addition financial arena events: Mega-events and social change Maurice Roche, 2017-06-05 The spectacle of major cultural and sporting events can preoccupy modern societies. This book is concerned with contemporary mega-events, like the Olympics and Expos. Using a sociological perspective Roche argues that mega-events reflect the major social changes which now influence our societies, particularly in the West, and that these amount to a new 'second phase' of the

modernization process. Changes are particularly visible in the media, urban and global locational aspects of mega-events. Thus he suggests that contemporary mega-events, both in their achievements and their vulnerabilities, reflect, in the media sphere, the rise of the internet; in the urban sphere, de-industrialisation and the growing ecological crisis; and in the global sphere, the relative decline of the West and the rise of China and other 'emerging' countries.

addition financial arena events: Managing Sport Mega-Events Stephen Frawley, 2016-06-17 *Managing Sport Mega-Events* explores global developments in the management of sport mega-events. Sport mega-events such as the Olympic Games and the Football World Cup have been examined from a number of academic perspectives including history, sociology, politics, urban planning and economics. What is lacking, however, is a book which identifies and evaluates the current issues and complexities faced by those charged with the responsibility of managing these sport mega-events. This book fills the gap. The book addresses three broad but interconnected themes. First, strategic matters are explored focusing on the rise of sport mega-events, the management of stakeholders and governance issues. Second, how organisers can best ensure the sustainable management of sport mega-events is considered. Third, operational matters and related issues are examined including media management, broadcast management, venue management, risk management, marketing and sponsorship management. The book draws on leading international sport management scholars, each of whom has expertise in the organisation of sport mega-events. It makes a valuable contribution to the existing literature.

Swayne, Mark Dodds, 2011-08-08 This four-volume set introduces, on the management side, principles and procedures of economics, budgeting and finance; leadership; governance; communication; business law and ethics; and human resources practices; all in the sports context. On the marketing side this reference resource explores two broad streams: marketing of sport and of sport-related products (promoting a particular team or selling team- and sport-related merchandise, for example), and using sports as a platform for marketing non-sports products, such as celebrity endorsements of a particular brand of watch or the corporate sponsorship of a tennis tournament. Together, these four volumes offer a comprehensive and authoritative overview of the state of sports management and marketing today, providing an invaluable print or online resource for student researchers.

addition financial arena events: *Mega-Events, City and Power* Nelma Gusmão de Oliveira, 2020-10-21 This book examines the power relations that emerge from the convergence of the universe in which the sporting spectacle is produced and the universe in which a city is produced. It adopts Bourdieu's concept of field to explore the interests and disputes involved in the production of sports mega-events across different times and spaces and the role of host cities in these processes. It aims to identify the bases that give these spectacles the power to produce disruptions in the social fabric of the host cities and countries, and to enable the production of authoritarian forms of exercising power. By observing the historical constitution of the field of production of sport spectacle as an autonomous field, this book explores how sport mega-events create both an arena and a context for radical expressions of authoritarianism of neoliberal planning models. It will be of interest to students, scholars and professionals in architecture and urban studies, urban planning, municipal governance, sport and leisure studies, and those interested in the relationship between

State and capital in the production of urban space.

addition financial arena events: Stay Hungry Sebastian Maniscalco, 2018-02-27 From comedian and actor Sebastian Maniscalco—star of the film *About My Father* with Robert DeNiro—an inspiring, honest, uproarious collection of essays tracing his career from playing boxing rings and bowling alleys to reaching the pinnacles of comedy success. At twenty-four, Sebastian Maniscalco arrived in LA with a suitcase and saved up minimum wages. He knew no one and nothing about standup comedy, but he was determined to go for it anyway. Two decades later, he's on the Forbes' list of highest earning comedians, selling out arenas, and starring in numerous hit comedy specials including *Why Would You Do That?* and *Is It Me?*. *Stay Hungry* tells the story of the twenty years in between. On the way from clueless rube to standup superstar, Seb was booed off stages; survived on tips and stolen food; got advice from mentors Andrew Dice Clay, Vince Vaughn, Tony Danza, and Jerry Seinfeld; fell in love; and stayed true to his Italian-immigrant roots. The one code that always kept him going: stay hungry, keep focused, never give up, and one day, you'll make it.
