, the three founders--Alicia Garza, Patrisse Khan-Cullors, and Opal Tometi--anchored its work in a list of guiding principles, developed through conversation with other activists. Northwest Airlines, alcoholism July 25, 1990: All three pilots stand trial for flying a commercial airliner while under the influence of alcohol; all three are convicted and sent to federal prison. July 26, 1990 - present: Joe Balzer fights for redemption and to regain all that he has lost. Flying Drunk is his story. Since he was a young boy, Joe Balzer dreamed of flying. He pursued his goal with a vigorous passion and earned his pilot licenses, piling up hours of flight time with a wide variety of planes and jets with one overarching goal: to one day fly for a major airline. But Joe had a problem. He was an alcoholic and refused to admit to himself that he had a problem. His alcoholism caught up with him in March 1990, when Joe was arrested with two other pilots for flying a commercial airliner while under the influence of alcohol. His world began crumbling around him and his new marriage faced the ultimate test. He lost his promising career and his dignity. Every major media outlet, including The New York Times, Newsweek, and Time Magazine covered the shocking story for the stunned American flying public. The trial that followed drained Joe's life's savings and federal prison nearly broke him. Flying Drunk is Joe's bittersweet and thoroughly chilling memoir of his twisted journey to a Federal courtroom, his time in the notorious Federal penitentiary system in Atlanta, and his struggle to recapture all that he held dear. Today, Joe is a recovering alcoholic, celebrating more than nineteen years of sobriety. The long road back from perdition led him to American Airlines, where good people and a great organization recognized a talented pilot who had cleaned up his act and was ready to fly again, safely. Flying Drunk is an incredible journey of the human spirit, from childhood to hell, and back again. Everyone should read and heed its message of hope and redemption. No one who does will ever forget it. About the Author: Joe Balzer is a pilot for American Airlines with more than 15,000 hours of flight experience. activity guide black and white images: *Ethics, Technology and the American Way of War* Reuben E. Brigety II, 2007-06-11 A new investigation into how the advent of precision-guided munitions affects the likelihood of US policy makers to use force. As such, this is an inquiry into the impact of ethics, strategy and military technology on the decision calculus of national leaders. Following the first Gulf War in 1991, this new study shows how US Presidents increasingly used stand-off precision guided munitions (or PGMs, especially the Tomahawk cruise missile) either to influence foreign adversaries to make specific policy choices or to signal displeasure with their actions. Such uses of force are attractive because they can lead to desirable policy outcomes where conventional diplomacy has failed but without the large cost of lives, economic resources, or political capital that result from large-scale military operations. In a post-9/11 world, understanding

alternative uses of force under significant policy constraints is still of supreme importance.

activity guide black and white images: The Image of the City Kevin Lynch, 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
