The Addis Ababa Education Bureau: Shaping the Future of Education in Ethiopia's Capital

Author: Dr. Abebaw Fenta, PhD in Educational Leadership and Management, Former Senior Advisor to the Addis Ababa Education Bureau.

Keywords: Addis Ababa Education Bureau, Addis Ababa education, Ethiopian education, education in Addis Ababa, Addis Ababa schools, Addis Ababa education system, Addis Ababa education reforms, Addis Ababa educational policy, Addis Ababa Bureau of Education.

Publisher: Global Education Insights, a leading publisher of research and analysis on education systems worldwide, known for its rigorous fact-checking and commitment to academic integrity.

Editor: Ms. Sarah Miller, MA in Journalism and International Affairs, experienced editor specializing in African education and development.

Abstract: This article provides a comprehensive overview of the Addis Ababa Education Bureau (AAEB), exploring its role, responsibilities, challenges, and future directions in shaping the education landscape of Ethiopia's capital city. It delves into the bureau's impact on student outcomes, teacher development, curriculum implementation, and the overall quality of education within the city. The article also examines the bureau's strategic initiatives and its collaborations with stakeholders to address the evolving needs of Addis Ababa's growing and diverse population.

1. The Mandate and Structure of the Addis Ababa Education Bureau

The Addis Ababa Education Bureau is a crucial governmental body responsible for overseeing all aspects of education within the city limits. Its primary mandate is to ensure the provision of quality, equitable, and accessible education for all children and youth residing in Addis Ababa. This encompasses pre-primary, primary, secondary, and vocational training. The AAEB works under the broader umbrella of the Federal Ministry of Education in Ethiopia, but it has significant autonomy in managing its specific local context and challenges. The bureau's structure is hierarchical, with various departments responsible for specific functions such as curriculum

development, teacher training, school infrastructure development, assessment and evaluation, and special needs education. This complex organizational structure enables the AAEB to effectively manage the vast educational network within Addis Ababa.

2. Challenges Faced by the Addis Ababa Education Bureau

The Addis Ababa Education Bureau faces numerous complex challenges. Rapid urbanization has led to a dramatic increase in student enrollment, straining resources and infrastructure. The city's diverse population, including significant numbers of migrant families, necessitates addressing educational disparities and ensuring inclusivity. Funding remains a significant challenge, often insufficient to meet the growing demands. Teacher shortages, particularly in specialized subjects and in underserved areas, remain a persistent concern. The bureau also grapples with ensuring the quality of teaching and learning, addressing issues such as inadequate teacher training, outdated teaching methodologies, and limited access to educational resources. Furthermore, effectively managing and implementing curriculum reforms, integrating technology into education, and addressing the needs of students with disabilities are ongoing priorities for the AAEB.

3. Initiatives and Achievements of the Addis Ababa Education Bureau

Despite the numerous challenges, the Addis Ababa Education Bureau has implemented various initiatives to improve the quality of education. Significant investments have been made in school construction and rehabilitation, expanding access to education, particularly in previously underserved areas. The bureau has also focused on teacher professional development programs, aiming to enhance pedagogical skills and content knowledge. Curriculum reforms have been undertaken to better align the educational system with national goals and global best practices. Efforts have been made to incorporate technology into teaching and learning, though access remains uneven across schools. The AAEB has also initiated programs to support students with special needs, promoting inclusive education practices. The bureau's commitment to data-driven decision-making is evident in its ongoing efforts to collect and analyze educational data to inform policy and improve program effectiveness.

4. Collaboration and Partnerships

The Addis Ababa Education Bureau recognizes the importance of collaboration and partnerships to achieve its goals. It works closely with various stakeholders, including the Federal Ministry of Education, local communities, non-governmental organizations (NGOs), and international development partners. These collaborations help to leverage resources, expertise, and

support to address the multifaceted challenges facing the education system. The bureau actively seeks to engage with parents and community members to foster greater involvement in school governance and improve educational outcomes. International partnerships provide access to technical assistance, funding, and best practices from other countries with similar contexts.

5. Future Directions and Strategic Goals

The Addis Ababa Education Bureau's strategic goals focus on further enhancing the quality and accessibility of education in the city. Future initiatives will likely center around expanding early childhood development programs, strengthening teacher training programs, integrating technology effectively, and promoting inclusive education practices. A key priority will be to address the persistent disparities in educational attainment across different socioeconomic groups. The bureau will also focus on improving data collection and analysis to inform decision-making and track progress towards achieving its strategic objectives. Sustainable funding mechanisms and innovative financing strategies are crucial for ensuring the long-term success of these initiatives.

6. The Addis Ababa Education Bureau and the Sustainable Development Goals (SDGs)

The work of the Addis Ababa Education Bureau is directly aligned with the United Nations Sustainable Development Goals (SDGs), particularly SDG 4: Quality Education. The bureau's efforts to improve access, quality, equity, and inclusivity in education directly contribute to achieving this global goal. Through initiatives focused on teacher training, curriculum development, and infrastructure development, the AAEB is striving to ensure that all children and youth in Addis Ababa have the opportunity to receive a quality education that equips them with the knowledge and skills necessary to thrive in the 21st century.

7. Measuring Success: Assessing the Impact of the Addis Ababa Education Bureau

The AAEB employs various methods to assess its impact. Key performance indicators (KPIs) track student enrollment, graduation rates, literacy levels, and overall student achievement. Regular assessments and evaluations of teaching practices, curriculum effectiveness, and infrastructure quality provide valuable insights into areas needing improvement. The bureau also conducts surveys and collects feedback from students, teachers, parents, and community members to gain a comprehensive understanding of the effectiveness of its programs and initiatives. The ultimate measure of success remains the ability of the Addis Ababa Education Bureau to provide quality education that prepares students for successful lives and contributes to the social and

economic development of Addis Ababa.

Conclusion:

The Addis Ababa Education Bureau plays a vital role in shaping the future of Addis Ababa. Its efforts to provide quality, accessible, and equitable education to all children and youth in the city are critical to the city's social and economic development. While the bureau faces numerous challenges, its commitment to continuous improvement and strategic partnerships demonstrates its dedication to achieving its ambitious goals. The ongoing efforts to address the challenges and capitalize on opportunities within the education system are essential for building a brighter future for the next generation of Addis Ababans.

FAQs:

1. How can I contact the Addis Ababa Education Bureau? Contact information, including addresses and phone numbers, can be found on the official website of the Addis Ababa City Administration.
1. What are the requirements for enrolling a child in a school in Addis Ababa? Specific enrollment requirements vary by school but generally involve birth certificates, immunization records, and residency documentation. Information is usually available on individual school websites or through the AAEB.
1. What is the curriculum used in Addis Ababa schools? The curriculum is based on the national curriculum of Ethiopia, adapted to the specific needs and context of Addis Ababa.
1. How does the Addis Ababa Education Bureau address the issue of teacher shortages? The bureau actively recruits teachers, provides incentives for teaching in underserved areas, and invests in teacher training and development programs.

1. What measures are taken to ensure the safety and security of students in Addis Ababa schools? Various security measures are in place, including security personnel, CCTV cameras, and collaborations with local law enforcement.
1. How can I get involved in supporting the Addis Ababa Education Bureau? There are various ways to get involved, including volunteering, donating to educational initiatives, and advocating for policies that support education.
1. What is the role of parents in the Addis Ababa education system? Parents play a vital role in supporting their children's education and working with schools to foster a positive learning environment. Parent-teacher associations are also often active in schools.
1. What are the future plans of the Addis Ababa Education Bureau regarding technology integration in schools? The bureau plans to expand access to technology, provide training for teachers in using technology effectively, and develop digital learning resources.
1. How does the Addis Ababa Education Bureau handle students with special needs? The bureau provides inclusive education services, supports specialized schools, and offers training for teachers to work effectively with students with disabilities.

addis ababa education bureau: Making Citizens in Africa Lahra Smith, 2013-05-20 This book provides a study of contemporary politics in Ethiopia through an empirical focus on language policy, citizenship, ethnic identity, and gender. It is unique in its focus not only on the political institutions of Ethiopia and the history of the country but in that it studies these subjects at the intersection of both modern and historical time periods. In particular, it argues that meaningful citizenship, which is much more than the legal state of being a citizen, is a process of citizens and the state negotiating the practice of citizenship. Therefore, it puts the citizen back at the forefront of the process of expanding citizenship, suggesting the ways that citizens support, resist, and affect state policy on political rights.

addis ababa education bureau: Pathways to Thinking Schools David N. Hyerle, Larry Alper, 2014-03-19 Give students the essential thinking skills they need to thrive. Exclusively content-focused teaching may improve test scores, but it leaves students without the cognitive skills for success in an information-overloaded world where deep thinking, collaborative problem solving, and emotional intelligence is essential. In this book, David Hyerle presents case studies of schools and educators who have applied these powerful models, in some case system-wide, to remedy this situation, including: Visual learning tools including Hyerle's renowned Thinking Maps A language for students to improve their intellectual-emotional behaviors as they learn A system for developing students' abilities to ask questions in the context of a developing Community of Inquiry

addis ababa education bureau: On Results of the Reform in Ethiopia's Language and Education Policies Catherine Griefenow-Mewis, 2009 This publication reflects the results of the Ethiopian education reform as well as the exceptional efforts that multiethnic Ethiopia undertakes in order to cope with the challenges arising from the population explosion. More than 55 per cent of the 77 million Ethiopians are under the age of 18 years. The great social and political changes started in Ethiopia at the beginning of the 1990s have resulted in the substitution of the educational system based on Amharic and English by one which uses a multilingual approach. According to the Ministry of Education 22 out of the 84 languages spoken in Ethiopia are now used as media of instruction in primary schools. The book presents the lectures delivered at the workshop On the Results of the Reform in Ethiopia's Language and Education Policy held at Addis Ababa University in April 2006 by Ethiopian education experts and a German research team. Their contribution has facilitated a subsumption into the historical context and has given insight into the analyses of the use of 8 Ethiopian languages in primary schools in different regions of the country.

addis ababa education bureau: Secondary Education in Ethiopia Rajendra Joshi, Adriaan Verspoor, 2012-11-01 This book discusses reforms that should be undertaken in secondary education to support Ethiopia's transition from a low- to middle-income economy. The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students, including those who may not pursue higher education.

addis ababa education bureau: IJER Vol 26-N4 International Journal of Educational Reform, 2017-10-16 The mission of the International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities.

addis ababa education bureau: Community Schools in Africa Deborah Glassman, Jordan Naidoo, Fred Wood, 2007-04-24 This book explores questions related to the recent establishment in Africa of community schools similar to those supported by Save the Children. The book addresses the serious doubts about realizing the Education for All and Millennium Development Goals. It draws on Save the Children's experience with community-based schooling in four countries: Ethiopia, Malawi, Mali, and Uganda.

addis ababa education bureau: Bibliographia Aethiopica II Hans Wilhelm Locket, 1998
Erstmals wird hier die Fülle der englischsprachigen Äthiopienliteratur geordnet dargeboten. In 100

Sections führt der Autor alle für die wissenschaftliche Beschäftigung mit Äthiopien wichtigen Buch- und Zeitschriftenbeiträge zum Beispiel zur History of Research, Archaeology, Religion, aber auch Fragen der Sociology, Agriculture, Zoology und Medical Sciences auf. Wie im Falle der deutschsprachigen Literatur (Bibliographia Aethiopica: Die äthiopienkundliche Literatur des deutschsprachigen Raumes = Äthiopistische Forschungen 9 [1982]) berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art Bibliographic Encyclopedia entstanden ist.

addis ababa education bureau: Minority Languages and Multilingual Education Durk Gorter, Victoria Zenotz, Jasone Cenoz, 2013-11-04 This book presents research on the situation minority language schoolchildren face when they need to learn languages of international communication, in particular English. The book takes minority languages as a starting point and it bridges local and global perspectives in the analysis of multilingual education contexts. It examines the interaction of minority languages and cultures, majority languages and lingua franca-s in a variety of settings across different regions and countries on all continents. Even though all chapters in this book involve minority languages, the issues discussed are relevant to any context in which more than language is used in education. The book reveals challenges and opportunities of multilingual education by discussing issues such as Northern and Southern concepts, language education policies, language diversity, interethnic understanding, multimodal language practices, power, conflict, identity and prestige, among many others. "This is the volume that finally accounts for multilingual education from a truly multilingual perspective by involving proposals and research from a variety of multilingual speech communities in the world. The (linguistically) rich Ethiopia and Mexico can teach the poor Europe and other Northern countries about multilingual education. CLIL promoters may learn from Finnish Sámi and Canadian Innu and Mi'gmaq indigenous communities as well as from Basque results. Speakers and teachers of minority and international languages will certainly be glad to hear the news. There is no need for a monolingual bias or tunnel vision in acquiring English in non-English speaking communities. This volume includes new challenging pedagogical perspectives while pointing to interesting conclusions for worldwide educational authorities". Maria Pilar Safont Jordà, Universitat Jaume I, Castelló, Spain

addis ababa education bureau: Privatization in and of Public Education Antonina Santalova, Kaire Pöder, 2024 This book explains how education is becoming more privatized around the world to fit local economic and political needs. Privatization in and of Public Education categorizes different types of privatization as traditional or non-traditional. Traditional policies give more rights to private companies to provide education, while non-traditional policies make public schools more like businesses. The authors show that privatization can lead to more efficient schooling, but it can also create a trade-off between efficiency and equity or inclusion. The book presents a range of perspectives on the impact of privatization, including structural, ethical, and subjective effects. The book also covers a range of countries and regions, including both developed and developing countries. This helps readers understand how privatization is playing out in different contexts around the world.

addis ababa education bureau: Similative and Equative Constructions Yvonne Treis, Martine Vanhove, 2017-05-31 While comparative constructions have been extensively studied in the past decades, the expression of equality and similarity has so far attracted little attention in the typological literature. The fifteen contributions assembled in this volume study similative and equative constructions in typologically and genetically distant languages, albeit with a focus on Africa, and from a range of perspectives. Purely synchronically oriented case studies are supplemented by contributions that also shed light on the diachronic development of similative and equative constructions in language contact situations. Sources of similative morphemes and lexically expressed concepts of likeness are examined, and little-known multifunctionality patterns and

grammaticalisation targets of simulative morphemes – such as purpose clause markers, modality morphemes and markers of glottonyms – are discussed. Based on a sample of 119 languages worldwide, a new typology of equative constructions is proposed. The book should be of interest to typologists, semanticists, specialists of grammaticalization, historical linguistics and syntax.

addis ababa education bureau: Numeric List of Educational Institutions , 1987

addis ababa education bureau: Language Ideologies and Challenges of Multilingual Education in Ethiopia Moges Yigezu, 2010 During the last decade and a half, The use of local languages for official purposes, particularly in primary education, has become a pronounced characteristic of Ethiopian education system. The fact that as many as 22 languages have been introduced into the school system since mid 1990s represents a major ideological shift from the previous policies the country had adopted over the course of several centuries. The Ethiopian educational language policy is radical in its scope and unique in Sub-Saharan Africa and elsewhere, and it invites a close examination of its ideological foundation and, even more so, its implementation model. The primary objective of this study was to make a critical appraisal of the implementation of vernacular education in the Harari region and examine the challenges of providing primary education in several Ethiopian and international languages, i.e. English, Amharic, Oromo, Arabic and Harari. The study made a comparative assessment of the use of languages as media of instruction for primary education, and concluded with an appraisal of the relative strengths and weaknesses in the use of each language, from both pedagogical and social perspectives.

addis ababa education bureau: *Early Childhood Language Education and Literacy Practices in Ethiopia* Kassahun Weldemariam, Margareth Sandvik, Moges Yigezu, 2023-10-30 This edited volume explores how indigenous knowledges and practices can be instrumental in improving literacy outcomes and teacher development practices in Ethiopia, aiding children's long-term reading, and learning outcomes. The chapters present research from a collaborative project between Ethiopia and Norway and demonstrate how students can be supported to think pragmatically, learn critically and be in possession of the citizenship skills necessary to thrive in a multilingual world. The authors celebrate multilingualism and bring indigenous traditions such as oracy, storytelling, folktales to the fore revealing their positive impact on educational attainment. Addressing issues of language diversity and systematic ignorance of indigenous literacy practices, the book plays a necessary role in introducing Ethiopia's cultural heritage to the West and, hence, bridges the cultural gaps between the global north and global south. Arguably contributing one of the first publications on early literacy in Ethiopian languages, this book will appeal to scholars, researchers and postgraduate students studying the fields of early years literacy and language, indigenous knowledge and applied linguistics more broadly.

addis ababa education bureau: China in Ethiopia Aaron Tesfaye, 2020-04-01 This comprehensive study of China-Ethiopia relations examines why China—an economic and emerging global power—has built relations with Ethiopia and why Ethiopia has responded by singling out China as a partner in its quest for economic development. Using middle-range theory and field research, Aaron Tesfaye focuses on three sets of phenomena: political, economic, and strategic. He explores the following questions: Why are China and Ethiopia building relations at this juncture of globalization? What motivates China's role in helping build Ethiopia's infrastructure, and is Ethiopia's debt to China sustainable? What can Ethiopia offer China in terms of strategic interest in the Horn of Africa and the Red Sea littoral, which is now the most sought out area for military bases by regional and international forces? Tesfaye argues that China's ability to meet Africa's tremendous

demand for capital and technology is a reflection of its economic and military rise and evidence that the Asian Century has arrived, ushering in a new global reality.

addis ababa education bureau: Planning for Population Change W. T. S. Gould, Richard Lawton, 1986 This collection of essays is concerned with the consequences of population change for present and future social and economic policy towards such questions as employment, education, and health care, as well as the spatial and temporal variations in demand that arise from both demographic and geographical differences. The book argues that there is a need for greater sensitivity about population change in policy-making and service provision and suggests ways of achieving this goal. It shows how population problems are only one part of a complex of factors associated with development; that population policies cannot be focused solely on demographic factors; and effective family planning must persuade individuals through education in the advantages and means of control.

addis ababa education bureau: *Revolutionary Struggles and Girls' Education* Thera Mjaaland, 2021-07-27 Revolutionary Struggles and Girls' Education: At the Frontiers of Gender Norms in North-Ethiopia argues that at the base of girls' poorer performance than boys at secondary school level when puberty has set in, is the "symbolic violence" entailed in sanctioned femaleness. Informed by the modesty of Virgin Mary in Orthodox Christian veneration, it instructs girls to internalize a "holding back" which impinges on her self-efficacy and ability to be an active learner. Neoliberally-informed educational policies and plans which have co-opted liberal feminism also in Ethiopia, do not address "hard-lived" gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity. Despite women's courageous contribution at a literal "frontier" during the Tigrayan liberation struggle (1975-91) where they fought on equal terms with men, and despite the tendency that girls' outnumber boys at secondary level in the present context, sanctioned femaleness constitutes a "frontier" for girls' educational success and transition to higher education. In fact, when teaching-learning continues to be based on memorization rather than critical thinking, the very transformative potential of education is undermined - also in a gendered sense.

addis ababa education bureau: *Migration, Borders and Education* Jessica Gerrard, Arathi Sriprakash, 2020-05-21 This book brings together high-quality international research which examines how migration and borders are experienced in education. It presents new conceptualisations of education as a 'border regime', demonstrating the need for closer attention to 'border thinking', and diasporic and transnational analyses in education. We live in a time in which borders - material and political - are being reasserted with profound social consequences. Both the containment and global movement of people dominate political concerns and inevitably impact educational systems and practices. Providing a global outlook, the chapters in this book present in-depth sociological analyses of the ways in which borders are constituted and reconstituted through educational practice from a diverse range of national contexts. Key issues taken up by authors include: immigration status and educational inequalities; educational inclusion and internal migration; 'curricula nationalism' and global citizenship; education and labour; the educational experiences of refugees and the politics of refugee education; student migration and adult education; and nationalism, colonialism and racialization. This book was originally published as a special issue of International Studies in Sociology of Education.

addis ababa education bureau: Factors Affecting Instructional Leaders Perception towards

Educational Media Utilization in Classroom Teaching Getnet Eshetu, 2015-06-01 Solution at Hand to Improve Quality presents the materials necessary for understanding problems and solutions to integrate educational media technology in classroom teaching by exploring factors that affect the perceptions of instructional leaders. A considerable portion of the Solution at Hand to Improve Quality describes the roles of media in improving the quality of teaching-learning process and the roles of different actors. It focuses in identifying the instructional leaders tendency to favor on supplementary or/and substitutive roles of media for classroom teaching in relation to their past training as well as experience. Solution at Hand to Improve Quality also pointed out the reasons behind for instructional leaders' perception and detailed solutions for the existing problems. Finally, Solution at Hand to Improve Quality presents practical recommendations for curriculum developers, education officials, teachers' educators, educational media experts, instructional leaders and even to teachers.

addis ababa education bureau: Supporting Family and Community Investments in Young Children Globally National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Institute of Medicine, Board on Children, Youth, and Families, Board on Global Health, Forum on Investing in Young Children Globally, 2016-03-03 To examine the science, policy, and practice surrounding supporting family and community investments in young children globally and children in acute disruptions, the National Academies of Sciences, Engineering, and Medicine held a workshop in partnership with the Ethiopian Academy of Sciences in Addis Ababa, Ethiopia, from July 27-29, 2015. The workshop examined topics related to supporting family and community investments in young children globally. Examples of types of investments included financial and human capital. Participants also discussed how systems can better support children, families, and communities through acute disruptions such as the Ebola outbreak. Over the course of the 3-day workshop, researchers, policy makers, program practitioners, funders, young influencers, and other experts from 19 countries discussed how best to support family and community investments across areas of health, education, nutrition, social protection, and other service domains. This report summarizes the presentations and discussions from the workshop.

addis ababa education bureau: Second International Handbook of Urban Education William T. Pink, George W. Noblit, 2017-01-06 This second handbook offers all new content in which readers will find a thoughtful and measured interrogation of significant contemporary thinking and practice in urban education. Each chapter reflects contemporary cutting-edge issues in urban education as defined by their local context. One important theme that runs throughout this handbook is how urban is defined, and under what conditions the marginalized are served by the schools they attend. Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations. This second handbook focuses on factors such as social stratification, segmentation, segregation, racialization, urbanization, class formation and maintenance, and patriarchy. The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe. Researchers will find an analysis framework that will make the current practice and outcomes of urban education, and their alternatives, more transparent, and in turn this will lead to solutions that can help improve the life-options for students historically underserved by urban schools.

addis ababa education bureau: Faith-based Organisations in Ethiopia Aklilu Dalelo, Till Stellmacher, 2012 As in other African countries, the engagement of faith-based organizations (FBOs) in the development sector in Ethiopia is tremendous and manifold. FBOs are, however, still insufficiently integrated in the development discourse and often operate under the radar of international and multilateral donors. This can be to a large extent reasoned by the fact that very

little empirical research has hitherto been undertaken to assess the impact of FBO activities in Ethiopia. Upon this background, this study contributes to the debate among practitioners and researchers on the actual and potential contribution of FBOs to development in Ethiopia. This is exemplified by the work of the Ethiopian Kale Heywet Church (EKHC) in rural areas of southern Ethiopia in the thematic fields of schooling, ecological balance and food security. Cross-sectional and case study designs form the principal approaches used in the study; both quantitative and qualitative methods were used.

addis ababa education bureau: Ethiopia , 1998-01-01 After being immersed in almost three decades of civil conflict, the prevailing peace and political stability in Ethiopia allowed its government to focus on rebuilding its economy. As an integral part of this undertaking, the Federal Democratic Republic of Ethiopia is seeking to overhaul the landscape of human capital development in the country. This report discusses the situation and trends in education, health, nutrition, and population. It also examines the barriers to improvement from the points of view of Ethiopian households and public and private suppliers of services. It also attempts to identify the means by which the government can use public resources more effectively.

addis ababa education bureau: Country Reports on Human Rights Practices , 2003

addis ababa education bureau: Abolishing School Fees in Africa , 2009 Progress in literacy and learning, especially through universal primary education, has done more to advance human conditions than perhaps any other policy. Our generation has the possibility of becoming the first generation ever to offer all children access to good quality basic education. But it will only happen if we have the political commitment -- at the country as well as at the international level -- to give priority to achieve this first in human history. And it will only happen if also those who cannot afford to pay school fees can benefit from a complete cycle of good quality primary education. Investment in good quality fee-free primary education should be a cornerstone in any government's poverty reduction strategy.
