addition financial arena concert: The Arena Concert Benjamin Halligan, Kirsty Fairclough, Robert Edgar, Nicola Spelman, 2015-11-19 The Arena Concert: Music, Media and Mass Entertainment is the first sustained engagement with what might said to be - in its melding of concert and gathering, in its evolving relationship with digital and social media, in its delivery of event, experience, technology and star - the art form of the 21st century. This volume offers

interviews with key designers, discussions of the practicalities of mounting arena concerts, mixing and performing live to a mass audience, recollections of the giants of late twentieth century music in performance, and critiques of latter-day pretenders to the throne. The authors track the evolution of the arena concert, consider design and architecture, celebrity and fashion, and turn to feminism, ethnographic research, and ideas of humour, liveness and authenticity, in order to explore and frame the arena concert. The arena concert becomes the “real time” centre of a global digital network, and the gig-goer pays not only for an immersion in (and, indeed, role in) its spectacular nature, but also for a close encounter with the performers, in this contained and exalted space. The spectacular nature of the arena concert raises challenges that have yet to be fully technologically overcome, and has given rise to a reinvention of what live music actually means. Love it or loathe it, the arena concert is a major presence in the cultural landscape of the 21st century. This volume finds out why.

addition financial arena concert: Rock Concert Marc Myers, 2021-11-09 A “fascinating, intimate” oral history of the golden age of the rock concert based on nearly 100 interviews with musicians, fans, and others (Publishers Weekly). Decades after the rise of rock music in the 1950s, the rock concert retains its power as a unifying experience—and as a multi-billion-dollar industry. In Rock Concert, acclaimed music writer Marc Myers delves into the history of this cultural phenomenon, weaving together ground-breaking accounts from the people who were there. Myers combines the tales of icons like Joan Baez, Ian Anderson, Alice Cooper, Steve Miller, Roger Waters, and Angus Young with the disc jockeys, audio engineers, and music journalists, and promoters who organized it all, like Michael Lang, co-founder of Woodstock, to create a rounded and vivid account of live rock’s stratospheric rise. Rock Concert offers a backstage view of rock ‘n’ roll as it evolved through live performance—from the rise of R&B in the 1950s, to the hippie gatherings of the ‘60s, and the growing arena tours of the ‘70s and ‘80s. Elvis Presley’s gyrating hips, the “British Invasion” of the Beatles, the Grateful Dead’s free flowing jams, and Pink Floyd’s The Wall are just a few of the defining musical acts that drive this rich narrative.

addition financial arena concert: Everyone Loves Live Music Fabian Holt, 2021-01-27 For decades, millions of music fans have gathered every summer in parks and fields to hear their favorite bands at festivals such as Lollapalooza, Coachella, and Glastonbury. How did these and countless other festivals across the globe evolve into glamorous pop culture events, and how are they changing our relationship to music, leisure, and public culture? In *Everyone Loves Live Music*, Fabian Holt looks beyond the marketing hype to show how festivals and other institutions of musical performance have evolved in recent decades, as sites that were once meaningful sources of community and culture are increasingly subsumed by corporate giants. Examining a diverse range of cases across Europe and the United States, Holt upends commonly-held ideas of live music and introduces a pioneering theory of performance institutions. He explores the fascinating history of the club and the festival in San Francisco and New York, as well as a number of European cities. This book also explores the social forces shaping live music as small, independent venues become corporatized and as festivals transform to promote mainstream Anglophone culture and its consumerist trappings. The book further provides insight into the broader relationship between culture and community in the twenty-first century. An engaging read for fans, industry professionals, and scholars alike, *Everyone Loves Live Music* reveals how our contemporary enthusiasm for live music is more fraught than we would like to think.

addition financial arena concert: My Love Sent from Above Sharon Delores Smith, 2022-05-06 "What is it, Minister Andre?" Andre tried to figure out how to tell him without sounding ridiculous. "Pastor, I have fallen in love with the young lady I was telling you about." Pastor Seavers was surprised, "You mean the lounge singer?" Andre waited a bit and then said, "She is not a lounge singer, pastor. She sings with her family on stage all over the world. She also sings gospel at times." Paul just stared out the window. His eyes were red, and his hands were shaking like a leaf. Will looked at his long-time friend, shook his head, and said, "Man Paul, you know she can press charges? How could you attack her like that?" Paul closed his eyes, and rubbed his eyebrows, "She just kept talking, Will. Plain silly! I lost it. Man, for a minute there, I wanted to choke the living daylights out of her. This guy does not have a pot or a window!" "What?" Will asked. Paul looked at him. "He has nothing! And here she is just repeating that he is the only man for her. What got into her, Will? What in the world happened to her? She is the smartest child I have. She just lost her mind, man." Will shook his head. "Love got into her Paul. It is love."

addition financial arena concert: This Must Be The Place Robert Kronenburg, 2019-03-07 This Must Be The Place is the first architectural history of popular music performance space, describing its beginnings, its different typologies, and its development into a distinctive genre of building design. It examines the design and form of popular music architecture and charts how it has been developed in ad-hoc ways by non-professionals such as building owners, promoters, and the musicians themselves as well as professionally by architects, designers, and construction specialists. With a primary focus on Europe and North America (and excursions to Australia, the Far East and South America), it explores audience experience and how venues have influenced the development of different musical scenes. From music halls and Vaudeville in the 1800s, via the seminal clubs and theatres of the 20th century, to the large-scale multi-million-dollar arena concerts of today, this book explores the impact that the use of private and public space for performance has on our cities' urban identity, and, to a lesser extent, how rural space is perceived and used. Like architecture, popular music is neither static nor standardized; it continuously develops and has multiple strands. This Must Be The Place describes the factors that have determined the development of music venue architecture, focusing on both famous and less well-known examples from the smallest bar room music space to the largest stadium-filling rock set.
